Demokratien im Vergleich Heidrun Abromeit, Michael Stoiber, 2007-11-03 Das Buch will in die vergleichende Analyse politischer Systeme einführen, indem es den systematischen, theoriegeleiteten Vergleich vorführt. Der erste Teil gibt einen Überblick über den ‚state of the art‘ der vergleichenden Politikwissenschaft. Er stellt die Methoden des wissenschaftlichen Vergleichs, die wichtigsten Varianten von Systemvergleichen sowie eine Reihe von Studien vor, die für die Entwicklung dieses Zweigs der Politikwissenschaft prägend waren. Der im zweiten Teil vorgeführte Vergleich von neun europäischen Ländern orientiert sich methodisch am ‚akteurszentrierten Institutionalismus‘, insbesondere am Vetospieler-Ansatz. Aus ihm sind auf alle politischen Systeme und System-Typen anwendbare Vergleichskriterien abgeleitet.

**Zweite Kammern im Vergleich: GB und Italien** Lukas Kromminga, 2013-01-10 Studienarbeit aus dem Jahr 2011 im Fachbereich Politik - Politische Systeme allgemein und im Vergleich, Note: 3,0, Technische Universität Darmstadt (Institut für Politikwissenschaft), Veranstaltung: Proseminar: Vergleich politischer Systeme, Sprache: Deutsch, Abstract: In der folgenden Arbeit soll beleuchtet werden, wie sich Kompetenzen von Zweiten Kammern in unitarischen Staaten unterscheiden. Anhand von Arbeitsweisen in den Bereichen der Gesetzgebung und der parlamentarischen Kontrolle, lassen sich Unterschiede deutlich aufzeigen. Als zu Grunde liegende Beispiele dienen die bikameralistischen Systeme Italiens und Großbritanniens. Italien als Beispiel für eine starke Zweite Kammer. Ein international einzigartiges politisches System, mit einem Senat mit weitgehenden Kompetenzen in den beleuchteten Arbeitsgebieten. Auf der anderen Seite Großbritannien. Ein Beispiel für eine eher repräsentative, schwächere Zweite Kammer. Doch wo liegen eventuelle Gemeinsamkeiten und Unterschiede in ihren Arbeitsweisen? Wo lassen sich Rückschlüsse auf die allgemeine Stellung der Zweiten Kammer im politischen System der jeweiligen Länder finden? Betrachtet werden soll dabei im Weiteren zunächst das Länderparlament allgemein. Die Zusammensetzung mit Erster und Zweiter Kammer und ihre interne Struktur. Dazu nähere Betrachtungen der Arbeitsweisen der Zweiten Kammer. Welche Aufgaben im Prozess der Gesetzgebung haben der Senat in Italien und das Oberhaus in Großbritannien? Wo liegen ihre Kompetenzen im Bereich der Regierungskontrolle? Anschließend der Vergleich, um Unterschiede und Gemeinsamkeiten, der auf dem Papier so unterschiedlichen Arten Zweiter Kammern zu benennen. Dazu eine Einordnung im jeweiligen System des Landes, liegt ein Konfliktverhältnis vor oder verhalten sich die Kammern Partnerschaftlich?

Blockade, Korruption und politische Instabilität Marco Siebert, 2008-10-24 Studienarbeit aus dem Jahr 2008 im Fachbereich Politik - Region: Westeuropa, Note: 1,7, Martin-Luther-Universität Halle-Wittenberg, Sprache: Deutsch, Abstract: Von Anfang an hatte Prodi im italienischen Parlament um die Mehrheitsverhältnisse zu kämpfen. Die 15. Legislaturperiode endete damit nach nur knapp zwei Jahren und anschließend stellte sich die Frage: Befindet sich das italienische Parlament nun in der Krise? Diese Arbeit soll die Parlamentsfunktionen und Parlamentsleistungen darstellen, sie auf ausgewählte Bereiche des italienischen Parlaments und auf die Bereiche der Parlamentsorganisation beziehen. Inwieweit erfüllt das italienische Parlament diese Funktionen? Welche Leistungen erfüllt es und welche Funktionsprobleme existieren? Anhand der vier klassischen Parlamentsfunktionen (Wahl-, Gesetzgebungs-, Kontroll- und Artikulationsfunktion) zeigt der Autor auf, dass sich auch nach den Reformen der zweiten Republik das italienische Parlament nicht in Krise, sondern sogar in einer Dauerkrise befindet. Diese kann nur durch die Umsetzung der von Napolitano geforderten Reformen zur Stabilisierung des Parlamentarismus in Italien überwunden werden.

