Elections in Hard Times: Southern Europe 2010-11 Anna Bosco, Susannah Verney, 2016-04-08 Southern Europe has been at the heart of the European sovereign debt crisis and in the vanguard of the programmes of radical economic austerity implemented to confront it. During the first two crisis years, the consequences for domestic political stability were dramatic. Across the region, 2010-11 saw the overthrow of incumbent governments, the breaking down of established political affiliations and the emergence of new political actors. The culmination was the simultaneous downfall of three South European governments in the space of eighteen days in November 2011. This volume offers a collection of case studies of the twelve popular votes during this period in Italy, Greece, Portugal, Spain, Turkey, Cyprus and the Turkish Cypriot community. The contests include legislative, presidential and sub-national elections and a national-level referendum. In our control case, Turkey, there was no economic crisis and no government change. Elsewhere in Southern Europe, the studies indicate the progression of the crisis, from the limited disapproval of Berlusconi government registered in the Spring 2010 Italian regional election to the electoral collapse of the Spanish socialists in late 2011. The volume indicates a build-up of popular frustration with the democratic process which can only be dangerous for the future of South European democracy. This book was published as a special issue of South European Society and Politics.

Staatshaftung in Europa Oliver Dörr, 2013-12-12 Das Handbuch bietet erstmals eine systematische Darstellung der Staatshaftungssysteme in den EU-Mitgliedstaaten sowie in der Schweiz und der Türkei. Gemeinsamkeiten und Unterschiede in den verschiedenen Rechtsordnungen der europäischen Staaten werden aufgezeigt, in den Kontext des Unionsrechts gestellt und Ansätze für ein künftig einheitliches Staatshaftungsrecht skizziert. Das Werk enthält zum einen mehr als zwanzig Berichte über die Staatshaftungsregimes in den Einzelstaaten; zum anderen erläutert ein übergreifender Sachbericht den gesamteuropäischen Kontext und zieht vergleichende Schlussfolgerungen zu den einzelnen Sachthemen. Aus der Zusammenschau der nationalen Staatshaftungssysteme mit dem Stand der richterrechtlich entwickelten Unionshaftung wird das Staatshaftungsrecht in der EU umfassend analysiert sowie seine Entwicklungsmöglichkeiten auf der Grundlage allgemeiner Rechtsgrundsätze bestimmt.

**The Changing Administrative Law of an EU Member State** Domenico Sorace, Leonardo Ferrara, Ippolito Piazza, 2020-09-26 This book presents the evolution of Italian administrative law in the context of the EU, describing its distinctive features and comparing it with other experiences across Europe. It provides a comprehensive overview of administrative law in Italy, focusing on the main changes occurred over the last few decades. Although the respective chapters generally pursue a legal approach, they also consider the influence of economic, social, cultural and technological factors on the evolution of public administration and administrative law. The book is divided into three parts. The first part addresses general issues (e.g. procedures and organization of public administrations, administrative justice). The second part focuses on more specific topics (e.g. public intervention in the economy, healthcare management, local government). In the third part, the evolution of Italian administrative law is discussed in a comparative perspective.

**Administrative Regulation Beyond the Non-Delegation Doctrine** Marta Simoncini, 2018-06-28 The importance of administration in the EU has been growing progressively together with the development of EU competences and tasks in the internal market. From the original model of a Community leaving enforcement with the Member States, the EU has become a complex legal order where administrative tasks are spread among different actors, including EU institutions, EU agencies and national administrations. Within this complex administrative law landscape, agencies and their powers have been essentially 'upgraded'. This volume asks whether any such 'upgrade' is compatible with EU law and its principles. Exploring both the case law of the CJEU and the regulation relating to EU agencies, the volume asks a crucial question about the legitimacy of the ever-increasing role of agencies in the enforcement of EU law.

