Political Advertising in the 2014 European Parliament Elections Christina Holtz-Bacha, Edoardo Novelli, Kevin Rafter, 2017-07-21 This timely publication offers a fresh scholarly assessment of political advertising across the EU, as well as an insight into differing political and regulatory systems related to political advertising in the individual member states. With a detailed focus on the images and communication styles that characterised the 2014 European Parliament election campaign, this edited collection evaluates political advertising across the EU using empirical data to compare and contrast styles and approaches in different members. This work allows the authors to offer an important evaluation of the similarities and differences in the posters and broadcasts used to win public support in the 2014 campaign at the time of the great European recession and financial crisis, specifically looking at the place of posters and video commercials. This book will appeal to researchers and students of political communication, political science, history, European studies as well as candidates and campaign workers who want a more comprehensive understanding of the representation of Europe in political adverts at the 2014 elections.

From Banners to Broadcasts Sally Ann Young, 2005 The first book to tell the story of Australian election campaigns using our vibrant heritage of campaign memorabilia. Starting at the turn-of-the-century, Young plots the development of campaigning from broadsides and handbills to newspaper advertisements, pamphlets, posters, badges, rosettes and more.

Political Advertising in the United States Erika Franklin Fowler, Michael M. Franz, Travis N. Ridout, 2021-11-24 Political Advertising in the United States examines the volume, distribution, content, and effects of political advertising in congressional and presidential elections. The book considers the role of television ads using extensive data on ad airings on local broadcast stations. It also analyzes newly available data on paid digital ads, including ads on Facebook, Instagram, Google, and YouTube. The book covers the role of outside groups in airing ads, including the rise of dark money groups and gaps in existing federal campaign finance laws around transparency of outside group spending. The authors consider how ad sponsors design and target ads. They also review the positive and negative implications of an electoral system where billions are spent on paid advertising. With detailed analysis of presidential and congressional campaign ads and discussion questions in each chapter, this accessibly written book is a must-read for students, scholars, and practitioners who want to

understand the ins and outs of political advertising. New to the Second Edition • Covers the spending, content, and tone of political advertising in the 2016 and 2020 presidential elections and the 2018 midterms, looking ahead to 2022 and 2024. • Addresses the interference of foreign actors in elections and their connection to political advertising. • Expands the discussion of digital political advertising and incorporates this topic into every chapter. • Adds a new chapter specifically addressing digital ad content and spending. • Includes data from the Facebook, Google, and Snapchat ad libraries and explores the role of these companies in regulating the sale of political advertising. • Incorporates new data on the effects of race and gender in advertising, including what is known about the way in which advertising may activate prejudicial attitudes.

Truth in Advertising? Barbara Allen, Daniel Stevens, 2018-10-18 Focusing on the U.S. 2008 general elections, this study shows the links between inaccurate political ad claims and negativity, sound and visual distortions that influence voter cognition, and voter knowledge and behavior. Knowing less and voting more appears to be the troubling news in an age of post-factual democracies.

The Persuasive Power of Campaign Advertising Travis N. Ridout, Michael M. Franz, 2011-03-25 The Persuasive Power of Campaign Advertising offers a comprehensive overview of political advertisements and their changing role in the Internet age. Travis Ridout and Michael Franz examine how these ads function in various kinds of campaigns and how voters are influenced by them. The authors particularly study where ads are placed, asserting that television advertising will still be relevant despite the growth of advertising on the Internet. The authors also explore the recent phenomenon of outrageous ads that go viral on the web—which often leads to their replaying as television news stories, generating additional attention. It also features the first analysis of the impact on voters of media coverage of political advertising and shows that televised political advertising continues to have widespread influence on the choices that voters make at the ballot box.

Crowded Airwaves James A. Thurber, Candice J. Nelson, David A. Dulio, 2001-09-19 Political advertising plays a key role in modern electioneering and has formed part of political campaigns since the earliest federal elections were held in the United States. As modes of mass communication have evolved, so have the venues for campaign advertising—from newspapers to radio and television, and today, the Internet. Not only have the outlets for political advertising expanded over the past twenty years, so have the number of groups using it to convey information and advance their points of view. Because political advertising has become such a pervasive medium for candidates, political parties, and special interest groups, understanding its role in election campaigns becomes all the more important. *Crowded Airwaves* gathers some of the most significant new work in American political advertising and communication. The contributors provide an objective and

balanced analysis of political advertising: its causes, its growth, and its consequences on elections in the United States. The chapters in this volume tackle three of the most interesting and most complicated issues in political advertising today: the characterization of ads and the need to measure their impact; the agenda-setting and priming effects of ads; and the role and implications of issue advertising for the electorate. The contributors focus in particular on the effects and consequences of negative advertising. *Crowded Airwaves* will appeal to readers who are interested in political campaigns and communication. It will be of special importance to those concerned with the tone and content of electoral campaigns and political discourse.

New Perspectives on Political Advertising Lynda Lee Kaid, Dan D. Nimmo, Keith R. Sanders, 1986 This volume is part of a series of anthologies which cover various topics in the study, teaching, and practice of political communication. The purpose of the series is to make available to researchers, teachers, students, and other specialists, findings, analyses, and commentaries which are representative of current scholarship in the rapidly evolving field of political communication. The focus of this volume--political advertising, its history, forms, styles, settings, uses, and effects--seems appropriate because there are few, if any, forms of political communication which are more prevalent, more expensive, more highly developed, and which have been the object of more controversy and less serious scholarship than political advertising, especially the political commercial made for television.

