*The Vatican Connection* Richard Hammer, 2016-08-09 Winner of the Edgar Award: The riveting account of an audacious fraud scheme that stretched from a Mafia hangout on the Lower East Side to the Vatican. With a round, open face and a penchant for tall tales, Matteo de Lorenzo resembled everyone's kindly uncle. But Uncle Marty, as he was known throughout the Genovese crime family, was one of the New York mob's top earners throughout the 1960s and '70s, the mastermind of a billion-dollar trade in stolen and counterfeit securities. In the spring of 1972, de Lorenzo and his shrewd and ruthless business partner, Vincent Rizzo, traveled to Europe to discuss a plan to launder millions of dollars worth of phony securities. Shockingly, the plot involved Archbishop Paul Marcinkus, the scandal-plagued president of the Vatican Bank. Unbeknownst to de Lorenzo and Rizzo, however, the NYPD was already on the case—thanks to the crusading work of Det. Joseph Coffey. Coffey, the legendary New York policeman who investigated the Lufthansa heist and took the Son of Sam's confession, first learned of the scheme in a wiretap related to the attempted mob takeover of the Playboy Club in Manhattan. From those unlikely beginnings, Detective Coffey worked tirelessly to trace the fraudulent stocks and bonds around the world and deep into the corridors of power in Washington, DC, and Rome. Meticulously researched and relentlessly gripping, *The Vatican Connection* is a true story of corruption and deceit, packed with "all the ingredients of a thriller" (San Francisco Chronicle).

**Deadly Secrets** Richard Hammer, 2018-03-27 From a multiple Edgar Award winner: Three gripping accounts of murder, betrayal, and greed that made headlines and shocked the nation. A Pulitzer Prize nominee for his landmark work, *The Court-Martial of Lt. Calley*, Richard Hammer is a fearless chronicler of the dark side of human nature. Here in one volume are three of his most electrifying true crime accounts. *The CBS Murders*: On a warm spring evening in New York City, four people were shot in a parking lot near the CBS television studios in Midtown. But detectives soon discovered that only one victim was the intended target; the others were eyewitnesses who tragically stumbled onto the scene of the crime. In this Edgar Award-winning account, the NYPD sets out on the trail of a merciless assassin, uncovering one of the most diabolical criminal conspiracies in the city's history. "A gripping police procedural." —Kirkus Reviews *Beyond Obsession*: Joyce Aparo seemed to be the perfect single mother, doting on her daughter, Karin. But behind closed doors, Joyce had been viciously abusing the sixteen-year-old violin prodigy for years. Then, Karin met the equally troubled Dennis Coleman, and the two fell head-over-heels into lustful infatuation. Soon after, Joyce's strangled body was found under a bridge. Dennis would

eventually confess to the murder, claiming Karin begged him to kill her mother. But Karin had a very different story to tell. Was this really a twisted case of love and obsession, or was Karin now manipulating the police the same way she manipulated her former boyfriend? “This true-crime tale has all the elements of a novel . . . A satisfying read.” —Library Journal

**The Vatican Connection:** Matteo de Lorenzo was one of the New York mob’s top earners when he and his ruthless business partner, Vincent Rizzo, traveled to Europe to discuss a plan to launder millions of dollars worth of phony securities. Their partner in crime? Archbishop Paul Marcinkus, the scandal-plagued president of the Vatican Bank. What they didn’t know was that Det. Joseph Coffey was already on their trail. The legendary New York policeman worked tirelessly to trace the fraudulent stocks and bonds around the world and deep into the corridors of power in Washington, DC, and Rome. This “explosive” Edgar Award winner has “all the ingredients of a thriller” (San Francisco Chronicle).

**Polo in Argentina** Horace A. Laffaye, 2014-06-04 This work--the first of its kind in more than sixty years--covers polo in Argentina, from its beginnings in the 1870s to the summer of 2013. The history of the early pioneers is constructed with data not previously published, gathered from contemporary sources. International competitions are covered and include the Olympic Games, the Cup of the Americas and the World Championships. Particular attention is given to the major clubs, the Argentine and Hurlingham Open Championships, and the National Handicap Tournament. Several of the elite players merit individual or family mini-biographies. Myths in Argentine polo are also debunked, based upon careful analysis of contemporary sources. Travels abroad by Argentine teams are fully described as are the foreign teams that competed in Argentina. The work is enhanced by the author's personal observation of significant events and friendship with many of the participants.

