The Children of Africa Confront AIDS Arvind Singhal, Steve Howard, 2003-10-28 AIDS is now the leading cause of death in Africa, where twenty-eight million people are HIV-positive, and where some twelve million children have lost one or both parents to AIDS. In Zimbabwe, 45 percent of children under the age of five are HIV-positive, and the epidemic has shortened life expectancy by twenty-two years. A fifteen-year-old in Botswana or South Africa has a one-in-two chance of dying of AIDS. AIDS deaths are so widespread in sub-Saharan Africa that small children now play a new game called "Funerals." The Children of Africa Confront AIDS depicts the reality of how African children deal with the AIDS epidemic, and how the discourse of their vulnerability affects acts of coping and courage. A project of the Institute for the African Child at Ohio University, The Children of Africa Confront AIDS cuts across disciplines and issues to focus on the world's most marginalized population group, the children of Africa. Editors Arvind Singhal and Stephen Howard join conversations between humanitarian and political activists and academics, asking, "What shall we do?" Such discourse occurs in African contexts ranging from a social science classroom in Botswana to youth groups in Kenya and Ghana. The authors describe HIV/AIDS in its macro contexts of vulnerable children and the continent's democratization movements and also in its national contexts of civil conflict, rural poverty, youth organizations, and agencies working on the ground. Singhal, Howard, and other contributors draw on compelling personal experience in descriptions of HIV/AIDS interventions for children in difficult circumstances and present thoughtful insights into data gathered from surveys and observations concerning this terrible epidemic.

My Road to Kenya Mary Clare Lyons, Jack O'Leary, 2012-08-10 Together we shared a mostly happy journey facing and overcoming obstacles, meeting fascinating people wherever we went while falling completely in love with the people of Kenya. This book is a tribute to my co-laborers and in writing this book I hope to show that one does not need to be a hero to step out, take risks and make the world a better, healthier and happier place. Jack O'Leary An archbishop, an environmentalist and an AIDS activist are only a few of the heroes, who stood up against a ruthless dictator and corrupt government, in Jack O'Leary's My Road to Kenya. My Road to Kenya shines a light on a group of everyday heroes who believe they were called to make a difference in the lives of the people of Kenya. Fate and faith led them to the crossroads where their paths converged. Working together they have built and supplied hospitals, clinics, schools, churches, and homes for

hundreds of children many of whom were orphaned by HIV/AIDS. Through it all they asked for nothing for themselves. Yet in the end, the collaborations of these everyday heroes resulted in something invaluable the forging of deep and long-lasting friendships.

'Happy' Norman, Volume III (1979-1989) Keith J. Norman,2018-01-08 The Extraordinary Life of an Ordinary Man in Letters to my Grandchildren and Other Friends Anyone who studies contemporary history, business and management or aspires to succeed in life without selling out on their values and dreams should read this book. In Volume III Keith and Claire Norman continue the unabridged account of their lives, which takes the reader through the 1980's. At this stage, Keith is approaching 60, not many would call themselves 'young', 'brave', and 'adventurous'. In fact, the majority of us would probably have started thinking of retirement and check on the state of their pension funds. Well, not Keith! Keith met Claire, the love of his life, in 1979 and from then on this remarkable duo became an example of business acumen, tenacity and selfless devotion to any task they undertook. Not everything they touched turned to gold. Quite literally, it was gold that escaped. But this set back was a prelude to incredible achievements on the international stage, as well as in their personal businesses. From the freezing temperatures of Northern Canada and the heat and humidity of Guyana's rainforest, infested with sand flies, snakes and roaming jaguars, to the high powered corridors of the IFC, the United Nations, and the exclusive members' clubs of New York, Washington and London, they tirelessly embraced the thrills and adversity which are the bed fellows of entrepreneurs. Accepting the status quo would never get Keith where he wanted to be, but knowing which of the rules to bend or having an iron clad sense of fairness and integrity resulted in Keith receiving letters of commendation from the head of the IFC and the appreciation of many political and noted business figures of the day. Volume III culminates on a personal note with a description of their wedding that would make everyone wish they had shared in the celebrations... and everyone who was there were truly blessed by the occasion. This volume takes us through the intricacies of risky business undertakings, across continents and into the world of high finance and political intrigue and leaves us hungry for more. Keith and Claire write about their lives and work with such candour, dignity and humour that no-one should be left indifferent and is certain to remain curious as to what happens next. Few might guess, but there is still more to come, since for Keith and Claire, life is only just beginning!

