Fiskalische Herrschaft Lars Döpking, 2023-05-15 Lohnzahlungen, Konsumentscheidungen, Erbschaften oder Eheschließungen: Steuerstaaten sind Schicksalsmächte, die tief in das Leben ihrer Bevölkerung eingreifen. Indem der Staat Geld eintreibt, verpflichtet er seine Bürgerinnen und Bürger zudem aufeinander und drückt den persönlichen wie den öffentlichen Angelegenheiten seinen Stempel auf. Dabei wandeln sich seine so gestrickten fiskalischen Beziehungen permanent. Wer - wie viel und in welcher Form - zahlt, ist und bleibt umkämpft. Im 20. Jahrhundert wurden daher für manche Bevölkerungsgruppen, etwa Arbeitnehmerinnen, die Rückzugsräume vor fiskalischer Herrschaft immer kleiner, während andere, wie multinationale Konzerne, ihre Steuerlast auf ein Minimum reduzierten. Lars Döpking vollzieht diesen Wandel am Beispiel einer der größten Volkswirtschaften Europas nach und zeigt, welche brisanten Prozesse Steuerstaaten ausmachen. Er analysiert, wie der Aufbau von Verwaltungskapazitäten, die kontinuierliche Bekämpfung von Steuerhinterziehung, transnationale Verstrickungen und politische Konflikte in Italien seit 1945 ineinandergriffen und letztlich zu einer Vervielfachung des Steueraufkommens führten. So erklärt dieses Buch auch, warum die italienische Bevölkerung heute mehr Steuern zahlt als je zuvor - und weshalb das wohl weiterhin so bleibt.

Italien zwischen Krise und Aufbruch Alexander Grasse, Markus Grimm, Jan Labitzke, 2017-08-21 Mit dem Amtsantritt Matteo Renzis im Februar 2014 waren in Italien große Hoffnungen verbunden. Dem jungen Ministerpräsidenten gelang es zunächst tatsächlich, eine Aufbruchsstimmung zu erzeugen, die dem krisen- und skandalgeschüttelten Land einen tiefgreifenden Wandel verhieß. Zunächst schien es, als könne die unvollendete Zweite in eine grundlegend reformierte Dritte Republik transformiert werden: Italia 3.0. Dieser Prozess ist durch das im Dezember 2016 gescheiterte Verfassungsreferendum zunächst ins Stocken geraten. Gleichwohl überdauern einige Neuerungen der Ära Renzi seinen zwischenzeitlichen Rücktritt und zahlreiche Reformprojekte werden weiterverfolgt. Die Autorinnen und Autoren des Bandes untersuchen anhand der Veränderungen der Institutionen, des Parteiensystems, der Entscheidungsprozesse und der politischen Kultur sowie anhand aktueller Reformen in ausgewählten Politikfeldern in den drei Dimensionen der Politik (Polity, Politics und Policy), ob bzw. inwiefern der erhoffte Aufbruch tatsächlich stattgefunden hat, in welchen Bereichen die italienische Wirklichkeit hingegen in den alten Strukturen und Handlungsmustern verhaftet blieb und wo eine zweite Regierung Renzi oder andere zukünftige Regierungen anknüpfen könnten.

Italiens Demokratie zwischen Volkssouveränität und Verfassungsvorrang Maike Heber, 2020-04-28 Maike Heber geht der Frage nach, wie sich in Italiens Politik und Gesellschaft die dominierende Vorstellung von Demokratie und ihrer Gestaltung nach 25 Jahren Reformprozess verändert hat. Die Verfassung von 1948 ist trotz vieler Versuche, das politische System zu erneuern, weitgehend unverändert geblieben. Der normative Verfassungsvorrang scheint sich damit erfüllt zu haben, doch das allgemeine Demokratieverständnis hat sich durch die Reformdebatte deutlich gewandelt. Neben der Föderalisierung hat die direkte Legitimation des politischen Leaders durch die Wählerschaft stark an Bedeutung gewonnen, bis dahin, dass konstitutionelle Beschränkungen und parlamentarische Aushandlung als vermeintlich undemokratische Hindernisse immer weniger Akzeptanz finden.

