VLBI and Compact Radio Sources Roberto Fanti, K. Kellerman, Giancarlo Setti, 1984-05-31 I.A.U. symposium No. 110 on VLBI and Compact Radio Sources was held in Bologna, Italy from June 27 to July 1, 1983. 166 participants from 19 countries were registered and 106 invited and contributed papers were registered. The scientific presentations and discussion concentrated on VLBI observation and interpretation of galactic and extragalactic radio sources, including topics as diverse as quasars and galactic nuclei, interstellar masers, pulsars, and astrometry. Geodetic applications and technical development were treated only briefly, as these topics have been the subject of other recent international symposia. Since the first VLBI observations in 1967, sensitivity, resolution, and image quality have improved dramatically. Radio maps shown at the symposium were of comparable quality to conventional synthesis maps being made at the time of the first VLBI experiments 15 years ago, but with a resolution more than a factor of 1000 better. We wanted to accommodate the large number of contributed papers in this rapidly developing field, but there was inadequate time for normal oral presentations and discussion. We therefore asked that all contributed papers be put on display for at least 24 hours prior to a brief oral summary. A question and discussion period followed groups of oral presentations on the same or similar topic. In this way the opportunity for interactive discussion, not available in conventional poster displays, was preserved.

Puglia. Italy's Sunny Heel AA.VV.,2022-09-13T00:00:00+02:00 For centuries, Puglia has acted as the bridge to the Mediterranean. To the north, it is crowned by the wild greenery of the Gargano promontory, the Daunian Mountains, and the sweet hills that roll down to the Tavoliere delle Puglie. With its infinite seafront and old city, medieval churches and genuine cuisine, Bari is the metropolitan capital of the region. Romanesque cathedrals line the Adriatic coast. Numerous beach resorts dot the shore as you wind from the Gargano coast to Salento. The water is always crystalline, perfect for a refreshing dip. Further inland, Salento offers little villages of white houses and historical, Baroque-decorated town centers with dry stone walls bordering long bike paths. Explore everything this oasis has to offer with the expert help of National Geographic writers and photographers who have created insider itineraries into off-the-beaten-path destinations and well-known must-sees. Along the way, practical information for where to go, what to do, where to stay, and what to eat make this comprehensive guide the only reference you need to plan a trip to magical Puglia.
