Krise und Integration Jenny Preunkert, Georg Vobruba, 2015-06-16 In der breiten Debatte über die Krise der gemeinsamen Europäischen Währung steht außer Zweifel, dass sie tief greifende Wirkungen auf den Europäischen Integrationsprozess hat. Jedoch gibt es höchst unterschiedliche Auffassungen darüber, welcher Art diese Wirkungen sind. Hat die Eurokrise die Entwicklung einer Europäischen Gesellschaft gebremst oder trägt sie zur Gesellschaftsbildung bei? Gefährdet die Krise die Europäische Integration oder ist sie selbst ein wichtiger Integrationsschritt?

Angriff auf Europa Malene Gürgen, Patricia Hecht, Nina Horaczek, Christian Jakob, Sabine am Orde, 2019-09-11

Strategien der extremen Rechten Stephan Braun, Alexander Geisler, Martin Gerster, 2015-08-05 Dieser Band behandelt nicht nur deskriptiv das Phänomen des Rechtsextremismus, sondern analysiert die konkreten Strategien von Akteuren und Organisationen des gesamten rechten Spektrums - ihre Grundlagen, Bedingungen und Ausprägungen auf allen Ebenen der Gesellschaft. Dabei werden bewusst unterschiedliche Perspektiven der akademischen und praktischen Auseinandersetzung mit dieser heterogenen Strömung aufgegriffen und Gegenstrategien angesprochen, die sich im Umgang mit den unterschiedlichen Teilen der extremen Rechten bewährt haben. Die aktualisierte und erweiterte Neuauflage bezieht dabei verschiedene, zum Teil sogar kontroverse Standpunkte aus Wissenschaft, Publizistik, der politischen Praxis und der Zivilgesellschaft ein. Gerade in der Vielfalt der Zugänge kristallisiert sich ein Gesamtbild heraus, das den Kern des strategischen Wirkens der extremen Rechten deutlich hervortreten lässt.

Food Information, Communication and Education Simona De Iulio, Susan Kovacs, 2022-05-05 Food Information, Communication and Education analyses the role of different media in producing and transforming knowledge about food. 'Eating knowledge', or knowledge about food and food practice, is a central theme of cooking classes, the daily press, school textbooks, social media, popular magazines and other media. In addition, a wide variety of actors have taken on the responsibility of informing and educating the public about food, including food producers, advertising agencies, celebrity chefs, teachers, food bloggers and government institutions. Featuring a range of European case studies, this interdisciplinary collection advances our understanding of the processes of mediatization, circulation and reception of knowledge relating to food within specific social environments. Topics covered include: popularized knowledge about food carried over from past to present; the construction of trustworthy knowledge in today's food risk society; critical assessment of nutrition education

initiatives for children; and political and ideological implications of food information policy and practice.

Where Do the Parties Stand? Stella Gianfreda, 2021-07-29 This book analyses the politicization of immigration and the European Union in Italy, the UK, and the European Parliament (EP) from 2015 to 2020. The book uses the case studies of Italy, the UK, and the EP to study party positioning specifically towards immigration and the European Union, to understand to what extent mainstream-left, mainstream-right and populist parties adopt different framing strategies to compete on the new cultural dimension created by globalization. The book draws on saliency theory, issue ownership theory, and yield theory to investigate the multidimensional nature of political competition, and the relevance of institutional settings in determining party framing strategies. Bridging two fields that typically do not interact—party politics and migration studies—this book fills gaps in the academic literature and as such will be appropriate for students and researchers interested in party politics, European politics, immigration politics, populism, and text analysis.

The European Parliament and Global Health Vincent Rollet, 2024-07-19 This book examines the actorness of the European Parliament (EP) and its roles in global health. In doing so, it appreciates to what extent this democratically elected entity can be considered as a global health actor. Applying an original analytical framework to measure actorness, the book assesses the EP's capacity to act regarding five major global health issues including the pandemic response, access to essential medicines in developing countries, international trade and global health, medical research and development in the field of poverty-related and neglected diseases (PRNDs), and global health governance. It demonstrates that, despite many challenges, the EP has indeed displayed a polymorphic actorness and multiple roles towards most of these global health issues, especially by succeeding in mobilizing its main competences and instruments to deal with them, finalizing initiatives, and having a substantive influence on the way they were addressed. As such, the book reveals the salience of democratically elected institutions for global health governance. This book will be of key interest to students and scholars of European studies, global and regional health, legislative studies, and International Relations, but also to parliamentarians and (non-) governmental actors engaged in global health.

