Darüber hinaus gibt er nützliche und konkrete Tipps, wie ein gelungenes Miteinander zu gestalten ist und zeigt auf, wie man helfen kann, damit aus Willkommens-Kultur Integrations-Kultur wird.

'Refugees Welcome' in der Erwachsenenbildung Bernd Remmele, Silvester Popescu-Willigmann, 2019-09-16 Mitarbeitende und Verantwortliche in Institutionen der Erwachsenenbildung finden in diesem Band theoretisch fundiertes Erfahrungswissen sowie didaktische und methodische Empfehlungen für die Konzeption, Planung und Durchführung von Bildungs- und Begleitangeboten für Menschen mit Fluchthintergrund. Einen besonderen Fokus legt der Praxisband auf die differenzierte Darstellung der komplexen Lebenslage und institutionellen Kontexte Geflüchteter. Bildungsanbieter werden so in systematischer Weise für die Lernvoraussetzungen geflüchteter Menschen sensibilisiert, wodurch sich auch spezielle Anforderungen an das Bildungsangebot und den organisatorischen Rahmen erschließen. Auf diesen Erkenntnissen aufbauend sind die Leserinnen und Leser besser in der Lage, ein adressatengerechtes und lernwirksames Bildungsangebot auszubringen, und zwar weitgehend unabhängig von der jeweiligen politischen und rechtlichen Situation. In dem Band diskutieren die Autorinnen und Autoren außerdem Programmangebote, die die Teilnehmenden zu ersten Schritten autonomer Teilhabe und darauf aufbauenden Integrations- sowie weiteren Bildungswegen in der Gesellschaft im Ankunftsland befähigen. Aufbauend auf eine kritische Analyse des Grundbildungskonzepts werden die vier besonders teilhaberelevanten Grundbildungsbereiche Sprache/Literalität, die soziokulturelle, die Verbraucher- und die Arbeitnehmer-Grundbildung entfaltet. Abschließend werden Empfehlungen zur Steigerung der Nachhaltigkeit des Bildungsangebots ausgesprochen: durch Professionalisierung und Evaluation.

Refugees: A Very Short Introduction Gil Loescher, 2021-05-27 Refugees and other forced migrants are one of the great contemporary challenges the world is confronting. Throughout the world people leave their home countries to escape war, natural disasters, and cultural and political oppression. Unfortunately, even today, the international community struggles to provide an adequate response to this vast population in need. This Very Short Introduction covers a broad range of issues around the causes and impact of the contemporary refugee crisis for both receiving states and societies, for global order, and for refugees and other forced migrants themselves. Gil Loescher discusses the identity of refugees, asylum seekers, and internally displaced persons and how they differ from other forced migrants. He also investigates the long history of the refugee phenomenon and how refugees became a central concern of the international community during the twentieth and twenty first centuries, as well as considering the responses provided by governments and international aid organisations to refugee needs. Loescher concludes by focussing on the necessity of these bodies to understand the realities of the contemporary refugee situation in order to best respond to its current and future challenges. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis,

perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Refugees John Rogge, 1987

Advocating for Refugees in the European Union Melissa Schnyder, Noha Shawki, 2020-05-20 The crisis of forced displacement is compounded by the politicization of asylum and refugee protection, which have become polarizing issues in many countries in Europe and in the United States. It has animated efforts by pro-refugee civil society groups to engage in advocacy efforts that respond to the securitization of the issue, reframe it as a human rights and humanitarian issue, and bring about policies that are favorable to refugee protection. The contrasting points of view surrounding refugee and asylum policy reveal a fundamental normative difference in what is considered the most appropriate standard of behavior to guide actions and policies in the wake of the European refugee crisis. This normative difference, and the contestation that it entails, represents the starting point for this study of specific strategies of norm-based change. The study focuses on civil society organizations (CSOs) and the deliberate ways they incorporate and use norms in framing and responding to the issue of refugee protection. It seeks to understand and explain how and why pro-refugee advocacy groups choose to use specific norm-based strategies of advocacy in their effort to shift public opinion on the issues of asylum and refugee protection and ultimately bring about policy change.

Refugees, Interculturalism and Education Marco Catarci, Miguel Prata Gomes, Sávio Siqueira, 2020-05-21 *Refugees, Interculturalism and Education* focuses on the sensitive issue of forced migration and education from an intercultural perspective. The volume comprises diverse projects and classroom experiences in different countries, involving today's ever-increasing population of human beings who, for different reasons, are compelled to abandon their homelands and seek better living conditions in strange places where they are not normally welcome. Such a reality poses great challenges to the nations and educational systems that receive these groups and brings intercultural education to the centre of the discussion. The contributors to this book call attention to the importance of providing these refugee populations with a humanistic, stimulating and transformative educational setting in order to let them know that their lives are important and that their histories matter. The chapters in this book were originally published in *Intercultural Education*.

