Palermo Sicily & Its Surroundings Joanne Lane,2009-09-02 This is a guide to all aspects of Palermo and its surroundings: where to stay and eat, what to see and do, how to get around. The island of Sicily is like another world compared to the rest of Italy - only three km away over the Messina Straits. And in fact the people proclaim themselves Sicilians first, with distinct differences in language, culture, food and day-to-day living. Many visitors find this surprising but refreshing. The richness in culture is seen in the architecture, theater, cinema and art found everywhere. Despite the poverty, unemployment and much-publicized Mafia control, it's a vibrant and volatile place but far safer than tourists expect. Sicilians have a strong sense of community, the pace of life is slow, schedules seem to have no importance and it can be simultaneously frustrating, entertaining and totally memorable. But, whether you come here to fish, dive, hike, ski, play golf or trace your family origins, there is plenty that is appealing to visitors. The capital of Sicily is immediately enticing despite its frenetic traffic and heady markets. It's an exciting, in-your-face and up-your-nose kind of city that's brash, fast and loveable - one of those places that is both loathed and loved in almost the same heartbeat. Jamie Oliver accurately described it as modern-day anarchy when he toured in 2005 writing and filming Jamie's Italy (BBC). There is crumbling architectural wealth, the diversity of multi-ethnic communities, an energetic population, tantalizing markets and wonderful coastlines, with the island of Ustica lying just off the coast. You can also retreat to the heights of Monte Pellegrino to the north or to the fine beach of Mondello. Palermo Highlights: Monreale - The ceiling of the church at Monreale in the heights above the city is a stunning example of medieval workmanship, with some of the most important of Christian mosaics in the world. Vucciria Market - The heady delights of Palermo are best experienced on foot in this bustling age-old market. Let your feet do the walking past stalls selling everything from film, batteries and electrical cord to mouth-watering delicacies like sun-dried tomatoes, eggplant and home-made pasta. Mondello - The pleasant beachfront, with fine seafood dining on ceramic plates, is a good excursion from the capital. Monte Pellegrino - Escape from the hustle and bustle of Palermo into the pleasant park area to the sanctuary on top. Bus it or walk to stretch your legs. Ustica - The turtle-shaped island off the coast is a pleasant day-escape from the busy capital. Its sparkling clear waters are perfect for scuba-diving. Monte Iato - This small mountain 30 km west of Palermo is a rocky slope littered with the remains of ancient cities in one of the region's most beautiful areas.

The Genesis of Israel and Egypt Emmet Sweeney,2023-10-01 The Genesis of Israel and Egypt examines the earliest phase of historical consciousness in the ancient Near East, looking in particular at the mysterious origins of Egypt's civilization and its links with Mesopotamia and the early Hebrews. The book takes a radically alternative view of the rise of high civilization in the Near East and the forces which propelled it. The author, Emmet Sweeney, finds that the early civilizations developed amidst a background of massive and repeated natural catastrophes, events which had a profound effect upon the ancient peoples and left its mark upon their myths, legends, customs and religions. Ideas found in all corners of the globe, concepts such as dragon-worship, pyramid-building, and human sacrifice, are shown by Sweeney to have a common origin in the cataclysmic events of the period termed the eruptive age by legendary English explorer Percy Fawcett. Terrified and traumatized by the forces of nature, people all over the world began to keep an obsessive watch on the heavens and to offer blood sacrifices to the angry sky gods. These events, which are fundamental to any understanding of the first literate cultures, have nonetheless been completely effaced from the history books and an official history of mankind, which is little more than an elaborate fiction, now graces the bookshelves of the world's great libraries. Starting with clues unearthed by history sleuth Immanuel Velikovsky and others, Emmet Sweeney takes the investigation further. While the Near Eastern civilizations are generally considered to have taken shape around 3300 BC — about 2,000 years before those of China and the New World — Ages in Alignment demonstrates that they had no 2,000-year head start. All the ancient civilizations arose simultaneously around 1300 BC, in the wake of a terrible natural catastrophe recalled in legend as the Flood or Deluge. Sweeney points out that the presently accepted chronology of Egypt is not based on science but on venerated literary tradition. This chronology had already been established, in its present form, by the third century BC when Jewish historians (utilizing the “History of Egypt” by the Hellenistic author Manetho) sought to “tie in” Egypt’s history with that of the Bible. Apparent gaps and weird repetitions resulted. Improbable feats like the construction of major cut-stone engineering projects before the advent of steel tools or Pythagorean geometry point to the weaknesses of the traditional view. Taking a more rigorous approach and pointing to solid evidence, Emmet Sweeney shows where names overlap, and where one and the same group is mistaken for different peoples in different times. Volume 1, The Genesis of Israel and Egypt, looks at the archaeological evidence for the Flood, evidence now misinterpreted and ignored. This volume examines the rise of the first literate cultures in the wake of the catastrophe, and goes on to trace the story of the great migration which led groups of early Mesopotamians westward toward Egypt, where they helped to establish Egyptian civilization. This migration, recalled in the biblical story of Abraham, provides the first link between Egyptian and Hebrew histories. The next link comes a few generations later with Imhotep, the great seer who solved the crisis of a seven-year famine by interpreting pharaoh Djoser’s dream. Imhotep is shown to be the same person as Joseph, son of Jacob.

