Anziani Laila Perciballi, AA.VV., 2020-10-04 Mai come durante la pandemia la fragilità degli anziani è diventata un tema attuale, persino scabroso. In questo libro ricordiamo quali siano i loro diritti, troppo spesso offesi, e quali tutele possano essere attivate, a cominciare dall'interesse giuridicamente protetto dei nonni a mantenere i rapporti con i loro nipoti fino all'amministrazione di sostegno e a tutti gli strumenti per assicurare un'esistenza dignitosa anche dal punto di vista economico. Perché una terza età davvero protetta e valorizzata rappresenta l'antidoto alla vera fragilità, la nostra.

Residenze per anziani Salvatore Lombardo, 2020-03-17T00:00:00+01:00 Giunto alla IV edizione, residenze per anziani, unico per qualità e ricchezza di contenuti, guida ingegneri e architetti nella realizzazione di uno spazio residenziale a misura di anziani autosufficienti e non. È un libro sempre vendutissimo fin dal 1991 e questa nuova edizione l'aggiorna rendendolo

sempre più attuale e utile visto l'allungarsi della durata media della vita e l'aumento esponenziale della popolazione anziana. Propone anche le migliori soluzioni per adeguare le abitazioni private alle esigenze fisiche di chi è nella terza età. Include numerosi esempi reali e innumerevoli schede progettuali prendendo anche spunto da quanto avviene in altri paesi europei dove l'attenzione verso gli anziani e i disabili è concreta ed efficace. È scritto da uno degli autori più autorevole e venduti di questa casa editrice, la cui firma è particolarmente nota e apprezzata dal pubblico dei professionisti dell'edilizia. Il manuale aiuta a progettare le residenze per anziani, analizzando la composizione degli spazi componenti le strutture di questo tipo, e fornendo anche le principali norme regionali. Il compito del progettista è agevolato dai numerosi disegni progettuali che illustrano i diversi spazi funzionali abitativi privati (alloggi e camere) e quelli di tipo collettivo (per esempio i servizi di nucleo abitativo) utili a garantire nel complesso uno spazio residenziale a misura di anziano, che sia o meno autosufficiente.

AnimAnziani - Fare animazione per&con gli anziani ,2007-01-11 Questo libro è il risultato di un lavoro a più mani che vuole offrire spunti metodologici e suggerire riflessioni sull'applicazione dei principi e delle teorie dell'Animazione ad utenti speciali come gli anziani, sia quelli attivi e brillanti, sia quelli colpiti da malattie debilitanti che non è ancora possibile curare adeguatamente, sia quelli per qualche aspetto a metà fra l'una e l'altra situazione. I contributi raggruppati in questo volume percorrono più piste che non sono indirizzate soltanto ai professionisti dell'animazione, ma anche ai molti membri delle associazioni profit e non che si occupano di anziani e che sono loro stessi anziani, ma ancora sufficientemente vivaci e vitali da occuparsi della loro e altrui qualità della vita. Violence and Justice in Bologna Sarah Rubin Blanshei, 2018-04-02 This collection of essays offers a unique contribution to the study of violence and justice in a late medieval and early modern Italy by combining a multivocal perspective with a case-study focus on the city-state of Bologna. Drawing on the city's singularly rich archival resources, the authors explore various facets of violence—ranging from the interpersonal to the less frequently studied typologies of blasphemy, rape, political rebellion, and student brawls—and set the institutions of the police and law courts into their socio-political and cultural contexts. They also apply a broad variety of quantitative and qualitative approaches—processual, microhistorical, legalism, comparative and criminological—to their assessments of the procedures and practices of criminal justice and the experiences of violent behavior, providing both short-term, in-depth analyses of specific events and over-arching reviews of long-term trends. Bologna itself, with its renowned university, economic innovations, strategic importance as a commercial and cultural

crossroads, its political volatility and experiments with diverse constitutional structures, provides a rewarding laboratory for analyzing changes and continuities in late medieval and early modern violence and justice. From these studies emerges a narrative that challenges the traditional portrayal of those periods as eras when brutality and rage were “normal” in social relations and criminal justice was characterized mainly by punitive strategies of torture and repression.