***The Crisis of the Italian State*** Patrick McCarthy, 1997-01-15 In the first full length English language account of the Clean Hands Crisis of the Italian government, Patrick McCarthy finds the roots of Berlusconi's rise and fall in the practices of clientalism, the machinations of the Mafia, the corporate direction of Fiat, the edicts of the Vatican, and even the organization of the Italian soccer game.

**The New Italian Republic** Stephen Gundle, Simon Parker, 2002-11 First published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

**Polo in Britain** Horace A. Laffaye, 2014-01-10 Ever since British soldiers returning from India in the mid-nineteenth century introduced their homeland to a fast-paced ball game on horseback, polo has remained the quintessential British sport. Although its origins lie in Asia, British pioneers are credited with both modernizing the game and spurring its spread worldwide. This volume chronicles the history of polo in the British Isles from its beginnings in the 1860s through the summer of 2011. It recounts the development of polo clubs, including the rise and fall of once mighty citadels of the game; describes the major competitions and many of the lesser tournaments in England and Ireland; and gives particular attention

to international contests. Biographical sketches of top players, from early innovators to current superstars, and reflections on current issues affecting the game, including the rise of commercialism and the decrease of civility and sportsmanship, complete this vivid panorama of British polo.

**The Vatican Exposed** Paul L. Williams,2009-09-25 Over 50 billion dollars in securities. Gold reserves that exceed those of industrialized nations. Real estate holdings that equal the total area of many countries. Opulent palaces containing the world's greatest art treasures. These are some of the riches of the Roman Catholic Church. Yet in 1929 the Vatican was destitute. Pope Pius XI, living in a damaged, leaky, pigeon-infested Lateran Palace, could hear rats scurrying through the walls, and he worried about how he would pay for even basic repairs to unclog the overburdened sewer lines and update the antiquated heating system. How did the Church manage in less than seventy-five years such an incredible reversal of fortune? The story here told by Church historian Paul L. Williams is intriguing, shocking, and outrageous. The turnaround began on February 11, 1929, with the signing of the Lateran Treaty between the Vatican and fascist leader Benito Mussolini. Through this deal Mussolini gained the support of the staunchly Catholic Italian populace, who at the time followed the lead of the Church. In return, the Church received, among other benefits, a payment of \$90 million, sovereign status for the Vatican, tax-free property rights, and guaranteed salaries for all priests throughout the country from the Italian government. With the stroke of a pen the pope had solved the Vatican's budgetary woes practically overnight, yet he also put a great religious institution in league with some of the darkest forces of the 20th century. Based on his years of experience as a consultant for the FBI, Williams produces explosive and never-before published evidence of the Church's morally questionable financial dealings with sinister organizations over seven decades through today. He examines the means by which the Vatican accrued enormous wealth during the Great Depression by investing in Mussolini's government, the connection between Nazi gold and the Vatican Bank, the vast range of Church holdings in the postwar boom period, Paul VI's appointment of Mafia chieftain Michele Sindona as the Vatican banker, a billion-dollar counterfeit stock fraud uncovered by Interpol and the FBI, the Ambrosiano Affair called the greatest financial scandal of the 20th Century by the New York Times, the mysterious death of John Paul I, profits from an international drug ring operating out of Gdansk, Poland, and revelations about current dealings. For both Catholics and non-Catholics this troubling expose of corruption in one of the most revered religious institutions in the world will serve as an urgent call for reform.

**Italian Politics** Richard S Katz,2018-05-04 This book describes all the crucial issues that defined Italian political and social life during 1994 and interpreted by renowned scholars from Italy, the United States, and Britain, who provide an indispensable guide for understanding Italy's political transformation.

**The Evolution of Polo** Horace A. Laffaye,2009-09-12 Tracing the evolution of polo from its origins in Central Asia to its current manifestation as a professional sport that attracts wealthy sponsors and patrons, this sociological study examines

how polo has changed according to the economic and cultural differences of the nations and continents where it is played. One hundred historic and modern photographs are included.

**The Liberation of Italy, 1943-1947** Dr. Luigi Villari, 2017-06-28 As both an observer and a participant in the stirring events during the period of the so-called Liberation of Italy, Dr. Villari describes the leading developments and personalities, from the plot to depose Mussolini to the harsh peace treaty imposed on Italy in 1947.

