Das Zeitdenken bei Husserl, Heidegger und Ricoeur Inga Römer,2010-06-17 Die Studie untersucht das Zeitdenken bei Husserl, Heidegger und Ricoeur in philosophiehistorischer, systematischer und methodologischer Hinsicht. Im ersten Teil analysiert die Autorin Husserls Zeitdenken, im zweiten Teil führt sie eine Auseinandersetzung mit dem Zeitdenken Heideggers in frühen, aber auch späteren Schriften. Im dritten Teil wird das Zeitdenken Ricoeurs vorgestellt, mit einem besonderen Schwerpunkt auf seinen drei Aporien der Zeit. Die Autorin zeichnet zudem die Entwicklung der phänomenologischen Methode nach.

The Best Weapon for Peace Erica Moretti,2021-08-10 The Italian educator and physician Maria Montessori is best known for the teaching method that bears her name, but historian Erica Moretti reframes Montessori's work, showing that pacifism was the foundation of her pioneering efforts in psychiatry and pedagogy.

Gleanings of Past Years, 1843-78 William Ewart Gladstone,1879

Knowledge and Practical Reason Marcelino Agís Villaverde,2012 The work of Paul Ricoeur can be regarded as a faithful expression of the philosophy of the 20th century and as the paradigmatic exponent of a new philosophical character for the 21st century. Without belonging to any particular school, Ricoeur discussed a wide range of philosophical topics, with many of his insights being prophetic indeed. This book demonstrates that there is no single interpretation of Ricoeur's philosophy, describing his way of thinking. Rather, the book provides an opportunity to see Ricoeur's thoughts as a guide for a human enveloped in the experience of life and being. By exploring Paul Ricoeur in his life circumstances - through war, the academy, and his relationships, as well as through his works and his own words - this book offers a more complete picture of the many aspects of one man and the legacy he left behind. (Series: International Studies in Hermeneutics and Phenomenology - Vol. 5)

Party Government in 48 Democracies (1945-1998) J.J. Woldendorp,Hans Keman,I. Budge,2013-04-17 Since the 1980s, political scientists have developed a renewed interest in the study of political institutions, based on the assumption that institutions matter -that is, that formal governmental institutions and constitutional-legal rules (as well as informal institutions like parties and interest groups) are crucial determinants of the shape of politics and policy outcomes. In this respect, the new institutionalism resembles the old institutionalism of pre-behaviorist days, but the crucial difference between the two is that the new institutionalists are committed to systematic empirical testing of their hypotheses, at least in principle. In practice, however, especially in comparative analyses, this goal has often been frustrated by the lack of reliable data for a large number of countries. Researchers have therefore usually been limited to testing their hypotheses with modest data sets collected for their own particular purposes. Of all of the political institutions, the executive branch of the government is by far the most important; it can be regarded as the irreducible core of government and the principal embodiment of political authority with specific powers that are not lodged elsewhere in the political system. Almost all countries in the world, and certainly all modern democracies, have an executive body called government, cabinet, or administration (as in the term the Clinton administration) that has the main responsibility for running the country's public affairs.

The Top Books of the Year Jervolino The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the

fascinating narratives that have captivated audiences this year. Jervolino : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed.

Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery.

Discover the Magic : Delia Owens' "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting.

These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is an exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
