Quando diventerai grande Mariastella Gelmini, 2021-09-30 I bambini, in ogni epoca e in qualunque luogo, adorano ascoltare dalla voce dei propri genitori le fiabe. Sono dei racconti che vedono spesso protagonisti re e principesse, animali o creature fantastiche che vengono da altri mondi, i bambini stessi. In questa raccolta di Mariastella Gelmini, scritta in occasione della nascita della figlia Emma, trovano spazio temi come l'arguzia e la furbizia, l'amore, la buona sorte e il senso di possesso. Perché se è vero che i bambini adorano giocare e hanno il diritto di divertirsi, è altrettanto vero che ogni giorno fanno un passo in avanti nel loro percorso di crescita e di scoperta del mondo, e le fiabe possono essere veicolo di messaggi positivi ed emozioni sincere. Quando diventerai grande rielabora leggende e racconti della tradizione popolare italiana più o meno noti, e con stile semplice e accattivante invita genitori e figli a entrare in un mondo splendido dove le parole vanno a braccetto con le immagini e con la forza della fantasia. Avvocato e politico, madre di Emma, Mariastella Gelmini dopo aver ricoperto incarichi amministrativi nella provincia in cui è nata (Brescia), nel 2005 è stata eletta Consigliere regionale e nominata Coordinatrice regionale di Forza Italia della Lombardia. Deputato dal 2006, è Ministro dell'Istruzione, dell'Università e della Ricerca nel governo Berlusconi IV (2008-2011). Nel 2016 è stata eletta Consigliere comunale a Milano. Dal 2018 ha rivestito il ruolo di Capogruppo di Forza Italia alla Camera dei Deputati, incarico che ha abbandonato nel febbraio del 2021 a seguito della sua nomina a Ministro per gli Affari regionali e le Autonomie nel governo guidato da Mario Draghi.

Politische Macht über Italiens Medien : die Veränderung der italienischen Medienlandschaft in Zeiten der Oligarchie Pessina, Emanuela, 2015-05-22 Medien, die spezielle - zumeist wirtschaftliche und machtpolitische - Interessen derart fokussiert vertreten, wie es in Italien schon länger der Fall ist und die nicht durch andere gleichmächtige mediale Angebote ausgeglichen werden, sind eine erhebliche Gefahr für jede Demokratie. Die Mitglieder gesellschaftlicher Eliten nutzen entsprechende Positionierung von Medienangeboten und Institutionen als Element ihrer Kampagnen und verhindern die offene und unabhängig kritische Auseinandersetzung mit Zuständen und Entwicklungen. Am Beispiel der italienischen Fernsehlandschaft und ihrer Verknüpfung mit anderen Bereichen der Presse verdeutlicht der vorliegende Band genau diese Problematik. Branches of media that have specific interests e.g. political or economical; as we have seen in Italy for some time now, and which are not affected by other opposing or contrary views in other branches of media, are an immediate

threat to democracy. Those with political or economical power often align themselves to one specific view offered by the media or institutions as an element in their campaign and in doing so prevent open and independent critique of circumstances and development.

*Springtime* Clare Solomon, Tania Palmieri, 2011-09-01 The autumn and winter of 2010 saw an unprecedented wave of student protests across the UK, in response to the coalition government's savage cuts in state funding for higher education, cuts which formed the basis for an ideological attack on the nature of education itself. Involving universities and schools, occupations, sit-ins and demonstrations, these protests spread with remarkable speed. Rather than a series of isolated incidents, they formed part of a growing movement that spans much of the Western world and is now spreading into North Africa. Ever since the Wall Street crash of 2008 there has been increasing social and political turbulence in the heartlands of capital. From the US to Europe, students have been in the vanguard of protest against their governments' harsh austerity measures. Tracing these worldwide protests, this new book explores how the protests spread and how they were organized, through the unprecedented use of social networking media such as Facebook and Twitter. It looks, too, at events on the ground, the demonstrations, and the police tactics: kettling, cavalry charges and violent assault. From Athens to Rome, San Francisco to London and, most recently, Tunis, this new book looks at how the new student protests developed into a strong and challenging movement that demands another way to run the world. Consisting largely of the voices that participated in the struggle, *Springtime* will become an essential point of reference as the uprising continues.