Theological Bioethics Lisa Sowle Cahill,2005-11-16 The field of bioethics was deeply influenced by religious thinkers as it emerged in the 1960s and early 1970s. Since that time, however, a seemingly neutral political liberalism has pervaded the public sphere, resulting in a deep suspicion of those bringing religious values to bear on questions of bioethics and public policy. As a theological ethicist and progressive Catholic, Lisa Sowle Cahill does not want to cede the religious perspective to fundamentalists and the pro-life movement, nor does she want to submit to the gospel of a political liberalism that champions

individual autonomy as holy writ. In *Theological Bioethics*, Cahill calls for progressive religious thinkers and believers to join in the effort to reclaim the best of their traditions through jointly engaging political forces at both community and national levels. In Cahill's eyes, just access to health care must be the number one priority for this type of participatory bioethics. She describes a new understanding of theological bioethics that must go beyond decrying injustice, beyond opposing social practices that commercialize human beings, beyond painting a vision of a more egalitarian future. Such a participatory bioethics, she argues, must also take account of and take part in a global social network of mobilization for change; it must seek out those in solidarity, those involved in a common calling to create a more just social, political, and economic system. During the past two decades Cahill has made profound contributions to theological ethics and bioethics. This is a magisterial and programmatic statement that will alter how the religiously inclined understand their role in the great bioethics debates of today and tomorrow that yearn for clear thinking and prophetic wisdom.

'Happy' Norman, Volume IV (1989-1998) Keith J. Norman, 2019-11-29 Volume IV of Keith Norman's expansive and absorbing life story takes readers through the period 1989 -1998. Keith is already in his sixties, an age when most of us are thinking about slowing down, but Keith, if anything, is speeding up! This period of Keith's life encompasses profound personal events and challenging business dealings. He faces the trauma of cancer, contracted by his wife and soulmate, Claire, which they must face together, in the midst of a punishing schedule, as well as the joys of discovering not one but two long-lost daughters. Keith's consultancy business, Norman International, takes him around the globe, from China to Russia to the USA and from the UK to Africa, as he pursues various public and private ventures: the formation of a golfing equipment franchise, Nevada Bob, in the UK; the raising of a fleet of old WWII German submarine fleet; a program for the training of African business managers, and the creation of development funds for the newly emerging independent republics of the former Soviet Union alongside international financial institutions, the World Bank (IFC) and the European Bank for Reconstruction and Development (EBRD). These are just some of the exciting ventures recounted in this latest volume. They are interspersed with personal anecdotes about family and friends, which demonstrate Keith's innate love of life and consuming curiosity to experience all that it has to offer. Readers will continue to benefit from Keith's honest appraisal of his own actions and decisions as well as the actions and motivations of others with whom he must deal. Settle in, buckle up, and enjoy the ride!

The Anderson Tapes Lawrence Sanders, 2013-02-12 The explosive Edgar Award-winning debut novel—told entirely

through surveillance recordings, eyewitness reports, and other “official” documents—by New York Times bestselling author Lawrence Sanders New York City. Summer 1968. Newly sprung from prison, professional burglar John Anderson is preparing for the biggest heist of his criminal career. The mark is a Manhattan luxury apartment building with the tony address of 535 East Seventy-Third Street. Enlisting a crew of scouts, con artists, and a getaway driver, Anderson orchestrates what he believes to be a foolproof plan. To pull off the big score, he needs one last thing: the permission of the local mafia, who expect a piece of the action. But no one inside Anderson’s operation knows that the police have recorded their conversations. The New York Police Department has hatched a plot of its own—but even its task force may not be enough to stop such a cunningly planned robbery.

