Family Business: Building a sustainable future AA.VV., 2024-03-20T00:00:00+01:00 This work commemorates the twenty-fifth anniversary of the founding of the Italian Association of Family Enterprises (AIDAF). It does not adopt a retrospective perspective, nor is it a historical account. It is an essay about the future, taking the form of a dialogue between family businesses and the Italian academic community, combining scholarly rigor with pragmatism. It provides tangible points of reflection aimed at constructing and subsequently preserving the continuity and sustainability of the family-enterprise system. The dialogue is composed of twenty-five letters and their corresponding responses, organized into five sections: family, ownership, youth, business, and sustainability. The AIDAF-affiliated entrepreneurs pose inquiries on family business matters in the form of letters addressed to academics, who, in turn, provide concise essays in response. These exchanges encompass recurring issues such as generational succession, as well as more contemporary themes, such as sustainability and the management of large entrepreneurial families. The essay is not solely intended for AIDAF members; rather, it has been assembled to initiate a conversation with those who are involved with family businesses, including the new generations, entrepreneurs, managers, and professionals who collaborate with family enterprises, as well as students and enthusiasts of the subject. It is an invitation to those who harbor a curiosity about the world of family business. As in any dialogue, the hope here is to stimulate interest in continuing the exchange of perspectives, experiences, and knowledge, going beyond the pages of this book, and recognizing that the vitality and excellence of the fabric of family enterprises are fundamental for the development of a national system.

Hubachers Blocher Helmut Hubacher, 2017-03-01 Muss dieses Buch sein? Meine Gret meint: 'Blocher hängt mir zum Hals hinaus. Und ich bin nicht allein.' Jean-Stephane Bron, der linke Filmregisseur aus Lausanne, der den Film 'L'expérience Blocher' gedreht hat, sagt dazu: 'Unsere Gesellschaft, denke ich, weiss seit einigen Jahren nicht mehr so richtig, wie sie mit ihm umgehen soll.' Genau das hat mich gereizt. Christoph Blocher ist nun mal ein Phänomen. Von den einen geliebt und verehrt, von den anderen verteufelt und gehasst. Es gibt nur heiss oder kalt. Nie lauwarm. Als Linker hätte ich allen Grund, Blocher in Grund und Boden abzulehnen. Er hat meine Partei wie kaum ein anderer aufs Schändlichste diffamiert. Hat die SP mit dem Nationalsozialismus und mit dem Sowjetkommunismus in den gleichen Kübel geschmissen. Blocher hat die historische Rolle der SP für die Schweiz weder akzeptiert noch anerkannt. Dennoch: Es reicht nicht aus, mit gleicher Münze

zurückzuzahlen. Es reicht nicht aus, einfach gegen Blocher zu sein. Als Parteistrategie hat Blocher Einmaliges vollbracht. Dass die SVP von der kleinsten Bundesratspartei zur stärksten aufgestiegen ist, geht auf sein Konto. Wie er das geschafft hat, dafür gibts keinen Fairplay-Preis. Kein Mittel war ihm zu schlecht. Stets mit der SP als Hauptgegner im Visier. Filmregisseur Bron meint: 'Er braucht einen Gegner. Ohne ihn ist er entwaflnet.' Blochers Stossrichtung gegen die SP gilt aber auch der FDP und CVP. Weil sie hie und da mit der SP Kompromisse schliessen, werden sie als «Nette Linke» apostrophiert. Nach dem simplen Rezept: «Alle politisieren gegen die SVP. Alle sind halb, fast oder eben ganz links.» Deshalb «wählen Schweizer SVP». So der Wahlslogan 2011. Mit dem Anspruch, nur noch sie meine es gut mit der Schweiz. Zum Feindbild gehört die EU. Vermutlich liegt Blocher China näher als Brüssel. Denn diese EU gefährdet die Unabhängigkeit und Freiheit der Schweiz. Die keiner im Land aufgeben will. Dann wird das eben behauptet. Um Blochers missionarischen Kampf für diese Unabhängigkeit zu legitimieren. Blochers Machtanspruch ist unheimlich. Am liebsten würde er die SP zum Bundesrat hinauswerfen. Um als bürgerliche Allianz die Politik zu bestimmen. Unter Führung der SVP. Mit FDP und CVP als Satelliten. Was soll da ein Sozialdemokrat über Blocher ein Buch schreiben? Gerade deshalb. Um auch die Rolle der SP darzulegen. In der Absicht, Blocher nicht zu verteufeln. Er hat viel bewegt. Er zwingt zum Nachdenken. Und: Wut macht Mut zum Schreiben. Aus «Versuch eines Vorworts» von Helmut Hubacher

Cemeterians Jack W. Plunkett,2008 Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get

the job done! Not likely.

