**Die problematische Neuerfindung der italienischen Rechten** Markus K. Grimm, 2016-02-18 Markus K. Grimm liefert eine fundierte politische Einordnung der Parteien und Repräsentanten der italienischen Rechten seit 1994 und entwirft ein Modell zur Untersuchung der Veränderung von bestehenden extremen Parteien in Parteiensystemen. In dieser archetypischen Fallstudie, einer historischen Längsschnittuntersuchung des rechten Parteienspektrums, werden am Beispiel der Alleanza Nazionale (AN) Kriterien herausgearbeitet und erprobt, anhand derer auch Entwicklungen in anderen Parteiensystemen analysiert werden können. Die radikale Veränderung der politischen Landschaft in Italien zeigt deutlicher als in anderen Ländern, welche Möglichkeitsräume sich dadurch Parteien des politischen Randes eröffnen. Die AN steht dabei idealtypisch für den Versuch der Orientierung in die politische Mitte.

**China and the Belt and Road Initiative** Young-Chan Kim, 2022-01-01 This book offers critical insights into the China-led Belt and Road Initiative (BRI) from an EU perspective. It analyzes the political, cultural, and diplomatic effectiveness of Xi's efforts to expand socio-cultural ties and build new trade corridors between Europe and the Far East, and sheds light on the lasting success and influence of China-led economic programs. The book is divided into three parts. The first part provides an overview of the various dimensions of the BRI initiative, including the challenges and opportunities of the EU-China trade relationship, China's geopolitical interests, and foreign policy approaches. The second part analyzes BRI cooperation from the perspective of the business sector, while the third part presents case studies that examine the impacts and responses of various European countries to the BRI.

**Le vite de' piu eccellenti pittori, scultori e architetti. Con ritratti** Giorgio Vasari, 1848

**Constitutional Principles of EU External Relations** Geert De Baere, 2008-09-25 The volume explores the marked differences between the complex and rapidly changing legal organization of EU external relations and the EU's 'internal' constitutional order. The European Union is unique as a polity organized along federal lines but with fully fledged States as its component political entities. The tension between the self-conscious Member States and their constitutional relationship within the EU is especially pronounced in the foreign policy field, where they remain determined to assert their status as full subjects of the international order. This book explores how foreign policy fits within the constitutional structure of the EU, characterized by the division of external relations competences between the EU and the Member States ('the vertical axis'),

and between the 'pillars' of which the Union is composed, in particular the division between the Community competences of the first pillar and the common foreign and security competences of the second pillar ('the horizontal axis'). This is a study of the extent to which foreign policy is legally sui generis within the sui generis constitutional order of the EU, and of how the common foreign and security policy is in turn sui generis within the foreign policy structure of the Union. It provides both an exploration of the constitutional reality of EU foreign policy and theoretical analysis which suggests possibilities for reform.

**Precarious Workers** Eloisa Betti, 2022-12-20 The recent vast upsurge in social science scholarship on job precarity has generally little to say about earlier forms of this phenomenon. Eloisa Betti's monograph convincingly demonstrates on the example of Italy that even in the post-war phase of Keynesian stability and welfare state, precarious labor was an underlying feature of economic development. She examines how in this short period exceptional politics of labor stability prevailed. The volume then presents the processes whereby labor precarity regained momentum— under the name of flexibility— in the post-Fordist phase from the early 1980s, taking on new forms in the Craxi and Berlusconi eras. Multiple actors are addressed in the analysis. The book gives voice to intellectuals, scholars, politicians and trade unionists as they have framed the concept and debates on precarious work from the 1950s onwards. Views of labor law experts, politicians and public servants are investigated in regard to labor regulations. Positions of the very precarians are explored, ranging from rural women, industrial homeworkers and blue-collar workers to physicians, university researchers and trainees, unveiling the emergence of anti-precarity social movements. The continuous role of women's associations and feminist groups in opposing labor precarity since the 1950s is prominently exposed.