Einführung in die Politikwissenschaft Christiane Frantz, Klaus Schubert, 2010

**Wahlssystemreform in Deutschland** Peggy Matauschek, 2021-09-07 Wäre eine mehrheitsbildende Wahlssystemreform eine bedenkenswerte Lösungsalternative in der verfahrenen deutschen Wahlssystemreformdebatte? Ja. Angesichts der mangelnden Konzentrationskraft des personalisierten Verhältniswahlsystems sucht die Autorin in ihrer Studie nach Lösungsmöglichkeiten jenseits des proportionalen Repräsentationsprinzips. Neben den klassischen Mehrheitswahlmodi der relativen und der absoluten Mehrheitswahl im Einerwahlkreis erörtert sie das Potenzial von Grabenwahlverfahren, der Wahl in kleinen Wahlkreisen sowie Prämienwahlsystemen mit einem Partei- bzw. Koalitionsbonus im bundesdeutschen Kontext. Aufgrund seiner ausgewogenen Leistungsbilanz plädiert die Studie für die Einführung eines Prämienwahlsystems mit einem Koalitionsbonus.

Das politische System Italiens Stefan Köppl, 2007-03-15 Das politische System Italiens stellt für den ausländischen Beobachter oft ein schwer durch-schaubares Objekt dar. Zudem scheint sich Italien seit der Umstrukturierung des Parteiensystems zu Beginn der 1990er Jahre in einer Art permanenten Übergangsphase zu befinden. Diese Einführung bietet einen systematischen, verständlichen und politikwissenschaftlich gehaltvollen Überblick über alle Bereiche und Hintergründe sowie Strukturen, Prozesse und Akteure der italienischen Politik.

Die Macht der Parlamente Martin Sebaldt, 2009-11-16 Die Studie arbeitet erstens heraus, wie das Funktionsspektrum moderner Parlamente weltweit differiert. Gegenstand dieser komparativen Analyse sind die Volksvertretungen von 23 alten, d.h. konsolidierten und zugleich traditionsreichen Demokratien. Zweitens wird analysiert, wie das jeweilige parlamentarische

Funktionsprofil (Regierungsbildung, Gesetzgebung, Kontrolle, Repräsentation und Kommunikation) durch bestimmte Kontextvariablen (Regierungssystem, Parteienlandschaft, politische Vetospielergefüge etc.) beeinflusst wird. Drittens wird untersucht, welche spezifischen parlamentarischen Leistungsbilanzen (Gewährleistung von Regierungsstabilität, effektiver Gesetzgebung, Haushaltsdisziplin, Bürgervertrauen) aus der jeweiligen Machtausstattung resultieren. Das lässt dann Schlüsse darüber zu, ob durch bestimmte Funktionsprofile und Kontextbedingungen optimale parlamentarische Leistungen erzielbar sind.

