Local Government in Europe Carlo Panara, Michael R. Varney, 2013-12-04 This work considers the role of local government in 13 EU Member States (Austria, Belgium, Czech Republic, France, Germany, Greece, Hungary, Italy, Netherlands, Poland, Spain, Sweden and the United Kingdom). The book aims to provide an account of the system of local government in each of the countries studied along with a critical and contextual approach to the level of autonomy that local government enjoys. The approach is comparative, based on a questionnaire which all of the authors considered. There is then a detailed conclusion to the book which offers a detailed summary and comparative analysis of the responses in order to better consider the role of local authorities as the 'fourth level' of governance in the EU. The book aims to offer a detailed introduction to and account of each system of local government which may appeal to those seeking an overview of the area, but also a critical and contextual approach that will be of interest to those actively researching in the areas of local and regional government or EU-central-local government relations. The book contains details of reform in local government up to November 2012, including an analysis of the impact of austerity measures on local autonomy where these have become significant.

Financial Sustainability and Intergenerational Equity in Local Governments Rodríguez Bolívar, Manuel Pedro, López Subires, María Deseada, 2018-03-16 Due to the mortgage crisis of 2008, laws aimed at achieving budgetary and financial stability were enacted. The concept of financial sustainability has been linked to the need of rendering public services without compromising the ability to do so in the future. *Financial Sustainability and Intergenerational Equity in Local Governments* is

a critical scholarly resource that analyzes the financial sustainability of local governments with the aim of ensuring equality and intergenerational equity. Featuring coverage on a broad range of topics such as intergenerational equity, public policies, and sustainability management, this book is geared towards government officials, managers, academicians, practitioners, students, and researchers seeking current research on identifying public policies to ensure financial balance.

**OECD Multi-level Governance Studies Aligning Regional and Local Budgets with Green Objectives**  
**Subnational Green Budgeting Practices and Guidelines** OECD,2022-06-22 Green budgeting is emerging at subnational levels as an important tool for regions and cities to use to align their expenditure and revenues with their green objectives, and enhance the transparency and accountability of their climate and environmental action. It is also a tool that subnational governments can use to prioritise low-carbon investments and identify funding gaps, as well as to mobilise additional sources of both private and public climate finance.

*Combating Poverty in Local Welfare Systems* Alexandru Panican,Håkan Johansson,2016-07-12 This book analyzes national anti-poverty measures at a local level via a set of unique and up-to-date empirical studies of minimum income support schemes and activation measures in five European cities. In examining this 'local welfare system' approach, it investigates the role that civil society organizations play, and the governance arrangements that prevail in contacts between public and civil society actors in local anti-poverty strategies. The current financial and economic crisis has caused increasing levels of poverty and unemployment, and put national minimum income protection schemes under severe strain. *Combating Poverty in Local Welfare Systems* therefore represents a timely and important intervention in the political and scientific debates as to whether more 'local welfare' is the solution to the challenges facing European welfare states.

Local Modern Governance. Ansätze für ein Kommunalpolitisches Management Alexander Stock,2012-01-31 *Local Modern Governance - Ansätze für ein Kommunalpolitisches Management*Das Verständnis von dem, was Aufgabe des Staates, was Staat an sich ist und wie politische Steuerung im 21. Jahrhundert aussehen sollte, befindet sich aktuell im Fluss.Der Modern Governance-Ansatz stellt viele klassische Grundannahmen in Frage und gibt neue, zeitgemäßere Antworten.Alexander Stock überträgt den Modern Governance-Ansatz auf die lokale Ebene und stellt die Frage, welche Auswirkungen das damit verbundene Staatsverständnis für die Arbeit von Rat, Bürgermeister und Verwaltung hat.Die Arbeit legt nahe, dass Kommunalpolitik sich als Teil eines lokalen Modern Governance-Netzwerkes sehen sollte. Unter Achtung der Autonomie der anderen lokalen Akteure kann das Politisch-Administrative System als zentraler Netzwerkteilnehmer versuchen, bei der Lösung anstehender Probleme Kooperationspartner zu finden oder durch den geschickten Einsatz institutioneller

Arrangements die Rahmenbedingungen für andere Akteure auf diesem Wege zielführend beeinflussen. Alexander Stock trägt hierbei der Komplexität politischer Entscheidungsprozesse Rechnung, indem er von klassischen linearen Grundannahmen Abstand nimmt. Entsprechend sieht er die Aufgabe z.B. eines starken Bürgermeisters darin, auf die Schaffung und effektive Nutzung von Windows of Opportunities hinzuwirken. Das Buch *Local Modern Governance - Ansätze für ein Kommunalpolitisches Management* eröffnet einen neuen Blickwinkel auf die Arbeit von Rat, Bürgermeister und Verwaltung und liefert so die theoretische Grundlage für eine fortschreitende Modernisierung der Kommunalpolitischen Arbeit.

Local Public Sector Reforms in Times of Crisis Sabine Kuhlmann, Geert Bouckaert, 2016-08-25 This book compares the trajectories and effects of local public sector reform in Europe and fills a research gap that has existed so far in comparative public administration and local government studies. Based on the results of COST research entitled, 'Local Public Sector Reforms: an International Comparison', this volume takes a European-scale approach, examining local government in 28 countries. Local government has been the most seriously affected by the continuously expanding global financial crisis and austerity policies in some countries, and is experiencing a period of increased reform activity as a result. This book considers both those local governments which have adopted or moved away from New Public Management (NPM) modernization to 'something different' (what some commentators have labelled 'post-NPM'), as well as those which have implemented 'other-than-NPM measures', such as territorial reforms and democratic innovations.

