La vita rivoluzionaria di una donna comune Alessandra Moretti, 2024-04-09T00:00:00+02:00 Alessandra Moretti,

avvocata prestata per passione alla politica, giovane vicesindaca di Vicenza, è salita sulla giostra della notorietà, non sempre a suo giovamento. L'hanno chiamata Ladylike, è stata il volto della campagna elettorale non vinta da Pier Luigi Bersani, ha preso 232.000 preferenze in terra leghista, è finita in prima pagina per un bacio estivo con un famoso giornalista, ha sfidato da sinistra il Veneto di Zaia - in una sonora, quanto annunciata sconfitta - ed è ripartita coraggiosamente verso traguardi politici importanti. Oggi siede nel Parlamento europeo, facendosi protagonista di importanti battaglie per dare voce e volto a chi spesso non può permettersi di scendere in piazza per la libertà: donne, migranti, giovani. Ma chi è Alessandra Moretti? E qual è la sua visione politica? Lo racconta in questo libro con passione e trasparenza, delineando il ritratto di una donna dalla vitalità trascinate, che riesce, anche se con fatica, a far convivere famiglia e impegno pubblico, scelte personali - un divorzio - e scelte politiche - una legge sul divorzio breve - due figli da accompagnare nella loro crescita e un partito alla cui evoluzione contribuire con energia e slancio, senza dimenticare l'importanza della propria identità personale e di una vita privata da custodire e reinventare ogni giorno. Questa è la storia di una determinazione tutta al femminile, fatta di pane e politica, di amore e disamore, una vita in prima linea: una storia comune e, proprio per questo, rivoluzionaria.

Politics and Big Data Andrea Ceron, Luigi Curini, Stefano Maria Iacus, 2016-12-19 The importance of social media as a way to monitor an electoral campaign is well established. Day-by-day, hour-by-hour evaluation of the evolution of online ideas and opinion allows observers and scholars to monitor trends and momentum in public opinion well before traditional polls. However, there are difficulties in recording and analyzing often brief, unverified comments while the unequal age, gender, social and racial representation among social media users can produce inaccurate forecasts of final polls. Reviewing the different techniques employed using social media to nowcast and forecast elections, this book assesses its achievements and limitations while presenting a new technique of sentiment analysis to improve upon them. The authors carry out a meta-analysis of the existing literature to show the conditions under which social media-based electoral forecasts prove most accurate while new case studies from France, the United States and Italy demonstrate how much more accurate sentiment

analysis can prove.

Trust Me, I'm Trouble Mary Elizabeth Summer,2024-03-29 JULEP THOUGHT SURVIVING THE MOB WAS HARD... ..but surviving her guilt is another thing entirely. Running her investigation agency is Julep's only distraction from her losses over the last few months. With a few new minions on Julep's payroll, she's been taking on various investigation jobs, including one for Mrs. Antolini--the wife of a computer engineer arrested for embezzling a whole lot of money from his company. She's convinced he did it at the behest of the New World Initiative, a leadership cult that just so happens to be run by a grifter who supposedly went straight. Julep's not so sure she wants the case--going up against any grifter, even an ex-grifter, is no joke--but Mrs. Antolini's story links to a mysterious blue fairy, and potentially to Julep's own missing mother. To complicate matters, someone's put a contract on Julep's head, so even if she manages to take down the con artist at the top of the New World Initiative, she may not live to tell the tale. With a war on multiple fronts, and her enigmatic shadow, Dani Ivanov, as her only protection, Julep must face the ghosts of her past to even have a chance at surviving the present. Will Julep escape the clutches of everyone who wants her dead? Worse, will she escape the burgeoning feelings she's been catching for her mob-enforcer bodyguard? Get the book now to find out! EDITORIAL REVIEWS The action moves as quickly and crisply as the dialogue... A clever romp that keeps readers guessing. --Kirkus Reviews I would trust Julep Dupree with my life, Dani Ivanov with my heart--and Mary Elizabeth Summer with my every late-night can't-stop-reading session. An intelligent, fierce heroine of strength and loyal heart who refuses to suffer fools lightly? Yes, please. --Jennifer Longo, award-winning author of *What I Carry* An irresistible mix of intrigue, high stakes, and self-discovery. --Lee Kelly, author of *City of Savages* and *The Antiquity Affair* An engaging, fast-paced read. --VOYA Magazine

Psychosynthesis Leadership Coaching Aubyn Howard, 2020-12-29 Psychosynthesis Leadership Coaching responds to the call of coaches who want to be able to work with the whole person, with the inner as well as the outer worlds, and not just at rational and behavioural levels but at emotional and spiritual levels as well. Psychosynthesis is unique amongst psychologies in the emphasis it places on self and will at the centre of human psychological functioning. This holistic and integrative

psychology provides the foundations for working with leaders in ways that respond to today's emergent crises. This book introduces psychosynthesis coaching to a wider audience and provides a comprehensive guide to this approach for both coaches and leaders. This book provides the context, models, methods, skills and techniques for coaches to engage with their clients within the larger context of Self and Will, alongside working on inner and outer agendas and goals of any description. Routledge Handbook of Primary Elections Robert G. Boatright, 2018-02-15 Primary elections have been used for the past century for most U.S. elective offices and their popularity is growing in other nations as well. In some circumstances, primaries ensure that citizens have a say in elections and test the skills of candidates before they get to the general election. Yet primaries are often criticized for increasing the cost of elections, for producing ideologically extreme candidates, and for denying voters the opportunity to choose candidates whose appeal transcends partisanship. Few such arguments have, however, been rigorously tested. This innovative Handbook evaluates many of the claims, positive and negative, that have been made about primaries. It is organized into six sections, covering the origins of primary elections; primary voters; US presidential primaries; US subpresidential primaries; primaries in other parts of the world; and reform proposals. The Routledge Handbook of Primary Elections is an important research tool for scholars, a resource guide for students, and a source of ideas for those who seek to modify the electoral process.
