Transatlantic Security from the Sahel to the Horn of Africa Riccardo Alcaro, Nicoletta Pirozzi, 2014-05-21 As the so-called Arab Spring has slid into political uncertainty, lingering insecurity and civil conflict, European and American initial enthusiasm for anti-authoritarian protests has given way to growing concerns that revolutionary turmoil in North Africa may in fact have exposed the West to new risks. Critical in cementing this conviction has been the realisation that developments originated from Arab Mediterranean countries and spread to the Sahel have now such a potential to affect Western security and interests as to warrant even military intervention, as France's operation in Mali attests. EU and US involvement in fighting piracy off the Horn of Africa had already laid bare the nexus between their security interests and protracted crises in sub-Saharan Africa. But the new centrality acquired by the Sahel after the Arab uprisings - particularly after Libya's civil war - has elevated this nexus to a new, larger dimension. The centre of gravity of Europe's security may be swinging to Africa, encompassing a wide portion of the continental landmass extending south of Mediterranean coastal states. The recrudescence of the terrorist threat from Mali to Algeria might pave the way to an American pivot to Africa, thus requiring fresh thinking on how the European Union and the United States can better collaborate with each other and with relevant regional actors.

Berlusconi an der Macht Gian Enrico Rusconi, Thomas Schlemmer, Hans Woller, 2011-11-22 Wer heute von Italien spricht, spricht fast immer von Silvio Berlusconi und hat dabei die ungezählten Skandale vor Augen, in die der Medienmogul im Amt des Regierungschefs verstrickt ist. Die konkrete Arbeit von Berlusconis Mitte-Rechts-Koalition, die 1994/95 sowie von 2001 bis 2006 regierte und seit 2008 erneut den Ton in Rom angibt, geriet angesichts der Affären des Ministerpräsidenten fast zur Nebensache. Die Autoren des vorliegenden Sammelbands - Experten aus Deutschland, Italien und der Schweiz - blicken dagegen hinter die Kulissen und fragen nach Kontinuitäten und Zäsuren in der Außen- und Europapolitik, der Arbeitsmarkt- und Sozialpolitik sowie der Innen- und Rechtspolitik. Sie ordnen die Entwicklung Italiens in den letzten zwanzig Jahren in den europäischen Kontext ein und zeigen, wo das Land heute steht. The Geopolitics of the Global Energy Transition Manfred Hafner, Simone Tagliapietra, 2020-06-09 The world is

currently undergoing an historic energy transition, driven by increasingly stringent decarbonisation policies and rapid advances in low-carbon technologies. The large-scale shift to low-carbon energy is disrupting the global energy system, impacting whole economies, and changing the political dynamics within and between countries. This open access book, written by leading energy scholars, examines the economic and geopolitical implications of the global energy transition, from both regional and thematic perspectives. The first part of the book addresses the geopolitical implications in the world's main energy-producing and energy-consuming regions, while the second presents in-depth case studies on selected issues, ranging from the geopolitics of renewable energy, to the mineral foundations of the global energy transformation, to governance issues in connection with the changing global energy order. Given its scope, the book will appeal to researchers in energy, climate change and international relations, as well as to professionals working in the energy industry.

Learn French News Vol.5 Nik Marcel, 2014-08-18 LEARN FRENCH NEWS Vol.5: English & French THIS EDITION: The dual-language text has been arranged into sentences and shorter paragraphs for quick and easy cross-referencing. The source text is the French language edition of Voice of America (VOA). The French text has been translated into English for this dual-language project. The reader can choose between four formats: Section 1: English to French Section 2: French to English Section 3: English Section 4: French A methodology for getting the most out of this bilingual format is explained in the book's Foreword. The primary purpose of this text is to equip a foreign language learner with the ability to start reading news in the particular foreign language: to be able to read only in the foreign language, and extract enough understanding to continue the language learning process fruitfully this way. A reader might like to go back to reading dual-language news for reinforcement and further development, returning to foreign language only news with a deeper understanding. By going back to the same 'old' news, you are going over words, word patterns, and passages with which you already have a certain familiarity. The process of reinforcement, learning or retaining of what is new, and exposure to what is unfamiliar, is much easier this way — even though the news may seem a little dated. The aim of informing the reader about actual news is secondary, especially given that the content will become less current (and less relevant) over time. If you are having trouble with the level of difficulty in the text, a suggested path for learning languages is as follows: Familiarise yourself with a basic language instruction book — or re-read the one you have. Once a student has studied the basics, a suitable book about basic grammar can be helpful. The suggestion is that any grammar book be studied more with the intent of recognition and understanding, rather than memorising and obsessive rote learning. Go through as much of the grammar book you feel you can digest — maybe even the whole book — skipping over what is not easily understood. After this, read through a portion of text in a book called 'French Sentences', by 2LanguageBooks, looking for examples of what you have picked up (or gleaned) in your hopefully not so arduous study of grammar. Even repeatedly seeing a word that you remember seeing listed as a 'subject pronoun' or a 'third person plural' verb of some sort is a great help. Then, depending on your inclination, return to

