Italien zwischen Krise und Aufbruch Alexander Grasse, Markus Grimm, Jan Labitzke, 2017-08-21 Mit dem Amtsantritt Matteo Renzis im Februar 2014 waren in Italien große Hoffnungen verbunden. Dem jungen Ministerpräsidenten gelang es zunächst tatsächlich, eine Aufbruchsstimmung zu erzeugen, die dem krisen- und skandalgeschüttelten Land einen tiefgreifenden Wandel verheiß. Zunächst schien es, als könne die unvollendete Zweite in eine grundlegend reformierte Dritte Republik transformiert werden: Italia 3.0. Dieser Prozess ist durch das im Dezember 2016 gescheiterte Verfassungsreferendum zunächst ins Stocken geraten. Gleichwohl überdauern einige Neuerungen der Ära Renzi seinen zwischenzeitlichen Rücktritt und zahlreiche Reformprojekte werden weiterverfolgt. Die Autorinnen und Autoren des Bandes untersuchen anhand der Veränderungen der Institutionen, des Parteiensystems, der Entscheidungsprozesse und der politischen Kultur sowie anhand aktueller Reformen in ausgewählten Politikfeldern in den drei Dimensionen der Politik (Polity, Politics und Policy), ob bzw. inwiefern der erhoffte Aufbruch tatsächlich stattgefunden hat, in welchen Bereichen die italienische Wirklichkeit hingegen in den alten Strukturen und Handlungsmustern verhaftet blieb und wo eine zweite Regierung Renzi oder andere zukünftige Regierungen anknüpfen könnten.

Archaische Mythen aus Bernstein Joachim Weidig, 2024-06-10 In Belmonte Piceno (Italien) wurde ein Elfenbeinkästchen ausgegraben, dessen eingelegte Bernsteinfiguren griechische und etruskische Mythen zeigen. Für die Erforschung der archaischen Kunst ergeben sich dadurch völlig neue Zusammenhänge, die nur im Vergleich zum gesamten Repertoire an figürlicher Kunst des 7. und 6. Jh.s v. Chr. der Mittelmeerwelt erkannt werden.

Sprachvergleich und Übersetzung Wolfgang Dahmen, Günter Holtus, Johannes Kramer, Michael Metzeltin, Christina Ossenkop, Wolfgang Schweickard, Otto Winkelmann, 2017-02-13 Die Beiträge des vorliegenden Bandes fokussieren unterschiedliche Aspekte der kontrastiven Linguistik und der Übersetzungsäquivalenz mit Bezug auf sprachliche Variation und Substandard, Textsortenspezifika, Eigennamen und Syntax und ziehen dabei eine kritische Bilanz hinsichtlich der Beziehung zwischen Sprachvergleich und Übersetzung sowie der Grenzen der Übersetzbarkeit. Nicht zuletzt eröffnet die Diskussion der Rolle von Übersetzung und Sprachvergleich im Fremdsprachenunterricht eine Verbindung von linguistischer

und fachdidaktischer Perspektive und zeigt damit die Aktualität des Themas auf.

Dynamics and Policies of Prejudice from the Eighteenth to the Twenty-first Century Giuseppe Motta, 2018-09-30 Prejudice is a multi-faceted concept that affects the relationships between individuals and groups and the creation of socially formed categories of ideas. It concerns race, religion, gender, social distinctions and political beliefs, and can be considered as a natural human process of out-group homogeneity, as well as the product of an authoritarian context or as a reaction against modernization or other symbolic or realistic threats. This volume defines the dynamics and policies of prejudice in the historical passage between the modern and contemporary age, bringing together articles by different scholars representing various disciplines, which allows an analysis of the different aspects of prejudice. The book includes interesting chapters on anti-Semitism, the ethnic conflicts of the twentieth century, Russia and the Balkans, and gender bias, among other subjects.

