The Cambridge Handbook of Class Actions Brian T. Fitzpatrick, Randall S. Thomas, 2021-02-18 Economic activity is more globally integrated than ever before, but so is the scope of corporate misconduct. As more and more people across the world are affected by such malfeasance, the differences in legal redress have become increasingly visible. This transparency has resulted in a growing convergence towards an American model of robust private enforcement of the law, including the class-action lawsuit. This handbook brings together scholars from nearly two dozen countries to describe and assess the class-action procedure (or its equivalent) in their respective countries and, where possible, to offer empirical data on these systems. At the same time, the work presents a variety of multidisciplinary perspectives on class actions, from economics to philosophy, making this handbook an essential resource to academics, lawyers, and policymakers alike.

Enforcement and Effectiveness of Consumer Law Hans-W. Micklitz, Geneviève Saumier, 2018-07-06 The book focusses on the enforcement of consumer law in order to identify commonalities and best practices across nations. It is composed of twenty-eight contributions from national rapporteurs to the IACL Congress in Montevideo in 2016 and the introductory comparative general report. The national contributors are drawn from across the globe, with representation from Africa (1), Asia (5), Europe (15), Oceania (2) and the Americas (5). The general report proposes a general introduction to the question of enforcement and effectiveness of consumer law. It then proceeds to identify the variety of ways in which national legislatures approach this question and the diversity of mechanisms put in place to address it. The general report uses examples drawn from the reports to illustrate common approaches and to identify more original or distinct unique approaches, taking into account the reported strengths and weaknesses of each. The general report consistently points readers to particular national reports on specific issues, inviting readers to consult these individual contributions for more details. The national contributions deal with the following areas: the national legal framework for consumer protection, the general design of the enforcement mechanism, the number and characteristics of consumer complaints and disputes, the use of courts and specialized agencies for the enforcement of consumer law, the role of consumer organizations and of private regulation in the enforcement of consumer law, the place of collective redress mechanism and of alternative dispute resolution modes, the sanctions for breaches of consumer law and the nature of external relations or cooperation with other countries or international organizations. These enriching national and international perspectives offer a comprehensive overview of the

current state of consumer law around the globe.

Mass Torts in Europe Willem H. van Boom, Gerhard Wagner, 2014-10-14 In recent years, there has been a growing interest in the legal aspects of mass torts in Europe. Both academics, legislatures, courts and policymakers throughout the whole of Europe have been struggling with the challenges that such ‚massification‘ of private law relationships poses both in and outside of tort law. The subject moves between the law of civil procedure, substantive tort law, access to justice debates and regulatory frameworks for mass disputes. This volume offers both a kaleidoscopic review of real-life key cases of mass tort and an in-depth reflection on the broader implications of mass tort in Europe. Thus, the challenges posed by mass torts are explored, mapped and analysed.

Delivering Collective Redress Christopher Hodges, Stefaan Voet, 2018-05-03 This book charts the transformative shifts in techniques that seek to deliver collective redress, especially for mass consumer claims in Europe. It shows how traditional approaches of class litigation (old technology) have been eclipsed by the new technology of regulatory redress techniques and consumer ombudsmen. It describes a series of these techniques, each illustrated by leading examples taken from a 2016 pan-EU research project. It then undertakes a comparative evaluation of each technique against key criteria, such as effective outcomes, speed, and cost. The book reveals major transformations in European legal systems, shows the overriding need to view legal systems from fresh viewpoints, and to devise a new integrated model.

Mehr partizipative Demokratie wagen Jan Labitzke, 2015-10-09 Jan Labitzke analysiert empirisch anhand von ausgewählten Fallbeispielen die Arbeitsweise der Europäischen Kommission im Bereich ihrer Online-Konsultationen und bringt so Licht in die „black box“, als welche die Kommission häufig erscheint. Dabei diskutiert und kategorisiert der Autor Online-Konsultationen als Partizipationsinstrument vor dem Hintergrund der Theorien partizipativer Demokratie und „participatory governance“, um im Ergebnis deren Demokratisierungspotenzial zu bewerten.

OECD Reviews of Regulatory Reform: Italy 2009 Better Regulation to Strengthen Market Dynamics OECD, 2010-02-01 This review of regulatory reform in Italy presents a general picture of the overall regulatory reform frameworks in Italy, examining quality regulation, competition policy and professional services. The review also offers a special focus on multi-level governance.