**“Die” Schönste der Schönen** Elisabeth Patsios, 2009 Diese Geschichte hat noch niemand erzählt: Sie handelt von blutjungen Mädchen, die halbnackt über einen Laufsteg vor den kritischen Augen meist männlicher Juroren stolzieren und

dabei ein genaues Ziel vor Augen haben: zur Schönsten des Landes gekürt zu werden. Ob kokett oder berechnend, naiv oder selbstbewusst: Müssen setzen seit jeher auf ihre weiblichen Reize - eine Gratwanderung zwischen Siegeszug und Ausbeutung. Doch was hat der begehrte Titel bei den Auserwählten bewirkt und was ist aus ihnen geworden? Auf dem Laufsteg durch die Jahrzehnte stöckeln Blondinen und Brünette, die abseits von gängigen Klischees berichten, wie es wirklich gewesen ist: Von Überraschungssiegen und Schiebung, über unmoralische Angebote und Traumänner in der Jury bis hin zu internationalen Karrieren und bitteren Misserfolgen.

*Judicial Activism at the European Court of Justice* Bruno de Witte, Elise Muir, Mark Dawson, 2013-01-01  
This well-constructed, and well-written, collection fills a gap in the scholarship. It offers a rounded and plausible picture of the Court's role in Europe, engaging with the complexity of the law without losing sight of the bigger political picture. Well-contextualised, critical, but nuanced, discussions of the role of rights, economics, science, and institutions, and of the important particularities of EU adjudication, will make this volume unmissable for those interested in the political role of the Court of Justice of the EU. ð Gareth Davies, VU University of Amsterdam, The Netherlands  
This book delves into the rationale, components of, and responses to accusations of judicial activism at the European Court of Justice. Detailed chapters from academics, practitioners and stakeholders bring diverse perspectives on a range of factors ð from access rules to institutional design and to substantive functions ð influencing the European Court's political role. Each of the contributing authors invites the reader to approach the debate on the role of the Court in terms of a constantly evolving set of interactions between the EU judiciary, the European and national political spheres, as well as a multitude of other actors vested in competing legitimacy claims. The book questions the political role of the Court as much as it stresses the opportunities ð and corresponding responsibilities ð that the Court's case law offers to independent observers, political institutions and civil society organisations. *Judicial Activism at the European Court of Justice* will appeal to researchers and graduate students as well as to EU and national officials.

Governing Fear Gianfranco Baldini, Anna Cento Bull, 2009  
In 2008, Silvio Berlusconi returned to power — thanks to a decisive electoral victory — to head a slimmer coalition whose cabinet consisted of members very close to him. The year began with the garbage crisis in Naples and ended in a climate dominated by economic uncertainty. In between some unexpected events happened: during the administrative elections, held with the general elections in April, the right in Rome claimed many victories; for the first time ever, a woman, Emma Marcegaglia, was elected President of Confindustria; and the Alitalia airline had to be rescued from the brink of economic collapse. For consecutive months, opinion polls gave Berlusconi an unprecedented level of popular support; those polled attributed their approval to either his 'decisionism' or to what they viewed as a successful strategy of continual announcements. Others pointed to the executive's success in 'governing the fears' of Italians, which was helped by a change of register in the way the media dealt with issues of security. This volume

shows that the politics of vetoes, which characterised the previous center-left government, could not conceal the structural, economic and social problems that still need to be resolved, a situation not helped by the fact that the opposition parties were still unable to develop an effective political strategy by yearend. With the contribution of Italian and international experts, the volume also addresses the issues of the difficult integration of immigrants, the mismanagement of public health and the reform of the education.