**From Party Politics to Personalized Politics?** Gideon Rahat, Ofer Kenig, 2018-06-21 What do Beppe Grillo, Silvio Berlusconi, Emmanuel Macron (and also Donald Trump) have in common? They are prime examples of the personalization of politics and the decline of political parties. This volume systematically examines these two prominent developments in contemporary democratic politics and the relationship between them. It presents a cross-national comparative comparison that covers around 50 years in 26 democracies through the use of more than 20 indicators. It offers the most comprehensive comparative cross-national estimation of the variance in the levels and patterns of party change and political personalization among countries to date, using existing works as well injecting fresh cross-national comparative data. In the case of party change, it offers an analysis that extends beyond the dichotomous debate of party decline versus party adaptation. In the matter of political personalization, the emphasis on variance helps in bridging between the high theoretical expectations and disappointing empirical findings. As for the theoretically sound linkage between the two phenomena, not only is this the first study to comprise a comprehensive cross-national examination, but it also proposes a more nuanced understanding of this relationship. Comparative Politics is a series for researchers, teachers, and students of political science that deals with contemporary government and politics. Global in scope, books in the series are characterised by a stress on comparative analysis and strong methodological rigour. The series is published in association with the European Consortium for Political Research. For more information visit: [www.ecprnet.eu](http://www.ecprnet.eu). The series is edited by Emilie van Haute, Professor of Political Science, Université libre de Bruxelles; Ferdinand Müller-Rommel, Director of the Center for the Study of Democracy, Leuphana University; and Susan Scarrow, John and Rebecca Moores Professor of Political Science, University of Houston.

The Media in Italy Matthew Hibberd, 2007-12-16 The Italian media - the press, cinema, radio and television - is one of the largest and most controversial media industries in mainland Europe. In this introductory text Matthew Hibberd explores the key historical processes and events in the growth and development of Italy's main media and considers it in the context of the economic, political, socio-cultural and technological movements that have affected Italy. Featuring a timeline of key Italian events, the book begins with the Unification - or Risorgimento - of Italy in 1861, and charts the rise of Italy from a fragmented and rural-based society through to a leading industrialised and urbanised world power. It details Fascism's reliance on the exploitation of the mass media, analyses Italy's remarkable post-war recovery, the development of democratic

institutions and the contribution that a pluralistic media has made to this. Finally, it examines Silvio Berlusconi's rise to high political office and questions whether the involvement of Italy's leading media mogul in politics has harmed Italy's international reputation. The Media in Italy addresses key themes that show how the Italian state and Italian media operate, such as: How governing parties and individuals have been able to assert influence over media intuitions Why there is a close relationship between political elites and media professionals The lack of consensus over key media reforms The importance of the Catholic Church in the development of the Italian media How a unique Italian media system has been shaped by issues of citizenship, democracy and nation-state The Media in Italy is key reading for students on media, journalism, politics, and modern language courses.

Italy Transformed Martin Bull,Gianfranco Pasquino,2020-06-09 The decade commencing with the great crash of 2008 was a watershed period for Italian politics, involving fundamental and dramatic changes, many of which had not been anticipated and which are charted in this book. This comprehensive volume covers the impact of the Eurozone crisis on the Italian economy and its relationship with the European Union, the dramatic changes in the political parties (and particularly the rise of a new political force, the Five Star Movement, which became the largest political party in 2013), the changing role of the Trade Unions in the lives of Italian citizens, the Italian migration crisis, electoral reforms and their impact on the Italian party system (where trends towards bipolarisation appear to be exhausted), the rise of new forms of social protest, changes to political culture and social capital and, finally, amidst the crisis, reforms to the welfare state. Overall, the authors reveal a country, which many had assumed was in quiet transition towards a more stable democracy, that suffers an immense shock from the Eurozone crisis and bringing to the fore deep-rooted structural problems which have changed the dynamics of its politics, as confirmed in the outcome to the 2018 National Elections. This book was originally published as a special issue of South European Society and Politics.