**Much Ado About Nothing?** Elisabetta Gualmini, Eleonora Pasotti, 2011-12 The year 2010 marked the halfway point for Silvio Berlusconi's fourth government with the solidity of its electoral mandate threatened on a number of occasions by

strong clashes with the opposition, ultimately leading to a “divorce” from Gianfranco Fini. The upheaval that followed this rift dominated the second half of the year. This volume examines not only this rift but also the important political and social events of a period full of polemics and tensions, from the regional elections and the debate on fiscal federalism to the state of the opposition parties. The political agenda was consumed by everyday matters, such as the scandals surrounding the Civil Protection Service and the confrontations with the magistracy over phone tapping, and appeared to lack any strategic planning for the longer term. The reform of the university system was approved by a slim margin and still saw violent protests from its opponents. Then, all of the government’s actions were restricted by a return to austerity policies. Through the confidence vote of 14 December, the government retained its tenuous hold on power and left a sense of “much ado about nothing”. The crisis was averted, but possibly only postponed, and now there remains the unresolved, increasingly chronic problems of a country that is limping along without growth, more and more divided according to geographical areas, social and professional categories, and above all, torn between generations.

*Parties and Elections in Austria and South Tyrol* Wolfram Nordsieck, 2022-04-22 *Parties and Elections in Austria and South Tyrol* is a comprehensive reference guide to the federal and state elections and federal and state governments in Austria since 1918, the national and provincial elections and provincial governments in South Tyrol (Italy), the elections to the European Parliament and to all significant present and past political parties. Listed are more than 240 parties. The guide includes basic data of these parties (founding years, political orientations, affiliations to European political parties, European Parliament groups and political internationals) and a chronological summary of their history (predecessors, name changes, mergers and splits).

**European Culture Wars and the Italian Case** Luca Ozzano, Alberta Giorgi, 2015-09-16 This book aims to understand the European political debate about contentious issues, framed in terms of religious values by religious and/or secular actors in 21st century. It specifically focuses on the Italian case, which, due to its peculiar history and contemporary political landscape, is a paradigmatic case for the study of the relationships between religion and politics. In recent years, a number of controversies related to religious issues have characterised the European public debate at both the EU and the national level. The ‘affaire du foulard’ in France, the referendum on abortion in Portugal, the recognition of same-sex marriages in many Western European States, the debate over bioethics and the regulation of euthanasia are only a few examples of contentious issues involving religion. This book aims to shed light on the interrelation between these different debates, as well as their broader meaning, through the analysis of the paradigmatic case of Italy. Italy summarizes and sometimes exasperates wider European trends, both because of the peculiar role traditionally played by the Vatican in Italian politics and for the rise, since the 1990s, of new political entrepreneurs eager to exploit ethical and civilizational issues. This work will be of great interest to scholars and students of a number of fields within the disciplines of political science, sociology and

law, and will be useful for courses on religion and politics, political parties, social movements and civil society.

The Allocation of Multinational Business Income: Reassessing the Formulary Apportionment Option Richard Krever, 2020-02-20 The Allocation of Multinational Business Income: Reassessing the Formulary Apportionment Option Edited by Richard Krever & François Vaillancourt Although arm's length methodology continues to prevail in international taxation policy, it has long been replaced by the formulary apportionment method at the subnational level in a few federal countries. Its use is planned for international profit allocation as an element of the European Union's CCCTB proposals. In this timely book - a global guide to formulary apportionment, both as it exists in practice and how it might function internationally - a knowledgeable group of contributors from Australia, Canada, the United Kingdom and the United States, address this actively debated topic, both in respect of its technical aspects and its promise as a global response to the avoidance, distortions, and unfairness of current allocation systems. Drawing on a wealth of literature considering formulary apportionment in the international sphere and considering decades of experience with the system in the states and provinces of the United States and Canada, the contributors explicate and examine such pertinent issues as the following: the debate about what factors should be used to allocate profits under a formulary apportionment system and experience in jurisdictions using formulary apportionment; application of formulary apportionment in specific sectors such as digital enterprises and the banking industry; the political economy of establishing and maintaining a successful formulary apportionment regime; formulary apportionment proposals for Europe; the role of traditional tax criteria such as economic efficiency, fairness, ease of administration, and robustness to avoidance and incentive compatibility; determining which parts of a multinational group are included in a formulary apportionment unit; and whether innovative profit-split methodologies such as those developed by China are shifting traditional arm's length methods to a quasi-formulary apportionment system. Providing a comprehensive understanding of all aspects of the formulary apportionment option, this state of the art summary of history, current practice, proposals and prospects in the ongoing debate over arm's length versus formulary apportionment methodologies will be welcomed by practitioners, policy-makers, and academics concerned with international taxation, all of whom will gain an understanding of the case put forward by proponents for adoption of formulary apportionment in Europe and globally and the counter-arguments they face. Readers will acquire a better understanding of the implications of formulary apportionment and its central role in the current debate about the future of international taxation rules. "...providing (sic) all the intellectual ammunition needed to carefully re-examine one of the ideas traditionally considered as apocryphal by the OECD and to a significant portion of the tax professional community...readers of this book will come away not only with a renewed understanding of the multiple facets of formulary apportionment, but also of some of the fundamental pressure points in the international tax system. Accordingly, it is a welcome and timely addition to the literature. " Dr. Stjepan Gadžo, Assistant Professor at University of Rijeka, Faculty of Law / British Tax Review 2021, Issue 2,

