The Writing Culture of Ordinary People in Europe, C.1860-1920 Martyn Lyons,2013 A fascinating account of how ordinary people met the challenges of literacy in modern Europe, as distances between people increased.

The Return of Politics David Hine,Salvatore Vassallo,2000 By the spring of 1998, it had become clear that Italy, after considerable effort, had succeeded in bringing its public finances into line with the Maastricht parameters for joining the European Monetary Union. This was generally viewed as an important success of the Olive Tree coalition government led by Romano Prodi, and a sign that Italian political life had become normal. Nevertheless, the Bicameral Commission, which should have fostered a radical consitutional reform with the aim to stabilize and strengthen the bipolar structure of the party system and the majoritarian functioning of democracy in Italy, was dismantled in June. Moreover, in October 1998 the Prodi government suddenly collapsed because of the internal opposition of the Neo-Communist wing of its parliamentary majority, a further demonstration that the Italian transition towards a more effective democratic rule is far from complete. David Hine is Fellow and Senior Censor at Christ Church College, Oxford. Salvatore Vassallo is senior civil servant in the Emilia-Romagna regional government's Institutional Affairs Bureau and Professor of Public Policy Analysis at the University of Trento.

Islamic Finance in Europe Mohyedine Hajjar,2019-05-10 Information about Islamic finance in European countries is usually provided by professional-style reports, offering practical data on implementation of standardized products. However,

precise developments about material legal provisions applicable to contracts and their actual legal regime are not often detailed. In order to fill this gap, 15 researchers from across Europe contributed to this project. They describe the state of actual Islamic finance in 10 European countries, as well as applicable EU law. By combining legal analysis with statistical description of existing practices and social demand, this book provides an exhaustive account of the current potential of Islamic finance in Europe.

White Field, black seeds Anna Kuismin, M. J. Driscoll, 2013-01-01 White field, black seeds—who can sow? Although the riddle from which these words are taken comes from oral tradition, it refers to the ability to write, a skill which in most Nordic countries was not regarded as necessary for everyone. And yet a significant number of ordinary people with no access to formal schooling took up the pen and produced a variety of highly interesting texts: diaries, letters, memoirs, collections of folklore and handwritten newspapers. This collection presents the work of primarily Nordic scholars from fields such as linguistics, history, literature and folklore studies who share an interest in the production, dissemination and reception of written texts by non-privileged people during the long nineteenth century.

Public Probity and Corruption in Chile Patricio Silva, 2019-05-22 In most Latin American countries, key officials and political figures have been involved in big corruption scandals in the last decade, leading to a rigorous academic debate on the possible socio-economic, political and cultural factors responsible for corrupt practices across the region. This book takes a different approach by focusing on Chile, which shows the lowest levels of corruption in the region. Instead of analysing notoriously bad cases in Mexico, Argentina, Brazil and Venezuela, this book explores the factors which have led to a relatively high degree of public probity among power holders in Chile. *Public Probity and Corruption in Chile* presents a long-term historical analysis demonstrating that public probity in Chile has its roots in the colonial period, and that public and state responses have historically shown a low level of tolerance for public cases of corruption. In particular, the author highlights the role played by relative poverty and lack of resources, geographical remoteness, the impact of the Arauco War against the Mapuche people, the militarisation of both government and public administration, the extreme oligarchic nature of the Chilean aristocracy, the early consolidation of state institutions and the rule of law, high levels of political stability and the role played by patriotism. Studying an example of better practice in detail in this way provides valuable insights into the factors and actors which can help to prevent or to revert the phenomenon of public corruption in the region more generally. As such, this book will be of interest to researchers of corruption and public probity both in Chile and further afield.
