In einem Fall wird Verwaltung als relativ autonome Einrichtung verstanden, die sich die Richtlinien ihres Handelns selbst setzt, und sich selbst immer starker ausdifferenziert und ausweitet, im anderen Fall dominiert das Verständnis, daß Verwaltung in ihrem Handeln von Klienteln und ihren Interessenverbänden weitgehend bestimmt wird.

Wortbildung und Wirtschaftssprachen Valentina Crestani, 2010 Dies ist der erste Beitrag zur substantivischen Wortbildung in den Wirtschaftsfachsprachen aus der kontrastiven Perspektive Deutsch - Italienisch. Der Band führt ein in die theoretischen Grundlagen der Fachsprachenforschung, der Wirtschaftssprachen und der Wortbildung des Substantivs. Den Kernteil bildet die Analyse von Wirtschaftstexten aus verschiedenen Textsorten (2007-2008). Dabei wird das Problem der Klassifizierung von Wortbildungsprodukten aus einer sprachübergreifenden Perspektive und deren Fachlichkeit untersucht: Liegen alle Komposita, alle Derivate auf derselben Ebene? Verfügen Wirtschaftswörter über denselben Grad an Fachlichkeit? Was verbirgt sich hinter dem Kompositum Eigenkapital/capitale proprio und den anderen Wortbildungen? Mit Hilfe von Fachwörterbüchern und von Beispielsätzen aus den analysierten Texten und aus den IDS-Korpora wird diesen Fragen auf den Grund gegangen.

Cyber Law in Italy Giovanni Ziccardi, 2020-01-14 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical guide to cyber law - the law affecting information and communication technology (ICT) - in Italy covers every aspect of the subject, including intellectual property rights in the ICT sector, relevant competition rules, drafting and negotiating ICT-related contracts, electronic transactions, privacy issues, and computer crime. Lawyers who handle transnational matters will appreciate the detailed explanation of specific characteristics of practice and procedure. Following a general introduction, the book assembles its information and guidance in seven main areas of practice: the regulatory framework of the electronic communications market; software protection, legal protection of databases or chips, and other intellectual property matters; contracts with regard to software licensing and network services, with special attention to case law in this area; rules with regard to electronic evidence, regulation of electronic signatures, electronic banking, and electronic commerce; specific laws and regulations with respect to the liability of network operators and service providers and related product liability; protection of individual persons in the context of the processing of personal data and

confidentiality; and the application of substantive criminal law in the area of ICT. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Italy will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative law in this relatively new and challenging field.

Public Procurement Law Duncan Fairgrieve, François Lichère, 2011-11-01 Public procurement represents more than 15 per cent of European GDP and is one of the fastest growing sectors of the European economy. Public procurement law is also developing rapidly, not least in the area of remedies for breach of procurement rules. The aim of this book is to analyse the remedy of damages in public procurement law. The European Directive of 11 December 2007 amending Council Directives 89/665/EEC and 92/13/EEC has reaffirmed the importance of damages as a tool to enforce the proper award of public contracts, but has left the exact architecture of the damages remedy in the hands of the Member States. This book offers an overview of damages liability which is inclusive, coherent and practical, covering the relevant law and jurisprudence from a number of countries across Europe and further afield. The contributors are high-profile and authoritative commentators on public procurement law, including policy-makers, judges, academics and practitioners.

Justifying Strict Liability Marco Cappelletti, 2022-06-23 The imposition of strict liability in tort law is controversial, and its theoretical foundations are the object of vigorous debate. Why do or should we impose strict liability on employers for the torts committed by their employees, or on a person for the harm caused by their children, animals, activities, or things? In

responding to this type of questions, legal actors rely on a wide variety of justifications. Justifying Strict Liability explores, in a comparative perspective, the most significant arguments that are put forward to justify the imposition of strict liability in four legal systems, two common law, England and the United States, and two civil law, France and Italy. These justifications include: risk, accident avoidance, the 'deep pockets' argument, loss-spreading, victim protection, reduction in administrative costs, and individual responsibility. By looking at how these arguments are used across the four legal systems, this book considers a variety of patterns which characterise the reasoning on strict liability. The book also assesses the justificatory weight of the arguments, showing that these can assume varying significance in the four jurisdictions and that such variations reflect different views as to the values and goals which inspire strict liability and tort law more generally. Overall, the book seeks to improve our understanding of strict liability, to shed light on the justifications for its imposition, and to enhance our understanding of the different tort cultures featuring in the four legal systems studied.

Italy's Foreign Policy in the Twenty-First Century Bertjan Verbeek, Giampiero Giacomello, 2011-11-16 Italy's Foreign Policy in the Twenty-First Century: The New Assertiveness of an Aspiring Middle Power, edited by Giampiero Giacomello and Bertjan Verbeek, fills a gap in the middle powers literature in general because of its focus on Italy. Relying on insights from foreign policy analysis, it offers an innovative theoretical inroad into Italian foreign policy by linking European and international factors with domestic processes of status making. Finally, this volume focuses on actors, issues, and policy instruments in vital areas of Italy's foreign policy rather than bilateral relations between Italy and other countries or regions.