Routledge Handbook of European Elections Donatella M. Viola, 2015-08-14 The Routledge Handbook of European Elections explores the multifaceted dimension of the European Parliament's (EP) electoral contests across the European Community and European Union since 1979. After setting a general empirical and theoretical framework, this collaborative project presents original contributions from leading experts from virtually all the corners of the European Union. Each case study adheres to a common template that makes it easy to compare data, methodology and outcomes. Every country chapter includes: a brief geopolitical profile and historical background of the Member State; a glance at the national political landscape; a short account of the main political parties, including their attitude toward the European Union; a section on public opinion and European integration; a summary of electoral systems; an overview of all EP and national elections; an in-

depth analysis of the 2009 EP electoral race; an overall theoretical interpretation of European elections. A comparative chapter closes the Handbook followed by an Epilogue focussing on the 2014 EP contest with a detailed analysis of the newly elected European Assembly in terms of political group and gender composition. The volume aims to enhance readers' understanding of the European Parliament and revive their interest in the European integration process. By providing a wide range of national and European facts and figures, this investigation represents a comprehensive reference guide to scholars, practitioners, and students of the European Parliament, European elections, political parties, European Union and comparative politics.

Secession and European Union Law N?ria Gonz?lez Campa??,2024-05-23 Secession is a live issue in today's Western Europe. In the last decade, we have witnessed the consolidation of pro-independence movements in Scotland and Catalonia and in the near future, we might see their re-emergence or the rise of other pro-secession movements in other European regions. The response of the EU institutions to secession within EU Member States may well be based mainly on political considerations. However, since the EU is a community based on the rule of law, it has also to justify its position with normative arguments of principle. *Secession and European Union Law* provides such normative support, drawing on a pluralist reading of the relation between EU law and national law, to support the conclusion that EU law should respect domestic constitutional orders. This book studies secession within EU Member States through legal methodology: the theoretical-doctrinal analysis of concepts and institutions, considering the evolving reality and case law. The legal approach has three dimensions, given the three different legal orders that interact at the EU level: international law, EU law and national constitutional law. Based on Article 4 (2) TEU, the central claim of this book is that the EU duty to respect national identity and fundamental constitutional structures generate obligations to respect Member States' constitutional orders, provided that the values enshrined in the Article are not violated by the Member State affected. Topical and original, *Secession and European Union Law* reviews and rethinks key features of the EU and the EU legal order.

Exclusion and Inclusion in International Migration: Power, Resistance and Identity Armağan Teke Lloyd,2019-04-30 People on the move face new barriers in a globalizing world. Some of these barriers are related with the rise of an increasingly security-oriented approach towards international migrants. Notwithstanding the forces of globalization, states have maintained their monopoly power over whom to admit and whom to deny within their borders. In other words, they remain the sovereign authority regulating the entry and exit of people. However, in recent years, a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security. The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism, instability and criminality. The securitization of immigration is also based on the idea that the 'traditional' authority vested in states to regulate immigration

is somehow insufficient and needs to be enhanced. These assumptions correspond with a real policy shift in some countries such as the United States, where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone. This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants, although the focus is largely on the former. Despite the fact that most of the empirical studies are drawn from within Europe, the book also includes research on Nepal, Australia, the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this. Catalonia: A New Independent State in Europe? Xavier Cuadras Morató, 2016-04-20 Catalonia: A New Independent State in Europe examines the main issues of the political process which is taking place in Catalonia today. The political confrontation between the Spanish and Catalan institutions has now reached the international arena, especially the debates concerning international recognition of a new Catalan state and its membership of the European Union (EU) and other international institutions. There are no precedents for the secession of a region from an EU member country that could be applied to the case of Catalonia. Therefore, it is not surprising that the world has many unanswered question about the process. This volume aims to provide answers to many of these questions in a systematic and rigorous way. Why has the political scenario in Catalonia changed so radically and so rapidly? Is this new situation only temporary and support for

independence is likely to vanish very soon? What role has the deep economic crisis in Catalonia and in Spain played in the process? Is a potential new Catalan state economically viable? Which are the main legal controversies about self-determination and independence between the Spanish and Catalan institutions? Would an independent Catalonia be a member of the EU? This book will be of great use to academics and students in the field of politics and international relations, particularly those interested in European economic and political studies. It will also interest a wide segment of general readers interested in contemporary political issues.

