**The Association for the Taxation of Financial Transactions and Citizens' Action in Italy and Quebec** Emanuele Achino,2021-08-02 Apart from providing a discussion of what 'political culture' might mean, this book speaks of the way two twin social movement organisations—one in Italy and another in Quebec—usually make decisions. Independently from someone's political position, the decision-making process that these two organisations have adopted is helpful in suggesting ways to decide collectively which paths are more inclusive and can reduce any conflict and improve participation. This book will appeal to not only academics, but also policymakers, trade-unions, and practitioners, as well as anyone who wishes to improve recognition and therefore participation. The consensual decision-making adopted by these organisations represents a clear democratic approach in making decisions, and suggests a way to open the doors to those not yet included in these groups.

**La bellezza della città** Michael Stolleis,Ruth Wolff,2012-10-25 Die in großer Zahl überlieferten italienischen Stadtrechte des Mittelalters sind eine reiche, bisher noch nicht hinreichend genutzte Quelle für Kunstgeschichte und Rechtsgeschichte. Sie geben nicht nur Auskunft über die Anlage von Plätzen und Denkmälern, Kirchen und Stadtbefestigungen, sondern lassen auch Rückschlüsse auf den ästhetischen Gestaltungswillen der damaligen Obrigkeiten und ihre Vision der bellezza della città zu. Der Band dokumentiert eine interdisziplinäre Tagung vom 20.-23. September 2001 in der Villa Vigoni am Comer See.

*Water Law, Policy and Economics in Italy* Paolo Turrini,Antonio Massarutto,Marco Pertile,Alessandro de Carli,2021-05-12 This book provides the first comprehensive overview of the most important water-related issues that centre on Italy, analysed from several disciplinary perspectives - such as hydrology, economics, law, sociology, environmental sciences and policy studies - in order to promote full understanding of the challenges the country is facing and the ways it could best tackle them. Despite the misconception that Italy is a water-scarce country, is in fact quite rich in water resources. Such resources, however, are unevenly distributed over the Italian territory. Italy's northern regions rely on quite an abundant quantity of freshwater, whereas in the southern area water endowment is limited. Moreover, climatic differences between North and

South contribute to widen the divide. This disparity has notable consequences of socio-economic character, some of which, in turn, feed back into the environmental conditions of Italian regions: pollution, floods, landslides and droughts are among the problems affecting the country. There are numerous features of water use and consumption that distinguish Italy from other comparable countries, such as the significant role played by agriculture (a water-intensive activity), a lead position in the consumption of bottled water, lower-than-average prices of water and a far-from-optimal efficiency of waterworks. All such aspects, and many others, make Italy an essential case study.

*Die schöne neue Demokratie* Donatella della Porta, 2020-03-11 Über die Krise der Demokratie wurde in den vergangenen Jahren viel geredet. Doch wie geht es weiter? Ist Rettung in Sicht? Donatella della Porta zeigt in ihrem neuen Buch als eine der weltweit besten Kennerinnen sozialer Bewegungen, welche progressive Kraft sie entwickelt haben und auch in Zukunft entwickeln können. Nicht auf die Eliten und die etablierten Parteien ist zu hoffen, wenn es um neue Ideen und Veränderungen geht, sondern auf Bewegungen und Protestformationen, auf Bürgerinnen und Bürger. So sind etwa in Spanien Podemos und in Bolivien Movimiento al Socialismo an die Stelle etablierter Parteien getreten. In Island und Irland wurden Bürgerversammlungen initiiert, die sich an Verfassungsprozessen beteiligten. Diese Beispiele zeigen, dass die Demokratie der ständigen Erneuerung bedarf. Und gerade in Krisenzeiten bieten sich Gelegenheiten für einen Wandel.

**The human right to water - its multi-level protection and implementation in International, European and National law** Riccardo Montaldo, 2022-01-01 The object of the research work is the analysis of the multilevel protection of the human right to water and the current degree of implementation that it has received in international, European, and national law, comparing the Italian and German contexts from the constitutional law perspective. Given the absence of an express recognition of the human right to water, another research question concerns the examination of the mechanisms of multilevel protection of human rights, assessing whether the relationships between the different levels of protection can contribute to the realisation of this fundamental human right. The research analyses the main sources of law and jurisprudence of each examined context, to understand the legal basis for the recognition of the human right to water, considering both the necessary protection of environmental aspects, as well as social and economic ones, fundamental for its full realisation. The analysis of normative and jurisprudential sources is supported by the examination of the most relevant doctrine.

