Notverordnung und Decreto-Legge Malte Johannes Becker, 2020-09-02 Deutschland und Italien gehen im Bereich des Notstandsrechts unterschiedliche Wege. Während Italien im permanenten Ausnahmezustand zu leben scheint, ist die Notgesetzgebung in Deutschland verpont. Woher ruhrt dieser unterschiedliche Zugang? Wesentlich divers verläuft die Verfassungsentwicklung erst mit den beiden Nachkriegsverfassungen von 1948/49. Malte Becker untersucht die Debatten, die hier um die Gestaltung der Notstandsgesetzgebung geführt wurden. Dabei wird deutlich, dass die den Beratungen zu Grunde liegende juristische Methodenlehre die Herangehensweise massgeblich bestimmt.

European Military Law Systems Georg Nolte, 2012-08-06 The German Ministry of Defense decided in 2000 to commission a study comparing various European systems of military law. The present book contains not only the original study but also all national reports in English. It provides a comparative analysis of different European military law systems on the basis of national reports.

Local Government and the COVID-19 Pandemic Carlos Nunes Silva, 2022-05-03 The book provides a global perspective of local government response towards the COVID-19 pandemic through the analysis of a sample of countries in all continents. It examines the responses of local government, as well as the responses local government developed in articulation with other tiers of government and with civil society organizations, and explores the social, economic and policy impacts of the pandemic. The book offers an innovative contribution on the role of local government during the pandemic and discusses lessons for the future. The COVID-19 pandemic had a global impact on public health, in the well-being of citizens, in the economy, on civic life, in the provision of public services, and in the governance of cities and other human settlements, although in an uneven form across countries, cities and local communities. Cities and local governments have been acting decisively to apply the policy measures defined at national level to the specific local conditions. COVID-19 has exposed the inadequacy of the crisis response infrastructures and policies at both national and local levels in these countries as well as in many others across the world. But it also exposed much broader and deeper weaknesses that result from how societies are

organized, namely the insecure life a substantial proportion of citizens have, as a result of economic and social policies followed in previous decades, which accentuated the impacts of the lockdown measures on employment, income, housing, among a myriad of other social dimensions. Besides the analysis of how governments, and local government, responded to the public health issues raised by the spread of the virus, the book deals also with the diversity of responses local governments have adopted and implemented in the countries, regions, cities and metropolitan areas. The analysis of these policy responses indicates that previously unthinkable policies can surprisingly be implemented at both national and local levels.

Das Steuerstreitverfahren in Italien Christoph Perathoner, Lorenz Ebner, 2016-10-27 Das vorliegende Werk ist die erste deutschsprachige Monographie zum Steuerstreitverfahren in Italien. Es stellt sämtliche Prozessinstanzen dar sowie die Möglichkeiten, sich im Rahmen eines Steuerstreitverfahrens in Italien an den Verfassungsgerichtshof, den Gerichtshof der Europäischen Union und schließlich auch an den Europäischen Gerichtshof für Menschenrechte zu wenden. Behandelt werden ferner die Streitbeilegung, die Steuereinhebung und die Urteilsvollstreckung.

Die Rechtsetzungsbefugnisse der italienischen Regierung Jobst Martin Selle, 2021 Die italienische Regierung verfügt - anders als die deutsche - über umfassende Rechtsetzungsbefugnisse. Verordnungen der Regierung spielen deshalb in der Rechtspraxis eine herausragende Rolle. Zugleich stößt die Funktion der Regierung als Rechtsetzungsorgan auf wachsende Kritik. Vor diesem Hintergrund untersucht der Autor Entstehung und Umfang, Funktion und Kontrolle dieser Befugnisse. Seit der staatlichen Einigung Italiens im neunzehnten Jahrhundert nimmt die Regierung weitreichende Rechtsetzungsbefugnisse in Anspruch. Teilweise ermächtigt das Parlament die Regierung, Gesetzesverordnungen auf einem bestimmten Gebiet zu erlassen, teilweise erläßt die Regierung in Ausnahmesituationen eigenständig vorläufig wirksame Notverordnungen. Gesetzesverordnungen erfüllen eine wichtige Aufgabe etwa bei umfangreichen Regelungsvorhaben oder der fristgerechten Umsetzung europäischer Rechtsvorschriften. Ursprünglich allein für Ausnahmesituationen vorgesehen, haben Notverordnungen einen erheblichen Funktionswandel erfahren. Dank eines beschleunigten Gesetzgebungsverfahrens beschließt die Regierung Notverordnungen zur zügigen Umsetzung des politischen Programms. Diese Entwicklung stößt auf heftige Kritik. Der Autor untersucht vorhandene Kontrollmechanismen und kommentiert die jüngsten Ansätze in der Verfassungsrechtsprechung. Der Ausnahmecharakter der Notverordnungsgebung kann danach nur durch eine grundlegende Reform des Gesetzgebungsverfahrens wiederhergestellt werden.

Italian Constitutional Justice in Global Context Vittoria Barsotti, Paolo G. Carozza, Marta Cartabia, Andrea Simoncini, 2016 Italian Constitutional Justice in Global Context is the first book ever published in English to provide an international examination of the Italian Constitutional Court (ItCC), offering a comprehensive analysis of its principal lines of jurisprudence, historical origins, organization, procedures, and its current engagement with transnational European law. The

ItCC represents one of the strongest and most successful examples of constitutional judicial review, and is distinctive in its structure, institutional dimensions, and well-developed jurisprudence. Moreover, the ItCC has developed a distinctive voice among global constitutional actors in its adjudication of a broad range of topics from fundamental rights and liberties to the allocations of governmental power and regionalism. Nevertheless, in global constitutional dialog, the voice of the ItCC has been almost entirely absent due to a relative lack of both English translations of its decisions and of focused scholarly commentary in English. This book describes the Italian Style in global constitutional adjudication, and aims to elevate Italian constitutional jurisprudence to an active participant role in global constitutional discourse. The authors have carefully structured the work to allow the ItCC's own voice to emerge. It presents broad syntheses of major areas of the Court's case law, provides excerpts from notable decisions in a narrative and analytical context, addresses the tension between the ItCC and the Court of Cassation, and positions the development, character, and importance of the ItCC's jurisprudence in the larger arc of global judicial dialog.