nes Systems wie einen bundesstaatlichen Aufbau oder eine dominierende Stellung des Staatspräsidenten bedingt sein können. Alle Beiträge enthalten Kapitel zu den folgenden Themen: Verfassungsentwicklung und Verfassungsprinzipien Staatsoberhaupt Parlament Regierung und Verwaltung Gesetzgebungsprozeß Wahlsystem und Wählerverhalten Parteiensystem und innerparteiliche Willensbildung Interessenverbände und Interessenvermittlung Massenmedien Politische Kultur/politische Partizipation Rechtssystem (ggf. besonders Verfassungsgerichtsbarkeit) Regional. : 'und Kommunalpolitik Europapolitik und internationale Beziehungen Hinzu kommen gegebenenfalls Kapitel zu direktdemokratischen Verfahren oder zum Ombudsmann. Seiner Bedeutung für moderne rechts- und sozialstaatliche Demokratien entsprechend, ist dem Gesetzgebungsprozeß jeweils ein eigenes Kapitel gewidmet, das angesichts der formellen und informellen Beteiligung zahlreicher Institutionen und Akteure wichtige Einblicke in den Willensbildungs- und Entscheidungsprozeß der behandelten politischen Systeme erlaubt. Über die Grobstruktur hinaus wurde auch im Interesse der Vergleichbarkeit auf die Berücksichtigung einer Reihe von Einzelfragen geachtet, was in einigen Ländern aufwendige eigene Recherchen der Autoren erforderlich machte. Autoren und Herausgeber war an einer gründlich informierenden Darstellung der Strukturen und Prozesse der politischen Systeme wie auch an einer problemorientierten Analyse aus (primär) politikwissenschaftlicher Sicht gelegen. Eine Einbeziehung auch der (Reform-)Staaten Osteuropas war - zumal zum Zeitpunkt der Projektierung dieses Werkes - noch nicht möglich, da die Entwicklung dieser Länder zu sehr im Fluß war und ist. Dies gilt besonders für die aus politikwissenschaftlicher Sicht nicht zu vernachlässigenden informellen Prozesse. Eine Ausnahme bildet der Beitrag über Deutschland, das als einziger der hier behandelten Staaten auch Gebiete umfaßt, die bis 1989/90 zum Ostblock gehörten.

Explorative Studien weisen seit langem darauf hin, dass die Führungsstile von Regierungschefs im internationalen Vergleich deutlich variieren. Dieser Sammelband geht diesem Sachverhalt genauer auf den Grund und zeigt Gemeinsamkeiten und Unterschiede politischer Führungsmuster in komparativer Perspektive auf. In elf Fallstudien werden die Führungsstile in parlamentarischen und präsidentiellen Regierungssystemen, in föderalen und einheitsstaatlichen Ordnungen sowie in

etablierten Demokratien und Transformationsstaaten dargestellt. Beiträge zum Stand der interdisziplinären Führungsforschung erschließen zudem den nötigen theoretischen Rahmen, um die Ergebnisse zu erklären.

**The Max Planck Handbooks in European Public Law** Armin von Bogdandy, Peter M. Huber, Sabrina Ragone, 2023-02-27 The Max Planck Handbooks in European Public Law describe and analyze public law of the European legal space, an area that encompasses not only the law of the European Union but also the European Convention on Human Rights and, importantly, the domestic public laws of European states. Recognizing that the ongoing vertical and horizontal processes of European integration make legal comparison the task of our time for both scholars and practitioners, the series aims to foster the development of a specifically European legal pluralism and to contribute to the legitimacy and efficiency of European public law. The first volume of the series began this enterprise with an appraisal of the evolution of the state and its administration, offering both cross-cutting contributions and specific country reports. This second volume continues this approach with an in-depth appraisal of the foundations of the constitutional order in various and diverse European countries. Fourteen country reports investigate the antecedents, foundations, organization, basic principles, and challenges to European constitutions. They include countries with long-lasting and recently amended constitutions, decentralized or unitary, with different political systems and institutional settings. In keeping with the focus on a diverse but unified legal space, each report also details how the constitutional identity of each country has been elaborated and what it entails. Together, the chapters of this volume provide a strong and diverse foundation for a continuing European constitutional dialogue.

*Introduction to Comparative Public Administration* Sabine Kuhlmann, Hellmut Wollmann, This introduction into comparative public administration provides an in-depth analysis of the state of public administration and recent

administrative reforms in European countries. By focusing on the UK, France, Germany, Sweden, Italy and Hungary, it highlights key types of the Anglo-Saxon, Scandinavian, Continental European and Central East European variance of public administration. Its guiding question is whether and why the politico-administrative systems have shown convergence or divergence.

