Reproduktionstechnologien Gülden Ediger,Anthea Kyere,Ute Kalender,Valle Mazzaferro,2021-11-29 Steckt in Reproduktionstechnologien queerendes Potential für Fortpflanzung und Verwandtschaft? Oder schreiben sie bestehende Machtverhältnisse fort? Reproduktionstechnologien verändern die menschliche Fortpflanzung: In-vitro-Fertilisation ermöglicht die Zeugung ohne heterosexuellen Sex, Uterustransplantationen erlauben es Menschen ohne angeborene Gebärmutter, schwanger zu werden. In Zukunft könnte es möglich sein, dass Schwangerschaften ganz außerhalb des menschlichen Körpers stattfinden. Damit scheinen Reproduktionstechnologien die Chance zu bieten, herkömmliche Vorstellungen von Geschlecht und Sexualität zu überwinden. Steckt in Reproduktionstechnologien also jede Menge queerendes Potential für Fortpflanzung, Elternschaft und Verwandtschaft? Wie alle gesellschaftlichen Entwicklungen sind Reproduktionstechnologien in bestehende Machtverhältnisse eingebunden: Rechtliche Regelungen und Kostenübernahmen der Krankenkassen stellen sicher, dass assistierte Reproduktion hauptsächlich für heterosexuelle, verheiratete Paare zugänglich ist. Gleichzeitig werden Reproduktionstechnologien kommerzialisiert und zu Waren in globalen Ausbeutungsverhältnissen.

Pain and Passion Heath McCoy,2005 Calgary's Stampede Wrestling spawned some of the biggest wrestling stars in history, from mat kings of the past like Gene Kiniski and Superstar Billy Graham to modern idols like Bret Hitman Hart, the British Bulldogs, and Chris Benoit. Pain and Passion tells how a small, family-run wrestling business profoundly influenced the world of professional wrestling as we know it today. Pain and Passion takes readers on a rowdy ride through the evolution of Stu Hart's Calgary promotion, from its meagre beginnings in the 1940s, its peak in the 1980s, and its fall as Vince McMahon's World Wrestling Entertainment changed the face of wrestling forever. But this is more than a wrestling story - it's a tale of family and of human tragedy. The Hart family lived for the wrestling business and, like Starbucks mowing down a mom-and-pop coffee shop, the emergence of McMahon's media colossus ran Stampede into the ground. The wrestling game lost its innocence and western Canada lost a staple of its pop culture. As for the Hart family, the once-mighty clan was nearly destroyed by the business it loved. The Stampede Wrestling story is a wild blood-on-the-mat saga over fifty years in the making. It's sure to captivate not only wrestling fans, but anyone who appreciates a powerful drama.

Amphibian Conservation Rebecca K. Smith, William J. Sutherland, 2014-05-16 Amphibian Conservation is the fourth in the series of Synopses of Conservation Evidence, linked to the online resource www.ConservationEvidence.com. This synopsis is part of the Conservation Evidence project and provides a useful resource for conservationists. It forms part of a series designed to promote a more evidence-based approach to biodiversity conservation. Others in the series include bee, bird, farmland and bat conservation and many others are in preparation. Approximately 32% of the 7,164+ amphibian species are currently threatened with extinction and at least 43% of species are declining. Despite this, until recently amphibians and their conservation had received little attention. Although work is now being carried out to conserve many species, often it is not adequately documented. This book brings together and summarises the available scientific evidence and experience relevant to the practical conservation of amphibians. The authors consulted an international group of amphibian experts and conservationists to produce a thorough summary of what is known, or not known, about the effectiveness of amphibian conservation actions across the world. The book is packed with literature summaries and citations; a veritable information goldmine for graduate students and researchers. It also admirably provides decision makers with a well-researched resource of proven interventions that can be employed to stem/reverse the decline of amphibian populations. -John G Palis, Bulletin of the Chicago Herpetological Society

Bürgerschaftliches Engagement psychisch erkrankter Menschen Heike Stecklum, 2017-04-27 Heike Stecklum untersucht bürgerschaftliches Engagement von psychisch erkrankten Menschen vor dem Hintergrund der gesellschaftlichen Transformation in Ostdeutschland. Dabei nimmt sie bei der Analyse von Biographien die bisher selten eingenommene Perspektive auf Ressourcen und Potenziale der Akteure und ihres jeweiligen sozialen Umfelds ein. Analysen der Familien- und Lebensgeschichten zeigen das Zusammenwirken verschiedenster Faktoren und Aspekte in den biographischen Verläufen zum Engagement auf. Die dafür prägende Erfahrung der DDR-Sozialisation stellt ein grundlegendes Ergebnis der Studie dar. Damit stellt sie einen wichtigen Beitrag zur Erforschung des Engagements in Ostdeutschland sowie gesellschaftlicher Veränderungsprozesse dar.

JPRS Report, 1993-06

The Politics of Zoos Jesse Donahue, Erik Trump, 2006 Zoos have found themselves continually under fire in recent decades. Animal rights activists initiated the attacks; at the same time regulatory agencies, anti-tax advocates, and an assortment of litigators have also targeted zoos. In an effort to defend themselves in this hostile landscape, zoos and aquariums joined forces under the leadership of the American Association of Zoological Parks and Aquariums (now called the AZA). They learned to use the political system to their own advantage while at the same time crafting a more progressive

public mission. In *The Politics of Zoos*, Jesse Donahue and Erik Trump present a political biography of the AZA to show how the zoo community has emerged as a political player. Rather than recount the history of a faceless institution, the authors focus on the cohort of directors who navigated the political turbulence of the 1960s and 1970s and set the agenda for subsequent decades. Ironically, at a time when activists began to charge that zoos and aquariums did not know how to care for animals and did not care for the well-being of endangered species, the opposite was true. These institutions were increasingly attracting well-educated professionals who indeed cared a great deal. Amidst controversies over ownership and funding, capture and disposal, and the health and well-being of animals on display, AZA leaders acted not merely to protect their own interests in the political arena but to ensure the welfare of captive animals and to assist with the conservation of wild species. Donahue and Trump's original study of the politics of American zoos and aquariums from the 1960s to the present draws upon interviews, archival sources, congressional records, court cases, regulatory hearings, media accounts, and the authors' ongoing field research. It will appeal to zoo professionals, political scientists, historians, and those concerned with animal welfare.

Facets of an Academic's Life Michael Wertheimer, 2019-12-06 This is the life story of the oldest living member of the famous Wertheimer family, beautifully narrated and richly illustrated from the author's vast stock of memorabilia and his unfailing memory. It is a memoir, but at the same time a document of the exodus of German-speaking psychologists to the New World, which left the homeland scientifically shattered. This lovingly-written pictorial archive of 80 years of the history

of modern psychology, shaped by the momentous events of WWII, belongs on the shelf of every psychologist, theoretical, experimental, and clinical, as it gives us the story of how the scientific heritage in Europe and America merged to form the broad and strong disciplines now in our hands, told by one of its premier historical representatives.