The role of the Court in Collective Redress Litigation : Comparative Report Élodie Falla, 2014-03-18 The key question facing European policy-makers is how to enable collective redress proceedings without producing the undesirable consequences that are associated with the U.S. class action model. How is it possible to find the balance between providing compensation for legitimate claims and preventing unmeritorious claims? If the system encourages the vast majority of claims to be settled, how can it avoid the ‚blackmail effect‘, which means it will be cheaper for defendants to settle unmeritorious claims than to fight them? How is it possible to avoid excessive transactional costs? etc. In this report, it is

considered that one of the of the important safeguards against the abuses of the U.S. class action system could be the active role of the court in collective redress litigation. Research is needed to see what concrete judicial powers are the most important in that respect. This report tries to achieve this challenge. The first part of the report consists in a comparative analysis of national rules and case law in six Member States (United Kingdom (England & Wales), Germany, Italy, Portugal, Spain and Sweden) to identify which powers of the court in a collective redress trial ensure fair proceedings for both parties and act as safeguards against potential abuses of the system. Cases have been selected to illustrate the issues that arise and some of the creative solutions that have been applied so far by the courts at each stage of a collective redress procedure. The second part of this report aims at looking ahead to ways in which recommendations for an optimal balanced framework for a European collective redress mechanism would be formulated. The result of the case analyses set out in this report attempts to demonstrate whether the European Union might be able to introduce an attractive approach towards collective redress which builds on previous knowledge by fusing different national approaches and provides benefits to consumers, competitors and the economy, without harmful risks.

Die partizipative Demokratie, also das Regieren gemeinsam mit der Zivilgesellschaft, ist ein Kernpunkt der europäischen Verfassung. Die Autorinnen untersuchen diesen Anspruch auf Bürgernähe empirisch, analysieren, auf welche Weise die zivilgesellschaftliche Einbindung tatsächlich erfolgt, und prüfen, inwieweit die politische Praxis das Qualitätsmerkmal partizipative Demokratie verdient.

L'uomo che amava una stella Antonio Chiummo, 2012-12-10 Nel mondo, le donne del cinema sono considerate delle stelle... perciò era partito dal suo Paese per scoprire se esisteva veramente, in quest'ambiente, l'amore così come gli era stato raccontato tante volte. Arrivato nella "Città degli Orpelli" incominciò la sua ricerca dagli Studios dove credeva d'incontrare quest'affetto attraverso la spontaneità di una donna considerata, da tutti gli addetti ai lavori, la regina della settima arte, che con il suo modo di mitizzare l'amore influenzava la vita di tutti. E mentre alcuni seguivano il credo di questa

Regina, altri cercavano di castigare questi uomini facendogli diventare la vita un inferno. Questi castigatori erano dei manager avari, non ben identificati che si specializzarono nel produrre e distribuire film. L'idea era di creare delle immagini che dovevano incantare le persone in divine armonie e contendere ai miti il modo velato di trasmettere una cultura. E quando l'amore dei miti fu sostituito dall'amore di questi manager, i protagonisti divennero le maschere di un carosello di esercizi, di evoluzioni e giochi amorosi che quando incontravano l'amore vero lo castigavano, per poi continuare per la propria strada. Caroselli fantastici e prodigiosi che durarono fino a quando una notte ricomparve questa regina con tutta la sua bellezza e con una luce basata sul mito dell'amore capace di contendere a questa città e ai suoi film il suo modo di incantare la gente. Un mito che aveva convinto anche quel ragazzo di campagna che era venuto da lontano per trovare il suo incastro di luce e di amore. Ma lui deluso decise di ritornare a casa, mentre lei cercava di convincerlo a restare... ci riuscirà?

Ius dicere in a globalized world. A comparative overview (Vol. 2) Chiara Antonia d'Alessandro, Claudia Marchese, 2018-03-01 Cosa si intende oggi per "giurisdizione"? Questa nozione memorabile sta cambiando nelle società contemporanee sempre più globalizzate? Quali sono le nuove sfide e i nuovi territori che è necessario scoprire? Trentaquattro studiosi, dall'Italia, dall'Europa e da altre culture giuridiche offrono, in una serie di saggi in italiano e in inglese, la versione aggiornata ed arricchita delle relazioni presentate al XXIV Colloquio biennale della Associazione Italiana di Diritto Comparato (AIDC) tenutosi nel giugno 2017 a Napoli. I contributi hanno una prospettiva ampia e comparata, guardando ai sistemi esistenti, alle esperienze di successo e ai fallimenti, ai modelli che si è potuto trapiantare, oppure che hanno determinato un rigetto. La nozione di "giurisdizione" richiede di essere costantemente misurata nei suoi rapporti con gli altri poteri costituzionali, con l'emergere di nuove controversie e di nuovi attori, con le teorie giuridiche e politiche.