*Fighting for Water* Andreas Bieler, 2021-05-20 In the wake of the global financial crisis, water services have come under renewed neoliberal assault across Europe. At the same time, the struggle against water privatization has continued to pick up pace; from the re-municipalization of water in Grenoble in 2000, to the United Nations declaration of water as a human right in 2010. In *Fighting for Water*, Andreas Bieler draws on years of extensive fieldwork to dissect the underlying dynamics

of the struggle for public water in Europe. From the successful referendum against water privatization in Italy, via the European Citizens' Initiative on 'Water and Sanitation are a Human Right', the struggles against water privatization in Greece and water charges in Ireland, Bieler shows why water has been a fruitful arena for resistance against neoliberal restructuring.

*Das Dorf des Willkommens* Mimmo Lucano, 2021-11-26 Das kleine Dorf Riace in Kalabrien und ihr Bürgermeister Mimmo Lucano (2004-2018) wurden während der humanitären Krise von Lampedusa im Jahr 2009 international bekannt, weil sie 200 Flüchtlingen und Asylbewerbern Unterkunft und Gastfreundschaft gewährten – im Gegensatz zu Mailand, das gerade mal 20 Plätze zur Verfügung stellte. Im Jahr 2017 waren im Dorf 550 Migranten untergebracht, insgesamt hatten es über 6000 Menschen durchquert. Ende der 1990er-Jahre gab es in Riace kaum noch Landwirtschaft und Ackerbau. Die einzige Möglichkeit für die wenigen verbliebenen Bewohner war die Flucht. Dann änderte das von Mimmo Lucano geschaffene Empfangssystem alles. Die Häuser im Zentrum, die lange Zeit verlassen waren, wurden neu besiedelt. Hunderten von Flüchtlingen konnte wieder Hoffnung gegeben werden, sie konnten in Handwerksbetrieben Glas und Marmelade herstellen und in einer Weberei arbeiten. Um die verzögerten Auszahlungen von staatlichen Geldern zu überbrücken, wurde gar eine lokale Währung geschaffen. Das »Modell« stieß auf Gegenwehr. Am 2. Oktober 2018, während der Amtszeit des Innenministers Matteo Salvini wurde Lucano unter dem Vorwurf der Beihilfe zur illegalen Einwanderung verhaftet. Die Aufnahmeprojekte wurden geschlossen, und die Häuser stehen wieder leer. Im September 2021 wurde Lucano wegen Beihilfe zur illegalen Migration und anderen Verbrechen zu 13 Jahren Haft verurteilt. Mimmo Lucano hat nie aufgehört, an seine Idee zu glauben: Jede Gemeinschaft muss auf der Achtung der Menschenwürde beruhen. Die Geschichte von Lucano ist die Geschichte Italiens, denn sein Mut konnte die Grenze aufzeigen, jenseits derer eine Demokratie ihre Grundwerte verrät. Das Buch ist ein direktes und tiefgründiges Zeugnis, das uns einlädt, die Augen dafür zu öffnen, wer wir sind und wer wir sein wollen.

**Social movements and referendums from below** Della Porta, Donatella, O'Connor, Francis, 2017-09-27 Over recent years, social movements formed in response to European neoliberal austerity measures have played an increasingly important role in referendums. This is the first book to bridge the gap between social movement studies and research on direct democracy. It draws on social movement theory to understand the nature of popular mobilisation in referendums. Co-authored by one of the world's leading authorities on social movements, the book uses unique case studies such as the referendum on independence in Scotland, the consultations on independence in Catalonia, the Italian referendum on water, the referendum on the Troika proposals in Greece and the referendum on the debt repayment in Iceland, to illustrate the ways the social movements that formed as a consequence of the 2008 financial crash have affected the referendums' dynamic

and results. It also addresses the way in which participation from below has had a transformative impact on the organisational strategies and framing practices used in the campaigns. Looking at general issues of democracy, as well as the political effects of neoliberalism, this topical book is ideally suited to understand the reasons for the Brexit result and will be read by a wide audience interested in social movements, referendums and democratic innovation.

**The Politics of Polarisation** Anna Bosco, Susannah Verney, 2022-08-22 Focusing on Italy, Spain and Greece, this book explores the extent of polarisation, as well as its causes, characteristics and consequences. It investigates varied manifestations of polarised politics including leader polarisation, policy polarisation and affective polarisation as well as providing case studies of polarised elections taking place at multiple levels. In recent years, polarisation has been a key feature of South European politics. Deep antagonism has moved party leaders against each other, hindered parliamentary and governmental cooperation, and triggered a cascade effect of harsh divisions among elites and citizens. Beyond the left-right axis, the chapters in this volume highlight multiple dimensions around which parties and voters polarise: the split around sovereign bailouts in Greece, the territorial cleavage in Spain, the divisions around immigration and European integration in Italy. This volume offers essential understanding of the specific features of polarisation in different national contexts and the consequences for political competition and government instability. The chapters in this book were originally published as a special issue of *South European Society and Politics*.