The Deadly Sins Novels Volume Two Lawrence Sanders, 2018-10-30 The final two cases in the series by the #1 New York Times–bestselling author—plus the Edgar Award–winning debut novel that introduced Edward Delaney. Lawrence Sanders’s first novel in the Deadly Sins series became a New York Times bestseller and was made into an acclaimed film starring Frank Sinatra as hard-bitten New York City homicide detective Edward Delaney. Sanders would follow up with three more Deadly Sins novels—each one a New York Times bestseller—proving himself again and again to be “a master” (The New Yorker). This collection also includes Sanders’s first novel, completed at age fifty, *The Anderson Tapes*, which introduced Edward Delaney and won an Edgar Award, and was made into a film starring Sean Connery. *The Third Deadly Sin*: By day, she’s an unassuming middle-aged secretary. By night, dressed in a midnight-black wig, a skin-tight dress, and spike heels, she prowls smoky hotel bars for prey. Inside her leather bag are keys, cash, mace, and a Swiss Army knife. Her first victim—a convention guest at an upscale Manhattan hotel—is found dead with multiple stab wounds. Edward Delaney has come out of retirement to stop the so-called Hotel Ripper, who has seized the city in a chokehold of panic. But he’s not expecting the killer to be a woman. “A first-rate thriller . . . as good as you can get.” —The New York Times *The Fourth Deadly Sin*: With no leads and a case getting colder by the hour, the NYPD calls in former chief Edward Delaney to solve the grisly murder of Dr. Simon Ellerbee, a noted Upper East Side psychiatrist, who not only had his skull bashed in by a ball-peen hammer but had his eyes mutilated. It’s up to the veteran detective to analyze the symbolism of the attack and study the doctor’s patients to find out which one of them wanted to hammer home a point. “Not to be missed.” —Kansas City Star *The Anderson Tapes*: Newly sprung from prison, professional burglar John Anderson is preparing for the biggest heist of his criminal career. The mark is a Manhattan luxury apartment building. Enlisting a crew of scouts, con artists, and a getaway driver, Anderson orchestrates what he believes to be a foolproof plan. But no one inside Anderson’s operation knows that the police have recorded their conversations. The NYPD has hatched a plot of its own—but even its task force may not be enough to stop such a cunningly

planned robbery. "The novel races forward, accelerating in action and suspense." —TheNew York Times

Cavitation Instabilities and Rotordynamic Effects in Turbopumps and Hydroturbines Luca d'Agostino,Maria Vittoria Salvetti,2017-03-17 The book provides a detailed approach to the physics, fluid dynamics, modeling, experimentation and numerical simulation of cavitation phenomena, with special emphasis on cavitation-induced instabilities and their implications on the design and operation of high performance turbopumps and hydraulic turbines. The first part covers the fundamentals (nucleation, dynamics, thermodynamic effects, erosion) and forms of cavitation (attached cavitation, cloud cavitation, supercavitation, vortex cavitation) relevant to hydraulic turbomachinery, illustrates modern experimental techniques for the characterization, visualization and analysis of cavitating flows, and introduces the main aspects of the hydrodynamic design and performance of axial inducers, centrifugal turbopumps and hydro-turbines. The second part focuses on the theoretical modeling, experimental analysis, and practical control of cavitation-induced fluid-dynamic and rotordynamic instabilities of hydraulic turbomachinery, with special emphasis on cavitating turbopumps (cavitation surge, rotating cavitation, higher order cavitation surge, rotordynamic whirl forces). Finally, the third part of the book illustrates the alternative approaches for the simulation of cavitating flows, with emphasis on both modeling and numerical aspects. Examples of applications to the simulation of unsteady cavitation in internal flows through hydraulic machinery are illustrated in detail.
