**Palestine in the Victorian Age** Gabriel Polley,2022-09-22 Narratives of the modern history of Palestine/Israel often begin with the collapse of the Ottoman Empire and Britain's arrival in 1917. However, this work argues that the contest over Palestine has its roots deep in the nineteenth century, with Victorians who first cast the Holy Land as an area to be possessed by empire, then began to devise schemes for its settler colonization. The product of historical research among almost forgotten guidebooks, archives and newspaper clippings, this book presents a previously unwritten chapter of Britain's colonial desire, and reveals how indigenous Palestinians began to react against, or accommodate themselves to, the West's fascination with their ancestral land. From the travellers who tried to overturn Jerusalem's holiest sites, to an uprising sparked by a church bell and a missionary's tragic actions, to one Palestinian's eventful visit to the heart of the British Empire, Palestine in the Victorian Age reveals how the events of the nineteenth century have cast a long shadow over the politics of Palestine/Israel ever since.

**Reimagining Israel and Palestine in Contemporary British and German Culture** Isabelle Hesse,2024-03-05 Isabelle Hesse identifies an important relational turn in British and German literature, TV drama, and film published and produced since the First Palestinian Intifada (1987-1993). This turn manifests itself on two levels: one, in representing Israeli and Palestinian histories and narratives as connected rather than separate, and two, by emphasising the links between the current situation in Israel and the Occupied Palestinian Territories and the roles that the United Kingdom and Germany have played historically, and continue to play, in the region. This relational turn constitutes a significant shift in representations of Israel and Palestine in British and German culture as these depictions move beyond an engagement with the Holocaust and Jewish suffering at the expense of Palestinian suffering and indicate a willingness to represent and acknowledge British and German involvement in Israeli and Palestinian politics. This book offers new ways of thinking about how Israel and Palestine are imagined and reimagined as topics of cultural and political interest in two countries that have had complicated histories with both Israel and Palestine, histories which are marked by each country's memories of the Holocaust and colonialism.

*Parliamentary Diplomacy in European and Global Governance* Stelios Stavridis, Davor Jancic, 2017-01-30 Parliamentary Diplomacy in European and Global Governance offers a detailed interdisciplinary study of a new global phenomenon: the rise and impact of parliamentary diplomacy in European, regional and world affairs.

Israel-Palestine Omer Bartov, 2021-09-17 The conflict between Israel and Palestine has raised a plethora of unanswered questions, generated seemingly irreconcilable narratives, and profoundly transformed the land's physical and political geography. This volume seeks to provide a deeper understanding of the links between the region that is now known as Israel and Palestine and its peoples—both those that live there as well as those who relate to it as a mental, mythical, or religious landscape. Engaging the perspectives of a multidisciplinary, international group of scholars, it is an urgent collective reflection on the bonds between people and a place, whether real or imagined, tangible as its stones or ephemeral as the hopes and longings it evokes.

**Rethinking Statehood in Palestine** Leila H. Farsakh, 2021-10-26 The quest for an inclusive and independent state has been at the center of the Palestinian national struggle for a very long time. This book critically reexamines this quest by exploring the meaning of Palestinian statehood and the challenges that face alternative models to it today. *Rethinking Statehood in Palestine* gives prominence to a young set of diverse Palestinian scholars, both men and women, to show how notions of citizenship, sovereignty, and nationhood are being currently rethought within the broader context of decolonization. Bringing forth critical and multifaceted engagements with what Palestinian self-determination entails within a larger regional context, this groundbreaking book sets the terms of debate for the future of Palestine beyond partition--

**From Shared Life to Co-Resistance in Historic Palestine** Marcelo Svirsky, Ronnen Ben-Arie, 2017-11-07 In its unique analysis of resistance, this book sets up a new methodology with which to study the settler colonial project in Palestine. Leveraging the insight that Zionism evolved as a project of 'double elimination' - of both the Native and shared life - the book sees to inform political work and political imagination.