The Treacherous Path Vladimir Yakunin, 2018-04-12 In 1991, Vladimir Yakunin, a Soviet diplomat and KGB officer, returned from his posting in New York to a country that no longer existed. The state that he had served for all his adult life had been dissolved, the values he knew abandoned. Millions of his compatriots suffered as their savings disappeared and their previously secure existences were threatened by an unholy combination of criminality, corruption and chaos. Others thrived amid the opportunities offered in the new polity, and a battle began over the direction the fledgling state should take. While something resembling stability was won in the early 2000s, today Russia's future remains unresolved; its governing class divided. *The Treacherous Path* is Yakunin's account of his own experiences on the front line of Russia's implosion and eventual resurgence, and of a career - as an intelligence officer, a government minister and for ten years the CEO of Russia's largest company - that has taken him from the furthest corners of this incomprehensibly vast and complex nation to the Kremlin's corridors. Tackling topics as diverse as terrorism, government intrigue and the reality of doing business in Russia, and offering unparalleled insights into the post-Soviet mindset, this is the first time that a figure with Yakunin's background has talked so openly and frankly about his country.

Women's Evolving Lives Carrie M. Brown, Uwe P. Gielen, Judith L. Gibbons, Judy Kuriansky, 2017-07-11 This wide-ranging collection analyzes the status and advancement of women both in a national context and collectively on a global scale, as a powerful social force in a rapidly evolving world. The countries studied—China, India, Indonesia, Iran, Egypt, Cameroon, South Africa, Italy, France, Brazil, Belize, Mexico, and the United States—represent a cross-section of economic conditions, cultural and religious traditions, political realities, and social contexts that shape women's lives, challenges, and opportunities. Psychological and human rights perspectives highlight worldwide goals for equality and empowerment, with implications for today's girls as they become the next generation of women. Throughout these chapters, women's lived experience is compared and contrasted in such critical areas as: Home and work lives Physical, medical, and psychological issues Safety and violence Sexual and reproductive concerns Political participation and status under the law Impact of

technology and globalism Country-specific topics Women's Evolving Lives is a forward-facing reference for psychology professionals of varied disciplines, as well as for colleagues in other fields, including women's and gender studies, sociology, anthropology, international studies, and education. The wide scope of concerns also makes this anthology relevant and instructive to readers in diverse non-academic settings.

Europe's Crises Manuel Castells, Olivier Bouin, Joao Caraça, Gustavo Cardoso, John Thompson, Michel Wieviorka, 2018-03-16 Today, the European Union is facing a crisis as serious as anything it has experienced since its origins more than half a century ago. What makes this so serious is that it is not a single crisis but rather multiple crises - the euro crisis, the migration/refugee crisis, Brexit, etc. - that overlap and reinforce one another, creating a cumulative array of challenges that threatens the very survival of the EU. For the first time in its history, there is a real risk that the EU could break up. This volume brings together sociologists, economists and political scientists from around Europe to shed light on how the EU got into this predicament. It argues that the multiple crises that have plagued the European Union in the last decade stem to a large extent from flaws in its construction and that these flaws are consequences of the political processes that led to the formation of the EU - in other words, the decisions that made possible the development of the EU created the conditions for the multiple crises it experiences today. This timely and wide-ranging book on one of the most important issues of our time will be of great interest to students and scholars in the social sciences, to politicians and policy-makers and to anyone concerned with Europe and its future.

Gender, Discourse and Ideology in Italian Federica Formato, 2018-09-04 This book analyses gendered language in Italian, shedding light on how the Italian language constructs and reproduces the social imbalance between women and men, and presenting indirect and direct instances of asymmetrical constructions of gender in public and private roles. The author examines linguistic treatments of women in politics and the media, as well as the gendered crime of femminicidio, i.e. the killing of women by their (former) partners. Through the combination of corpus linguistics, surveys, and discourse analysis, she establishes a new approach to the study of gendered Italian, a framework which can be applied to other languages and epistemological sites. This book will be of particular interest to students and scholars of sociolinguistics, language and gender, discourse analysis, Italian and other Romance languages.

The Tree of Life Douglas Estes, 2020-03-17 The tree of life is an iconic visual symbol at the edge of religious thought over the last several millennia. As a show of its significance, the tree bookends the Christian canon; yet scholarship has paid it minimal attention in the modern era. In *The Tree of Life* a team of scholars explore the origin, development, meaning, reception, and theology of this consequential yet obscure symbol. The fourteen essays trek from the origins of the tree in the texts and material culture of the ancient Near East, to its notable roles in biblical literature, to its expansion by early church fathers and Gnostics, to its rebirth in medieval art and culture, and to its place in modern theological thought.

