Spanien zwischen Regionalismus und Föderalismus Antonio Martino,2004 Die territoriale Organisation Spaniens, wie sie in der Verfassung vom 29. Dezember 1978 festgelegt worden ist, ist nur aus einer historischen Perspektive verständlich. Die Arbeit versucht, das Netz der komplizierten Beziehungen systematisch zu rekonstruieren, die zwischen der Entwicklung des Verfassungs- und des Landesrechts und der historischen Tradition, der Geschichte der Institutionen, der politischen Geschichte und der Ideengeschichte bestehen. Die Erkenntnis, daß die Errichtung des Staates der Autonomen (Estado de las Autonomías) das Ergebnis eines langen historischen Prozesses ist, trägt aber nicht nur zu einem wesentlich besseren Verständnis der aktuellen spanischen Verfassung und der Statuten der Autonomen Gemeinschaften bei, die sich häufig auf die Geschichte ihrer Territorien berufen und die deren alte Institutionen wiederhergestellt haben, sondern ermöglicht auch eine tiefere und genauere Analyse der gegenwärtigen gespannten Lage sowie fundiertere Prognosen über die künftige Entwicklung der territorialen Organisation Spaniens.

The Libertarian Reader David Boaz,2015-02-17 “The most magnificent collection of libertarian writings ever published” (Laissez Faire Books). An important collection of seminal writings on a movement that is rapidly changing the face of American politics, The Libertarian Reader links some of the most fertile minds of our time to a centuries-old commitment to freedom, self-determination, and opposition to intrusive government. This is the first comprehensive anthology of libertarian thought—from the Bible and Lao-Tzu to Hayek and Milton Friedman—to be published in one volume. The 68 selections from great libertarian writers are an intellectual feast, covering such key libertarian themes as skepticism about power, individual rights, spontaneous order, free markets, and peace. For all independent thinkers, this unique sourcebook will stand as a classic reference for years to come, and a reminder that libertarianism is one of our oldest and most venerable American traditions.

Making a Success of Brexit and Reforming the EU Roger Bootle,ROGER BOOTLE LTD,2015-03-01 I recommend our diplomats and ministers read this book: it will provide them with an intellectual backbone. On the big calls [Bootle] has a spectacularly good record. Dominic Lawson, The Sunday Times Bootle is right on every count. The Guardian HOW BREXIT WILL WORK FOR BRITAIN AND EUROPE Making a Success of Brexit and Reforming the EU is the extensively revised and expanded new edition of the acclaimed The Trouble with Europe. Following Britain's vote to leave the EU and the ensuing

uncertainty in both Europe and the UK, here, one of Britain's best known economists Roger Bootle, charts a way forward for all. For Leavers and Remainers alike, this book analyses the choices the UK faces about its relationship with the EU - and the rest of the world. It discusses the key issues concerning a 'hard' or 'soft' Brexit, Free Trade Agreements, the Single Market and the Customs Union, as well as the principles and pitfalls of the negotiating process. Meanwhile, with or without Brexit, the EU faces an existential crisis. It needs to choose between three different paths: radical reform, further integration or break-up. This book assesses the costs and benefits of each, concluding with a version of how the world would look without the EU. Bootle's exemplary outline of the origins and historical context of the EU is retained from the previous edition, where he acknowledges the remarkable achievements of the EU, before laying out the shortcomings which have led to the parting of the ways with Britain. This is the essential read as the Brexit negotiations progress.

International Public Opinion and the Bosnia Crisis Richard Sobel, Eric Shiraev, 2002-12-17 Does public opinion matter in international conflict resolution? Does national foreign policy remain independent of public opinion and the media? International Public Opinion and the Bosnia Crisis examines, through U.S., Canadian, and European case studies, how public reaction impacted democratic governments' response to the ethnic and religious conflict in Bosnia during the period from 1991-1997. Each case study offers an overview of the national media coverage and public reaction to the war in the former Yugoslavia and examines the links between public opinion and political and military intervention in Bosnia. The result is a comprehensive evaluation of the complex relationship between public opinion, media coverage, and foreign policy decision-making.

Informal Employment in Advanced Economies Colin C. Williams, Jan Windebank, 2002-09-11 Re-Placing Informal Employment challenges many of the popular myths surrounding informal economic activities, and offers a radical reassessment of their extent, growth, location and nature. The book uses case studies from the UK, France, Italy, the Netherlands, the US and Canada to challenge: * the popular belief that informal employment is growing throughout the advanced economies * the myth that this work is undertaken mostly by marginalized groups * the dominant view that we should replace informal with formal employment through enforcement of regulations. Examining policy options and their consequences, the authors show that conventional approaches only increase inequalities and that a radical alternative solution is essential.

Berlusconi 'The Diplomat' Emidio Diodato, Federico Niglia, 2018-09-08 This book analyses the foreign policy of Silvio Berlusconi, Italian media tycoon and politician who served as Prime Minister of Italy in four governments. The authors examine the Italian position in the international arena and its foreign policy tradition, as well as Berlusconi's general political stance, Berlusconi's foreign policy strategies and the impact of those strategies in Italy. Given that Berlusconi is considered a

populist leader, the volume considers his foreign policy as an instance of populist foreign policy - an understudied but increasingly relevant topic.