**Law of the European Union** John Fairhurst, 2010 Law of the European Union is on the cutting edge of developments in this dynamic area of the law. It explores the EU's constitutional and administrative law as well as the major areas of substantive EU law. Topics are extensively illustrated with decisions from the European Court of Justice and Court of First Instance, encouraging students to consider real-world applications of the principles of law.

**Hybrid Diplomacy with NGOs** Raffaele Marchetti, 2021-11-09 This book explores a new way of doing diplomacy through the engagement with non-governmental organizations, here referred to as hybrid diplomacy. Today's global politics is played out most successfully by the combined actions of different actors. A specific type of partnership is that between governments (namely Ministries of Foreign Affairs) and civil society organizations. While not the only type of global partnership at work, this is particularly effective in advancing new issues and promoting the norm changes that have been discussed at length in international relations and sociological literature. The author has chosen Italy as a case study because of the country's prolonged deployment of such policy. Being a middle power, with a strong non-profit sector, and hosting the central node of catholic global network, Italy is well positioned to take advantage of this new diplomatic mode. Through presenting a new reading of the Italian contribution to international affairs, this book contributes to broadening the scholarship in foreign policy analysis and transnational activism.

Vaccines, Medicines and COVID-19 Germán Velásquez, 2022-01-01 This open access book is a collection of research papers on COVID-19 by Germán Velásquez from 2020 and early 2021 that help to answer the question: How can an agency like the World Health Organization (WHO) be given a stronger voice to exercise authority and leadership? The considerable health, economic and social challenges that the world faced at the beginning of 2020 with COVID-19 continued and worsened in many parts of the world in the second-half of 2020 and into 2021. Many of these countries and nations wanted to explore COVID-19 on their own, sometimes without listening to the main international health bodies such as WHO, an agency of the United Nations system with long-standing experience and vast knowledge at the global level and of which all countries in the world are members. In this single volume, the chapters present the progress of thinking and debate — particularly in relation to drugs and vaccines — that would enable a response to the COVID-19 pandemic or to subsequent crises that may arise. Among the topics covered: COVID-19 Vaccines: Between Ethics, Health and Economics Medicines and Intellectual Property: 10 Years of the WHO Global Strategy Re-thinking Global and Local Manufacturing of Medical Products After COVID-19 Rethinking R&D for Pharmaceutical Products After the Novel Coronavirus COVID-19 Shock Intellectual Property and Access to Medicines and Vaccines The World Health Organization Reforms in the Time of COVID-19 Vaccines, Medicines and COVID-19: How Can WHO Be Given a Stronger Voice? is essential reading for negotiators from the 194 member countries of the World Health Organization (WHO); World Trade Organization (WTO) and World Intellectual Property Organization

(WIPO) staff participating in these negotiations; academics and students of public health, medicine, health sciences, law, sociology and political science; and intergovernmental organizations and non-governmental organizations that follow the issue of access to treatments and vaccines for COVID-19.