The Politics and Practice of Occupational Health and Safety Law Enforcement Diego Canciani,2018-10-04 This book takes a critical approach to examining British and Italian occupational health and safety enforcement policies and questions the legal and political principles that underpin them. The book undertakes a comparative critical analysis of these two jurisdictions' health and safety regulatory enforcement practices by focusing on the causes and consequences of the under-criminalisation of these crimes. It explores the fundamentals of these two jurisdictions' criminal justice systems and political practices, policies and traditions and exposes how these translate into pragmatic social inequality and injustice for victims of occupational health and safety crimes and, more generally, citizens. Findings are drawn from qualitative interviews conducted with front line occupational health and safety enforcement officers. This book offers an account of the challenges encountered when attempting to scrutinise public institutions responsible for policing crimes of the powerful. The comparison of the political and criminal justice system practices, polices and traditions of the British and Italian legal systems offer a valuable critical contribution to the anglophone literature on the subject and, more generally, on regulatory enforcement policies and practices.

Data protection in the context of covid-19. A short (hi)story of tracing applications Elise Poillot,Gabriele Lenzini,Giorgio Resta,Vincenzo Zeno-Zencovich,2021-11-13 The volume presents the results of a research project (named "Legafight") funded by the Luxembourg Fond National de la Recherche in order to verify if and how digital tracing applications could be implemented in the Grand-Duchy in order to counter and abate the Covid-19 pandemic. This inevitably brought to a deep comparative overview of the various existing various models, starting from that of the European Union and

those put into practice by Belgium, France, Germany and Italy, with attention also to some Anglo-Saxon approaches (the UK and Australia). Not surprisingly the main issue which had to be tackled was that of the protection of the personal data collected through the tracing applications, their use by public health authorities and the trust laid in tracing procedures by citizens. Over the last 18 months tracing apps have registered a rise, a fall, and a sudden rebirth as mediums devoted not so much to collect data, but rather to distribute real time information which should allow informed decisions and be used as repositories of health certifications.

Typical Personal Security Rights in the EU Almudena de la Mata Muñoz,2010 This volume offers an in-depth analysis of the current status of the law and legal practice of personal security rights in the EU. The impact of the financial crisis is specifically considered and the treatment of personal security rights in the Basel II Accord is critically addressed. While focusing on Italian and Spanish legal systems, this comparative study includes extensive references to other EU Member States. The influence of EU private law on this area is also explored. The implications of a harmonised regime for personal security rights in the EU are analysed both from an economic and a legal perspective. In this context, specific reference is made to the latest academic works and policy proposals for EU legal unification (Principles of European Contract Law / Draft Common Frame of Reference).

Time, Law, and Change Sofia Ranchordás,Yaniv Roznai,2020-04-16 Offering a unique perspective on an overlooked subject - the relationship between time, change, and lawmaking - this edited collection brings together world-leading experts to consider how time considerations and social, political and technological change affect the legislative process, the interpretation of laws, the definition of the powers of the government and the ability of legal orders to promote innovation. Divided into four parts, each part considers a different form of interaction between time and law, and change. The first part offers legal, theoretical and historical perspectives on the relationship between time and law, and how time shaped law and influences legal interpretation and constitutional change. The second part offers the reader an analysis of the different ways in which courts approach the impact of time on law, as well as theoretical and empirical reflections upon the meaning of the principle of legal certainty, legitimate expectations and the influence of law over time. The third part of the book analyses how legislation and the legislative process addresses time and change, and the various challenges they create to the legal order. The fourth and final part addresses the complex relationship between fast-paced technological change and the regulation of innovations.

Migrant Languages in Education Anna Malandrino,2023-01-01 This book examines language education policy in European migrant-hosting countries. By applying the Multiple Streams Framework to detailed case studies on Austria and Italy, it sheds light on the factors and processes that innovate education policy. The book illustrates an education policy design that values language diversity and inclusion, and compares underlying policymaking processes with less innovative experiences. Combining empirical analysis and qualitative research methods, it assesses the ways in which language is intrinsically linked to identity and political power within societies, and how language policy and migration might become a firmer part of European policy agendas. Sitting at the intersection between policy studies, language education studies and integration studies, the book offers recommendations for how education policy can promote a more inclusive society. It will appeal to scholars, practitioners and students who have an interest in policymaking, education policy and migrant integration.

Economic Incentives and Environmental Policies J.B. Opschoor,R. K. Turner,2012-12-06 This book contains a collection of papers on economic incentives and environmental policies which result from the authors' joint research work in the program `Environment, Science and Society', conducted under the auspices of the European Science Foundation, with whose cooperation the book has been published. The work concentrates on the scientific and methodological aspects of the development, implementation and evaluation of economic instruments at a national level. The research is both theoretical and empirical. At a theoretical level attention is given to the dynamics of instrument choice in various political and economic contexts, and to the means for evaluating economic instruments in terms of their effectiveness and efficiency. At an empirical level the research seeks to investigate the performance of economic instruments in reality and to explore options for new approaches on the interface between technology, economy and the environment. A subject index complements this first volume in the ESF `Environment, Science and Society' series.