European Political Parties and Party Finance Reform Wouter Wolfs, 2022-04-06 This book provides a comprehensive overview of the party finance regime at the level of the European Union. Based on an in-depth analysis of the interaction between European political parties and their institutional environment, it shows how the Europarties have coped with – and altered – the funding rules. The book explains why increasing party subsidies have been made available, and why considerable differences exist in how Eurosceptic and pro-European parties have used their EU funding. It also examines how party finance reform at the EU level has been at the centre of party competition, by demonstrating how the rules were strategically changed to benefit some European parties over others. Considering the strong democratic aspirations that lay at the origins of the finance regime, the book explores its consequences for party democracy and the rule of law in Europe. This book is valuable for scholars working on the European Parliament, Eurosceptic parties, EU decision-making, (European) party politics and political finance.

Anti-Europeanism Marco Baldassari, Emanuele Castelli, Matteo Truffelli, Giovanni Vezzani, 2019-10-23 The book analyzes different critical attitudes towards European integration from a multidisciplinary perspective. By applying both quantitative and normative-theoretical approaches, the contributors assess the causes and effects of the popularity of EU-critical positions and doctrines, such as souverainism, neo-nationalism and neo-populism. The book also presents country studies to compare populist movements and parties, such as the Five Stars Movement in Italy, Syriza in Greece and UKIP in the UK. It offers insights into the historical and normative roots of the diverse anti-European standpoints, and the various political demands and agendas connected with these views, ranging from rejections of EU institutions to demands for institutional reforms and propositions for alternative projects.

Religion and Politics in the European Union François Foret, 2015-02-05 This book analyzes the place and influence of religion in European politics. François Foret presents the first data ever collected on the religious beliefs of European decision makers and what they do with these beliefs. Discussing popular assumptions such as the return of religion, aggressive European secularism, and religious lobbying, Foret offers objective data and non-normative conceptual frameworks to clarify some major issues in the contemporary political debate.

Russia and the Western Far Right Anton Shekhovtsov, 2017-09-08 The growing influence of Russia on the Western far

right has been much discussed in the media recently. This book is the first detailed inquiry into what has been a neglected but critically important trend: the growing links between Russian actors and Western far right activists, publicists, ideologues, and politicians. The author uses a range of sources including interviews, video footage, leaked communications, official statements and press coverage in order to discuss both historical and contemporary Russia in terms of its relationship with the Western far right. Initial contacts between Russian political actors and Western far right activists were established in the early 1990s, but these contacts were low profile. As Moscow has become more anti-Western, these contacts have become more intense and have operated at a higher level. The book shows that the Russian establishment was first interested in using the Western far right to legitimise Moscow's politics and actions both domestically and internationally, but more recently Moscow has begun to support particular far right political forces to gain leverage on European politics and undermine the liberal-democratic consensus in the West. Contributing to ongoing scholarly debates about Russia's role in the world, its strategies aimed at securing legitimation of Putin's regime both internationally and domestically, modern information warfare and propaganda, far right politics and activism in the West, this book draws on theories and methods from history, political science, area studies, and media studies and will be of interest to students, scholars, activists and practitioners in these areas.

The Impact of Europeanization on Minority Communities Katharina Crepaz, 2016-01-07 Katharina Crepaz investigates how two-dimensional ('top-down' and 'bottom-up') Europeanization processes affect minority communities by using a comparative approach, encompassing cases from both „old (pre-2004) and „new EU member-states. The author thereby bridges two dichotomies made in the literature so far, and outlines how Europeanization takes place in non-acquis areas. She does so by looking at four very different case studies: the German-speaking minority in South Tyrol/Italy, the Bretons in France, the German minority in Silesia/Poland, and the Italian minority in Istria/Croatia.