Heritage in War and Peace Gianluigi Mastandrea Bonaviri,2024

Giulio still does things Paola Deffendi,Claudio Regeni,2021-01-12T00:00:00+01:00 The world of politics hasn't answered to the tragedy of Giulio Regeni, who disappeared on January 25th 2016 in Cairo. Al Sisi's Egypt persists in sabotaging the investigation into the kidnapping, torture and murder of the son of Paola Deffendi and Claudio Regeni. In the last four years five more innocent people have been killed in Egypt and the government has invented incredible stories and falsified documents in order to allay suspicion. Even though judicial cooperation was promised, Egyptian police forces continue to intimidate and obstruct the work of the Egyptian commission for rights and freedom to which Giulio's parents have turned. Even Europe hasn't given an answer to this tragedy and Italy has failed to do so as well. Giulio's parents and their lawyer though are fighting in order to obtain justice and truth for Giulio and all the others who have suffered a similar fate. With them there is a yellow wave of people that is talking about Giulio, wearing bracelets, hanging banners in city halls, universities and cultural venues asking for truth and justice. This is because Giulio was an Italian citizen, a European citizen who had chosen culture as a tool to obtain solidarity and social justice. Giulio was born in Trieste and grew up in Fiumicello, in FriuliVenezia Giulia. He graduated in Leeds (UK), got a masters at Cambridge and was doing a PhD there. In Cairo he was working on a thesis dealing with the socio-economic aspects of Egypt and with trade union issues. Giulio Regeni's parents' fight in order to shed light on his murder needs to be our fight as well. Because truth and justice are rights that should belong to all citizens.

*Chechnya - Russia's 'War on Terror'* John Russell,2007-08-07 Providing a comprehensive overview of the Russo-Chechen War, the author examines the origins of the conflict historically, and traces how both sides were dragged inexorably into war in the early 1990s.

*Fianona-Plomin: Story of a country and a family* Guido Cavallo,2021-03-08 It is a synthetic story of a country in Istria (now Croatia), the place of my birth several years ago. Historical description from Roman times to today (abandoned town). I intertwine with some parts of the history of my maternal family. Written in English for its diffusion in the world of the diaspora-emigration of the descendants of those who lived and left Istria after the end of the Second World War.

**Research Handbook on International Energy Law** Kim Talus,2014-04-25 International energy law is an elusive but important concept. There is no body of law called 'international energy law', nor is there any universally accepted definition for it, yet many specialised areas of international law have a direct relationship

Remedies in Network Industries Damien Geradin,2004 Over the last decade, the European Union has undertaken major

market-opening reforms in the area of network industries. The liberalization process has now been completed in the air transport and electronic communications sectors and has achieved considerable progress in other network industries, such as postal services, energy (electricity and gas), and rail transport. Creating competition in network industries is not an easy matter, however. Because they benefit from certain advantages such as a large initial market share and control of essential facilities, incumbents typically retain substantial market power in a number of relevant markets and may even use their position to prevent others from engineering such markets. Controlling market power is thus one of a number of key concerns in network industries. It can be achieved in two main ways; either through the adoption and implementation of sector-specific rules or through the application of competition rules. There are advantages and disadvantages to both options, but it is a combination of the two that generally prevents incumbents from abusing their market power in liberalized markets. Competition law and sector-specific regulation provide for the application of remedies on incumbents or other operators holding significant market power. Such remedies are either structural or a behavioural. In some occasions they will apply ex ante, while in others ex post. This book comprises a collection of outstanding essays dealing with the complex legal and economic issues raised by remedies in network industries. While some of these essays analyse remedies from a generic point of view, others focus on specific remedies applied specifically in particular sectors. The sectors covered in this volume include electronic communications, postal services, energy (electricity and gas), and air transport. The final paper also presents a discussion of the United States approach to remedies in network industries. The essays comprised in this book have been written by leading academics (lawyers and economists), as well as private practitioners.

**Leaders, Factions and the Game of Intra-Party Politics** Andrea Ceron, 2019-05-07 The book provides a comprehensive view on the internal life of parties and investigates the dynamics of intra-party politics in different party environments to explain in which circumstances the party leader is more or less bound by the wills of party factions. Analyzing almost 500 intra-party documents from Italy, Germany and France, it presents a theory of intra-party politics that illuminates internal decision-making processes and sheds light on the outcomes of factional conflicts on the allocation of payoffs within the party, on the risk of a party split and on the survival of the party leader. Using text analysis, the results show that consensual dynamics can allow to preserve party unity and that directly elected leaders can exploit their larger autonomy either to reward followers or to prevent splits. This text will be of key interest to scholars and students of Party Politics, Political Institutions, European Politics and more broadly to Comparative Politics, Political Theory and Text Analysis.