**Computational Science and Its Applications - ICCSA 2021** Osvaldo Gervasi, Beniamino Murgante, Sanjay Misra, Chiara Garau, Ivan Blečić, David Taniar, Bernady O. Apduhan, Ana Maria A. C. Rocha, Eufemia Tarantino, Carmelo Maria Torre, 2021-09-11 The ten-volume set LNCS 12949 - 12958 constitutes the proceedings of the 21st International Conference on Computational Science and Its Applications, ICCSA 2021, which was held in Cagliari, Italy, during September 13 - 16, 2021. The event was organized in a hybrid mode due to the Covid-19 pandemic. The 466 full and 18 short papers presented in these proceedings were carefully reviewed and selected from 1588 submissions. Part VI of the set includes the proceedings of the following workshops: International Workshop on Digital Transformation and Smart City (DIGISMART 2021);

International Workshop on Econometrics and Multidimensional Evaluation in Urban Environment (EMEUE 2021); International Workshop on Transformational Urban Mobility: Challenges and Opportunities During and Post COVID Era (FURTHER2021); International Workshop on Geodesign in Decision Making: meta planning and collaborative design for sustainable and inclusive development (GDM 2021); 11th International Workshop on Future Computing System Technologies and Applications (FiSTA 2021); International Workshop on Geographical Analysis, Urban Modeling, Spatial Statistics (GEOG-AND-MOD 2021).

*Friends of Israel* Hilary Frances Aked, 2023-04-18 Is there such a thing as “the Israel lobby,” and how powerful is it really? Friends of Israel provides a forensically researched account of the activities of Israel’s advocates in Britain, showing how they contribute to maintaining Israeli apartheid. The book traces the history and changing fortunes of key actors within the British Zionist movement in the context of the Israeli government’s contemporary efforts to repress a rising tide of solidarity with Palestinians expressed through the Boycott Divestment and Sanctions (BDS) movement. Offering a nuanced and politically relevant account of pro-Israel actors’ strategies, tactics, and varying levels of success in key arenas of society, it draws parallels with the similar anti-boycott campaign waged by supporters of the erstwhile apartheid regime in South Africa. By demystifying the actors involved in the Zionist movement, the book provides an anti-racist analysis of the pro-Israel lobby which robustly rebuffs anti-Semitic conspiracies. Sensitively and accessibly written, it emphasises the complicity of British actors - both those in government and in civil society. Drawing on a range of sources including interviews with leading pro-Israel activists and Palestinian rights activists, documents obtained through Freedom of Information requests and archival material, Friends of Israel is a much-needed contribution to Israel/Palestine-related scholarship and a useful resource for the Palestine solidarity movement.

GenerAzioni Digitali Lello Savonardo, 2020-11-01T20:16:00+01:00 Questo libro si concentra sulle relazioni tra l’universo giovanile e i mutamenti sociali e culturali che investono la società contemporanea, con particolare riferimento alle innovazioni tecnologiche, alla “software culture” e alle competenze digitali. A partire da un inquadramento teorico, il volume presenta alcune delle principali attività promosse dall’Università degli Studi di Napoli Federico II e dall’Osservatorio Giovani (OTG) del Dipartimento di Scienze Sociali dello stesso Ateneo, con riferimento a politiche, azioni e innovazioni che investono

le attività formative, la ricerca scientifica e i processi di comunicazione digitale, connessi al mondo giovanile. Il titolo del libro GenerAzioni Digitali richiama sia l'universo culturale e sociale delle nuove generazioni, con riferimento all'utilizzo delle tecnologie, della Rete e dei social media, sia le "azioni" e le attività indirizzate ai giovani che l'Ateneo Federico II di Napoli e l'Osservatorio Giovani promuovono, favorendo processi di innovazione didattica, scientifica e culturale. Le tecnologie digitali stanno assumendo un ruolo sempre più rilevante nei processi culturali e comunicativi che caratterizzano la "Bit Generation". I linguaggi e le culture giovanili stanno mutando, così come le forme linguistiche ed espressive, in una dimensione sempre più glocal, tra appartenenze e fughe, paure e visioni, incertezze e prospettive.