On Extremism and Democracy in Europe Cas Mudde, 2016-03-17 *On Extremism and Democracy in Europe* is a collection of short and accessible essays on the far right, populism, Euroscepticism, and liberal democracy by one of the leading academic and public voices today. It includes both sober, fact-based analysis of the often sensationalized rise of the far right in Europe as well as passionate defence of the fundamental values of liberal democracy. Sometimes counter-intuitive and always thought-provoking, Mudde argues that the true challenge to liberal democracy comes from the political elites at the centre of the political systems rather than from the political challengers at the political margins. Pushing to go beyond the simplistic opposition of extremism and democracy, which is much clearer in theory than in practice, he accentuates the internal dangers of liberal democracy without ignoring the external threats. This book is essential reading for anyone interested in European politics, extremism and/or current affairs more generally.

Insight Turkey / Summer 2023: The Century of Türkiye, 2023-10-01 Türkiye is currently commemorating the centenary of

the proclamation of the Republican regime. After signing the Lausanne Peace Treaty with the victorious powers of the First World War on July 24, 1923, the Turkish state changed the regime from monarchy to republic. Therefore, although it was designed as a new state by transforming its capital city from the imperial İstanbul to Ankara, the Republic of Türkiye is the successor state of the Ottoman Empire. Most state institutions such as the Council of the State (Danıştay) and the Turkish Police Service (Türk Polis Teşkilatı), both established in the second half of the 19th century, are inherited from the Ottomans. The establishment of the Republican regime as a continuation of the Ottoman Empire, a global power extending over three continents, can be compared with the birth of a phoenix out of its ashes. According to the Greek and Egyptian mythology, the phoenix is a bird that throws itself into fire after living for centuries and is reborn from its ashes. It is believed that the main reason for this suicidal act is the distress caused by living in the same pattern for a long time, since it desires to return as a different bird from the ashes. Similarly, many historians and political scientists consider the entry of the Ottoman Empire into the First World War as a suicidal act. Following the collapse of the Ottoman Empire, after the war, the Turkish state was born out of its ashes, changed its pattern of government in 1923 and established a new regime. However, domestic, regional and global conditions and developments did not allow Türkiye, the phoenix, to spread its wings. Throughout the 20th century, Türkiye largely followed a defensive domestic and foreign policy. While it tried to build a new “nation” and consolidate the new regime at the domestic level, Türkiye tried to follow a passive and reactive policy towards external developments at the international level. Türkiye secured its borders during the first half of the 20th century and entered into the NATO alliance, with the Western world against the Soviet threat, for the second half. After the collapse of the Soviet Union, Türkiye experienced an identity crisis in the first decade of the post-Cold War era. Early in the 21st century, the AK Party, under the leadership of President Recep Tayyip Erdoğan, came to power and largely restructured Türkiye’s domestic and foreign policies. At the domestic setting, President Erdoğan and the AK Party successfully normalized state-society relations, made peace with its history, abolished the long-time bureaucratic tutelage, and decreased pressure on certain social groups excluded from the state structure such as the religious groups, Kurds, and Alevis. Radical changes, which are described as a “quiet revolution” by Turkish and foreign observers, were made in different issue areas such as education, health, infrastructure, and economy. Since 2002, the successive AK Party governments under the leadership of President Erdoğan redefined Türkiye’s foreign policy orientation. Ankara has completed many mega infrastructural projects over the last two decades. After increasing its economic power and military capacity at the national level, Türkiye began to take initiatives and to play a leadership role in its regions. Accordingly, it improved its relations with the Turkic and Muslim worlds. Furthermore, it expanded its sphere of influence and started to deal with global issues. By increasing its effectiveness in international platforms, Türkiye began to contribute to resolving global problems. Just before the centennial commemoration of the Turkish Republic in October 2022, President Erdoğan unveiled a new foreign policy vision known as the ‘Century of

