## Fratelli PELLAS

**Wiederaufbau, Wirtschaftsplanung und Südförderung** Christian Grabas,2020-06-08 Die Untersuchung widmet sich dem Zusammenhang von Industriepolitik und wirtschaftlicher Entwicklung zwischen 1943/45 und 1975 in Italien. Planung und Praxis der staatlichen Industrieförderung werden erstmals auf der Grundlage umfangreicher Quellenbestände und archivgestützter Datenerhebungen historisch rekonstruiert sowie ihr Beitrag für Wachstum und Strukturwandel der italienischen Volkswirtschaft differenziert analysiert. Die weitverbreiteten Negativurteile hinsichtlich der mangelnden Steuerungseffizienz der italienischen Industriepolitik werden durch die Ergebnisse dieser Studie relativiert.

After the Three Italies Michael Dunford,Lidia Greco,2011-07-22 After the Three Italies develops a new political economy approach to the analysis of comparative regional development and the territorial division of labour and exemplifies it through an up-to-date account of Italian industrial change and regional economic performance. Responds to recent theoretical debates in economic geography, involving economists, geographers and planners. Builds the foundations for a new theoretical approach to regional economic development and the territorial division of labour. Draws on the results of a recent ESRC funded research project, as well as on a large range of official data sets. Provides an up-to-date picture of Italy's economic performance and of its recent development relative to other European countries and the rest of the world. Analyses Italy's internal differentiation and its persistent regional inequalities. Examines the regional impact of the recent evolution of the car, chemicals, steel and clothing industries. Leads to a new and more complex picture of Italian development.

*Accounting for the Holocaust* Warwick Funnell,Michele Bigoni,Erin Twyford,2024-06-28 Accounting for the Holocaust: Enabling the Final Solution reveals how accounting practices allowed the attempted annihilation of Jews by the German Nazis and the Italian Fascists to be carried out with machine-like efficiency and devoid of any moral considerations. This largely hidden aspect of the Holocaust will allow a wide range of readers, both academic and across many sectors of the general population, to understand how the systematic murder of more than six million Jews was expedited by accounting

practices and the information that these produced by allowing the humanity of those killed to be denied when they became mere numbers in a process. Readers will gain a new understanding of how the enactment of the scale of the Holocaust was made possible by the way in which accounting practices as “technologies of death” were used to reduce Jews to a life without value. The numerical calculations, techniques, and reports that constitute accounting practices allowed the systematic murder of Jews to be drained of any considerations that would imply that the numbers and costings were related to prescient human beings. These technologies of death also allowed those who managed and organised the murder of Jews to absolve themselves of the actual killings.