Capital and the Debt Trap Claudia Sanchez Bajo, Bruno Roelants, 2011-08-30 The financial crisis is destroying wealth but is also a remarkable opportunity to uncover the ways by which debt can be used to regulate the economic system. This book uses four case studies of cooperatives to give an in-depth analysis on how they have braved the crisis and continued to generate wealth.

Billionaires on Planet Earth: 1200 of the Most Influential Productive Capital Inspired Achievers Joseph J. Randazzo , 2019-11-23 “Billionaires are a unique fraternity and bread of humans that have excelled in the workforce more productive and creative than the successful entrepreneur, where timing in business supersedes talent and determination, persistence and sheer guts have shadowed and outreached college degrees.” Currently, there are over 2300 billionaires on planet Earth and growing each and every year. These individuals think and act differently thus resulting in extreme capital collections along with owning about 30% of the sports teams and massive collections of art, sacred writings, and toys. The category of women Billionaires seems to be growing fast in the USA, China, and Hong Kong, where most of the world's billionaires operate in the workforce. Although there may only be a handful of Super-Billionaires who amassed over \$50 Billion Dollars, the playing field is open in the future for many newcomers. What makes them different? What can we learn? Who’s next? Study the habits of, “Billionaires On Planet Earth” from 120 of the most successful. They are thrifty and consider basic cost. They are continuing a constant quest for learning the latest information. They know the value of exercise and smart food to secure wellness. They understand the value of rest, meditation and prayer. They start their day early and have a plan ready for action. They see things differently and act on them. They don’t understand, “No” as an answer. They are always possibility thinkers and then doers of action. They have learned, the more you give, the more you get in the realm of tithing, philanthropy and just old fashion basic giving back.

Governing Fear Gianfranco Baldini, Anna Cento Bull, 2009 In 2008, Silvio Berlusconi returned to power — thanks to a decisive electoral victory — to head a slimmer coalition whose cabinet consisted of members very close to him. The year began with the garbage crisis in Naples and ended in a climate dominated by economic uncertainty. In between some unexpected events happened: during the administrative elections, held with the general elections in April, the right in Rome

claimed many victories; for the first time ever, a woman, Emma Marcegaglia, was elected President of Confindustria; and the Alitalia airline had to be rescued from the brink of economic collapse. For consecutive months, opinion polls gave Berlusconi an unprecedented level of popular support; those polled attributed their approval to either his 'decisionism' or to what they viewed as a successful strategy of continual announcements. Others pointed to the executive's success in 'governing the fears' of Italians, which was helped by a change of register in the way the media dealt with issues of security. This volume shows that the politics of vetoes, which characterised the previous center-left government, could not conceal the structural, economic and social problems that still need to be resolved, a situation not helped by the fact that the opposition parties were still unable to develop an effective political strategy by yearend. With the contribution of Italian and international experts, the volume also addresses the issues of the difficult integration of immigrants, the mismanagement of public health and the reform of the education.

Rail Economics, Policy and Regulation in Europe Matthias Finger, Pierre Messulam, 2015-09-25 The European railway sector has undergone profound and predominantly institutional changes over the past 20 years, due to the initiatives of the European Commission. This book constitutes a first systematic assessment and account of the recent transformations of the industry along a series of critical yet contentious issues such as competition, unbundling, regulation, access charging, standards and interoperability, and public-private partnerships. It also covers the main railways sectors including passenger transport, high speed and freight.

Political Leaders Beyond Party Politics Fortunato Musella, 2017-07-31 This book studies party leaders from selection to post-presidency. Based on data covering a large set of Western countries, and focusing on the trends of personalisation of politics, the volume is one of the first empirical investigations into how party leaders are elected, how long they stay in office, and whether they enter and guide democratic governments. It also provides novel data on how leaders end their career in a broad and diverse range of business activities. Topics covered include political leaders' increasing autonomy, their reinforcement of popular legitimation, often through the introduction of direct election by party rank and file, and their grip on party organization. The book will appeal to students and scholars interested in political parties, political leadership, the transformation of democracy, and comparative politics.

New Paths for Selecting Political Elites Giulia Sandri,Antonella Seddone,2021-05-15 This book provides a cross-country study of the consequences of the expansion of intra-party democracy, the trend towards more inclusive methods of selection for party candidates and leaders, and the impact of these on political elites in terms of sociopolitical profile and patterns of careers. It explores the link between political organizations and political elites, by studying the role of parties in parliamentary and political selection and its impact on the political leadership appointed. Putting an emphasis on primary elections, it analyses the party elites that emerge from those selection processes and those democratized organizational settings. It focuses not only on the analysis of the processes through which party elites are selected and the consequences at the level of the party but also at the level of party elites themselves, i.e. what impact party primaries have on the characteristics parties' candidates and leaders. The book offers a theoretical, comparative, and empirical account of the internal electoral processes of parties and their impact on political recruitment. This book will be of key interest to scholars and students of political elites, political parties and party systems, electoral politics, democracy, populism, and leadership, and more broadly to comparative politics.