WHITETOOTH FALLS Justin Joschko,2019-11-08 Homicide detective David Moore has never had a case quite like this: a series of savage murders targeting the family of Frank Ballaro, a mafia kingpin with half the city of Niagara Falls in his pocket. The killer strikes with inhuman violence, and always on the night of a full moon. Meanwhile, grad student Iman Al-Qadari reads about the murders with growing dismay. Her boss, a prominent professor, has been acting strange over the last few months—wearing disheveled clothes, lashing out with uncharacteristic anger, and obsessing over a growing pile of occult literature. When Iman spots a red stain on his coat sleeve—one that looks and smells suspiciously like blood—the night after a grisly murder, the unthinkable starts to seem all too possible. As David and Iman wrestle with an impossible enemy whose existence grows harder and harder to deny, a strange and sinister evil sinks its fangs ever deeper into Niagara’s throat. Can David and Iman find one another in time to pool their knowledge, solve the mystery, and stop the killings? Or will the creature feasting on their city swallow them as well?

Mediterranean ARTivism Elvira Pulitano,2022-07-20 This book is an interdisciplinary study aimed at re-imagining and re-routing contemporary migrations in the Mediterranean. Drawing from visual arts, citizenship studies, film, media and cultural studies, along with postcolonial, border, and decolonial discourses, and examining the issues from within a human rights framework, the book investigates how works of cultural production can offer a more complex and humane

understanding of mobility in the Mediterranean beyond representations of illegality and/or crisis. Elvira Pulitano centers the discourse of cultural production around the island of Lampedusa but expands the island geography to include a digital multimedia project, a social enterprise in Palermo, Sicily, and overall reflections on race, identity, and belonging inspired by Toni Morrison's guest-curated Louvre exhibit *The Foreigner's Home*. Responding to recent calls for alternative methodologies in thinking the modern Mediterranean, Pulitano disseminates a fluid archive of contemporary migrations reverberating with ancestral sounds and voices from the African diaspora along a Mediterranean-TransAtlantic map. Adding to the recent proliferation of social science scholarship that has drawn attention to the role of artistic practice in migration studies, the book features human stories of endurance and survival aimed at enhancing knowledge and social justice beyond (and notwithstanding) militarized borders and failed EU policies.

Atmosphere Michael Laimo, 2017-12-25 Frank Ballaro, police detective, is retiring shortly. Or is he? A trail of blood on the curb outside his apartment leads to an alley where two young men have been severely mutilated. But they're not dead. Something keeps them alive. In the hands of one is a strange object, something he holds onto for dear life. Something he calls...atmosphere.
