Elections in Hard Times: Southern Europe 2010-11 Anna Bosco, Susannah Verney, 2016-04-08 Southern Europe has been at the heart of the European sovereign debt crisis and in the vanguard of the programmes of radical economic austerity implemented to confront it. During the first two crisis years, the consequences for domestic political stability were dramatic. Across the region, 2010-11 saw the overthrow of incumbent governments, the breaking down of established political affiliations and the emergence of new political actors. The culmination was the simultaneous downfall of three South European governments in the space of eighteen days in November 2011. This volume offers a collection of case studies of the twelve popular votes during this period in Italy, Greece, Portugal, Spain, Turkey, Cyprus and the Turkish Cypriot community. The contests include legislative, presidential and sub-national elections and a national-level referendum. In our control case, Turkey, there was no economic crisis and no government change. Elsewhere in Southern Europe, the studies indicate the progression of the crisis, from the limited disapproval of Berlusconi government registered in the Spring 2010 Italian regional election to the electoral collapse of the Spanish socialists in late 2011. The volume indicates a build-up of popular frustration with the democratic process which can only be dangerous for the future of South European democracy. This book was published as a special issue of South European Society and Politics.

The Changing Administrative Law of an EU Member State Domenico Sorace, Leonardo Ferrara, Ippolito Piazza, 2020-09-26 This book presents the evolution of Italian administrative law in the context of the EU, describing its distinctive features and comparing it with other experiences across Europe. It provides a comprehensive overview of administrative law in Italy, focusing on the main changes occurred over the last few decades. Although the respective chapters generally pursue a legal approach, they also consider the influence of economic, social, cultural and technological factors on the evolution of public administration and administrative law. The book is divided into three parts. The first part addresses general issues (e.g. procedures and organization of public administrations, administrative justice). The second part focuses on more specific topics (e.g. public intervention in the economy, healthcare management, local government). In the third part, the evolution of Italian administrative law is discussed in a comparative perspective.

Staatshaftung in Europa Oliver Dörr, 2013-12-12 Das Handbuch bietet erstmals eine systematische Darstellung der Staatshaftungssysteme in den EU-Mitgliedstaaten sowie in der Schweiz und der Türkei. Gemeinsamkeiten und Unterschiede

in den verschiedenen Rechtsordnungen der europäischen Staaten werden aufgezeigt, in den Kontext des Unionsrechts gestellt und Ansätze für ein künftig einheitliches Staatshaftungsrecht skizziert. Das Werk enthält zum einen mehr als zwanzig Berichte über die Staatshaftungsregimes in den Einzelstaaten; zum anderen erläutert ein übergreifender Sachbericht den gesamteuropäischen Kontext und zieht vergleichende Schlussfolgerungen zu den einzelnen Sachthemen. Aus der Zusammenschau der nationalen Staatshaftungssysteme mit dem Stand der richterrechtlich entwickelten Unionshaftung wird das Staatshaftungsrecht in der EU umfassend analysiert sowie seine Entwicklungsmöglichkeiten auf der Grundlage allgemeiner Rechtsgrundsätze bestimmt.

Administrative Regulation Beyond the Non-Delegation Doctrine Marta Simoncini, 2018-06-28 The importance of administration in the EU has been growing progressively together with the development of EU competences and tasks in the internal market. From the original model of a Community leaving enforcement with the Member States, the EU has become a complex legal order where administrative tasks are spread among different actors, including EU institutions, EU agencies and national administrations. Within this complex administrative law landscape, agencies and their powers have been essentially 'upgraded'. This volume asks whether any such 'upgrade' is compatible with EU law and its principles. Exploring both the case law of the CJEU and the regulation relating to EU agencies, the volume asks a crucial question about the legitimacy of the ever-increasing role of agencies in the enforcement of EU law.

