- The Higgs Boson Produced With Top Quarks in Fully Hadronic Signatures** Daniel Salerno,2019-10-25 The work presented in this PhD dissertation is the first search at CMS for Higgs bosons produced in association with top quarks (ttH) in a final state consisting of only jets. The results presented in this book uncover a new class of ttH events that will help us

elucidate our understanding of the Yukawa sector interactions between the Higgs boson and the top quark. Despite this being the most common decay signature for $t\bar{t}H$, a large contamination of SM backgrounds makes it the most challenging for extracting a signal from data. The PhD thesis presents many sophisticated tools and techniques that were developed in order to overcome these challenges. These tools pave the way for future analyses to investigate other standard model and beyond-standard model physics.

TERRORISM: COMMENTARY ON SECURITY DOCUMENTS VOLUME 145 Douglas C. Lovelace, Jr., 2017-06-07

The volume includes a selection of documents chosen to illustrate developments in this area from 2010 through 2016, with commentary from series editor Douglas C. Lovelace, Jr. The documents in this volume include 2016 UN Security Council resolutions on North Korea, Congressional Research Service reports covering various aspects of the U.S. response to North Korea's nuclear program, a U.S. Department of Defense report prepared for Congress on military and security developments related to North Korea, and a detailed description of the U.S. sanctions program against North Korea from the U.S. Treasury Department's Office of Foreign Assets Control.

Between Crime and War Jens David Ohlin, Claire Finkelstein, Christopher J. Fuller, Mitt Regan, 2022 The threat posed by the recent rise of transnational non-state armed groups does not fit easily within either of the two basic paradigms for state responses to violence. The crime paradigm focuses on the interception of demonstrable immediate threats to the safety of others. Its aim is to protect specific persons and members of the general public from violence by identifiable individuals, who may be acting alone or in concert. In pursuit of this aim, the state uses police operations and the criminal justice system. Both of these tools are governed by human rights principles that significantly constrain state power. A state may not restrict liberty unless it has demonstrable evidence that an individual may pose a danger to others. It may not use force if other means will be effective to stop a threat. If using force is unavoidable, it must be the minimum amount necessary. Furthermore, a state generally may not take life unless no other measure will intercept an immediate threat to life--
