IBM Spectrum Archive Enterprise Edition V1.2.6 Installation and Configuration Guide Larry Coyne, Khanh Ngo, Illarion Borisevich, Markus Schäfer, IBM Redbooks, 2019-04-19 Note: This is a republication of IBM Spectrum Archive Enterprise Edition V1.2.6: Installation and Configuration Guide with new book number SG24-8445 to keep the content available on the Internet along with the recent publication IBM Spectrum Archive Enterprise Edition V1.3.0: Installation and Configuration Guide, SG24-8333. This IBM® Redbooks® publication helps you with the planning, installation, and configuration of the new IBM Spectrum™ Archive V1.2.6 for the IBM TS3310, IBM TS3500, IBM TS4300, and IBM TS4500 tape libraries. IBM Spectrum Archive™ EE enables the use of the LTFS for the policy management of tape as a storage tier in an IBM Spectrum Scale™ based environment. It helps encourage the use of tape as a critical tier in the storage environment. This is the sixth edition of IBM Spectrum Archive Installation and Configuration Guide. IBM Spectrum Archive EE can run any application that is designed for disk files on a physical tape media. IBM Spectrum Archive EE supports the IBM Linear Tape-Open (LTO) Ultrium 8, 7, 6, and 5 tape drives in IBM TS3310, TS3500, TS4300, and TS4500 tape libraries. In addition, IBM TS1155, TS1150, and TS1140 tape drives are supported in TS3500 and TS4500 tape library configurations. IBM Spectrum Archive EE can play a major role in reducing the cost of storage for data that does not need the access performance of primary disk. The use of IBM Spectrum Archive EE to replace disks with physical tape in tier 2 and tier 3 storage can improve data access over other storage solutions because it improves efficiency and streamlines management for files on tape. IBM Spectrum Archive EE simplifies the use of tape by making it transparent to the user and manageable by the administrator under a single infrastructure. This publication is intended for anyone who wants to understand more about IBM Spectrum Archive EE planning and implementation. This book is suitable for IBM clients, IBM Business Partners, IBM specialist sales representatives, and technical specialists.

Excavations at Tall Jawa, Jordan, Volume 1 The Iron Age Town Michèle Daviau, 2022-05-20 Located in a strategic position on the southern flank of the Ammonite hill country, overlooking the Madaba Plain, the earliest settlement at Tall Jawa dates to the Iron I period (1100-900 BC). This settlement was redesigned during Iron Age II (900-600 BC), and consisted of a walled town, surrounded by a casemate style fortification system and a multi-chambered gate complex. Major buildings, standing to the second storey, are described in detail with their furnishings and contents. A marked change in architecture, ceramic technology, and high status artefacts mark the high point of Tall Jawa during the period of the Assyrian empire (730-600 BC). The major features of each structure are illustrated both in the text and on a CD-ROM. This volume presents the final report of six seasons of excavations at Tall Jawa in central Jordan. The particular focus of this report is the architecture and stratigraphy of the settlements which occupied the site during the Iron Age (1100-600 BC).