**Multiple Populisms** Paul Blokker, Manuel Anselmi, 2019-09-17 This book provides a comprehensive interpretation of the multiple manifestations of populism using Italy, the only country amongst consolidated constitutional democracies in which populist political forces have been in government on various occasions since the early 1990s, as the starting point and benchmark. Populism is a complex, multi-faceted political phenomenon which redefines many of the essential characteristics of democracy; participation, representation, and political conflict. This book considers contemporary versions of populism that pose a real challenge to representative and constitutional democracy. Contributors provide an integrative interpretation of populism and analyse its principal historical, social and politico-legal variables to provide a multi-dimensional reflection on the concept of populism, comprehensive analysis of the populist phenomenon and a theoretical and comparative perspective on the diverse political experiences of populism. Based on conceptual and interdisciplinary reflections from expert authors, this book will be of great interest to scholars and post-graduate students of cultural studies, European studies, political sociology, political science, comparative politics, political philosophy, and political theory with an interest in a comparative and interdisciplinary theory of populism and its manifestations.

*Writing Constitutions* Wolfgang Babeck, Albrecht Weber, 2022-11-24 Writing Constitutions intends to serve as a practical manual for those writing constitutions or interested in their design. It is the first systematic and universal approach to coherently capture concepts and contents of a modern constitution. Volume I breaks each constitutional mechanism into components and offers detailed designs to draft a constitutional clause. This provides lawmakers with the necessary toolkit for writing constitutions and empowers them to strengthen democracies. Writing Constitutions comes in three volumes: - Volume I: Institutions - Volume II: Fundamental Rights - Volume III: Constitutional Principles

The Politics of Work-Family Policy Reforms in Germany and Italy Agnes Blome, 2016-11-25 One of the fundamental challenges facing modern welfare states is the question of work-family reconciliation. An increasing share of mothers work, but many European welfare states do not adequately support the dual-earner model, especially in southern Europe. After 2005, German policy-makers transformed the nature of Germany's family policy regime through a number of legislative measures, whilst Italy, a country with many similarities, witnessed little change. Using a multi-methods approach, this book addresses the puzzle of why Germany was able to implement far-reaching reforms in this policy area after a long impasse and Italy was not. As such, it delivers a broad, systematic account of these reforms and sheds light on why similar reforms were not also adopted in other similar welfare states at the same time. More generally, it contributes to understanding the

determinants of welfare policy change in modern European welfare states. This text will be of key interest to scholars, students and professionals working on topics linked to European politics, welfare and work-family policies, comparative politics, social policy, and more broadly to political science and gender studies.

*Constitutional Acceleration within the European Union and Beyond* Paul Blokker, 2017-10-12 Modern constitutionalism as an idea and practice is facing great uncertainty in current times. Scholarly debates focus predominantly on constitutions beyond the state, while the predicament of domestic constitutionalism is much less considered. This volume contributes to a theoretically informed analysis of the key challenges and changes affecting domestic constitutionalism in Europe and beyond, departing from the idea of 'constitutional acceleration' or the increased propensity of different actors to engage in (formal) reform of the constitutional order. The volume points to a fundamental change in the function of constitutions in that constitutions themselves are increasingly subjects of political contestation rather than framing political debates. The collection of essays addresses a range of critical challenges - including societal acceleration, depoliticization, civic engagement, multi-faceted constituent power, modernization, populism and nationalism, and transnationalization. The volume includes a variety of disciplinary, and in some cases interdisciplinary, approaches, including (political) sociology, political science, constitutional law, and constitutional and legal theory, and will be of interest to researchers and students in any of these areas. Case studies focus on the EU and the wider European context, and include highly relevant but little known or ill-understood cases, such as the recent constitutional events in Iceland, Italy, or Romania, and cases of democratic reversal, such as Hungary, while also engaging with traditional but rapidly changing cases of constitutional interest, such as the UK.