Türkiye.’ This strategic discourse aims to establish a ‘Turkish Axis’ at the onset of Türkiye’s second century. Within this context, President Erdoğan emphasized that Türkiye’s path to achieving autonomy in international politics hinges on breaking free from internal and external tutelage. For several years, Türkiye has been meticulously preparing to adapt to shifts in the global political landscape and the evolving balance of power. This new Turkish foreign policy vision for the 21st century carries forward the nation’s historical pursuit of greater autonomy and a broader sphere of influence, a quest that spans the entirety of the 20th century. However, what sets the current foreign policy orientation apart from the previous century is its approach to alliance formation. Under the rule of the AK Party, Türkiye has undergone a paradigm shift by diversifying its foreign relationships and fostering strategic engagements. This transformation, coupled with President Erdoğan’s charismatic leadership and two decades of political stability, has provided Türkiye with a unique opportunity to expand its sphere of influence on a global scale, akin to a triumphant rebirth like that of a phoenix. The year 2023 holds immense significance for Türkiye, as it marked (among others) not only one of the most pivotal elections -with local, regional and global implications, but also the centenary of the Republic’s establishment. Consequently, throughout this year, Insight Turkey has been dedicated to delivering in-depth analyses of Türkiye’s domestic affairs and foreign policies. To complete the picture, this issue of Insight Turkey embarks on a profound exploration, delving into the progress Türkiye has achieved over the past century. It also shines a spotlight on the Century of Türkiye vision, which outlines the nation’s aspirations for the upcoming century. The goal is to offer a comprehensive analysis, examining Türkiye’s historical evolution and transformation, identifying the catalysts behind these changes, and ultimately, shedding light on what these developments signify for Türkiye’s future. In line with this objective, the latest issue of Insight Turkey features a total of 5 comprehensive commentaries. Among these, 2 commentaries delve deeply into the evolution of Turkish foreign policy, while the remaining 3 offer valuable insights into various aspects of bilateral relations. Additionally, the issue includes a collection of 8 research articles, although it’s worth noting that 3 of these articles are off-topic. The commentary section opens with the significant insights shared by Hakan Fidan, the newly appointed Foreign Minister of the Republic of Türkiye, concerning the Turkish foreign policy vision. Fidan’s commentary underscores the dynamic shifts in geopolitical landscapes, the escalating global challenges, and the position of Türkiye in this changing international system. He emphasizes Türkiye’s aspiration to emerge as a pivotal player, characterized by inclusivity and efficacy, capable of addressing the pressing global and regional issues. Fidan asserts that in this 21st century, Türkiye is resolutely committed to shaping the foundations for enduring peace and prosperity within its region and beyond, all while adeptly safeguarding its national interests amidst a turbulent global milieu. In the second commentary, Klaus Jurgens focuses on discovering the underlying reasons for the development of Türkiye’s modern foreign policy. Instead of pursuing bilateral relations with individual countries, he aims to identify the catalyst that triggered the first measurable change in the country’s approach to foreign policy. According to the author, in more than two

decades Türkiye has made progress towards becoming a fully integrated and often trend-setting international actor. From a historical perspective, Ali Bakir considers Türkiye's foreign policy towards the Middle East, a region deeply intertwined with Türkiye's heritage. The author examines Türkiye's approach to the region from the 1923 Treaty of Lausanne to the rise of the AK Party in the early 2000s, reflecting both its historical ties and strategic imperatives; he emphasizes the concepts of reactivity, assertiveness, autonomy, diplomacy, neutrality, revisionism, and pro-activeness. As a result, the commentary offers insights into the evolving nature of Türkiye's versatile and adaptable foreign policy and role in the Middle East over the last 100 years (1923-2023). In the following commentaries, while Dolapo Fakuade looks at Türkiye-Africa relations from the perspective of humanitarian aid and security agreements, Alessia Chiriatti examines Türkiye-Italy relations through food diplomacy and membership in joint international organizations. Dolapo emphasizes that Türkiye does not have a significant colonial history on the continent, unlike other European countries, and evaluates the relations with Africa in recent years through the concept of soft power, concluding that the relations are gradually strengthening. Using examples of Türkiye's security and humanitarian aid deployments in Somalia, Libya and Nigeria, he argues that the relationship between Türkiye and African countries has resulted in more promising and positive impacts on the continent, not least due to relations arising from historical ties with the Ottoman Empire. On the other hand, Chiriatti discusses Italy-Türkiye relations through food diplomacy and NATO membership, establishing parallels between the current global diplomacy, especially in the midst of the Ukraine crisis. She also explores how Türkiye uses food diplomacy, such as the Black Sea Grain Initiative, to strengthen its regional and global influence. As stated above, the Century of Türkiye vision is the main highlight of this issue. Within this perspective, Muhittin Ataman, in his article, provides a comprehensive analysis of Türkiye's developing foreign policy in recent years, examines the changes and transformations in depth, and discusses the basic principles and goals that define Türkiye's new foreign policy vision. Ataman argues that President Erdoğan, after a tough struggle against both domestic and foreign tutelage, managed to achieve strategic autonomy in Turkish foreign policy and built a strong economy and increased its military capacity at the national level. The author also argues that Türkiye began to take initiative and play a leadership role at the regional level by improving its relations with both Turkic and Muslim countries, and claims that it also increased its status at the global level by diversifying its relations with other actors. In the next research article, Hasan Yükselen delves into what he perceives as the emergence of a new strategic discourse in Turkish foreign policy, referred to as the Century of Türkiye. Yükselen explores the various factors that play a pivotal role in shaping this discourse, elucidates how the institution perceives structural changes, examines Türkiye's positioning in response to shifts in the international political system, global economy, and geography. Furthermore, he analyzes both the potential dangers and promises, associated with this strategic direction, and delves into the specific content and components of this emerging discourse. Focusing especially on the naval strategies, Serkan Balkan and Murat Yeşiltaş aim to examine the evolution of Türkiye's naval strategy from a coastal defense-

