Embedding Evidence-Based Practice in Speech and Language Therapy Hazel Roddam,Jemma Skeat,2010-04-05
Like all health professionals, speech and language therapists (SLTs) need to keep themselves up-to-date with the research evidence base that is relevant to their field of practice and be able to show how this contributes to their clinical decision-making. However, it is not always clear to practitioners how evidence-based practice (EBP) can be properly embedded in their day-to-day activities. In this valuable book, Hazel Roddam and Jemma Skeat present a wealth of instructive examples by SLT contributors from around the world, showing how clinicians, educators, and researchers have risen to the EBP challenge. Embedding evidence-based practice in speech and language therapy showcases the creative ways that SLTs are developing knowledge and skills for EBP, creating contexts that support the use of evidence in practice, and working towards making evidence easily accessible and usable. It includes real-life examples of how SLTs have encountered a clinical problem

or situation and have accessed and used the evidence within their day-to-day practice. The contributors come from a wide range of work settings, from services situated within large organizations to those in independent practice, and represent a range of clinical areas, from paediatric to adult and across speech, language, voice, fluency, Augmentative and Alternative Communication (AAC), and dysphagia. This book is written for an audience of clinical practitioners, at any stage of their career, and is additionally a valuable resource for SLT students and lecturers.

Ponti Sharlene Teo,2018-04-19 'Remarkable' - Ian McEwan Shortlisted for Hearsts' Big Book Award 2018. Set in 2003 in the sweltering heat of Singapore, Sharlene Teo's *Ponti* begins as sixteen-year-olds Szu and Circe develop an intense friendship. For Szu it offers an escape from Amisa, her beautiful, cruel mother - once an actress, and now the silent occupant of a rusty house. But for Circe, their friendship does the opposite, bringing her one step closer to the fascinating, unknowable Amisa. Seventeen years later, Circe finds herself adrift and alone. And then a project comes up at work, a remake of the cult seventies horror film series 'Ponti', the same series that defined Amisa's short-lived film career. Suddenly Circe is knocked off balance: by memories of the two women she once knew, by guilt, and by a lost friendship that threatens her conscience . . . Longlisted for the Jhalak Prize 2019. Shortlisted for the Edward Stanford Fiction, with a Sense of Place Award.

Statehood, Scale and Hierarchy Lauren Zentz,2017-08-03 Against the background of language and nation formation in Indonesia, this book demonstrates how language planning is inseparable from the broader actions of the state, and how postcolonial nationalism and globalization have had profound implications for language use and state actions to control it. Using language planners' texts, national and regional policy statements and the discussions of university English majors, it explores the borders of what can be defined as Indonesian, Javanese and English languages, and how this is informed by ideologies of language and nationalism in contemporary Indonesia. The tensions played out in the book between the ideologically perceived languages around which policies are built and the realities of linguistic performance and the resources of the individual are echoed across the globe, making this book crucial reading for anyone interested in the interplay of language planning and language use.