Historical Dictionary of the Etruscans Simon K.F. Stoddart,2009-06-16 The Etruscans were the creators of one of the most highly developed cultures of the pre-Roman Era. Having, at one time, control over a significant part of the Mediterranean, the Etruscans laid the foundation of the city of Rome. They had their own language, which has never been totally decoded, and their art influenced such artists as Michelangelo. While the Etruscans were eventually conquered by the Romans, they left a rich culture behind. The Historical Dictionary of the Etruscans relates the history of this culture, focusing on aspects of their material culture and art history. A chronology, introductory essay, bibliography, appendix of museums and research institutes, and hundreds of cross-referenced dictionary entries on important persons, places, events, and institutions provide an entry into a comparative study of the Etruscans.

Giulio still does things Paola Deffendi,Claudio Regeni,2021-01-12T00:00:00+01:00 The world of politics hasn't answered to the tragedy of Giulio Regeni, who disappeared on January 25th 2016 in Cairo. Al Sisi's Egypt persists in sabotaging the investigation into the kidnapping, torture and murder of the son of Paola Deffendi and Claudio Regeni. In the last four years five more innocent people have been killed in Egypt and the government has invented incredible stories and falsified documents in order to allay suspicion. Even though judicial cooperation was promised, Egyptian police forces continue to intimidate and obstruct the work of the Egyptian commission for rights and freedom to which Giulio's parents have turned. Even Europe hasn't given an answer to this tragedy and Italy has failed to do so as well. Giulio's parents and their lawyer though are fighting in order to obtain justice and truth for Giulio and all the others who have suffered a similar fate. With them there is a yellow wave of people that is talking about Giulio, wearing bracelets, hanging banners in city halls, universities and cultural venues asking for truth and justice. This is because Giulio was an Italian citizen, a European citizen who had chosen culture as a tool to obtain solidarity and social justice. Giulio was born in Trieste and grew up in Fiumicello, in FriuliVenezia Giulia. He graduated in Leeds (UK), got a masters at Cambridge and was doing a PhD there. In Cairo he was working on a thesis dealing with the socio-economic aspects of Egypt and with trade union issues. Giulio Regeni's parents' fight in order to shed light on his murder needs to be our fight as well. Because truth and justice are rights that should belong to all citizens.

Governing Fear Gianfranco Baldini,Anna Cento Bull,2009 In 2008, Silvio Berlusconi returned to power — thanks to a decisive electoral victory — to head a slimmer coalition whose cabinet consisted of members very close to him. The year began with the garbage crisis in Naples and ended in a climate dominated by economic uncertainty. In between some unexpected events happened: during the administrative elections, held with the general elections in April, the right in Rome claimed many victories; for the first time ever, a woman, Emma Marcegaglia, was elected President of Confindustria; and the Alitalia airline had to be rescued from the brink of economic collapse. For consecutive months, opinion polls gave Berlusconi an unprecedented level of popular support; those polled attributed their approval to either his 'decisionism' or to what they

viewed as a successful strategy of continual announcements. Others pointed to the executive's success in 'governing the fears' of Italians, which was helped by a change of register in the way the media dealt with issues of security. This volume shows that the politics of vetoes, which characterised the previous center-left government, could not conceal the structural, economic and social problems that still need to be resolved, a situation not helped by the fact that the opposition parties were still unable to develop an effective political strategy by yearend. With the contribution of Italian and international experts, the volume also addresses the issues of the difficult integration of immigrants, the mismanagement of public health and the reform of the education.

Gas Games Martina Grabau, 2017-11-20 Martina Grabau geht der Frage nach, wie sich die energiepolitischen Beziehungen zwischen der EU und Russland infolge der Ukraine-Krise zukünftig entwickeln werden. Sie untersucht die Akteurspositionen der EU-Mitgliedstaaten sowie der EU-Kommission vor und nach Beginn der Ukraine-Krise und entwickelt mittels einer spieltheoretischen Simulation ein Zukunftsszenario für die europäische Erdgasaußenpolitik. Die Autorin zeichnet ein umfassendes Bild der Handlungsmuster sowie des Wandels in den Policypositionen der Akteure infolge der Ukraine-Krise und diskutiert Faktoren zur Begünstigung und Einschränkung dieser Wandlungsprozesse. Darüber hinaus zeigt sie den methodischen Mehrwert einer Verbindung von formaler Modell- und Policyanalyse auf.

