*Italian Feminist Theory and Practice* Graziella Parati, Rebecca J. West, 2002 There follow essays by Carol Lazzaro-Weis, Lucia Re, Luisa Muraro, Adriana Cavarero, Lea Melandri, and Teresa de Lauretis, in which the authors explore the concept of sexual difference, female authority, relational identity, gendered roles, and homosexual desire in its relation to heterosexual normativity. The volume brings Italian feminist theory squarely into the arena of the most important contemporary feminist debates, revealing both its connections to and disjunctions from more dominant French and North American theories and practices.--Cover.

**Equality and Vulnerability in the Context of Italian Political Philosophy** Gianfrancesco Zanetti, 2023-09-17 One of the main goals of this book is to determine if, in the works of some of the key authors in the history of Italian political philosophy, a notion of “efficacy” can be found. In legal philosophy, “efficacy” is the capacity a norm has to effectively influence citizens’ behavior. The “principle of efficacy” is that according to which an order or rule exists as such when it is followed effectively in practice. Here by “efficacy” I mean the idea that normative phenomena are self-justifying, without reference to extrinsic systems of value (such as “natural law”). The examinations of several texts undertaken here constitute reflections on this theme, without any claim to systematicity. They have been grouped together, roughly in historical order, by their common respect for the contexts within which they reason and reach decisions, which lends them a characteristic flavor of harsh realism that at times relies on a minimalist use of traditional normative categories. The second theme that emerges through the respective chapters (each of which constitutes the text for a lesson in a course for Ph.D. students) is that of the relationship between “equality” and “vulnerability.” Here the idea is to elaborate a concept of “vulnerability” that is not underpinned by what we in Italy call an “anthropology,” that is, a fixed notion of human nature. Instead this concept should be comprehensible and graspable solely on the basis of the recognition of decisions and actions that are merely “efficacious,” that function “for what they are, and what they do.” This recognition doesn’t even need to be explicitly articulated by these authors with any specific, deliberately conscious awareness. The goal is not to identify a precise tradition of thought, one which elaborates a given line of reflection, but rather to highlight certain “themes” that emerge in the texts examined, even as the authors write with and for their own specific, contingent set of motives, which differ from time to time and place to place. These authors include some who are widely known, such as Dante, Machiavelli, and Beccaria. At times

they are figures who typify certain key historical episodes, such as the Risorgimento (Giuseppe Mazzini) or Fascism (Cesare Lombroso and Santi Romano), while others reflect certain aspects of a contemporary debate (Pasolini and the “Braibanti affair”). The book is based on lectures given for a 2021 Ph.D. Course at the University of California, Berkeley’s Department of Italian Studies.

Women Directors P. Profeta, L. Aliberti, A. Casarico, M. D’Amico, A. Puccio, 2014-07-29 *Women Directors* analyzes the Italian law on gender quotas in boards as a vital opportunity for the country and a key international case. It provides a broad perspective of the new Italian experience, which has the potential of influencing the way of addressing gender issues worldwide.

*Citizenship and Equality in Late Medieval Italy* Peter Riesenber, 1972

The Jews in Mussolini’s Italy Michele Sarfatti, 2006 Provides a comprehensive history from the rise of fascism in 1922 to its defeat in 1945. The author uses statistical evidence to document how the Italian social climate changed from relatively just to irredeemably prejudicial. He demonstrates that Rome did not simply follow the lead of Berlin.

Italian Family Matters Lesley Caldwell, 1991-09-09 *Italian Family Matters* examines the debates and political priorities that led to significant changes in the law and its relation to women and the family in postwar Italy. Informed by the feminist debates on these issues, it shows that both the need for and the limits to the demand for equality before the law can be used to show what a different ordering of the relations between the sexes could mean.

Changing Equilibria in a Context of Low Gender Equality. Women’s Paid and Unpaid Work in Italy, 1988-2014 Giulia Maria Dotti Sani, 2018

*Collective Rights and the Cultural Identity of the Roma* Claudia Tavani, 2012-09-03 Is the use of mechanisms that only focus on the protection of individual human rights sufficient to protect the cultural identity of minorities? Much more can be achieved by adopting a system that applies the principles of equality and non-discrimination, and encompasses the recognition of a collective right to cultural identity. Culture and cultural identity are indeed important for the identification of groups and ethnicity. But are the Roma an ethnic group? Are they a minority? In answering these questions, Italy is used as a case study to illustrate the limits of non-discrimination provisions and the need to recognise the collective right to cultural identity.

