CDA and PDA Made Simple Bahaa-eddin M. Mazid,2014-11-24 CDA and PDA Made Simple cuts many long stories short and encapsulates a long-standing tradition in modern and contemporary linguistics. The theoretical scope of the book encompasses a lengthy review of relevant studies in the area of critical discourse analysis (CDA), and, more broadly, in the areas of power, control, ideology and politics as realized and enacted in discourse. The book also brings together a detailed theoretical background on the main tenets and assumptions, tools and recipes, trends and extensions and critiques and applications of critical and political discourse analysis (PDA). Its analytical focus is predominantly on how ideology and power are linguistically and meta-linguistically realized, specifically through transitivity, modality, metadiscourse and presupposition in some discourse genres in English.

Critical Discourse Analysis and Discourse of Power Anwar Elsharkawy,2017-01-02 Scientific Essay from the year

2012 in the subject Speech Science / Linguistics, grade: Excellent with honor, , course: Critical Discourse Analysis, language: English, abstract: The present paper has shown the practical part of CDA according to three scholars, namely they are Norman Fairclough, Ruth Wodak, and Teun van Dijk. Their approaches are somehow different in method and way of interpretation. While Fairclough is brought up on the systemic-functional model of theory and thus often concentrates on rather limited amounts of research material, Wodak turns to sociolinguistics and ethnography with an emphasis on corpus-based research and on work with different approaches with a variety of empirical data as well as background information. However, the notion that language is inherently social remains a key assumption in both approaches. On the other hand, similarly to Fairclough, van Dijk acknowledges three different perspectives; text, discourse practice and sociocultural practice, and emphasizes on the link between textual analysis and sociocultural analysis. However, van Dijk differentiates himself from both Fairclough and Wodak in his understanding of social events or of social institutions and power relations. To van Dijk, social cognitions mediate between micro- and macro-levels of society, between discourse and action, between the individual and the group. Therefore, the focus on social cognition governs the process of analysis.
