Online platforms - new actors of the food chain Amina Lattanzi, 2023-11-07 Food e-commerce is a fast-developing market. Regrettably, the number of products exchanged on the web that may be harmful to consumers is also steadily rising. This development poses challenges for controlling authorities and legislators in their mission to protect EU consumers' health and economic interests, leading to a lively discussion on the status and role of e-platforms in the age of food online. Responsibilities and liabilities in the (online) food chain are not yet clearly defined, and seem to be stuck between stringent safety regulation and immunity to promote innovation. Standing at the intersection of law, food and digital technology, 'Online platforms - new actors of the food chain' looks at the development of food online, and documents how (and whether) EU regulators and courts have been addressing the many challenges this development raises, especially in terms of food information and who is responsible for it.

National Constitutions and EU Integration Stefan Griller, Lina Papadopoulou, Roman Puff, 2022-08-25 Do individual constitutions, and the legal cultures underlying them, pose an obstacle to future EU integration? This ambitious collection brings together reports from all the European Member States, systematically setting out their individual constitutional guarantees. In doing so, it tracks possible roadblocks to the future evolution of European integration. Written by recognised authorities in each Member State, it offers an authoritative and rigorous overview of the European Union's constitutional landscape. Its single-structure approach allows for comparison while maintaining consistency. It will become the standard reference work for academics, students and practitioners in the field of European Union law and integration.

Deutschland zwischen europäischer Integration und Souveränismus - La Germania tra integrazione europea e sovranismo Giuseppe Franco Ferrari, Sandro Mario Moraldo, 2021-11-17 Die Weimarer Reichsverfassung ist ein Eckpfeiler des Konstitutionalismus des 20. Jahrhunderts. Die italienische Charta aus dem Jahr 1948 und das deutsche Grundgesetz aus dem Jahr 1949 repräsentieren den Verfassungszyklus nach dem Zweiten Weltkrieg. In diesem Band feiern italienische und deutsche Wissenschaftler das 100-jährige Jubiläum von Weimar und das 70-jährige des Grundgesetzes in einem Vergleich publizistischer Kulturen. La Costituzione di Weimar è un caposaldo del costituzionalismo del '900. La Carta italiana del 1948 e la Legge fondamentale tedesca del 1949 rappresentano il ciclo costituzionale del secondo dopoguerra. In questo volume

studiosi italiani e tedeschi celebrano i 100 anni di Weimar ed i 70 del Grundgesetz in un confronto di culture pubblicistiche.

The Changing Administrative Law of an EU Member State Domenico Sorace, Leonardo Ferrara, Ippolito Piazza, 2020-09-26
This book presents the evolution of Italian administrative law in the context of the EU, describing its distinctive features and comparing it with other experiences across Europe. It provides a comprehensive overview of administrative law in Italy, focusing on the main changes occurred over the last few decades. Although the respective chapters generally pursue a legal approach, they also consider the influence of economic, social, cultural and technological factors on the evolution of public administration and administrative law. The book is divided into three parts. The first part addresses general issues (e.g. procedures and organization of public administrations, administrative justice). The second part focuses on more specific topics (e.g. public intervention in the economy, healthcare management, local government). In the third part, the evolution of Italian administrative law is discussed in a comparative perspective.

Nullum Crimen Sine Lege, the European Convention on Human Rights and the Foreseeability of the Law Sara Paiusco, 2021-06-17 Das Buch untersucht nullum crimen sine lege als europäischen Grundsatz. Die Untersuchung konzentriert sich auf die Rolle der Vorhersehbarkeit als Lösung für die Legalitätsprobleme, die sich aus dem Richterrecht im Strafrecht ergeben. Die Vorhersehbarkeit und seine Entwicklung werden in der Rechtsprechung des EGMR untersucht. Aktuelle Lösungen, die von Zivilrechtsstaaten (Italien und Deutschland) angenommen wurden, werden auch unter Berücksichtigung der theoretischen Grundlagen von ncsl analysiert. Darüber hinaus wird die Rolle der Vorhersehbarkeit im EU-Recht als Beispiel für eine wirkungsorientierte Rechtsordnung betrachtet. Abschließend werden Zukunftsperspektiven für die Umsetzung der Vorhersehbarkeit analysiert.