Verfassungsrechtliche Grenzen und Anforderungen der Privatisierung hoheitlicher Staatsaufgaben in Deutschland, Frankreich und den USA Lars Hunze, 2017-09-05 English summary: A legal evaluation of projects related to the privatisation of traditional government functions is not limited to questions of constitutional law. A comparative approach to the legal challenges of privatisations allows far-reaching legal and cultural implications to be identified as well as addressing elements of the theory of state. German description: Privatisierungen stellen ein Instrument der Wahrnehmung staatlicher Aufgaben jenseits einer tradierten Verwaltungsstruktur und unter Beteiligung nichtstaatlicher Akteure dar. Aus der Perspektive kontinentaler Juristen führen Privatbeteiligungen an Staatsaufgaben zu massiven rechtlichen Friktionen. Die Rechtsordnungen Frankreichs, Deutschlands und der USA reagieren auf die Herausforderungen entsprechender Privatisierungsvorhaben jeweils auf charakteristische Art und Weise. Anhand einer Analyse des institutionellen Kontexts der Privatisierungsentscheidung, der Bestimmbarkeit eines staatsimmanenten Aufgabenkerns und von Normen, die im Einzelfall eine verfassungsrechtliche Privatisierungssteuerung bewirken, sucht Lars Hunze stilprägende Elemente der

Vergleichsrechtsordnungen sichtbar zu machen. Er vereint dogmatische, rechtsvergleichende und staatsrechtliche Betrachtungen.

*Good Administration and the Council of Europe* Ulrich Stelkens, Agnè Andrijauskaitė, 2020-09-11 Good Administration and the Council of Europe: Law, Principles, and Effectiveness examines the existence and effectiveness of written and unwritten standards of good administration developed within the framework of the Council of Europe (CoE) and in the case law of the European Court of Human Rights. These standards - called 'pan-European general principles of good administration' - cover the entire range of general organizational, procedural, and substantive legal institutions meant to ensure a democratically legitimized, open, and transparent administration respecting the rule of law. They are about the 'limiting function' of administrative law: its function to protect individuals from arbitrary power, to legitimize administrative action, and to combat corruption. This book analyses the sources and functions of the pan-European general principles of good administration and seeks to uncover how deeply they are rooted in the domestic legal systems of the CoE Member States. It comprises 28 country reports dedicated to an in-depth exploration of the impact of these standards on the national legal systems of the Member States written by respective experts on these systems. It argues that the pan-European general principles of good administration lead to a certain harmonization of the legal orders of the Member States with regard to the limiting function of administrative law despite the many fundamental differences between their administrative and legal systems. It comes to the further conclusion that the pan-European general principles of good administration can be considered as a concretization of the founding values of the CoE and describes the 'administrative law obligations' a Member State entered into when joining the CoE.

Antitrust between EU law and national law / Antitrust fra diritto nazionale e diritto dell'Unione Europea Enrico Adriano Raffaelli, 2013-02-22 This work contains the papers of the Tenth Conference on "Antitrust between EU Law and national law", held in Treviso on May 17 and 18, 2012 under the patronage of the European Lawyers Union - Union des Avocats Européens (UAE), the Associazione Italiana per la Tutela della Concorrenza - the Italian section of the Ligue Internationale du Droit de la Concurrence (LIDC)-, the Associazione Italiana Giuristi di Impresa (AIGI), the European Company Lawyers Association (ECLA), and the Associazione Antitrust Italiana (AAI). Some of the papers have been extensively reviewed and updated by the authors prior to publication. Contributions contained in this volume are the result of an in-depth analysis and study of the most salient issues arising from the application of antitrust rules, carried out by experienced and high-ranking professionals, company lawyers, academics and EU/national institutional representatives who attended the Conference. They deal with extremely topical issues, lying at the heart of current antitrust debate. Some of the most contemporary topics include those relative to the large-scale distribution sector and the control of concentrations at both national and European level. Ample consideration is also given to salient antitrust issues encountered in undertakings' day-to-day business life, as well as to the future of antitrust in the global economy, also in the light of the new powers recently attributed to the Italian Antitrust Authority to challenge administrative acts. This volume also includes some precious insights on the assessment and quantification of damages in antitrust infringements, from both an economic and legal perspective, as well as reflections on the role of judges in the application of antitrust law, also following the principles set forth by the European Court of Human Rights in the well-known Menarini case.

