The Mystery of the Kibbutz Ran Abramitzky,2020-05-26 How the kibbutz movement thrived despite its inherent economic contradictions and why it eventually declined The kibbutz is a social experiment in collective living that challenges traditional economic theory. By sharing all income and resources equally among its members, the kibbutz system created strong incentives to free ride or—as in the case of the most educated and skilled—to depart for the city. Yet for much of the twentieth century kibbutzim thrived, and kibbutz life was perceived as idyllic both by members and the outside world. In *The Mystery of the Kibbutz*, Ran Abramitzky blends economic perspectives with personal insights to examine how kibbutzim successfully maintained equal sharing for so long despite their inherent incentive problems. Weaving the story of his own family’s experiences as kibbutz members with extensive economic and historical data, Abramitzky sheds light on the idealism and historic circumstances that helped kibbutzim overcome their economic contradictions. He illuminates how the design of kibbutzim met the challenges of thriving as enclaves in a capitalist world and evaluates kibbutzim’s success at sustaining economic equality. By drawing on extensive historical data and the stories of his pioneering grandmother who founded a kibbutz, his uncle who remained in a kibbutz his entire adult life, and his mother who was raised in and left the kibbutz,

Abramitzky brings to life the rise and fall of the kibbutz movement. The lessons that The Mystery of the Kibbutz draws from this unique social experiment extend far beyond the kibbutz gates, serving as a guide to societies that strive to foster economic and social equality.

The Book of Requiems, 1550-1650 David J. Burn,Antonio Chemotti,2023-07-20 Few western musical repertoires speak more to the imagination than the Requiem mass for the dead. Yet, surprisingly, despite the significance of Requiem settings for our musical culture, the literature concerning them is sparse. The Book of Requiems presents essays on the most important works in this tradition, from the origins of the genre up to the present day. Each chapter is devoted to a specific Requiem, and offers both historical information and a detailed work-discussion. Conceived as a multi-volume essay collection by leading experts, The Book of Requiems is an authoritative reference publication intended as a first port of call for musicologists, music theorists, and performers both professional and student. The present volume, the second in the series, treats settings composed between c. 1550 and c. 1650, a period in which the Requiem becomes a defining feature of the soundscape of Catholic death rituals.

Wisdom and Apocalypticism in the Dead Sea Scrolls and in the Biblical Tradition Florentino García Martínez,2003 The volume contains the papers read at the 51st Colloquium Biblicum Lovaniense (July 31 - August 2, 2002) dedicated to the study of the theme of Wisdom and Apocalypticism in the Dead Sea Scrolls and in the biblical tradition in general. The Main papers and some of the Offered papers have been thematically grouped in four parts. Part I comprises four articles dealing with the relationship between wisdom and apocalypticism in the Scrolls compared to the biblical tradition. Part II includes five papers which focus on specific wisdom compositions from Qumran, such as 1Q/4QMysteries, 4QInstruction, 4QTime of

Righteousness, or the Tractate of the Two Spirits from the Rule of the Community. The nine contributions of Part III analyse different aspects of biblical Wisdom compositions (in Qohelet, Sirach, and the Wisdom of Solomon) or of apocalyptic writings (in 1 Enoch and 4 Ezra) in the light of the Qumran Wisdom texts. Part IV groups six studies on several aspects of the Wisdom compositions from Qumran (messianic ideas, ecstatic worship, the beatitudes, or the fate of the righteous) which are directly relevant for the study of the New Testament. The articles are written in English (14), French (6), and German (4). Among the contributors are specialists of the Dead Sea Scrolls (Jean Duhaime, Torleif Elgvin, Armin Lange, Hermann Lichtenberger, Emile Puech, Eibert Tigchelaar) and of Early Judaism (e.g., John J. Collins, Daniel Harrington, Michael Knibb), as well as Old Testament scholars (e.g., Hainz-Josef Fabry, Maurice Gilbert, Klaus Koch).