The Changing Administrative Law of an EU Member State Domenico Sorace, Leonardo Ferrara, Ippolito Piazza, 2020-09-26 This book presents the evolution of Italian administrative law in the context of the EU, describing its distinctive features and comparing it with other experiences across Europe. It provides a comprehensive overview of administrative law in Italy, focusing on the main changes occurred over the last few decades. Although the respective chapters generally pursue a legal approach, they also consider the influence of economic, social, cultural and technological factors on the evolution of public administration and administrative law. The book is divided into three parts. The first part addresses general issues (e.g. procedures and organization of public administrations, administrative justice). The second part focuses on more specific topics (e.g. public intervention in the economy, healthcare management, local government). In the third part, the evolution of Italian administrative law is discussed in a comparative perspective.

Good Administration and the Council of Europe Professor for Public Law German and European Administrative Law Ulrich Stelkens, Ulrich Stelkens, Agn:e Andrijauskait:e, 2020-09-10 This book seeks to find an answer to the question of how to rule a state well by drawing on a range of organizational, procedural, and substantive standards of administrative conduct developed within the framework of the Council of Europe (CoE) as an organization of a broader scope than the European Union.

Politika 12 Günther Pallaver (Herausgeber), Hermann Atz, Roland Benedikter, Thomas Benedikter, Giuseppe De Cesare, Gabriele Di Luca, Joachim Gatterer, Kris Krois, Martin Larch, Roberta Medda-Windischer, Peter Hilpold, Günther Lengauer, Francesco Palermo, Christoph Perathoner, Nadja Thoma, Andreas Trenker, Alessandro Zendron, 2014-03-15 Nach langem, zähen Verhandeln, zweimaliger Befassung der UNO-Generalversammlung mit der Südtirolfrage und Verabschiedung eines Paketes an Maßnahmen wurde 1972 das zweite Autonomiestatut für Südtirol beschlossen. Darin überträgt der italienische Staat der Provinzverwaltung weitreichende gesetzgeberische Kompetenzen. Zwanzig Jahre später wurde die letzte der Paket-Maßnahmen umgesetzt, womit 1992 der Südtirolkonflikt mit der Streitbeilegungserklärung Österreichs und Italiens vor der UNO offiziell für beendet erklärt werden konnte. Wie hat sich seitdem die Südtirolautonomie

weiterentwickelt? Analysiert werden unter diesem Blickwinkel Politik, ethnischer Proporz, Wirtschafts- und Arbeitsmarktpolitik und viele weitere Fragen. Fixer Bestandteil ist wiederum der Rückblick auf die Ereignisse des Vorjahres nach Datum geordnet sowie in einem Essay zusammengefasst und auf den Punkt gebracht.

La Movimentista Raffaella Fanelli, 2014-05-19 La movimentista racconta la storia di un gruppo di persone che avevano un sogno e, forse ancora ce l'hanno, quello di cambiare l'Italia. Partendo dagli ormai storici meetup che, a Torino venne chiamato meetup13, fino ad arrivare alla nascita del Movimento 5 stelle, il libro fa un excursus sulle loro esperienze, aspettative e speranze ma, affronta anche le sue zone d'ombra e le scorrettezze di alcuni che, con il loro comportamento hanno tradito il vero significato della politica dal basso. Il famoso motto di Beppe Grillo, Uno vale uno, non vale per tutti infatti, è stato disatteso e calpestato da alcuni che, pur di fare trionfare la loro voglia di carrierismo, hanno ordito una trama a danno di altri. E' però, anche la storia di una crescita personale e di che cosa significhi diventare delle persone consapevoli dei loro diritti, dei loro doveri, delle problematiche territoriali e che il cambiamento deve prima partire da noi stessi.

Innovation Policies in the European News Media Industry Hans van Kranenburg, 2017-02-15 This book explores the importance and the types of media innovation policies formulated and implemented in various European countries. Each country analysis illustrates the evolution and structure of news media markets and media cross-ownership policies in recent years and evaluates how innovation policies stimulate innovative activities in journalism and news media. The main objective

of this book is to promote discussion on how innovation policies can help the news media industry to meet development needs and requirements in the future. It will help scholars, politicians and practitioners in the media industry to identify best practices to support innovation in a rapidly changing news media landscape.