*Engineering Geology and the Environment* Paul G. Marinos, 1997

**Environmental Protection in Multi-Layered Systems** Mariachiara Alberton, Francesco Palermo, 2012-10-04 The book aims at understanding the current distribution and use of powers over the environment among various layers of government and their consequences on environmental protection, comparing federal, regional and unitary State models and drawing theoretical and practical consequences.

**How Social Movements Can Save Democracy** Donatella della Porta, 2020-04-03 The birth of democracies owes much to the interventions and mobilizations of ordinary people. Yet many feel as though they have inherited democratic institutions which do not deliver for the people – that a rigid democratic process has been imposed from above, with increasing numbers of people feeling left out or left behind. In this well-researched volume, leading political sociologist Donatella della Porta rehabilitates the role social movements have long played in fostering and deepening democracy, particularly focusing on progressive movements of the Left which have sought to broaden the plurality of voices and knowledge in democratic debate. Bridging social movement studies and democratic theory, della Porta investigates contemporary innovations in times of crisis, particularly those in the direction of participatory and deliberative practices – ‘crowd-sourced constitutions’, referendums from below and movement parties – and reflects on the potential and limits of such alternative politics. In a moment in which concerns increase for the potential disruption of a Great Regression led by xenophobic movements and

parties, the cases and analyses of resistance in this volume offer important material for students and scholars of political sociology, political science and social movement studies.

*The Italian Water Industry* Andrea Gilardoni, 2018-01-03 This book describes the water sector as it is structured in Italy, presenting innovative engineering, financial and managerial solutions implemented by the Italian water sector, through the experiences of its major stakeholders. The main themes addressed include water regulation, financing infrastructures, economic performance of the leading companies, abstraction, potabilization, distribution, treatment and purification technologies, energy production, and organizational restructuring. The last part of the work presents company profiles with important financial indicators, as well as future strategic postures. Written by leading Italian experts, the book reflects the remarkable advances that have been made in the field of water governance and environmental management. The book is especially valuable for researchers, water professionals, utility managers, as well as policy makers and foreign investors looking for opportunities. This work has been prepared as part of the research activities of the Observatory on Sustainable Water Industry, one of Agici's Research and Advisory units.

*La Movimentista* Raffaella Fanelli, 2014-05-19 La movimentista racconta la storia di un gruppo di persone che avevano un sogno e, forse ancora ce l'hanno, quello di cambiare l'Italia. Partendo dagli ormai, storici meetup che, a Torino venne chiamato meetup13, fino ad arrivare alla nascita del Movimento 5 stelle, il libro fa un excursus sulle loro esperienze, aspettative e speranze ma, affronta anche le sue zone d'ombra e le scorrettezze di alcuni che, con il loro comportamento hanno tradito il vero significato della politica dal basso. Il famoso motto di Beppe Grillo, Uno vale uno, non vale per tutti infatti, è stato disatteso e calpestato da alcuni che, pur di fare trionfare la loro voglia di carrierismo, hanno ordito una trama a danno di altri. E' però, anche la storia di una crescita personale e di che cosa significhi diventare delle persone consapevoli dei loro diritti, dei loro doveri, delle problematiche territoriali e che il cambiamento deve prima partire da noi stessi.

Local Public Services in Times of Austerity across Mediterranean Europe Andrea Lippi, Theodore N. Tsekos, 2018-06-25 This book provides a comparative analysis of the processes and impacts of austerity measures introduced in the field of Local Public Services (LPS) across Mediterranean Europe. The book describes and compares the trajectories of austerity, and the types of effects. It investigates how many (and what kind of) different responses were given to similar inputs and under the influence of what factors in order to understand if there are regularities in the way that the Mediterranean countries adopted and implemented the austerity measures and how these latter impacted on local government and LPS management and delivery. The book is a product of a sub network from the COST Action LocRef IS1207 and analyses seven countries (Portugal, Spain, Italy, Greece, Croatia, Cyprus and Albania).

Social Media Activism Matteo Cernison, 2019-02-08 This book focuses on the referendums against water privatisation in Italy and explores how activists took to social media, ultimately convincing twenty-seven million citizens to vote.

Investigating the relationship between social movements and internet-related activism during complex campaigns, this book examines how a technological evolution-the increased relevance of social media platforms-affected in very different ways organisations with divergent characteristics, promoting at the same time decentralised communication practices, and new ways of coordinating dispersed communities of people. Matteo Cernison combines and adapts a wide set of methods, from social network analysis to digital ethnography, in order to explore in detail how digital activism and face-to-face initiatives interact and overlap. He argues that the geographical scale of actions, the role played by external media professionals, and the activists' perceptions of digital technologies are key elements that contribute in a significant way to shape the very different communication practices often described as online activism.
