The Path of Flames Ashley Kendell, Alison Galloway, Colleen Milligan, 2023-10-25 *The Path of Flames: Understanding and Responding to Fatal Wildfires* is an edited volume covering the complexities of response and recovery issues relative to catastrophic wildfires. As wildfires become more frequent throughout the world—and the loss of life greater, especially among residents trapped in the path of the flames—it is essential that agencies in fire-prone areas understand the complexity of the response as it relates to finding and identifying the remains of those who perished. While covering wildfire dynamics, risks for vulnerable populations, and the emergency response to wildfires, this book focuses largely on the recovery of human remains within the context of the overall response to mass disasters resulting from wildfires. As such, search protocols, staffing needs, pre-event coordination and organization, and logistical support are addressed. The scientific basis for understanding how fire will affect human remains—as well as how the level of destruction can be interpreted—is also addressed. Recognizing the multidisciplinary nature of the field, this volume covers forensic issues relating to the recovery of remains, forensic anthropology, DNA analysis, forensic odontology, and forensic pathology. The book also includes contributions from international wildfire response professionals looking at global best practices in wildfire response and human remains recovery. Specifically, several chapters cover the lessons learned from the devastating Camp Fire of 2018 in California that led to the deaths of 85 people. The Camp Fire burned nearly 19,000 structures and was ultimately the most destructive—and deadly—in California's history. *The Path of Flames* is a one-of-a-kind reference that serves as a valuable

resource for professionals working in the areas of emergency services, search and rescue, law enforcement, fire service, disaster planning and response, victim recovery and identification, and mass disaster and mass fatality response.