Political Advertising in den USA Sarah Stolle, 2006-09-06 Studienarbeit aus dem Jahr 2004 im Fachbereich Politik - Internationale Politik - Region: USA, Note: 1,0, Friedrich-Schiller-Universität Jena, Sprache: Deutsch, Abstract: Die starke Einbeziehung der Massenmedien im Wahlkampf, um die Wähler in ihrer politischen Meinungsbildung zu beeinflussen, wird derzeit bei dem Kampf um das Weiße Haus sehr deutlich. Vor allem in einem so großen Staat wie den USA ist es unmöglich, einen ständigen persönlichen Kontakt zwischen Politikern und Bürgern herzustellen. Aufgrund dessen nehmen die Massenmedien, insbesondere das Fernsehen, als intermediäre Instanz zwischen Kandidat und Wähler, eine bedeutende Position ein. Immerhin verbringt der US- Bürger durchschnittlich sechs Stunden pro Tag vor dem Fernseher. Weiterhin betrachten Zweidrittel der US- Bürger das Medium Fernsehen als die wichtigste Informationsquelle über das Wahlkampfgeschehen. Die Zeitung ist dabei der große Verlierer, denn für nur circa zehn Prozent der Bevölkerung ist die Presse die Hauptinformationsquelle. Die zunehmende Tendenz der Mediasierung der Politik betrachten viele Wissenschaftler, wie McChesney oder Chomsky, als eine Gefahr. Anstatt informative politische Sachverhalte zu vermitteln gehen die Massenmedien den Weg des political advertising, das eine äußerst gewinnbringende Quelle für die Medienkonzerne darstellt, da die Kandidaten einen Großteil des Wahlkampfbudgets für die Erstellung von Werbespots und den Kauf von Sendezeiten ausgeben. 1992 haben die drei Präsidentschaftskandidaten zusammen 100 Millionen US- Dollar in Werbespots investiert. Perot hat 45 Millionen, Bush 38 Millionen und Clinton 35 Millionen aufgewendet. Im Gegensatz zu politischen Berichterstattungen von autonomen Journalisten, enthält ein Wahlspot keinen tiefgründigen Sachbezug, sondern schafft

vielmehr ein bestimmtes Kandidatenimage. Die vorliegende Arbeit setzt sich mit der Problematik des political advertising im Wahlkampf auseinander. Zunächst werden einige Grundlagen erläutert, die die umfangreiche Werbung im Wahlkampf erst möglich machen. Anschließend werden die Strategien erklärt, die über den Erfolg oder die Niederlage eines Spots und somit eines Kandidaten entscheiden. Am Ende der Arbeit, im Rahmen des Fazits, findet eine kritische Betrachtung des political advertisings statt.

Television and Political Advertising Frank Biocca, 2014-02-04 This volume represents one of the first major scholarly efforts to unravel the psychological and symbolic processing of political advertising. Utilizing survey, experimental, qualitative, and semiotic methodologies to study this phenomenon, the contributors to *Television and Political Advertising* trace how political ads help to interpret the psychological reality of the presidential campaign in the minds of millions of voters. A product of the National Political Advertising Research Project, this interdisciplinary effort is valuable to researchers in advertising, communication, and consumer psychology since it helps define future work on the relationship between television, politics, and the mind of the voter. This volume, *Television and Political Advertising: Signs, Codes and Images*, is the second of two, and covers such areas as *Generating Meaning in the Pursuit of Power*, *Analyses of the Meaning of Political Ads*, *The Campaign Documentary as an Ad*, and *Regulating Signs and Images*.

Routledge Handbook of Political Advertising Christina Holtz-Bacha, Marion R. Just, 2017-02-24 This Handbook provides the most comprehensive overview of the role of electoral advertising on television and new forms of advertising in countries from all parts of the world currently available. Thematic chapters address advertising effects, negative ads, the perspective of practitioners and gender role. Country chapters summarize research on issues including political and electoral systems; history of ads; the content of ads; reception and effects of ads; regulation of political advertising on television and the Internet; financing political advertising; and prospects for the future. The Handbook confirms that candidates spend the major part of their campaign budget on television advertising. The US enjoys a special situation with almost no restrictions on electoral advertising whereas other countries have regulation for the time, amount and sometimes even the content of electoral advertising or they do not allow television advertising at all. The role that television advertising plays in elections is dependent on the political, the electoral and the media context and can generally be regarded as a reflection of the political culture of a country. The Internet is relatively unregulated and is the channel of the future for political advertising in many countries

Political Marketing and the 2015 UK General Election Darren G. Lilleker,Mark Pack,2016-05-23 This book brings together leading scholars to analyze political marketing in the context of the UK 2015 General Election. Election campaigns represent a time of intense marketing, including: the communication of party, party leader and candidate brands; the design and dissemination of key messages and policy proposals; identification of target voters; setting out strategies for the campaign; and translating strategies into specific communication tactics. Each chapter of this book has been specifically commissioned to focus on one of these aspects of the campaign (targeted campaigning, branding, core messages, advertising, media management, online campaigning and the campaign in the marginal seats). The collection offers insights into the most interesting and innovative aspects of the 2015 election campaign, determining how levels parties with differing resource approach elections and with what impacts, as well as what we can learn more broadly about marketing at general elections. The chapters are developed to make the topic accessible to non-scholars and to have real-world relevance.