EU Soft Law in the Member States Mariolina Eliantonio, Emilia Korkea-aho, Oana Stefan, 2021-03-25 This volume analyses, for the first time in European studies, the impact that non-legally binding material (otherwise known as soft law) has on national courts and administration. The study is founded on empirical work undertaken by the European Network of Soft Law Research (SoLaR), across ten EU Member States, in competition policy, financial regulation, environmental protection and social policy. The book demonstrates that soft law is taken into consideration at the national level and it clarifies the extent to which soft law can have legal and practical effects for individuals and national authorities. The national case studies highlight the points of convergence or divergence in the way in which judges and administrators approach soft law, while reflecting on the reasons for and consequences of various national practices. A series of horizontal studies connect this research to the rich literature on new modes of governance, by revisiting traditional theories on soft law, and by reflecting on the potential of such instruments to undermine or to foster rule of law values.

Judicial Power in a Globalized World Paulo Pinto de Albuquerque, Krzysztof Wojtyczek, 2019-08-21 This book explores fundamental topics concerning the functioning of the judiciary. The authors - class scholars, international judges and jurists from a diverse range of countries - address general theoretical issues in connection with judicial power, the role and functioning of international courts, international standards concerning the organization of national judiciaries, and the role of domestic courts in international relations, as well as alternative means of settling disputes. The book contributes a novel and valuable global perspective on burning issues, especially on judicial power and independence in a time in which illiberal and authoritarian regimes are constantly seeking to diminish the role of the judiciary.

The Politics of Polarisation Anna Bosco, Susannah Verney, 2022-08-22 Focusing on Italy, Spain and Greece, this book explores the extent of polarisation, as well as its causes, characteristics and consequences. It investigates varied manifestations of polarised politics including leader polarisation, policy polarisation and affective polarisation as well as

providing case studies of polarised elections taking place at multiple levels. In recent years, polarisation has been a key feature of South European politics. Deep antagonism has moved party leaders against each other, hindered parliamentary and governmental cooperation, and triggered a cascade effect of harsh divisions among elites and citizens. Beyond the left-right axis, the chapters in this volume highlight multiple dimensions around which parties and voters polarise: the split around sovereign bailouts in Greece, the territorial cleavage in Spain, the divisions around immigration and European integration in Italy. This volume offers essential understanding of the specific features of polarisation in different national contexts and the consequences for political competition and government instability. The chapters in this book were originally published as a special issue of *South European Society and Politics*.

European Democratic Institutions and Administrations Francesco Merloni, Alessandra Pioggia, 2018-09-03 This book presents the results of extensive international comparative research into the effects of the economic and financial crisis on democratic institutions and social cohesion policies. The collected studies describe and analyse the measures (often referred to as reforms) adopted to counter the crisis and the effects of these measures. It investigates three areas: the impact on the functioning of institutions, with respect to the relationship between representative institutions and governments, and the organisational structure of administrations at national and local levels; the impact that the austerity policies on public spending have on social rights; and the impact on traditional instruments of public action (administrative simplification, public services delivering, the use of common assets). The general findings highlight the effect of reducing the administrative and government capacity of the democratic institutions: the public sector, rather than being innovative and made more effective, declines, offering increasingly poor public services and making bad decisions, fuelling substantive or formal privatisation solutions, which in turn cause further weakening.

Governance and City Regions Karsten Zimmermann, Patricia Feiertag, 2021-12-24 City-regions are areas where the daily journeys for work, shopping and leisure frequently cross administrative boundaries. They are seen as engines of the national economy, but are also facing congestion and disparities. Thus, all over the world, governments attempt to increase problem-solving capacities in city-regions by institutional reform and a shift of functions. This book analyses the recent reforms and changes in the governance of city-regions in France, Germany and Italy. It covers themes such as the impact of austerity measures, territorial development, planning and state modernisation. The authors provide a systematic cross-country perspective on two levels, between six city-regions and between the national policy frameworks in these three countries. They use a solid comparative framework, which refers to the four dimensions functions, institutions and governance, ideas and space. They describe the course of the reforms, the motivations and the results, and consequently, they question the widespread metropolitan fever or resurgence of city-regions and provide a better understanding of recent changes in city-regional governance in Europe. The primary readership will be researchers and master students in planning,

urban studies, urban geography, political science and governance studies, especially those interested in metropolitan regions and / or decentralisation. Due to the uniqueness of the work, the book will be of particular interest to scholars working on the comparative European dimension of territorial governance and planning. The Open Access version of this book, available at www.taylorfrancis.com, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