**Profiles in Polo** Horace A. Laffaye,2015-09-11 This book, with contributions from many of the world's leading polo journalists, profiles more than 30 of the most influential polo players from history. The players covered were selected for inclusion based on their overall impact on the game rather than their prowess on the field, although many covered are considered all-time greats. Each chapter covers an individual player, including early pioneers, those who played during the golden era (the years between World War I and World War II), superstars, game-changers, and great contemporaries. The book includes numerous photographs and a foreword by H.R.H. The Prince of Wales.

*The Great Reform That Never Was* Alessandro Chiaramonte,Alex Wilson,2017-12-15 In Italy, 2016 was meant to be the year of the great reform, a constitutional revision that would have concluded the never-ending transition from First to Second Republic, a long process involving several transformations in the electoral system and party system since the 1990s. It did not turn out this way. Instead, the Renzi-Boschi law for constitutional revision, which started its parliamentary procedure in

April 2014 and saw its final reading in the Chamber of Deputies in April 2016, was eventually rejected by voters in a confirmative referendum held on 4 December.

**The Polo Encyclopedia, 2d ed.** Horace A. Laffaye, 2015-03-24 In its greatly expanded second edition, this definitive reference work on the sport of Polo includes more than 18,000 alphabetical and cross-referenced entries covering players, teams, national and international tournaments, rules of the game, books on polo and their authors, as well as painters and sculptors of polo subjects. No other book includes as much information about the game in a single volume.

*Imprenditori a Roma nel secondo dopoguerra* AA. VV., 2016-01-03T00:00:00+01:00 Il libro ripercorre cinquanta anni della storia produttiva di Roma, ponendo al centro dell'analisi gli operatori economici. L'autrice scompone la descrizione della formazione del tessuto produttivo della capitale nel secondo dopoguerra in due distinti periodi; il primo, dagli anni Cinquanta agli anni Settanta, il secondo, dagli Ottanta al Duemila. La linea di demarcazione viene fissata negli anni Settanta, quando si esaurisce la spinta industriale impressa dal regime fascista e gli investimenti a Roma cominciano a spostarsi verso il terziario più avanzato. Mano a mano che la descrizione coinvolge i settori portanti dell'economia della capitale, l'autrice evidenzia caratteristiche e tratti salienti dei percorsi professionali di quegli imprenditori che hanno creduto nelle possibilità di crescita di una città economicamente difficile, particolarmente esposta alle fasi di congiuntura negativa; molti di loro sono riusciti a mantenere nel tempo vive ed operative le aziende, rinnovandole, sfidando la concorrenza internazionale, trasformandole in spa., diversificando, allargando il raggio d'azione oltre la frontiera nazionale. L'analisi degli operatori economici tiene conto di un modello imprenditoriale che, a partire dagli anni Cinquanta, muta a favore di una classe di investitori che non è più solo esogena, proveniente dalle zone economicamente più avanzate della penisola, e appartenente alla cultura del learning by doing, ma istruita ed aperta al confronto internazionale. In questo passaggio, la transizione generazionale assume un ruolo centrale. A partire dagli anni Ottanta, l'affermazione nella capitale di un ramo del terziario altamente innovativo come quello dei business services, impone ai giovani una più aggiornata mentalità imprenditoriale ed una formazione professionale ad hoc per guidare le piccole e medie aziende familiari; la capacità di innovare grazie a competenze altamente qualificate è ciò che oggi serve all'impresa per sostenere le sfide del mercato globale. Pia Toscano insegna Storia Economica e Storia dell'Impresa nella Facoltà di Economia dell'Università degli Studi di Cassino. Il filone principale dei suoi studi ha riguardato la storia dell'industria a Roma, coprendo il lungo arco di tempo che va dalla fase preunitaria alla seconda guerra mondiale. Oltre a numerosi articoli e saggi, ha dedicato all'argomento due monografie, Roma

produttiva tra Settecento e Ottocento. Il caso del San Michele a Ripa Grande e Le origini del capi talismo industrial e nel Lazio. Imprese e imprenditori a Roma dall'Unità alla Seconda guerra mondiale . Recentemente ha rivolto i suoi studi ad un tema di attualità quale quello del confronto generazionale all'interno del le piccole e medie imprese famigliari e al la ricostruzione, su base archivistica, della vicenda degli ebrei libici relativamente all 'impatto economico che questa collettività ha avuto, alla fine degli anni Sessanta del Novecento, sulla comunità ebraica della capitale.