the grammar book (or your basic French book), or move on to lengthier bilingual text — like in 2Language Books texts containing news or stories, for example —, or find some suitable French text: a simple novel, a French news website, etc. Grammar books will likely have some verb charts. However, there are currently good on-line resources that go further — dictionaries with a verb conjugation ‘search’ option. Many basic language books offer some form of audio support. Internet services — primarily news based radio stations — offer podcasts. Audio from television is an additional resource, and can be formatted for use on various digital platforms. However, if audio is an important component of your interest in languages, electronic devices that support quality text-to-speech (TTS) will likely be appealing. With a library card, TTS technology (in a device that supports the relevant content), and the above mentioned resources, an entire language learning system is available for not much more than a cup of coffee! There is no substantial financial outlay to get you started. Furthermore, there are no additional ongoing fees (and updates), and there are no expiry dates on ‘premium’ content and resources. Africa-Europe Relationships Raffaele Marchetti, 2020-05-04 The relationships between Africa and Europe are of high strategic importance. This volume studies the ongoing dynamics between the two continents by adopting a pluralist understanding of international relations which encompasses non-state actors as well as states. Going beyond pure intergovernmentalism, this focus of this book is on activists, business people, religious believers, local politicians as well as transnational networks and by hybrid coalitions. Such plurality of socio-economic and political interactions underpinning the relationship between Africa and Europe is underexamined and yet of great importance. The text identifies new patterns of cooperation and recurrent obstacles in the African-European multistakeholder dynamics, thus opening the way for a more accurate understanding of the future relationship between Africa and Europe. This book brings African and European reflections together, on an equal standing, in order to achieve a true dialogue among civilizations. This book is aimed at all those who are interested in African-European relationships, including students and researchers, as well as activists, business people, civil servant and functionaries at local and national level.

Understanding Eritrea Martin Plaut, 2017-02-01 The most secretive, repressive state in Africa is hemorrhaging its citizens. In some months as many Eritreans as Syrians arrive on European shores, yet the country is not convulsed by civil war. Young men and women risk all to escape. Many do not survive - their bones littering the Sahara; their bodies floating in the Mediterranean. Still they flee, to avoid permanent military service and a future without hope. As the United Nations reported: 'Thousands of conscripts are subjected to forced labor that effectively abuses, exploits and enslaves them for years.' Eritreans fought for their freedom from Ethiopia for thirty years, only to have their revered leader turn on his own people. Independent since 1993, the country has no constitution and no parliament. No budget has ever been published. Elections have never been held and opponents languish in jail. International organizations find it next to impossible to work

in the country. Nor is it just a domestic issue. By supporting armed insurrection in neighboring states it has destabilized the Horn of Africa. Eritrea is involved in the Yemeni civil war, while the regime backs rebel movements in Somalia, Ethiopia and Djibouti. This book tells the untold story of how this tiny nation became a world pariah.

My Journey with the United Nations and Quest for the Horn of Africa's Unity and Justice for Ethiopia Kidane Alemayehu, 2017-01-31 My Journey with the United Nations and Quest for the Horn of Africa's Unity and Justice for Ethiopia by Kidane Alemayehu My Journey with the United Nations and Quest for the Horn of Africa's Unity and Justice for Ethiopia is a landmark in the annals of Ethiopian literature and history. It gives a huge assignment to the present and future generations of Ethiopians - namely that justice must be done, if not today, then tomorrow, and if not tomorrow, then the day after tomorrow. The Catholic Church, as the Universal Church, cannot remain mum in the face of such horrendous accusations supported by evidence. It is our fervent hope that, as Vicar of Jesus His Holiness, Pope Francis, who is already well known for his humility and steadfast stand for justice, will address this outstanding issue of apology to the Ethiopian people.