The Payment Services Directive II Gimigliano, Gabriella, Božina Beroš, Marta, 2021-12-14 This comprehensive and essential Commentary examines both the origins and effect of the EU's 2015 Payment Services Directive (PSD2). Public Employment Services and European Law, 2007-09-27 Employment services are at the centre of a complex web of rules deriving from the EU, national public law and from private agreements. This book examines the law and regulation of public services through case studies of the public employment services in EU member states.

Human Rights in European Criminal Law Stefano Ruggeri, 2015-01-02 This book deals with human rights in

European criminal law after the Lisbon Treaty. Doubtless the Lisbon Treaty has constituted a milestone in the development of European criminal justice. Not only has the reform following the Treaty given binding force to the EU Charter of Fundamental Rights, but furthermore it has paved the way for unprecedented forms of supranational legislation. In this scenario, the enforcement of individual rights in criminal matters has become a core goal of EU legislation. Alongside these developments, new interactions between national and supranational jurisprudences have emerged, which have significantly contributed to a human rights-oriented approach to European criminal law. The book analyses the main developments of this complex phenomenon from an interdisciplinary perspective. Criminal and procedural law, constitutional law and comparative law must thus be combined to achieve a full understanding of these developments and of their impact on national law.

Research Handbook on EU Disability Law Delia Ferri, Andrea Broderick, 2020-11-27 This Research Handbook comes at an opportune time, and provides a comprehensive and wide-ranging exploration of relevant developments concerning disability rights at EU level. It also looks beyond the EU, focusing on how disability has been relevant in EU external relations. In addition, the Research Handbook considers the interface between EU disability law and Council of Europe law.

Public Employment Services and European Law Mark Freedland FBA, Paul Craig QC FBA, Catherine Jacqueson, Nicola Kountouris, 2007-09-27 How can the EU's community of welfare states adapt their public policies to economic globalization? What happens when the economic and social aims of the EU come into conflict? This book examines the developing legal regimes and regulation of public services in the UK and other European countries. Public services are examined through a case-study of the complex area of public employment services. These are job-placement and vocational training services which aim to maximize employment and minimize unemployment within EU member States' Active Labour Market policies. Employment services are at the centre of a complex web of rules in both hard and soft forms of law deriving from the EU, national public law and from private, and at times contractual, agreements. They also lie at the crossroads of a series of trends in regulation, and priorities have been inspired by an array of conflicting policy rationales. These policy rationales include the establishment of an open and competitive European internal market, the establishment of an efficient welfare state, the scaling down of state administrative machinery, the fulfilment of core public service responsibilities, and the creation of public-private partnerships. Public employment services provide a highly informative and novel case study of the interaction and conflict between the economic and social aims of the EU and between regulation at national and supranational levels, and the changing forms which this regulation has taken.

The Politics of Polarisation Anna Bosco, Susannah Verney, 2022-08-22 Focusing on Italy, Spain and Greece, this book explores the extent of polarisation, as well as its causes, characteristics and consequences. It investigates varied manifestations of polarised politics including leader polarisation, policy polarisation and affective polarisation as well as providing case studies of polarised elections taking place at multiple levels. In recent years, polarisation has been a key

feature of South European politics. Deep antagonism has moved party leaders against each other, hindered parliamentary and governmental cooperation, and triggered a cascade effect of harsh divisions among elites and citizens. Beyond the left-right axis, the chapters in this volume highlight multiple dimensions around which parties and voters polarise: the split around sovereign bailouts in Greece, the territorial cleavage in Spain, the divisions around immigration and European integration in Italy. This volume offers essential understanding of the specific features of polarisation in different national contexts and the consequences for political competition and government instability. The chapters in this book were originally published as a special issue of *South European Society and Politics*.