*Financial Determinants in Local Re-Election Rates: Emerging Research and Opportunities* Cunha, Ana Maria, Ferreira, Augusta, Fernandes, Maria José, Gomes, Patrícia, 2019-10-25 Accounting information, on the one hand, allows government officials to obtain better information to support greater decision making, transparency, and accountability. On the other hand, this financial information also allows local citizens more access to knowledge of how public resources are being managed and used by the local government entities. Measuring the pros and cons of this information may determine how certain officials remain in office while others do not. *Financial Determinants in Local Re-Election Rates: Emerging Research and Opportunities* is a collection of innovative research that assesses whether accounting information and other factors have an impact on electoral results, which in turn impact re-election in local government. While highlighting topics including political financing, voting behavior, and capital spending, this book is ideally designed for political analysts, politicians, government officials, researchers, policymakers, public policy managers, financial analysts, academicians, and students seeking current research on financial information and other factors having an impact on electoral results.

Local Governance in Spain Ángel Iglesias Alonso, 2022-11-08 The book addresses in detail local governance in Spain. In recent decades, local governments in Europe have increasingly found themselves under pressure from a multitude of new

challenges, such as demographic change, climate change, fiscal austerity policies, digitization, the demand for more citizen participation in local affairs, and the migration crisis in some of them, to name just a few. Consequently, a wave of political and administrative reforms to address these challenges, pressures and problems, has changed local governance in many countries. In part, these changes were the result of reform policies introduced by national and state governments, often triggered by austerity policies, which has become an overwhelming reality for Spanish local governments that have been forced to introduce innovations in local governance. This book aims to give an account of these innovations in local governance in Spain. This book considers the local political-administrative structure in its dimensions, focusing on the analysis of its party system, electoral competition and political behavior in the local arena, as well as on local finances, all of which are determining elements in urban and rural governance processes. On the occasion of the recent crisis unleashed by Covid-19, the book will also deal with local governance in crisis situations. The book will also contextualize local governance processes in Spain in relation to the trends in local governance observed in other European countries.

Local Power, Territory and Institutions in European Metropolitan Regions Bernard Jouve, Christian Lefevre, 2013-10-11 A comparative analysis of eight different urban areas - Bologna, Bordeaux, Geneva-Lausanne, Lyons, Manchester, Rotterdam, Stuttgart and Torino - examining key urban issues that are high on the policy agenda of every national government.

The Theory and Practice of Local Government Reform Brian Dollery, Lorenzo Robotti, 2008-01-01 'Structural reform has been one of the most important, and yet one of the most neglected, aspects of modern local government. This book represents the first attempt, since the early seventies, at providing a comprehensive account of both the theory and practice of structural reform in local government in developed countries. Using recent policy experience from seven different countries, the authors present seminal theoretical perspectives on structural reforms in local governance and the policy implications deriving from them. Written by well-known scholars of local government from around the world, this volume is a must-read for all academics, practitioners, students and policymakers.' - Giorgio Brosio, University of Turin, Italy

Accounting Information Systems for Decision Making Daniela Mancini, Eddy H. J. Vaassen, Renata Paola Dameri, 2013-04-18 This book contains a collection of research papers on accounting information systems including their strategic role in decision processes, within and between companies. An accounting system is a complex system composed of a mix of strictly interrelated elements such as data, information, human resources, IT tool, accounting models and procedures. Accounting information systems are often considered the instrument by default for accounting automation. This book aims to sketch a clear picture of the current state of AIS research, including design, acceptance and reliance, value-added decision making, interorganizational links, and process improvements. The contributions in this volume emphasize that AIS has grown into a powerful strategic tool. The book provides evidence for this observation by examining a wide range of current issues ranging from theory development in AIS to practical applications of accounting information systems. In

particular it focuses on themes of growing interest in the realm of XBRL and Financial Reporting, Management Information Systems, IT/IS Audit and IT/IS Compliance. The book will be of interest to financial and managerial accountants and IT/IS practitioners, including information systems managers and consultants.

**Local Governance - mehr Transparenz und Bürgernähe?** Lilian Schwalb, Heike Walk, 2007-03-27 Vor dem Hintergrund von Globalisierung und Europäisierung gewinnt die lokale Ebene als sozialer und politischer Gestaltungsraum zunehmend an Bedeutung. Lokale Akteure - Parteien, Vereine, Verbände, Initiativen, Kommunalverwaltung sowie Unternehmen sind mit neuen Herausforderungen konfrontiert. Die Beiträge des Bandes bündeln das Wissen zu den neuen partizipativen Formen der Politikgestaltung, zu den Potentialen bürgerschaftlichen Engagements und zum lokalen gemeinnützigen Sektor. Ziel ist es, die in der sozialwissenschaftlichen Literatur bisher getrennt diskutierten Ansätze zu Governance und bürgerschaftlichem Engagement zusammenzuführen und in ihren Potentialen für die Weiterentwicklung und Vertiefung der Demokratie vor Ort auszuloten.