Human Trafficking and Trauma in the Digital Era Mirjam van Reisen, Muntaryadzi Mawere, 2017-02-13 Eritrean refugees crisscross between countries in the Horn of Africa and North Africa in search of a safe place. Along their journeys, they are looted, threatened, intimidated, violated, and held for ransom. This book revisits the human trafficking crisis that first emerged in the Sinai at the end of 2008 and examines the expansion of human trafficking of Eritrean refugees and other forms of exploitation beyond the Sinai. It focuses on the modus operandi of these practices and on identifying their key facilitators and beneficiaries. The book locates the origin of these practices within Eritrea; it reveals how a deliberate policy of impoverishment and human rights abuses has driven the people out of the country, and how individuals within Eritrea, and particularly within the ruling party, benefit from the smuggling and trafficking of Eritrean refugees. The use of information communication technologies (ICTs) is identified as key to the new modus operandi of this criminal business and is found to further facilitate widespread collective trauma amongst Eritreans, who witness the abuse of their family members and fellow nationals through digital networks. An entire section in this book is dedicated to assessing the extent and effects of individual and collective trauma caused by Sinai trafficking and to examining potential approaches to healing. Other sections discuss the vulnerabilities of Eritrean minors and women, and the connections between human trafficking, terrorism and organ trafficking. The last section of the book raises the question of accountability. It examines and evaluates international responses to this forgotten crisis, and discusses the need for policies that tackle the problem where it emerges: in Eritrea.

Berlusconi 'The Diplomat' Emidio Diodato, Federico Niglia, 2018-09-08 This book analyses the foreign policy of Silvio Berlusconi, Italian media tycoon and politician who served as Prime Minister of Italy in four governments. The authors examine the Italian position in the international arena and its foreign policy tradition, as well as Berlusconi's general political stance, Berlusconi's foreign policy strategies and the impact of those strategies in Italy. Given that Berlusconi is considered a

populist leader, the volume considers his foreign policy as an instance of populist foreign policy – an understudied but increasingly relevant topic.

The Europeanisation of Development Policy Maurizio Carbone, Jan Orbie, 2017-12-14 Despite the growing academic interest in the development policy of the European Union (EU) and the booming literature on Europeanisation, the impact of Europe on national development policies has largely been overlooked. By exploring Member State interactions with and through the EU level across a number of different issues, this volume looks to herald a new research agenda. The picture emerging from the empirical evidence is that of modest degrees of Europeanisation. Resistance to Europe can be attributed to different factors, some operating at the domestic level (e.g. established cultural and normative structures, different types of veto players) and others related to the existence of several groupings with alternative policy prescriptions (e.g. Nordic donors, like-minded countries, former colonial powers). Even where there are signs of convergence (or divergence) between the development policies of the various Member States, they may be due to other influences rather than pressures coming from the EU. This book was originally published as a special issue of *European Politics and Society*.

Shackled Mariam Ibraheem, Eugene Bach, 2022-03-08 Sentenced to Death for Her Beliefs Mariam Ibraheem was born in a refugee camp in Sudan. Her Muslim father died when she was six, and her mother raised her in the Christian faith. After a traumatic childhood, Mariam became a successful businessperson, married the man she loved, and had a beautiful baby boy. But one day in 2013, her world was shattered when Sudan authorities insisted she was Muslim because of her father's background. She had broken the law by marrying a Christian man, and she must abandon both her marriage and her son and adopt Islam. Under intense pressure, Mariam repeatedly refused. Ultimately, a Sharia court sentenced her to 100 lashes—and death by hanging. *Shackled* is the stunning true story of a courageous young mother who was willing to face death rather than deny her faith. Mariam Ibraheem took a stand on behalf of all women who are maltreated because of their gender and all people who suffer from religious persecution. Follow Mariam's story from life under Islamic law, through imprisonment and childbirth while shackled, to her remarkable escape from death following an international outcry and advocacy that included diplomats, journalists, activists, and even Pope Francis.