Transnational, European, and National Labour Relations Gerald G. Sander, Vesna Tomljenović, Nada Bodiroga-Vukobrat, 2018-06-22 This book employs an innovative approach to explore the topic of flexicurity and related changes in the working world, the importance of which for the overall economic and social development is gradually being recognised. It focuses on the changing nature of work and its impact on EU law and national labour and social security laws. Though the transformation of regulatory and institutional frameworks of labour relations follows different patterns in different EU Member States, it is nevertheless a common phenomenon that offers an excellent opportunity for mutual learning experiences and comparing notes on best practices. Taking these ideas as a starting point, the book presents a collection of research on various aspects and implications of changing labour relations in the EU Member States. The opening chapters address the internal market dimension of the transformation of employment relations by investigating how social dumping, integration of migrant workers, and cross-border mergers influence national labour policies and laws. The book further analyses linguistic and terminological challenges in the field of labour law in the EU's multi-lingual legal environment. Subsequent chapters cover various theoretical and practical issues, such as the impact of chain-liability regulatory models on the legal situation of workers in subcontracting networks, and modern work arrangements in the collaborative or 'gig' economy. Other chapters are dedicated to issues of jurisdiction and law applicable to individual employment contracts, as well as alternative resolution mechanisms in labour disputes. The next section offers fresh insights on and a critical overview of the well-known Danish and Dutch models of flexicurity, often cited as role models for reforms of labour markets in other EU Member States. Three individual chapters investigate specific aspects of flexicurity in Croatia, in terms of individual dismissals, life-long learning and the impact of non-standard employment on future pension entitlements. One paper explores temporary agency work in Germany as an important instrument of flexicurity, while another discusses various forms of work used in Slovenia in the context of flexibilization of work relations. Many challenges still lie ahead, and the primary aim of this book is to provide a solid basis for informed future discussions.

New Governance and the European Employment Strategy Samantha Velluti, 2010-03-10 In recent years new or

experimental approaches to governance in the EU, namely the Open Method of Coordination (OMC), have attracted great interest and controversy. This book examines the European Employment Strategy (EES) and its implementation through the OMC, exploring the promises and limitations of the EES for EU social law and policy and for the safeguard of social rights. This significant and timely work offers new insights and fresh perspectives into the operation of New Governance and its relationship with both European and national law and constitutionalism. This book will be of great interest to academics, researchers and postgraduate students working in European law – specifically in the field of EU employment law and gender equality – and European governance studies in general.

Europa der Regionen Peter Hilpold, Walter Steinmair, Christoph Perathoner, 2016-03-10 Das vorliegende Buch beschäftigt sich mit der Bedeutung der Regionen für die europäische Integration. Ursprünglich wurde die Europäische Gemeinschaft vielfach als Gemeinschaft der Nationalstaaten verstanden. Doch auch die Regionen haben in Europa einen hohen Stellenwert und prägen die europäische Identität maßgeblich. In welcher Form dies geschieht und wie das Zusammenspiel von Regionen und Nationalstaaten im Europa der Zukunft gestaltet werden kann, ist Gegenstand dieses Werks.

Translation Style Guide for European Union Member States Nicolae Sfetcu, 2015-04-09 This guide is a companion to the English Translation Style Guide for European Union. For each EU Member State, plus two candidate countries, the guide provides English terms and translations. Most of the individual country sections contain a general introduction and parts on geography, judicial bodies and legal instruments. The guide shows terms in the original language on the left and suggested English translations on the right. General guidance on the translation of geographical names, illustrated by specific examples, can also be found in the English Translation Style Guide for European Union. The translations are based on NUTS – the EU’s Nomenclature of Territorial Units for Statistics. However, the NUTS regions, when referred to as such, are not translated.
