*Omega The Unknown Masterworks Vol. 1* Steve Gerber,2023-11-15 Collects Omega the Unknown (1976) #1-10, Defenders (1972) #76-77. In the 1970s, writer Steve Gerber revolutionized comics. His innovative work on MAN-THING, DEFENDERS and HOWARD THE DUCK opened creative avenues that excited readers and inspired a generation of creators. So when Marvel announced an all-new character co-created by Gerber, anticipation rose to a fever pitch! OMEGA THE UNKNOWN debuted in late 1975, featuring an enigmatic approach to one of the most compelling stories: the stranger in a strange land. James-Michael Starling, a boy with a mysterious past, holds a curious connection to the super-powered being known as Omega. Their quest to understand the gritty world of New York City reveals as much about us as it does them. Violence Diane Deanda,Rosina M Becerra,2014-05-01 Understand violence within its cultural context! To reduce

violence, we need to understand what it is, where it comes from, and what it means in cultural context. *Violence: Diverse Populations and Communities* provides new empirical research and theoretical models to help you understand the impact of violence on various ethnic and cultural groups. From the effects of abuse on Latino children to aged Korean-American women's perceptions of elder mistreatment, this comprehensive volume covers all ages, many ethnic groups, and multiple types of violence. *Violence: Diverse Populations and Communities* looks at such neglected populations as Mexican, Korean, Vietnamese, and Cambodian immigrants as well as Black, Caucasian, and Latino cultures. The forms of violence studied range from the devastation of war to keeping elders isolated for long periods of time and culturally specific forms of abuse. This comprehensive volume also includes a thorough literature review, stressing the need for more research, especially into the needs and experiences of neglected populations, and suggesting fruitful areas for further inquiry. *Violence: Diverse Populations and Communities* asks and answers complex questions, including: Is war or street violence more traumatic for adolescent refugees from the Khmer Rouge? What social support benefits do street gangs offer their members? How do cultural expectations of male and female roles affect dating violence? What culturally sensitive interventions best address the needs of a Latina rape survivor? How do women of various Asian cultures respond to spousal battering? How can practitioners working with elder abuse victims define their roles, objectives, and interventions to accommodate cultural differences? The groundbreaking research in *Violence: Diverse Populations and Communities* provides an illuminating exploration into the cultural meaning of violence. By questioning standard assumptions and discovering what violence means to those who suffer from it and perpetrate it, practitioners can better serve multicultural client populations. This book will change the way you see violence by helping you understand its manifestations within various cultural contexts.

**Diversity and Integration in Mycorrhizas** Sally E. Smith, F. Andrew Smith, 2013-12-18 This book is highly recommended on the basis of the following points: - The editors are highly regarded in the field of mycorrhizal biology and one is co-author of the most comprehensive textbook on mycorrhizas; - Chapters by international experts based on invited presentations at the 3rd International Conference on Mycorrhizas, supplemented by invited chapters on special topics; - Mycorrhizas are being increasingly recognised as ubiquitous plant/fungal symbioses, with the potential to influence the function and ecology of around 90% of all land plants; perhaps the most common and also ancient terrestrial symbioses in existence; - This book has a broad coverage of biology of symbioses between mycorrhizal fungi and plants, especially ecto- and arbuscular mycorrhizas (other recent texts have focused mainly on arbuscular mycorrhizal symbioses); - Forward-looking review chapters by keynote speakers including an overview of research challenges for the future; - Up-to-date research focus; - Coverage includes: molecular diversity and detection of mycorrhizal fungi; cellular and molecular interactions between the symbionts; physiology of the interactions; implications of the symbioses for ecosystem processes, including agriculture; - Several complementary chapters on some topics, ensuring that different perspectives are presented (recent edited volumes

have had a smaller group of authors and hence narrower focus); - Readership from advanced undergraduate students in biology (particularly plant science), postgraduate students and researchers in universities and government agencies.

The West Yorkshire Regiment in the War 1914-1918 Vol 1 Everard Wyrall,2013-02-25 Another weighty regimental history, two volumes, 820 pages in all covering the record of twenty-two battalions in France, Flanders, Italy and Gallipoli (all of them served on the Western Front). When war broke out the regiment consisted of two Regular battalions (1st and 2nd), two Special Reserve (3rd and 4th) and four Territorial battalions (5th to 8th); the 1st Battalion went to France with 6th Division in September 1914, the 2nd Battalion came home from Malta to join the newly formed 8th Division (Regular) and went to France in November 1914. Both battalions remained in the same brigades (18th and 23rd) and divisions throughout

the war. The four Territorial battalions each formed a 2nd and a 3rd line battalion; the four original battalions made up the 146th Brigade, 49th (West Riding) Division, arriving in France in April 1915, the second line battalions combined to make the 185th Brigade, 62nd (2nd West Riding) Division which arrived in France in January 1917. Kitchener's call to arms resulted in eleven Service battalions being raised, 9th to 18th (the 17th was formed as a Bantam battalion) and 21st; of these only 13th and 14th did not go on active service. The 21st Battalion became a Pioneer battalion in 4th Division and the 22nd was a Labour battalion which also went to France. This history records events in chronological order, the dates of the operations being described are shown in the margin as are the identities of the battalions involved. Volume 1 (x + 355pp with 18 maps and 15 b/w photos) covers the period from the outbreak of war to the end of 1916, the close of the Somme offensive and includes the Dardanelles campaign where the 9th Battalion was in action with the 11th (Northern) Division. On 1st July 1916, the first day of the Somme, the 10th Battalion attacked at Fricourt and incurred the heaviest casualties of any battalion - 710, of whom 307 were killed including the CO, 2IC, adjutant and two company commanders. More than half of them are in in Fricourt New Military Cemetery which is in the No Man's Land across which they attacked and where they died. The CO (Lt Col Dickson) and his adjutant (Capt Shann) lie side by side. There is a Roll of Honour for the period covered in which the other ranks are listed alphabetically by battalions as are the Territorial battalion officers; the other officers are shown in one group in alphabetical order with the battalion number in front of the name. Although the note at the head of the officer casualty list states that the theatre in which death occurred is France and Flanders unless otherwise indicated, nonetheless 'Gallipoli' is not shown against the names of the officers of the 9th Battalion who died there, and so one is left with the wrong impression they died on the Western front.