Antitrust between EU law and national law / Antitrust fra diritto nazionale e diritto dell'Unione Europea Enrico Adriano Raffaelli, 2013-02-22 This work contains the papers of the Tenth Conference on "Antitrust between EU Law and national law", held in Treviso on May 17 and 18, 2012 under the patronage of the European Lawyers Union - Union des Avocats Européens (UAE), the Associazione Italiana per la Tutela della Concorrenza - the Italian section of the Ligue Internationale du Droit de la Concurrence (LIDC)-, the Associazione Italiana Giuristi di Impresa (AIGI), the European Company Lawyers Association (ECLA), and the Associazione Antitrust Italiana (AAI). Some of the papers have been extensively reviewed and updated by the authors prior to publication. Contributions contained in this volume are the result of an in-depth analysis and study of the most salient issues arising from the application of antitrust rules, carried out by experienced and high-ranking professionals, company lawyers, academics and EU/national institutional representatives who attended the Conference. They deal with extremely topical issues, lying at the heart of current antitrust debate. Some of the most contemporary topics include those relative to the large-scale distribution sector and the control of concentrations at both national and European level. Ample consideration is also given to salient antitrust issues encountered in undertakings' day-to-day business life, as well as to the future of antitrust in the global economy, also in the light of the new powers

recently attributed to the Italian Antitrust Authority to challenge administrative acts. This volume also includes some precious insights on the assessment and quantification of damages in antitrust infringements, from both an economic and legal perspective, as well as reflections on the role of judges in the application of antitrust law, also following the principles set forth by the European Court of Human Rights in the well-known Menarini case.

Verfassungsrechtliche Grenzen und Anforderungen der Privatisierung hoheitlicher Staatsaufgaben in Deutschland, Frankreich und den USA Lars Hunze, 2017-09-05 English summary: A legal evaluation of projects related to the privatisation of traditional government functions is not limited to questions of constitutional law. A comparative approach to the legal challenges of privatisations allows far-reaching legal and cultural implications to be identified as well as addressing elements of the theory of state. German description: Privatisierungen stellen ein Instrument der Wahrnehmung staatlicher Aufgaben jenseits einer tradierten Verwaltungsstruktur und unter Beteiligung nichtstaatlicher Akteure dar. Aus der Perspektive kontinentaler Juristen führen Privatbeteiligungen an Staatsaufgaben zu massiven rechtlichen Friktionen. Die Rechtsordnungen Frankreichs, Deutschlands und der USA reagieren auf die Herausforderungen entsprechender Privatisierungsvorhaben jeweils auf charakteristische Art und Weise. Anhand einer Analyse des institutionellen Kontexts der Privatisierungsentscheidung, der Bestimmbarkeit eines staatsimmanenten Aufgabenkerns und von Normen, die im Einzelfall eine verfassungsrechtliche Privatisierungssteuerung bewirken, sucht Lars Hunze stilprägende Elemente der Vergleichsrechtsordnungen sichtbar zu machen. Er vereint dogmatische, rechtsvergleichende und staatstheoretische Betrachtungen.

Codification of Administrative Procedure Jean-Bernard Auby, 2013-11-27 The law on administrative procedure regulates the processes through which administrative decisions and administrative projects are elaborated. It is more and more regarded as essential in administrative laws: it is really considered as the central part of it in some systems. In many jurisdictions, rules concerning administrative procedure are codified, gathered in a single piece of general legislation: in a few, it remains non codified. The book is made of the different contributions presented on the topic to the last congress of the International Academy of International Law (Taipei, 2012): national reports on twenty countries and a general report. These contributions examine the way administrative procedure became codified, the obstacles which had to be overcome, the main orientations of the codes, their evolution in time; alternatively, they explain why administrative procedure is not codified. Providing extensive materials on an issue which is a concern in many administrative laws and many administrative systems, the book is intended for all searchers and experts in administrative law and public management, whether academics or practitioners.