*The Lost Wave* Molly Tambor, 2014-05-09 As Italy emerged from World War II, the first women entered the national government. The 45 women who became parliamentarians when Italian women were first entitled to vote in 1946 represented a lost wave of feminist action, argues Molly Tambor. In this work, Tambor reconstructs the role that these female politicians played in Italy’s new democratic Republic. They proved critical in ensuring that the new Constitution formally guaranteed the equality of all citizens regardless of sex, translating the general constitutional guarantees into direct

legislative rights and protections. They used a specific electoral and legislative strategy, constitutional rights feminism, to construct an image of the female citizen as a bulwark of democracy. Mining existing tropes of femininity such as the Resistance heroine, the working mother, the sacrificial Catholic, and the *mamma Italiana*, they searched for social consensus for women's equality that could reach across religious, ideological, and gender divides. The political biographies of woman politicians are intertwined with the history of the laws they created and helped pass, including paid maternity leave, the closing of state-run brothels, and women's right to become judges. Women politicians navigated gendered political identity as they picked and chose among competing models of femininity in Cold War Italy. In so doing, *The Lost Wave* shows, they forged a political legacy that affected the rights and opportunities of all Italian citizens.

Paradoxes of Inequality in Renaissance Italy Samuel K. Cohn, Jr.,2021-08-05 This Element explores the longest spell that can be computed from quantifiable fiscal records when the gap between rich and poor narrowed. It was the post-Black-Death century, c. 1375 to c. 1475. Paradoxically, with economic equality and prosperity on the rise, peasants, artisans and shopkeepers suffered losses in political representation and status within cultural spheres. Threatened by growing economic equality after the Black Death, elites preserved and then enhanced their political, social, and cultural distinction predominantly through noneconomic means and within political and cultural spheres. By investigating the interactions between three 'elements'-economics, politics, and culture-this Element presents new facets in the emergence of early Renaissance society in Italy.

*The Italian Way* Douglas Harper,Patrizia Faccioli,2010-01-15 Outside of Italy, the country's culture and its food appear to be essentially synonymous. And indeed, as *The Italian Way* makes clear, preparing, cooking, and eating food play a central role in the daily activities of Italians from all walks of life. In this beautifully illustrated book, Douglas Harper and Patrizia Faccioli present a fascinating and colorful look at the Italian table. *The Italian Way* focuses on two dozen families in the city of Bologna, elegantly weaving together Harper's outsider perspective with Faccioli's intimate knowledge of the local customs. The authors interview and observe these families as they go shopping for ingredients, cook together, and argue over who has to wash the dishes. Throughout, the authors elucidate the guiding principle of the Italian table—a delicate balance between the structure of tradition and the joy of improvisation. With its bite-sized history of food in Italy, including the five-hundred-year-old story of the country's cookbooks, and Harper's mouth-watering photographs, *The Italian Way* is a rich repast—insightful, informative, and inviting.

**Gender Equality and Public Policy** Paola Profeta,2020-04-16 Despite formal UN and European Commission commitments to improve gender imbalances, progress towards gender equality in wealth and pay has progressed at a discouragingly slow pace in recent decades. European countries have been more proactive in their support for corrective

policies, such as family leave and gender quotas for corporate boards, yet measuring the effectiveness of these policies has proven difficult. This book offers a close comparative analysis of gender-targeted policies in Europe, providing an in-depth overview of how public policy is shaping gender equality, and how the presence of women in the economy and decision-making positions is itself shaping public policy. Paola Profeta bases her analysis on new data and an innovative interdisciplinary perspective for understanding the relationship between gender, equality and public policy, and their final impact on the European economy and society, with lessons that resonate beyond Europe.

**Constitutional Courts, Gay Rights and Sexual Orientation Equality** Angioletta Sperti, 2017-05-04 In the last fifteen years constitutional issues regarding the rights of gays, lesbians and same-sex couples have emerged on a global scale. The pace of recognition of their fundamental rights, both at judicial and legislative level, has dramatically increased across different jurisdictions, reflecting a growing consensus toward sexual orientation equality. This book considers a wide-range of decisions by constitutional and international courts, from the decriminalization of sexual acts to the recognition of same-sex marriage and parental rights for same-sex couples. It discusses analogies and differences in judicial arguments and rationales in such cases, focusing in particular on human dignity, privacy, liberty, equality and non-discrimination. It argues that courts operate as major exporters of models and principles and that judicial cross-fertilization also helps courts in increasing the acceptability of gays' and lesbians' rights in public opinions and politics. Courts discuss changes in the social perception of marriage and family at national and international levels and at the same time confirm and reinforce them, forging the legal debate over sexual orientation equality. Furthermore, by promoting the political reception of the achievements of foreign gay movements in their own jurisdictions, courts play an essential role in breaking the political stalemate.