Italy and the European Union Federiga Bindi, 2011-02-01 A Brookings Institution Press and Scuola Superiore della Pubblica Amministrazione (SSPA) publication Federiga Bindi provides, for the first time, an in-depth analysis of Italy's role within the European Union (EU) in this inaugural volume of a book series published jointly by the Brookings Institution Press and the Scuola Superiore della Pubblica Amministrazione (Italian National School of Public Administration, or SSPA). *Italy and the European Union* relates in detail the historical, cultural, and sociological factors that have led to Italy's incomplete Europeanization, or full integration, within the EU. It also brings the reader up-to-date on the steps taken by the country's leaders to improve Italy's standing and become a more effective member in the organization it helped to found. Discussing

the author's extensive research, The Economist notes.... Federiga Bindi identified a number of barriers to an effective European policy in Italy: a high turnover of governments; coalition partners with conflicting aims; the failure of bureaucrats to learn from other member states; and politicians' lack of interest in Europe... recently however, she found that matters had improved. An interdepartmental body for the coordination of EU policies has been created, Parliament operates an effective scrutiny system..., the administration has learnt to learn from others. But the other problems remain, and they are formidable. Her study ends on an exasperated note: 'Italy appears to be stuck in the age of the Guelphs and the Ghibellines, in which the victory of one faction over another is what counts, and the fact that this may be damaging to the country matters little.' —from The Economist, July 31, 2010

The Palgrave Handbook of International Energy Economics Manfred Hafner,Giacomo Luciani,2022-05-27 This open access handbook is distinguished by its emphasis on international energy, rather than domestic energy policies or international geopolitic aspects. Addressing key topics such as energy production and distribution, renewables and corporate energy structures, alongside global energy trends, regional case studies and emerging areas such as the digitalization of energy and energy transition, this handbook provides a major new contribution to the field of international energy economics. Written by academics, practitioners and policy-makers, this handbook is a valuable and timely addition to the literature on international energy economics. This book was published open access with the support of Eni.

The Trajectory of Iran's Nuclear Program Michele Gaietta,2016-04-29 This book offers an in-depth historical and technical description of Iran's nuclear program in political, economic, and strategic contexts. The author points out this issue's connections with the evolution of global and regional strategic balances, as well as the stability of the international regime against the proliferation of nuclear weapons.

Africa's Right to Development in a Climate-Constrained World Kennedy Mbeva,Reuben Makomere,Joanes Atela,Victoria Chengo,Charles Tonui,2023-01-20 This book examines how Africa can secure a 'just transition' to low-carbon, climate-resilient economies.

Theorising NATO Mark Webber,Adrian Hyde-Price,2015-11-19 Scholarship on NATO is often preoccupied with key episodes in the development of the organisation and so, for the most part, has remained inattentive to theory. This book addresses that gap in the literature. It provides a comprehensive analysis of NATO through a range of theoretical perspectives that includes realism, liberalism and constructivism, and lesser-known approaches centred on learning, public goods, securitisation and risk. Focusing on NATO's post-Cold War development, it considers the conceptualisation, purpose

and future of the Alliance. This book will be of interest to students and scholars of international organisation, international relations, security and European Politics.

La sinistra è di destra Piero Sansonetti,2013-01-23 La sinistra attiva ormai è seppellita. Seppellita da questi sessant'anni di stalinismo e da alcuni decenni di giustizialismo. Di attesa del podestà straniero che le risolva tutti i problemi. Stalin, i giudici, il governo dei migliori Quali sono oggi le idee e i principi identitari della sinistra? Una domanda alla quale è diventato impossibile rispondere: nessuna idea espressa negli ultimi anni sembra diversa da quelle della destra. Secondo Piero Sansonetti, però, non si tratta di una generale caduta delle ideologie: è un problema solo italiano, frutto di cinquant'anni in cui la sinistra si è disinteressata della riflessione politica dedicandosi a una stalinista quanto inutile corsa al potere, alleandosi con entità esterne alla propria vocazione - da Moro alle Brigate rosse, da Blair alla magistratura - per nascondere il proprio vuoto di idee e scegliendo di affidarsi a leader destinati a regalare il Paese a Berlusconi. Attraverso retroscena inediti, riflessioni provocatorie e perfidi ritratti dei dirigenti degli ultimi cinquant'anni, Sansonetti, dopo aver vissuto in prima persona la delusione di questa deriva, porta alla luce i mali storici del nostro riformismo: l'incapacità di governare, l'inadeguatezza nell'elaborare una nuova visione politica, il rifiuto di misurarsi con la propria storia. E spiegando le ragioni di una crisi d'identità mai così grave come oggi, mostra da dove ripartire per costruire una nuova sinistra, finalmente in grado di rispondere alle sfide della modernità.