European Cities and Global Competitiveness Peter Karl Kresl, Daniele Ietri, 2012-09-30 Europe is in a troubled state. The macroeconomic situation looks grim, national governments are close to dysfunction, and Europeans are facing austerity and relative decline. The one bright spot on the horizon is the potential for positive action at the level of the city and urban regions. In this book, the editors have assembled a collection of original contributions by scholars from Europe, North America and Asia who offer insights as to how local authorities in Europe might be able to chart a course for their city or urban region during this period of extraordinary difficulty. The volume begins with an Introduction, followed by a set of three papers in Part Two examining European urban competitiveness from the standpoints of measurement and policy. This section also provides a case study of the cities of one country _ Italy _ from which the reader can gain an understanding of the current position of European cities as well as what might be possible going forward. Experience has shown that perhaps the most crucial element in competitiveness enhancement is good and effective governance. To that end, Part Three examines structural aspects of urban government, including polycentric regions, wide metropolitan cooperation, the role of social

actors and territorial aggregation. Part Four treats issues of innovation from two perspectives and provides a case study from Eindhoven, while also covering social issues such as demographics, participation, social exclusion and mobility. This set of scholarly reflections will be of considerable benefit to urban practitioners, researchers and students of public policy.

Manuale dell'illecito amministrativo Giuseppe Napolitano, 2013-02 Dopo oltre trent'anni dall'entrata in vigore della Legge n. 689/1981, non si può avere più timore nell'affermare che la funzione sanzionatoria amministrativa ha raggiunto una sua dignità strutturale idonea a ritenere che l'illecito amministrativo possa essere governato senza dover ricorrere ad istituti affini prelevati da altre branche dell'ordinamento. A dispetto di questo consolidamento si deve rilevare, tuttavia, che permane ancora una cospicua superficialità nel trattare siffatta materia: superficialità che attiene sia alla fase dell'accertamento delle violazioni che al modo in cui si affronta il contenzioso che ne deriva. Il presente studio, vuole mettere in condizione, chiunque debba cimentarsi con questa materia, di trovare risposte ragionevoli ad ogni problematica che si possa profilare, tanto sul piano dell'accertamento delle violazioni, quanto sul piano della aggressione ai vizi rilevabili da provvedimenti sanzionatori in sede giurisdizionale. Un manuale che ha una funzione bivalente perché orientato sia verso gli esercenti la professione forense che verso gli operatori di polizia; un'opera di spiccato contenuto pratico che non manca di quel necessario supporto teorico che è indispensabile alla piena comprensione e gestione degli istituti che sono alla base delle sanzioni amministrative che sempre più vanno ad occupare, in linea con le recenti politiche legislative di reazione all'illecito, fette più ampie di estrinsecazione della punizione pubblicistica. Giuseppe Napolitano, avvocato, dottore di ricerca in diritto amministrativo e specialista in scienze dell'Amministrazione, si occupa - fin dalla metà degli anni novanta - dell'illecito amministrativo, affrontando la materia sia sul piano teorico nel contesto del suo impegno universitario, che sul versante pratico, organizzando e gestendo la tutela legale pubblica delle sanzioni amministrative per conto di diversi enti pubblici. A tale esperienza si affianca quella di Comandante di Polizia Locale, idonea a comprendere e valutare le criticità insite nelle attività di accertamento delle violazioni punite con sanzioni amministrative.

The Struggle with Leviathan Emiel Lamberts, 2016-05-02 A panoramic picture of international politics and the formation of the modern State The opposition to the omnipotence of the State - as symbolised by Thomas Hobbes' Leviathan (1651) - had a significant impact on the political organisation of European society. A liberal strategy intended to provide a protective legal status for individual citizens, whereas a social strategy aimed to strengthen the social fabric to counterbalance the power of the State. Gradually both strategies became interwoven. The Struggle with Leviathan pays special attention to the social strategy, developed by conservative and ecclesiastical circles against the omnipotence of the State, and is structured around the fascinating biography of the Austrian diplomat Gustav von Blome, a grandson of Metternich and an important opponent of Bismarck. He proved to be a transitional figure between aristocratic conservatism and Christian democracy, which had a great influence on European integration after 1945. Besides Blome, several other

dramatis personae - statesmen, prelates, political and social activists - are featured. As a result the book reads like a compelling narrative. At the same time, it offers a broadly sketched historical fresco of international politics and the gradual formation of the modern State. The original Dutch edition of this book, *Het gevecht met Leviathan*, has been highly praised in the Dutch and Flemish press, and was awarded the biennial international Arenberg Prize for European History and Culture.

