*L'organizzazione delle pubbliche amministrazioni tra Stato nazionale e integrazione europea* Roberto Cavallo Perin, Aristide Police, Fabio Saitta, 2017-11-06 Nel 1865 furono emanate le leggi di unificazione amministrativa del Regno d'Italia. In occasione del centocinquantenario, il Dipartimento di Scienze Giuridiche dell'Università di Firenze ha organizzato un progetto di studi sulle trasformazioni che nell'ultimo cinquantennio hanno interessato gli apparati e le attività dell'amministrazione della Repubblica, vista nel suo articolato governo locale e nella sua appartenenza all'Unione europea. Le ricerche hanno coinvolto, nell'arco di quasi due anni, più di centocinquanta studiosi di Università italiane. I risultati sono stati presentati il 15 e 16 ottobre del 2015 a Firenze, la città che centocinquant'anni prima era stata Capitale d'Italia e che nel 1965 aveva ospitato il convegno celebrativo del centenario delle stesse leggi di unificazione amministrativa. Gli studi condotti sono ora pubblicati in forma definitiva e organizzati in otto volumi. Piano dell'opera I. L'organizzazione delle pubbliche amministrazioni tra Stato nazionale e integrazione europea, a cura di Roberto Cavallo Perin, Aristide Police, Fabio Saitta II. **The State and Civil Society** Nicole Bolleyer, 2018 State regulation of civil society is expanding yet widely contested, often portrayed as illegitimate intrusion. Despite ongoing debates about the nature of state-voluntary relations in various disciplines, we know surprisingly little about why long-lived democracies adopt more or less constraining legal approaches in this sphere, in which state intervention is generally considered contentious. Drawing on insights from political science,

sociology, comparative law as well as public administration research, this book addresses this important question, conceptually, theoretically, and empirically. It addresses the conceptual and methodological challenges related to developing systematic, comparative insights into the nature of complex legal environments affecting voluntary membership organizations, when simultaneously covering a wide range of democracies and the regulation applicable to different types of voluntary organizations. Proposing the analytical tools to tackle those challenges, it studies in-depth the intertwining and overlapping legal environments of political parties, interest groups, and public benefit organizations across 19 long-lived democracies. After presenting an innovative interdisciplinary theoretical framework theorizing democratic states' legal disposition towards, or their disinclination against, regulating voluntary membership organizations in a constraining or permissive fashion, this framework is empirically tested. Applying Qualitative Comparative Analysis (QCA), the comparative analysis identifies three main 'paths' accounting for the relative constraints in the legal environments democracies have created for organized civil society, defined by different configurations of political systems' democratic history, their legal family, and voluntary sector traditions. Providing the foundation for a mixed-methods design, three ideal-typical representatives of each path - Sweden, the UK, and France - are selected for the in-depth study of these legal environments' long-term evolution, to capture reform dynamics and their drivers that have shaped group and party regulation over many decades.

Unter alliierter Besatzung Stefan Laffin, 2024-06-17 Mit der Invasion Siziliens durch britische und US-Einheiten im Juli 1943 begann auch die Militärverwaltung durch die Alliierten in Italien. Der Zusammenbruch des faschistischen Regimes, der Waffenstillstand zwischen den Alliierten und Italien und der italienische Frontenwechsel änderten deren Bedingungen und Kontexte massiv. Ohnehin verlor die weitreichende Vorbereitung auf die Besatzung bei der Konfrontation mit süditalienischen Dorfstrukturen und Stadtgesellschaften rasch an Wert. An diesem Punkt setzt die Studie ein, die mit einem praxistheoretisch informierten transnationalen Ansatz einen Beitrag zur Geschichte des Zweiten Weltkriegs im Mittelmeerraum leistet. Sie untersucht die zahlreichen Interaktionsroutinen zwischen alliertem Militärpersonal und der Zivilbevölkerung, den Aufbau einer auch institutionell schlagkräftigen Militäradministration und die Ausformung der Beziehungen zwischen Militärs, italienischen Verwaltungsvertretern, Großbauern, aber auch lokalen Mafiosi. Mit Sizilien, Kalabrien und Kampanien geraten drei Regionen in den Fokus, in denen die Besatzungspraxis systematisch vermessen wird, über mitlaufende Vergleiche indes auch Spuren übergreifender und allgemeinerer Muster herauspräpariert werden.

*Le società pubbliche in house e miste* Rosanna De Nictolis, Luigi Cameriero, 2008

**Political Leaders Beyond Party Politics** Fortunato Musella, 2017-07-31 This book studies party leaders from selection to post-presidency. Based on data covering a large set of Western countries, and focusing on the trends of personalisation of politics, the volume is one of the first empirical investigations into how party leaders are elected, how long they stay in office,

and whether they enter and guide democratic governments. It also provides novel data on how leaders end their career in a broad and diverse range of business activities. Topics covered include political leaders' increasing autonomy, their reinforcement of popular legitimization, often through the introduction of direct election by party rank and file, and their grip on party organization. The book will appeal to students and scholars interested in political parties, political leadership, the transformation of democracy, and comparative politics.

