Perry Rhodan 2910: Im Reich der Soprassiden Uwe Anton,2017-05-25 Wir schreiben das Jahr 1551 NGZ, gut dreitausend Jahre vom 21. Jahrhundert alter Zeitrechnung entfernt. Nach großen Umwälzungen in der Milchstraße haben sich die Verhältnisse zwischen den unterschiedlichen Sternreichen beruhigt; im Großen und Ganzen herrscht Frieden. Vor allem die von Menschen bewohnten Planeten und Monde streben eine positive Zukunft an. Tausende von Welten haben sich zur Liga Freier Galaktiker zusammengeschlossen, in der auch Wesen mitwirken, die man in früheren Jahren als nichtmenschlich bezeichnet hätte. Trotz aller Spannungen, die nach wie vor bestehen: Perry Rhodans Vision, die Galaxis in eine Sterneninsel ohne Kriege zu verwandeln, scheint sich langsam zu verwirklichen. Man knüpft sogar vermehrt Kontakte zu anderen Galaxien. Gegenwärtig befindet sich Rhodan selbst im Goldenen Reich der Thoogondu, die ebenfalls eine Beziehung zur Milchstraße aufbauen wollen. Die Thoogondu waren einst ein erwähltes Volk von ES, ehe die Superintelligenz sie aus der Milchstraße verbannte. Nun herrschen sie in der fernen Galaxis Sevcooris und freuen sich über ES' Verschwinden. Geheimnisse umgeben die Thoogondu, aber sie sind nicht fassbar. Perry Rhodan ist jedoch entschlossen, sie zu lüften. Nun befindet er sich IM REICH DER SOPRASSIDEN ...

Jerry Cotton 2910 Jerry Cotton,2013-03-26 Es war wieder einmal Wahlkampf in den USA. Alle schauten gebannt auf New York, wo sich der Präsident und der Herausforderer ein Fernsehduell liefern sollten. Für uns vom FBI Field Office bedeutete das höchste Alarmbereitschaft. Besonders eine Gruppierung, die sich True Americans of Wealth and Influence nannte, war

ins Visier unserer Ermittlungen geraten. Dann mussten wir feststellen, dass wir einen Verräter in unseren Reihen hatten, und der Sicherheitsplan für den Auftritt des Präsidenten nicht das Papier wert war, auf dem er stand-

United States Code United States,2013 The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited U.S.C. 2012 ed. As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office--Preface.

Select Documents on Japanese War Crimes and Japanese Biological Warfare, 1934-2006 , The enactment of the Japanese Imperial Government Disclosure Act (P.L.106-657) and the issuance of Executive Order 13110 (Jan. 11, 1999) aimed at

making U.S. government records related to Japanese war crimes and war criminals in World War II more accessible. Records surveys implementing these requirements disclosed that there were relatively few remaining security-classified relevant documents waiting for disclosure. On the other hand, better identification of relevant documents and improved access to these records was a primary goal of the White House. The Interagency Working Group (IWG) staff took up the admonition from the National Security Advisor that “Agencies should bring to light hitherto unknown relevant unclassified or declassified records encountered in the course of the search for relevant classified records.” In selecting documents, the IWG Staff focused on several subjects and topics that have longstanding interest and concerns for researchers: Japanese research and experiments in biological warfare (BW) Japanese instigation of biological warfare attacks in World War II Japanese biological warfare experiments on living humans and animals Japanese atrocities against prisoners of war Japanese atrocities against civilian populations Allied decisions to hold Japanese responsible for war crimes Allied decisions to hold war crimes trials Allied decision to consider Emperor Hirohito as a person responsible for war crimes Allied decisions to investigate specific Japanese scientists and military personnel for BW crimes American POWs held at Mukden POW Camp Hoten and any evidence of BW experiments on them Some subjects of current interest, such as “comfort women,” were specifically searched for, but with little success. This collection will continue to expand as new documents are discovered.

Mochlos IA Jeffrey S. Soles, 2003-12-31 Mochlos is a Minoan town set on a fine harbour at the eastern side of the Gulf of Mirabello, in northeast Crete. It was first inhabited during the Neolithic period, and it had an important Minoan settlement during most of the Bronze Age. Mochlos I, to be published in three volumes, presents the results of the excavations in the Neopalatial levels of the Artisans' Quarter, and at the farmhouse at Chalinomouri. The Artisans' Quarter consisted of a series of workshops with evidence for pottery manufacture, metalworking, and weaving. Chalinomouri, a semi-independent farmhouse with strong connections to the nearby island settlement at Mochlos, was engaged in craftwork and food processing as well as agriculture. This volume, Mochlos IA, presents the process of excavation and the architecture; volume IB presents the pottery, and volume IC will publish the small finds.