Environmental Crime in Europe Andrew Farmer, Michael Faure, Grazia Maria Vagliasindi, 2017-12-14 Environmental crime is a growing challenge for policy makers and law enforcers. This is an important and timely study which examines in depth how environmental crime is treated at national level within the European Union and the impact of the 2008 EU Directive on environmental crime on national systems. It will be required reading by anyone concerned with making environmental law more effective. Richard Macrory, Emeritus Professor, University College London The aim of this important new collection is to explore how environmental crime is controlled and environmental criminal law is shaped and implemented within the European Union and its Member States. It examines the legal framework, looking in particular at Directive 2008/99/EC, and the specific competences of the EU in this domain. In addition, it provides a detailed analysis of environmental criminal law in seven Member States, focusing inter alia on the basic legislation, the way in which environmental pollution is criminalised and the main actors in place to enforce environmental criminal law. In so doing, it provides a much needed explanation of the evolution of environmental criminal law in Europe at Union level and how this is implemented in selected Member States.

Statistical Methods and Applications from a Historical Perspective Fabio Crescenzi, Stefania Mignani, 2014-06-19 The book showcases a selection of peer-reviewed papers, the preliminary versions of which were presented at a conference held 11-13 June 2011 in Bologna and organized jointly by the Italian Statistical Society (SIS), the Institute national Institute of Statistics (ISTAT) and the Bank of Italy. The theme of the conference was Statistics in the 150 years of the Unification of Italy. The celebration of the anniversary of Italian unification provided the opportunity to examine and discuss the methodological aspects and applications from a historical perspective and both from a national and international point of view. The critical discussion on the issues of the past has made it possible to focus on recent advances, considering the studies of socio-economic and demographic changes in European countries.

The Politics of Public Administration Reform in Italy Sabrina Cavatorto, Antonio La Spina, 2020-06-24 This book provides a stimulating presentation of the Italian administrative system through an empirical and critical perspective on the processes of administrative reform at the national level. It focuses on some of the most recent changes developed during the years of austerity and fiscal crisis and offers an updated perspective on the attempts made by Italian governments to modernize national public administration through the 'new public management' and 'governance' paradigms. These frameworks have been suggested as models to enhance efficiency, transparency, accountability and public participation. The book studies

international and supranational influence, policy diffusion, domestic politics and institutional dynamics, administrative traditions, and functional explanations—all determinants of policy outputs and outcomes, and possibly of policy learning as well. This book is the first to set out such a comprehensive and up-to-date analysis for non-Italian readers.

The EU Charter of Fundamental Rights Steve Peers, Tamara Hervey, Jeff Kenner, Angela Ward, 2014-12-01 The Charter of Fundamental Rights of the European Union enshrines the key political, social and economic rights of EU citizens and residents in EU law. In its present form it was approved in 2000 by the European Parliament, the Council of Ministers and the European Commission. However its legal status remained uncertain until the entry into force of the Treaty of Lisbon in December 2009. The Charter obliges the EU to act and legislate consistently with the Charter, and enables the EU's courts to strike down EU legislation which contravenes it. The Charter applies to EU Member States when they are implementing EU law but does not extend the competences of the EU beyond the competences given to it in the treaties. This Commentary on the Charter, the first in English, written by experts from several EU Member States, provides an authoritative but succinct statement of how the Charter impacts upon EU, domestic and international law. Following the conventional article-by-article approach, each commentator offers an expert view of how each article is either already being interpreted in the courts, or is likely to be interpreted. Each commentary is referenced to the case law and is augmented with extensive references to further reading. Six cross-cutting introductory chapters explain the Charter's institutional anchorage, its relationship to the Fundamental Rights Agency, its interaction with other parts of international human rights law, the enforcement mechanisms, extraterritorial scope, and the all-important 'Explanations'.

Good Administration and the Council of Europe Professor for Public Law German and European Administrative Law Ulrich Stelkens, Ulrich Stelkens, Agn:e Andrijauskait:e, 2020-09-10 This book seeks to find an answer to the question of how to rule a state well by drawing on a range of organizational, procedural, and substantive standards of administrative conduct developed within the framework of the Council of Europe (CoE) as an organization of a broader scope than the European Union.