EU Public Procurement and Innovation Pedro Cerqueira Gomes, 2021-01-29 This insightful book provides readers with a practical and theoretical explanation of the ways in which the new, tailor-made Innovation Partnership Procedure can be used throughout all Member States in the European Union. With a focus on the Procurement Directive for the public sector (Directive 2014/24/EU), Pedro Cerqueira Gomes argues that innovation is a crucial policy of the EU that must be extended to public procurement - implying interesting harmonisation challenges, mostly regarding the use of the Innovation Partnership Procedure and the national administrative law traditions of the Member States.

Private Enforcement of European Competition and State Aid Law Ferdinand Wollenschläger, Wolfgang Wurmnest, Thomas M.J. Möllers, 2020-01-09 Private Enforcement of European Competition and State Aid Law Current Challenges and the Way Forward Edited by: Ferdinand Wollenschläger, Wolfgang Wurmnest & Thomas M.J. Möllers The overlapping European Union (EU) regimes of competition law and State aid law both provide mechanisms allowing private plaintiffs to claim compensation for losses or damages. It is thus of significant practical value to provide, as this book does, analysis and guidance on achieving enforcement of such claims, written by renowned authorities in the two fields. The book examines the two areas of law both from an EU perspective and from the perspectives of private enforcement in France, Germany, Italy, the Netherlands, Spain and the United Kingdom. In country reports for these major jurisdictions, as well as in more general and comparative chapters, the authors focus on such issues as the following: impediments to private enforcement; which entity is liable for damages; binding effect of decisions of competition authorities; limitation of actions; collective actions and pooling of claims; enforcement of the standstill obligation (Article 108(3) TFEU); remedies and information deficits; cooperation and coordination between national courts and the European Commission; transposition of the so-called Damages Directive (Directive 2014/104/EU) by the EU Member States; extent to which the strengthening of private enforcement of competition law has a spillover effect on State aid law; and prospects for harmonisation of State aid law. A concluding section identifies enforcement deficits and proposes ways to improve the existing legal framework. As an in-depth assessment of key obstacles and best practices in private enforcement actions, this highly informative and practical volume facilitates choice of the best forum for competition and State aid law cases. Academics and practitioners engaged with this important area of European law will appreciate the authors' awareness of the economic need and legal particularities which could generate an effective European system of private enforcement of legitimate claims under EU

competition and State aid law.

The Austrian Codification of Administrative Procedure Giacinto della Cananea, Angela Ferrari Zumbini, Otto Pfersmann, 2023-02-04 This book argues that the development of administrative law in Europe owes much to Austria, not only because its Administrative Court was one of the first to define and refine general principles, such as legality, due process and general interest, but also because in 1925 Austria adopted a general law of administrative procedure, which had important consequences for other legal systems. The book follows two themes. The first is the Austrian codification of administrative procedure itself. The second is the spread of Austrian ideas and institutions to some neighbouring countries. From the first point of view, the book points out the various factors that favoured the adoption of administrative procedure legislation and the reception of the model of review. In this respect, the book is enriched by the English translation of the Austrian general act of 1925. From the other viewpoint, the book deviates from the standard accounts whereby the Austrian codification had some influence on its closest neighbours, including Poland, Czechoslovakia and Yugoslavia; first, because it compares their legislative provisions, as well as their durability, notwithstanding drastic political changes, when these countries fell under Soviet rule; second, because it does not limit itself to the concept of 'influence', arguing that there was a 'diffusion' of general administrative procedure legislation; thirdly, because it examines why the major administrative systems of continental Europe, such as France, Germany and Italy, did not adopt administrative procedure legislation. The book thus provides an unprecedented outlook on the emergence of an increasing common core regarding administrative procedure.