Do Freemasons Worship Lucifer? Kedar Griffo, Michael Berkley, 2018-09-29 Freemasons are accused of worshipping Lucifer. This book examines the concept of Lucifer, and its effect on everyday life. There is more than meets the eye, so we present the true purpose and meaning of Lucifer.

The Great Reform That Never Was Alessandro Chiaramonte, Alex Wilson, 2017-12-15 In Italy, 2016 was meant to be the year of the great reform, a constitutional revision that would have concluded the never-ending transition from First to Second Republic, a long process involving several transformations in the electoral system and party system since the 1990s. It did not turn out this way. Instead, the Renzi-Boschi law for constitutional revision, which started its parliamentary procedure in April 2014 and saw its final reading in the Chamber of Deputies in April 2016, was eventually rejected by voters in a confirmative referendum held on 4 December.

Making The Oligarchy Obsolete Defining Problems of Coercion and Seeking Voluntary Solutions Todd Borho, 2015-09-16 This book defines many of the socio-economic problems facing humanity and the perpetrators of these problems. It also offers some ideas for solutions.

Power Cut? How the EU Is Pulling the Plug on Electricity Markets Carlo Stagnaro, 2015-12-17 By any measure, the privatisation and liberalisation of the UK energy industry was an enormous success. And yet the public are not convinced. As energy expert Carlo Stagnaro shows in this important book, the re-regulation of the market in the UK, together with policy developed at the EU level, has undermined all the important developments of the 1990s and early 2000s. The result has not

only been poorer outcomes in the energy market but a very inefficient approach to reduce carbon dioxide emissions. The EU has also only been partially successful in promoting liberalisation and competition in electricity markets and the time is ripe for change. The author shows how the EU must learn the lessons from the UK's successful recent past - and the UK must re-learn them. Therein lies the route to a competitive energy market that serves the ends of consumers rather than the ends of politicians and other interest groups.

Vacanze romane Federica Guidi, 2015-04-21 Cosa facevano Cicerone e Cesare nel «tempo libero»? La società romana, simbolo e paradigma di efficienza nel mondo antico, si rivela in questo libro nei suoi aspetti meno produttivi e più rivolti alla ricerca del piacere. Federica Guidi racconta un aspetto inedito della cultura latina facendo ricorso alle fonti antiche, storiche e letterarie ma anche archeologiche e artistiche, e ci svela tutto un mondo fatto di terme e banchetti, elevate conversazioni filosofiche e piccanti appuntamenti amorosi, giochi privati (dai dadi ai giocattoli dei fanciulli) e ludi pubblici, villeggiature, collezionismo e buoni libri. Scopriremo infatti attraverso i secoli che il tempo libero e la ricerca edonistica possono avere strade e percorsi diversissimi: dalla soddisfazione istintuale e quasi bestiale del tifo durante una corsa di carri o i giochi gladiatori alla compartecipazione catartica del teatro o all'esercizio raffinato dell'intelletto nella stesura di dotte dissertazioni.

Harbors, Flows, and Migrations Anna De Biasio, Gianna Fusco, 2017-05-11 Poised between the land and the sea, enabling the dynamic flow of people and goods, while also figuratively representing a safe place of rest and refuge, the harbor constitutes a liminal, ambivalent space par excellence that has been central to the American imagination and history since the early colonial days. From the mythical tales of discovery and foundation to the endless flows of migrants, through the dark pages of the slave trade and the imperialistic dream of an ever-expanding nation, harbors, both as a trope and as physical spaces, powerfully signify the American experience. Today, at a time when ideas of border protection and policing gain political prominence in the U.S. and elsewhere, harbors and the constellation of meanings they subsume have become an even more crucial object of critical inquiry. In this volume, thirty-two American Studies scholars from around the world interrogate the manifold significance of ports and of the exchanges they enable or restrain, casting a decentered look onto the complex positioning of the United States in its political, ideological, and cultural relationships with the rest of the world. This collection thus offers a cutting-edge, interdisciplinary investigation of the U.S.A., engaging the most recent trends in American Studies and actively participating in the international and transnational reconfiguration of the field.

Federica Guidi Introduction

In today's digital age, the availability of Federica Guidi books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Federica Guidi

books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Federica Guidi books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Federica Guidi versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Federica Guidi books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Federica Guidi books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are

primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Federica Guidi books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Federica Guidi books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes,

these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Federica Guidi books and manuals for download and embark on your journey of knowledge?