focused concept to an assertive concept with a broader geopolitical perspective. Balkan and Yeşiltaş offer an in-depth analysis of the evolution of Türkiye's maritime strategy from the early years of the Republic to the present day. Furthermore, they examine various contextual factors influencing the transformation of Türkiye's naval forces, including the intra-institutional context within the Turkish Armed Forces, the discursive context regarding dominant geopolitical narratives, and the geostrategic context regarding the operationalization of Turkish naval strategy. Shifting our focus to one of the most contentious subjects concerning Türkiye, Insight Turkey presents two research articles that offer diverse perspectives on the Türkiye-Europe relations. Firstly, Kemal İnat and Filiz Cicioğlu analyze the important developments and general trends in Türkiye-Europe relations in the last century and put forward the main argument that while European countries were the regions with which Türkiye had the closest economic and political relations at the time of the establishment of the Republic, Europe is gradually losing this position. In this article, the authors discuss why the relevant countries chose to pursue a policy of pressure and sanctions against Türkiye's democratically elected AK Party government and how the Turkish government reacted to such behavior. In the other research article focused on Türkiye-Europe relations, Hasan Ulusoy and Oğuz Güngörmez examine the discourses of right-wing populist parliamentarians in the European Parliament (EP) towards Türkiye from a social constructivist perspective. By comparatively analyzing the 2009-2014 and 2014-2019 parliamentary periods, the authors reveal which discursive strategies the MPs used in their statements about Türkiye and what kind of a representation of Türkiye they built in the EP. From our off-topic pieces, Ewa Czarkowska and Magdalena Kumelska-Koniecko aim to analyze the U.S.' Middle East strategy in the context of the ongoing distribution of power in the region under the influence of the Iran-Russia-Türkiye triangle, using the example of the Syrian civil war. In the following off-topic research article, Mehmet Öztürk and Melih Duman focus on the development of Türkiye's relations with Africa by using the role theory and documentary source screening based on Ministry of Foreign Affairs sources. Last but not least, Kıvanç Ulusoy and Pınar Atakara examine the current Cyprus conflict amid Eastern Mediterranean developments contending that the energy discoveries have escalated tensions rather than fostering a solution. Furthermore, they argue that the conflict's path since the Greek Cypriot administration's EU membership in 2004 reflects a 'joint decision trap,' with EU inaction leading Türkiye to adopt a traditional hard power strategy. In light of these crucial topics, Insight Turkey has included in this issue valuable research that both reflects on Turkish foreign policy from historical perspectives and looks ahead to the future. This exploration is part of our third special issue of the year, commemorating the Centennial of the Republic of Türkiye and unveiling the vision of the Century of Türkiye. We are confident that the thought-provoking and enlightening discussions within this issue will greatly benefit our esteemed readers.

Elite zwischen Europäisierung und nationalen Mustern Sebastian Allertseder, 2016-06-07 In der vorliegenden Studie werden die nationalen und europäischen Karriereverläufe von Abgeordneten des Europäischen Parlaments aus Deutschland,

Frankreich, Großbritannien und Italien untersucht. Eine Vollerhebung aller Abgeordneten aus den untersuchten Staaten (1.562 Personen) ermöglicht die Einbeziehung vielfältiger Faktoren und die Einordnung in eine eigens entwickelte Typologie der Karrieretypen. Neben den sozio-demographischen Merkmalen steht dabei der durch die Untersuchung der individuellen Ämterübernahmen diagnostizierbare Concours in den Karriereverläufen im Fokus des Interesses.
