The SS City of Flint Magne Haugseng,2021-07-08 In Europe, World War II was four months old by Christmas 1939. The City of Flint, an American freighter, had been instrumental in rescuing 1200 passengers from a torpedoed ocean liner, making headlines on both sides of the Atlantic. She was captured by a Nazi warship and sent towards a German port, rigged with explosives to ensure the British Navy would not capture it. Norwegian soldiers liberated the ship--by then even Hitler knew her name. Christmas 1942 saw the City of Flint in New York with other freighters loading for North Africa. Allied codes

had been cracked and the convoy was expected by a group of U-Boats. Secretly carrying poison gas as part of her cargo, she was torpedoed and exploded on January 25, 1943. Eleven survivors in her fourth lifeboat fought mountainous seas, sharks and hunger. One went mad and walked overboard. The others survived 46 days before rescue. Eyewitness accounts, war diaries and archival sources bring this untold story to life.

Archaeologists in Print Amara Thornton,2018-06-25 *Archaeologists in Print* is a history of popular publishing in archaeology in the nineteenth and twentieth centuries, a pivotal period of expansion and development in both archaeology and publishing. It examines how British archaeologists produced books and popular periodical articles for a non-scholarly audience, and explores the rise in archaeologists' public visibility. Notably, it analyses women's experiences in archaeology alongside better known male contemporaries as shown in their books and archives. In the background of this narrative is the history of Britain's imperial expansion and contraction, and the evolution of modern tourism in the Eastern Mediterranean and Middle East. Archaeologists exploited these factors to gain public and financial support and interest, and build and maintain a reading public for their work, supported by the seasonal nature of excavation and tourism. Reinforcing these publishing activities through personal appearances in the lecture hall, exhibition space and site tour, and in new media - film, radio and television - archaeologists shaped public understanding of archaeology. It was spadework, scripted. The image of the archaeologist as adventurous explorer of foreign lands, part spy, part foreigner, eternally alluring, solidified during this period. That legacy continues, undimmed, today. Praise for *Archaeologists in Print* This beautifully written book will be valued by all kinds of readers: you don't need to be an archaeologist to enjoy the contents, which take you through different publishing histories of archaeological texts and the authors who wrote them. From the productive partnership of travel guide with archaeological interest, to the women who feature so often in the history of archaeological publishing, via closer analysis of the impact of John Murray, Macmillan and Co, and Penguin, this volume excavates layers of fascinating facts that reveal much of the wider culture of the late nineteenth and twentieth centuries. The prose is clear and the stories compulsive: Thornton brings to life a cast of people whose passion for their profession lives again in these pages. Warning: the final chapter, on *Archaeological Fictions*, will fill your to-be-read list with stacks of new titles to investigate! This is a highly readable, accessible exploration into the dynamic relationships between academic authors, publishers, and readers. It is, in addition, an exemplar of how academic research can attract a wide general readership, as well as a more specialised one: a stellar combination of rigorous scholarship with lucid, pacy prose. Highly recommended!' Samantha Rayner, Director

She's a vivacious, passionate little bombshell, always searching for her one true love. Along the way, she faces many temptations, and struggles with moral issues, as a result of her strict upbringing. What paths will she follow?