European Cities and Global Competitiveness Peter Karl Kresl, Daniele Ietri, 2012-09-30 Europe is in a troubled state. The macroeconomic situation looks grim, national governments are close to dysfunction, and Europeans are facing austerity and relative decline. The one bright spot on the horizon is the potential for positive action at the level of the city and urban regions. In this book, the editors have assembled a collection of original contributions by scholars from Europe, North

America and Asia who offer insights as to how local authorities in Europe might be able to chart a course for their city or urban region during this period of extraordinary difficulty. The volume begins with an Introduction, followed by a set of three papers in Part Two examining European urban competitiveness from the standpoints of measurement and policy. This section also provides a case study of the cities of one country \_ Italy \_ from which the reader can gain an understanding of the current position of European cities as well as what might be possible going forward. Experience has shown that perhaps the most crucial element in competitiveness enhancement is good and effective governance. To that end, Part Three examines structural aspects of urban government, including polycentric regions, wide metropolitan cooperation, the role of social actors and territorial aggregation. Part Four treats issues of innovation from two perspectives and provides a case study from Eindhoven, while also covering social issues such as demographics, participation, social exclusion and mobility. This set of scholarly reflections will be of considerable benefit to urban practitioners, researchers and students of public policy.

Administrative Tribunals and Adjudication Peter Cane,2009-08-03 Among the many constitutional developments of the past century or so, one of the most significant has been the creation and proliferation of institutions that perform functions similar to those performed by courts but which are considered to be, and in some ways are, different and distinct from courts as traditionally conceived. In much of the common law world, such institutions are called 'administrative tribunals'. Their main function is to adjudicate disputes between citizens and the state by reviewing decisions of government agencies - a function also performed by courts in 'judicial review' proceedings and appeals. Although tribunals in aggregate adjudicate many more such disputes than courts, tribunals and their role as dispensers of 'administrative justice' receive relatively little scholarly attention. This wide-ranging book-length treatment of the subject compares tribunals in three major jurisdictions: Australia the UK and the US. It analyses and offers an account of the concept of 'administrative adjudication', and traces its historical development from the earliest periods of the common law to the twenty-first century. There are chapters dealing with the design of tribunals and tribunal systems and with what tribunals do, what they are for and how they interact with their users. The book ends with a discussion of the place of tribunals in the 'administrative justice system' and speculation about possible future developments. Administrative Tribunals and Adjudication fills a significant gap in the literature and will be of great value to public lawyers and others interested in government accountability.

Statistical Methods and Applications from a Historical Perspective Fabio Crescenzi,Stefania Mignani,2014-06-19 The book showcases a selection of peer-reviewed papers, the preliminary versions of which were presented at a conference held 11-13 June 2011 in Bologna and organized jointly by the Italian Statistical Society (SIS), the Institute national Institute of Statistics (ISTAT) and the Bank of Italy. The theme of the conference was Statistics in the 150 years of the Unification of Italy. The celebration of the anniversary of Italian unification provided the opportunity to examine and discuss the

methodological aspects and applications from a historical perspective and both from a national and international point of view. The critical discussion on the issues of the past has made it possible to focus on recent advances, considering the studies of socio-economic and demographic changes in European countries.

**Codification of Administrative Procedure** Jean-Bernard Auby, 2013-11-27 The law on administrative procedure regulates the processes through which administrative decisions and administrative projects are elaborated. It is more and more regarded as essential in administrative laws: it is really considered as the central part of it in some systems. In many jurisdictions, rules concerning administrative procedure are codified, gathered in a single piece of general legislation: in a few, it remains non codified. The book is made of the different contributions presented on the topic to the last congress of the International Academy of International Law (Taipei, 2012): national reports on twenty countries and a general report. These contributions examine the way administrative procedure became codified, the obstacles which had to be overcome, the main orientations of the codes, their evolution in time; alternatively, they explain why administrative procedure is not codified. Providing extensive materials on an issue which is a concern in many administrative laws and many administrative systems, the book is intended for all searchers and experts in administrative law and public management, whether academics or practitioners.

*The Politics of Public Administration Reform in Italy* Sabrina Cavatorto, Antonio La Spina, 2020-06-24 This book provides a stimulating presentation of the Italian administrative system through an empirical and critical perspective on the processes of administrative reform at the national level. It focuses on some of the most recent changes developed during the years of austerity and fiscal crisis and offers an updated perspective on the attempts made by Italian governments to modernize national public administration through the 'new public management' and 'governance' paradigms. These frameworks have been suggested as models to enhance efficiency, transparency, accountability and public participation. The book studies international and supranational influence, policy diffusion, domestic politics and institutional dynamics, administrative traditions, and functional explanations—all determinants of policy outputs and outcomes, and possibly of policy learning as well. This book is the first to set out such a comprehensive and up-to-date analysis for non-Italian readers.