**More Equal than Others?** Daniele Amoroso, Loris Marotti, Pierfrancesco Rossi, Andrea Spagnolo, Giovanni Zarra, 2022-11-18 This book analyses the principle of equality from three perspectives: public international law, private international law and EU law. It is the first book in English providing a comprehensive overview of this principle in these areas of law and showing the current trends and issues concerning its application. Its main goal is to understand whether and to what extent the principle of equality has been affirmed in public and private international law, as well as EU law, and what - if any - the common core of this principle is. The analysis carried out in this contributed volume starts from general analyses of the principle of equality in the areas of the law covered by the book and then discusses the principle in more specific areas, such as human rights law, international adjudication (including investment law) and the law of international organizations. The book is intended to become a benchmark for academics dealing with matters of equality in public international law, private international law and EU law. It will be a useful tool for practitioners too, the collected chapters being based on the relevant case law dealing with the principle of equality. Daniele Amoroso is Professor of International

Law in the Department of Law of the University of Cagliari, Cagliari, Italy. Loris Marotti is Assistant Professor of International Law in the Department of Law at the Federico II University of Naples, Italy. Pierfrancesco Rossi is Postdoctoral Fellow in International Law in the Department of Law of Luiss University, Rome, Italy. Andrea Spagnolo is Professor of International Law in the Department of Law of the University of Turin, Turin, Italy. Giovanni Zarra is Professor of International Law and International Litigation in the Department of Law at the Federico II University of Naples, Italy.

**Reflexive Governance in EU Equality Law** Emma Lantschner, 2021 The Covid-19 pandemic has revealed how far we as a European society still are from the proclaimed Union of Equality. The book explores how the promise of equal treatment can become a reality and compliance with the EU acquis relating to equality and non-discrimination can be improved. It studies enforcement and promotion aspects of the two watershed directives of 2000, the Racial Equality Directive 2000/43/EC and the Employment Equality Directive 2000/78/EC, through the lens of reflexive governance. This governance approach is proposed as having great potential in enhancing the likelihood of sustainability (or continuation) of reforms in the current candidate countries and EU Member States through its emphasis on reflexive learning processes and the cooperation between EU institutions, national authorities, and civil society actors. In order to deploy this potential, there is, however, a need for more consistent and transparent monitoring, both with regard to candidate countries as well as old and new Member States, and a reconsideration of the understanding of monitoring as such. It should be seen as helping to deconstruct own preference-formations and as a possibility to learn from successes and failures in a cooperative and recursive process. To work on these lacunae and improve learning and monitoring processes, this book identifies indicators, that are deduced from the comparative review of the implementation practice of the member states. This book is thus a contribution to the existing literature in the fields of Europeanization, governance, and the right to equality and non-discrimination.

**Italy** International Monetary Fund. Monetary and Capital Markets Department, 2013-12-06 This paper discusses the findings of Detailed Assessment of International Association of Insurance Supervisors (IAIS) insurance core principles on Italy. Regulation and supervision of the insurance industry in Italy is the responsibility of the newly established Institution for the Supervision of Insurance (IVASS). IVASS has reached international best practice in several areas of supervision. IVASS actively exercises group supervision and by 2000, IVASS established the first college of supervisors. Intragroup transactions and related party participations limits are strictly monitored and enforced. IVASS handling of the licensing of undertakings is complete and comprehensive and ensures appropriate considerations pursuant to regulations. Enhanced supervision in some areas is required.

*A Gender Equality Index for the Italian Regions* Monica Amici, Maria Lucia Stefani, 2013

**Citizens and Subjects of the Italian Colonies** Simona Berhe, Olindo De Napoli, 2021-12-30 This is the first book on

Italian colonialism that specifically deals with the question of citizenship/subjecthood. Such a topic is crucial for understanding both Italian imperial rule and the complex dynamics of the different colonial societies where several actors, like notables, political leaders, minorities, etc., were involved. The chapters gathered in the book constitute an unprecedented account of a heterogeneous geographical area. The cases of Eritrea, Libya, Dodecanese, Ethiopia, and Albania confirm that citizenship and subjecthood in the colonial context were ductile political tools, which were structured according to the orientations of the Metropole and the challenges that came from the colonial societies, often swinging between submission, cooptation to the colonial power, and resistance. On one hand, the book offers an account of the different policies of citizenship implemented in the Italian colonies, in particular the construction of gradated forms of citizenship, the repression and expulsion of dissidents, the systems of endearment of local people and cooptation of the elites, and the racialization of legal status. On the other, it deals with the various answers coming from the local populations in terms of resistance, negotiation, and construction of social identity.

**Gender Equality Index 2017** ,2018 The Gender Equality Index 2017 examines the progress and challenges in achieving gender equality across the European Union from 2005 to 2015. Using a scale from 1 (full inequality) to 100 (full equality), it measures the differences between women and men in key domains of the EU policy framework (work, money, knowledge, time, power and health). The Index also measures violence against women and intersecting inequalities. These are satellite domains and are part of the framework of the Gender Equality Index, but do not have an impact on the overall score. Intersecting inequalities show how gender intersects with age, education, family composition, country of birth and disability. The Gender Equality Index provides results for each domain and sub-domain for the EU and its 28 Member States.
