The Future of Open Data Pamela Robinson, Teresa Scassa, 2022-05-24 The Future of Open Data flows from a multi-year Social Sciences and Humanities Research Council (SSHRC) Partnership Grant project that set out to explore open government geospatial data from an interdisciplinary perspective. Researchers on the grant adopted a critical social science perspective grounded in the imperative that the research should be relevant to government and civil society partners in the field. This book builds on the knowledge developed during the course of the grant and asks the question, “What is the future of open data?” The contributors’ insights into the future of open data combine observations from five years of research about the Canadian open data community with a critical perspective on what could and should happen as open data efforts evolve. Each of the chapters in this book addresses different issues and each is grounded in distinct disciplinary or interdisciplinary perspectives. The opening chapter reflects on the origins of open data in Canada and how it has progressed to the present date, taking into account how the Indigenous data sovereignty movement intersects with open data. A series of chapters address some of the pitfalls and opportunities of open data and consider how the changing data context may impact sources of open data, limits on open data, and even liability for open data. Another group of chapters considers new landscapes for open data, including open data in the global South, the data priorities of local governments, and the emerging context for rural open data.

Connecting Democracy Stephen Coleman, Peter M. Shane, 2012 The global explosion of online activity is steadily transforming the relationship between government and the public. The first wave of change, e-government, enlisted the Internet to improve management and the delivery of services. More recently, e-democracy has aimed to enhance democracy itself using digital information and communication technology. One notable example of e-democratic practice is the government-sponsored (or government-authorized) online forum for public input on policymaking. This book investigates these online consultations and their effect on democratic practice in the United States and Europe, examining the potential of Internet-enabled policy forums to enrich democratic citizenship. The book first situates the online consultation phenomenon in a conceptual framework that takes into account the contemporary media environment and the flow of political communication; then offers a multifaceted look at the experience of online consultation participants in the United States, the United Kingdom, and France; and finally explores the legal architecture of U.S. and E. U. online consultation. As the contributors make clear, online consultations are not simply dialogues between citizens and government but constitute networked communications involving citizens, government, technicians, civil society organizations, and the media. The topics examined are especially relevant today, in light of the Obama administration's innovations in online citizen involvement.

3G Handset and Network Design Geoff Varrall, Roger Belcher, 2003-03-11 Third Generation (3G) wireless networks are in the works in Europe and Asia, and 2.5G networks that incorporate some 3G features are being rolled out in the United States Hands-on guide to integrating cell phone or PDA/portable PC products with present and future wireless network hardware

Addresses topics such as quality of service (QoS) and service level agreements (SLAs) from a wireless perspective Presents an in-depth review of both handset and network hardware and software

The Report: Myanmar 2018, 2018 Although recent GDP growth has moderated from the double-digit highs of the early 2000s, it has remained above 5% for more than 25 years, supported by robust natural resource exports, steady foreign direct investment (FDI), rising incomes and private consumption, and rapid expansion of the industrial and services sectors. External headwinds and internal conflict have dampened the near-term outlook; however, the country's long-term economic outlook remains positive, with rising investment in transport and power infrastructure expected to drive GDP and industrial growth, supported by a sharp increase in personal incomes and consumer spending.

Digital Transformation in Education: Emerging Markets and Opportunities Chitra Krishnan, Mansi Babbar, Gurinder Singh, 2023-03-24 The widespread digitalization of all aspects of life, including the disruption caused by the Internet and the invasion by artificial intelligence, necessitates rethinking educational transformation processes. The broader purpose of the digital transformation of education is to develop an effective educational system that fits the needs of the digital economy and guarantees easy access to information for stakeholders in this sector. Digital Transformation in Education: Emerging Markets and Opportunities provides a comprehensive understanding of the emergence and evolution of digital technologies and artificial intelligence in the field of education. It presents 12 reviews that shed light on the various advantages and drawbacks of digital technology along with the opportunities and markets that are emerging because of such a digital education transition. Each chapter is written by a group of distinguished contributors and presents a detailed literature review, methodology (where appropriate), discussion and reference list. The book content equips educators at all levels with essential information required to adapt to educational technology in order to improve teaching, student support and learning outcomes. This book is an informative resource for postgraduate scholars, academics, policymakers, educators, and researchers in pedagogy, learning theory, digital learning, communication and education research.

Better Regulation in Europe: Greece 2012 OECD, 2012-12-04 This review of regulation in Greece maps and analyses the core issues which together make up effective regulatory management, laying down a framework of what should be driving regulatory policy and reform in the future.

Handbuch E-Government Jürgen Stember, Wolfgang Eixelsberger, Andreas Spichiger, Alessia Neuron, Franz-Reinhard Habel, Manfred Wundara, 2019-08-22 Dieses Handbuch stellt die aktuellen Herausforderungen und neuen Lösungsansätze beim E-Government in den Ländern Österreich, Schweiz und Deutschland dar. Es werden alle drei administrativen Ebenen bearbeitet und aus der Perspektive der Praxis und der Wissenschaft betrachtet. Damit wird ein Forum für innovative und neue Ansätze geschaffen, um diese Konzepte in Praxis und Wissenschaft in Deutschland, der Schweiz und Österreich zur Diskussion zu stellen. Alle Beitragsautorinnen und -autoren haben umfangreiche Kompetenzen, Forschungsschwerpunkte

und Praxisprojekte im E-Government und sind weitreichend in den jeweiligen nationalen Netzwerken vertreten. Das Handbuch richtet sich an Studierende, Wissenschaftlerinnen und Wissenschaftler unterschiedlicher Disziplinen genauso wie an Expertinnen und Experten aus der Praxis.

Examens de l'OCDE sur la gouvernance publique Examen du gouvernement ouvert au Maroc 2024 Analyse et perspectives vers un État ouvert OECD,2024-06-25 Ce rapport propose une analyse en profondeur des réformes du gouvernement ouvert au Maroc, à la lumière de la Recommandation de l'OCDE sur le Gouvernement Ouvert. Près de six ans après l'adhésion du Maroc à la Recommandation et au Partenariat pour un Gouvernement Ouvert, cet examen prend acte des progrès réalisés depuis dans l'élaboration et la mise en œuvre d'un programme de réformes pour un gouvernement ouvert. En prenant appui sur la théorie du changement, ce rapport s'intéresse aux cadres qui forment un environnement propice au gouvernement ouvert au Maroc ; aux processus à l'œuvre pour cette ouverture ; à l'espace civique comme prérequis aux réformes ; à la transparence et l'accès à l'information ; et à la participation concrète des citoyens et des parties prenantes. Le dernier chapitre présente une feuille de route pour guider le Maroc dans l'élaboration et la mise en œuvre d'une possible stratégie nationale pour un gouvernement ouvert visant à soutenir l'intégration et la mise en cohérence des réformes pour un gouvernement ouvert et se rapprocher progressivement d'un État ouvert.