*Le società a partecipazione pubblica* Vincezo Donativi, 2016-10-27 L'Opera costituisce una raccolta sistematica della complessa disciplina in materia di società a partecipazione pubblica. Le norme selezionate sono state catalogate per materia e commentate tenendo soprattutto conto delle questioni sollevate dalla prassi e con l'intento di fornire un supporto alla soluzione dei problemi pratici e un substrato argomentativo utilizzabile nella elaborazione degli atti amministrativi o delle deliberazioni che i diversi uffici o organi degli enti o delle società partecipate sono chiamati ad adottare L'argomento è di grande interesse e attualità: da ultimo è stato approvato il D.Lgs. 19 agosto 2016, n. 175, «Testo unico in materia di società a partecipazione pubblica» (TUSPP), nel contesto del pacchetto dei decreti delegati di cui alla "Riforma Madia" della p.a. con l'obiettivo di semplificare e razionalizzare le regole vigenti, attraverso il riordino delle disposizioni nazionali e la creazione di una disciplina generale organica. Accanto a una serie di innovazioni di grande impatto, tuttavia, sono sopravvissute molte delle soluzioni originarie, che sono state travasate nel TUSPP o addirittura in molti casi conservative nel contesto delle fonti previgenti. Il volume, frutto dell'esperienza ventennale dell'autore esperto e studioso della materia, si rivolge ad amministratori, revisori e agli uffici interni delle p.a., così come agli amministratori, ai sindaci, ai revisori e agli uffici interni delle società partecipate, oltre che ai professionisti che svolgono attività di consulenza e assistenza in favore di tali soggetti.

*Party and Democracy* Piero Ignazi, 2018-01-26 Party and Democracy questions why political parties today are held in such low estimation in advanced democracies. The first part of the volume reviews theoretical motivations behind the growing disdain for the political party. In surveying the parties' lengthy attempt to gain legitimacy, particular attention is devoted to the cultural and political conditions which led to their emergence on the ground' and then to their political and theoretical acceptance as the sole master in the chain of delegation. The second part traces the evolution of the party's organization and public confidence against the backdrop of the transition from industrial to post-industrial societies. The book suggests that, in the post-war period, parties shifted from a golden age of organizational development and positive reception by public opinion towards a more difficult relationship with society as it moved into post industrialism. Parties were unable to master societal change and thus moved towards the state to recover resources they were no longer able to extract from their constituencies. Parties have become richer and more powerful thanks to their interpenetration into the state, but they have paid' for their pervasive presence in society and the state with a declining legitimacy. Even if some changes have been introduced recently in party organizations to counteract their decline, they seem to have become ineffective; even worse,

they have dampened democratic standing inside and outside parties, favouring plebiscitary tendencies. The party today is caught in a dramatic contradiction. It has become a sort of Leviathan with clay feet: very powerful thanks to the resources it gets from the state and to its control of the societal and state spheres, but very weak in terms of legitimacy and confidence in the eyes of the mass public. However, it is argued that there is still no alternative to the party. Democracy is still inextricably linked to the party system.

**Italian Democracy** Gianfranco Pasquino, 2019-11-08 This textbook, from one of Italy's most eminent scholars, provides broad coverage and critique of Italian politics and society. Providing the readers with the knowledge necessary to understand the working of the Italian political system, it also offers answers to some of the most important challenges facing the country - and other contemporary democracies - today, such as populism, anti-politics and corruption. Critical but underpinned by thorough data and analysis, it presents alternative views alongside the author's interpretation. Crucially, the book uses a comparative framework to explain Italy's transformation and evaluate its performance. Comparing the rules, institutions, parties and actors at work in the most important European political systems - France, Germany, Great Britain - with those in Italy, the Italian context is better understood and assessed in contrast. This text will be essential reading for students and scholars of Italian politics and European politics, and more broadly for comparative politics and democracy.

*Venice and the Veneto during the Renaissance: the Legacy of Benjamin Kohl* Knapton, Michael, Law, John E., Smith, Alison, 2014 Benjamin G. Kohl (1938-2010) taught at Vassar College from 1966 till his retirement as Andrew W. Mellon Professor of the Humanities in 2001. His doctoral research at The Johns Hopkins University was directed by Frederic C. Lane, and his principal historical interests focused on northern Italy during the Renaissance, especially on Padua and Venice. His scholarly production includes the volumes *Padua under the Carrara, 1318-1405* (1998), and *Culture and Politics in Early Renaissance Padua* (2001), and the online database *The Rulers of Venice, 1332-1524* (2009). The database is eloquent testimony of his priority attention to historical sources and to their accessibility, and also of his enthusiasm for collaboration and sharing among scholars.

