*The Russian Mafia* Federico Varese, 2001-08-02 What is the Russian Mafia? This unique book thoroughly researches this question and challenges widely-held views. The author charts the emergence of the Russian Mafia in the context of the transition to the market, the privatization of protection and pervasive corruption. The ability of the Russian State to define property rights and protect contracts is compared to the services offered by fragments of the state apparatus, private security firms, ethnic crime groups, the Cossacks and the Mafia. Past criminal traditions, rituals and norms have been resuscitated by the Mafia of today to forge a powerful new identity and compete in a crowded market for protection. The book draws on and reports of undercover police operations, in-depth interviews conducted over several years with the victims of the Mafia, criminals and officials, and documents from the Gulag archives. It also provides a comparative study, making references to other Mafia (the Japanese Yakuza, the Sicilian Cosa Nostra, American-Italian Mafia and the Hong Kong Triads).

**The Code of Federal Regulations of the United States of America** , 1978 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

*The Anatomy of Terror* James Harris, 2013-07-11 Stalin's Terror of the 1930s has long been a popular subject for historians. However, while for decades, historians were locked in a narrow debate about the degree of central control over the terror process, recent archival research is underpinning new, innovative approaches and opening new perspectives. Historians have begun to explore the roots of the Terror in the heritage of war and mass repression in the late Imperial and

early Soviet periods; in the regime's focus not just on former 'oppositionists', wreckers and saboteurs, but also on crime and social disorder; and in the common European concern to identify and isolate 'undesirable' elements. Recent studies have examined in much greater depth and detail the precipitants and triggers that turned a determination to protect the Revolution into a ferocious mass repression. The Anatomy of Terror is an edited volume which brings together the work of the leading historians in the field, presenting not only the latest developments in the subject, but also the latest evolution of the debate. The sixteen chapters are divided into eight themes, with some themes reflecting the diversity of sources, methodologies and angles of approach, others showing stark differences of opinion. This opens up the field of study to further research, and this volume will prove indispensable for historians of political violence and of the era of Stalinist Terror.

**Verzeichnis der aus der neu erschienenen Literatur von der Königlichen Bibliothek zu Berlin und den preußischen Universitätsbibliotheken erworbenen neueren Druckschriften ,1895**

*Mass Uprisings in the USSR* Vladimir Aleksandrovich Kozlov,2002 Basing his work on research in police, procuracy, KGB and party archives, Vladimir A. Kozlov traces the historical context and sequences of events leading up to mass protest in Russia. He explores the demographic and psychological dynamics of the situation and the reactions of the authorities.

**Federal Register ,1951**

*Russian and Post-Soviet Organized Crime* Mark Galeotti,2017-09-08 A timely look at a widespread yet largely uninvestigated area of Russian life. Chapters include: consideration of the history and basis in culture for the organization of crime in Russia; the actions of emigres to the USA; and the development of modern sophistications of exchange and networking that currently blight privatization. Diverse perspectives, including comparative, structural and ethnic frameworks, give unprecedented national and international insights into a pervasive element of modern Russia.