*International Seminar on Nuclear War and Planetary Emergencies* Richard C. Ragaini,2010 The Erice International Seminars are multidisciplinary seminars attended by over 100 eminent participants from all fields of Science. Each year, a few scientific issues are selected and experts are invited to present contrasting views during the plenary multidisciplinary sessions of the Seminar, followed by general debates. These sessions offer a unique opportunity for specialists to enlarge their fields of vision by being confronted to the ideas and suggestions from high level scientists in complementary domains of science. Associated workshops allow the experts to further refine and process the ideas evoked during the seminar. This year's topics are focused on the World Energy Crisis and more specifically on the Essential Technologies for Moderating Climate Change and Improving Energy Security and for Energy & Limits of Development. We also concentrated on Managing the Challenges of Climate Change, Energy Security and Pollution in Asian Countries. On Global Monitoring of the Planet we have focused on the Climate Change issues and specifically on the Sensitivity of Climate to Additional CO<sub>2</sub> as indicated by Water Cycle Feedback Issues, Climate Uncertainties Addressed by Satellites, and the Basic Mathematics Needed for All Models. In Information Security we focused on Cyber Conflict and Cyber Stability. For Pollution and Medicine we focused on the Revolution in the Environmental Health Sciences and the Emergence of Green Chemistry.

Lehrer für Schüler mit Migrationsgeschichte. Sprachliche Kompetenz im Kontext internationaler Konzepte der Lehrerbildung Elmar Winters-Ohle,Bettina Seipp,Bernd Ralle,2012 In increasingly multicultural societies, students with migration background, professional competences of teachers and linguistic ability challenge educational policy and the scientific system. Schools and education systems must therefore harness the benefits that students and teachers from diverse backgrounds bring to classrooms. A successful school system treats diversity as a source of potential growth rather than an inherent hindrance to student performance. To do so, universities need to assume their increasing responsibility when educating teachers. This book comprises contributions, which accelerate professionalism in the educational system by supporting scientific and in particular international exchanges.

Faith in Courts Lisa Harms,2022-12-01 The judicialisation of religious freedom conflicts is long recognised. But to date, little has been written on the active role that religious actors and advocacy groups play in this process. This important book does just that. It examines how Jehovah's Witnesses, Muslims, Sikhs, Evangelicals, Christian conservatives and their global support networks have litigated the right to freedom of religion at the European Court of Human Rights over the past 30 years. Drawing on in-depth interviews with NGOs, religious representatives, lawyers and legal experts, it is a powerful study of the social dynamics that shape transnational legal mobilisation and the ways in which legal mobilisation shapes discourses and conflict lines in the field of transnational law.

*Austerity and the Remaking of European Education* Anna Traianou, Ken Jones,2019-06-13 Austerity and the Remaking of

European Education offers historically and empirically grounded accounts of national educational formations in Europe, at a specific time in their reshaping through encounters with global policy frameworks, and social and economic developments. The authors explore these issues in the context of different pressures that impact on European education systems - from the constraints established by the European Central Bank and the European Commission across Southern Europe, to the 2008 financial crisis and the increased migration. The book provides a rigorous theoretical approach to European and national policies, combined with detailed analyses of national educational contexts in England, France, Greece, Hungary and Sweden. These in-depth studies identify major issues of national education policymaking, and explore the complexities of global/national relationships. The economic crisis, the rise of the Left in Greece and of the populist Right in many countries in Europe, questions of cultural and religious diversity, tensions between marketization and inclusion are all brought into focus, offering findings that are of great interest to researchers of education policy, politics and sociology of education alike. In the final section of the book, the authors explore policy alternatives, as embodied in the activities of both governments and non-state actors, such as trade unions and social movements.

Michel Foucault and Education Policy Analysis Stephen J. Ball, 2017-10-02 The work of Michel Foucault has become a major resource for educational researchers seeking to understand how education makes us what we are. In this book, a group of contributors explore how Foucault's work is used in a variety of ways to explore the 'hows' and 'whos' of education policy - its technologies and its subjectivities, its oppressions and its freedoms. The book takes full advantage of the opportunities for creativity that Foucault's ideas and methods offer to researchers in deploying genealogy, discourse, and subjectivation as analytic devices. The collection as a whole works to make us aware that we are freer than we think! This book was originally published as a special issue of the Journal of Education Policy.