*The Informal Powers of Western European Presidents* Selena Grimaldi, 2023-08-14 The book explores how weak presidents directly or indirectly elected can still play a crucial role in the political arena. Weak presidents have been distinguished from strong ones by relying on the evaluation of the powers they display according to the constitution. Six Western European countries are analysed: Germany and Italy which present a consistent constitutional design (as weak presidents are elected indirectly), and Austria, Ireland, Finland and Portugal that present inconsistent constitutional design (as weak presidents are elected directly). In contrast to much of the existing comparative works on presidential powers and activism, the book emphasises the role and the use of informal powers beyond that of formal ones. In particular, a definition and a typology of informal powers are provided as well as an empirical investigation on informal presidential activism. The

positive outcome of presidential informal interventions are studied by relying on an interactionist approach which combines presidency-centred as well as president centred-explanations. The book argues that when dealing with informal presidential activism the opportunity structure matters but presidential public support matters even more.

Iniziativa economica pubblica e società partecipate Vincenzo Cerulli,Mario Libertini,2019-08-05T12:19:00+02:00 Il volume raccoglie i primi risultati di una ricerca sui problemi sorti in sede di applicazione del Testo Unico sulle Società a partecipazione pubblica (d.lgs. 19 agosto 2016, n. 175), rilevando che le intenzioni dichiarate del legislatore si sono realizzate solo in parte e che il quadro normativo in materia di imprese pubbliche continua ad essere affetto da incertezze e incoerenze. In particolare, la scelta legislativa di ridurre il numero di società in mano pubblica, mediante i piani obbligatori di razionalizzazione e l'introduzione di limiti molto stretti alla possibilità di costituire nuove imprese pubbliche, è stata indebolita dall'introduzione di una serie molto ampia di deroghe, in buona parte già inserite (anche con emendamenti successivi) nel corpo del T.U.S.P., e in altra parte contenute in leggi successive (dalla legge di bilancio 2019 fino al recente "decreto Crescita"). Un'altra scelta fondamentale di politica legislativa del T.U.S.P. è stata quella di affermare l'applicabilità alle società in mano pubblica delle norme di diritto privato, fatte salve eventuali deroghe tassativamente stabilite dallo stesso T.U. In realtà, queste deroghe sono, già nel corpo del T.U., numerose e incisive. Sul piano sistematico riesce difficile applicare in modo rigoroso il principio di tassatività delle deroghe e si ripropongono numerosi problemi di interferenza fra norme di diritto privato e norme di diritto amministrativo, nella disciplina delle società in mano pubblica. I contributi raccolti nel volume sono, per lo più, critici nei confronti delle scelte del legislatore: sono messi in evidenza i limiti dell'impostazione "liberistica" della legislazione dell'ultimo decennio (culminata nelle scelte di principio del T.U.S.P.), incline a configurare l'impresa pubblica, in quanto tale, come un'eccezione ai principi di buon funzionamento dell'economia di mercato. Ma sono evidenziati anche i limiti della legislazione più recente successiva al T.U.S.P. caratterizzata da striscianti nostalgie "dirigistiche".

*Delle persone 3 - Leggi collegate* Angelo Barba e Stefano Pagliantini (a cura di),2013-07-16 Il modulo "Delle Persone" è un autorevole commento articolo per articolo della disciplina normativa codicistica in tema di persone e di fonti del diritto. Razza stracciona Sergio Rizzo,2012-10-24 C'è il re delle cliniche romane che compra un ospedale da don Verzè e pochi mesi dopo lo rivende allo Stato guadagnandoci quasi il 20 per cento. C'è il very powerful executive chairman che fa precipitare le azioni della Telecom appena privatizzata e una decina d'anni dopo torna alla carica per rilanciare un marchio automobilistico decotto grazie a improbabili investitori indiani, o forse cinesi, risultato: fallimento. C'è il finanziere amico dei politici che fa crac dopo aver intascato per sé e regalato ai figli decine di milioni della società quotata in borsa. C'è il tizio che risolve problemi, quello che conosce tutti, l'imprenditore turistico che ricicla i soldi dei boss, il faccendiere che era iscritto alla P2 in affari con un ex assessore di Ci Insomma, la razza padrona degli anni Settanta si è trasformata nella razza stracciona di oggi. Intrecci pericolosi tra banche, fondazioni, assicurazioni e poteri pubblici locali e nazionali, connivenze tra controllori e controllati, meccanismi di selezione che premiano familiari e amici indipendentemente da meriti e capacità, una concezione distorta dell'impresa, incompatibile con le regole del capitalismo evoluto e moderno: sono solo alcuni dei vizi della nostra economia e della nostra società che Sergio Rizzo analizza in questo romanzo horror in forma di inchiesta. Non ci è rimasto molto tempo, per evitare che a finire in liquidazione sia tutta l'Italia.
