Tables of Spectral Lines of Neutral and Ionized Atoms A. R. Striganov, N. S. Sventitskii, 2013-11-21 Tables of Spectral Lines of Neutral and Ionized Atoms was first published in Moscow in 1966. All misprints and errors that have come to our attention have been corrected, and additions based on journal articles have been made for the Plenum Press edition. In particular, additions have been made in the tables for Li (4), C I [1], N I (1), N IV [12], and N V [14]. Such highly important spectra as those of N IV, NV, O IV, O V, and O VI in the visible and partially in the ultraviolet regions have, until recently, received almost no attention in the laboratory. The tables of these spectra include astrophysical data from B. Edlen (Z. Astrophys. , 7:378, 1933) and C. E. Moore (A Multiplet Table of Astrophysical Interest, Part I, N. B. S. , 1945) with rather rough estimates of the wavelengths of the spectral lines. But as the spectra of highly ionized atoms have been studied in the laboratory, these values have been determined more precisely, and we have striven to incorporate them in the American edition of the book. For the spectra of N IV and NV, we have employed the recent, comprehensive papers of R. Hallin (Arkiv for Fysik, 32:201, 1966; 31:511, 1966), in which the system of energy levels was refined and expanded, and many classified lines in the visible, ordinary ultra violet, and vacuum ultraviolet regions are cited.

Black and Blue James L. Gibson, Michael Nelson, 2018-09-25 The American legal system is experiencing a period of

extreme stress, if not crisis, as it seems to be losing its legitimacy with at least some segments of its constituency. Nowhere is this legitimacy deficit more apparent than in a portion of the African American community in the U.S., as incidents of police killing black suspects - whether legally justified or not - have become almost routine. However, this legitimacy deficit has largely been documented through anecdotal evidence and a steady drumbeat of journalistic reports, not rigorous scientific research. This book offers an all-inclusive account of how and why African Americans differ in their willingness to ascribe legitimacy to legal institutions, as well as in their willingness to accept the policy decisions those institutions promulgate. Based on two nationally-representative samples of African Americans, this book ties together four dominant theories of public opinion: Legitimacy Theory, Social Identity Theory, theories of adulthood political socialization and learning through experience, and information processing theories. The findings reveal a gaping chasm in legal legitimacy between black and white Americans. More importantly, black people themselves differ in their perceptions of legal legitimacy. Group identities and experiences with legal authorities play a crucial role in shaping whether and how black people extend legitimacy to the legal institutions that so much affect them. This book is one of the most comprehensive analyses produced to date of legal legitimacy within the American black community, with many surprising and counter-intuitive results.