States and Strangers Nevzat Soguk, 1999 Refugees may flee their country, but can they escape the confining, defining logic of all the voices that speak for them? As refugees multiply in our troubled world, more and more scholars, studies, and pundits focus on their plight. Most of these attempts, says Nevzat Soguk, start from a model that shares the assumptions manifested in traditional definitions of citizen, nation, and state. Within this hierarchy, he argues, a refugee has no place to go. *States and Strangers* questions this paradigm, particularly its vision of the territoriality of life. A radical retheorization of the refugee from a Foucauldian perspective, the book views the international refugee regime not as a simple tertiary response, arising from the practice of states regarding refugee problems, but as itself an aspect of the regimentation of

statecraft. The attendant discourse negates the multiplicity of refugee events and experience; by assigning the refugee an identity -- someone without the citizen's grounding within a territorial space -- the state renders him voiceless and deprives him of representation and protection. *States and Strangers* asks how this happens and how it can be avoided. Using historical, archival research and interpretive strategies drawn from a genealogical approach, Soguk considers the role of the refugee in the emergence and maintenance of the sovereign territorial state from the late seventeenth century to contemporary times.

Somali Refugees in the Horn of Africa Sidney R. Waldron, Naima Ali Hasci, 1995

Reluctant Reception Kelsey P. Norman, 2020-11-12 Seeking to understand why host states treat migrants and refugees inclusively, exclusively, or without any direct engagement, Kelsey P. Norman offers this original, comparative analysis of the politics of asylum seeking and migration in the Middle East and North Africa. While current classifications of migrant and refugee engagement in the Global South mistake the absence of formal policy and law for neglect, *Reluctant Reception* proposes the concept of 'strategic indifference', where states proclaim to be indifferent toward migrants and refugees, thereby inviting international organizations and local NGOs to step in and provide services on the state's behalf. Using the cases of Egypt, Morocco and Turkey to develop her theory of 'strategic indifference', Norman demonstrates how, by allowing migrants and refugees to integrate locally into large informal economies, and by allowing organizations to provide basic services, host countries receive international credibility while only exerting minimal state resources.

Problems of Protection Niklaus Steiner, Mark Gibney, Gil Loescher, 2013-10-31 First Published in 2003. Of all the humanitarian impulses in world politics today, one of the most widely recognized is the need to protect refugees. However, as *The Problems of Protection* explores, what on the surface appears to be a simple proposition can quickly become complex and controversial. This complexity results in troubling variation in how we respond to our obligation to protect refugees-- while NATO launches a major military intervention on behalf of Albanians in Kosovo amidst worldwide media attention, the international community's response to Sierra Leonean refugees is slow, inefficient and inadequate. Who qualifies as a refugee in need of protection? Should refugees be returned as soon as possible, or integrated into safer host countries? The contributors to this volume address the often lacking political will among powerful countries and donors, shifting attitudes among affected countries, and the difficulty of rebuilding societies in a world in which the number of refugees will almost certainly continue to increase.

Asylum Seekers and Refugees in the Contemporary World David J. Whittaker, 2006-03-10 Examining a number of case studies, including Palestinian, Afghan and Iraqi refugees, David J. Whittaker's book provides a balanced introduction to this very controversial subject. Fuelled by extensive coverage in the media, the issue of asylum seekers and refugees is one of the most talked about subjects in contemporary politics. Whittaker cuts through the emotive language to give an objective

introduction to the subject. *Asylum Seekers and Refugees in the Contemporary World* discusses the international as well as national implications of the issue, and the book looks in detail at the issue as it has affected Britain and Europe in particular, as well as including material on the UN and its response to the refugee 'problem'. Including a final statement on the British government's 2005 proposals for dealing with refugees, this volume is essential reading for all students of the history of the modern world and is ideal for newcomers to the subject.

Refugees & Queers Carolin Küppers, Bundesstiftung Magnus Hirschfeld, 2019-09-30 Verfolgung aufgrund marginalisierter sexueller Orientierung und geschlechtlicher Identität ist in der BRD ein anerkannter Asylgrund. Mindestens fünf Prozent der derzeit einreisenden Geflüchteten sind lesbisch, schwul, bisexuell, trans*, intergeschlechtlich oder queer - kurz LSBTTIQ-Geflüchtete. Sie sind in der BRD mit spezifischen Formen von Diskriminierungen konfrontiert, wodurch in der LSBTTIQ-Community einerseits ein zunehmendes Bewusstsein über Flucht und Migration und das Bedürfnis, sich politisch und unterstützend einzubringen, entsteht. Andererseits werden mit aktuell verstärkten Migrationsbewegungen auch Sorgen um emanzipatorische Errungenschaften laut, die zum Teil jedoch in rassistische Zuschreibungen abgeleitet. Die Beiträger_innen des Bandes begegnen der Diskussion in differenzierter Weise und nehmen die Herausforderungen, aber auch Chancen und Möglichkeiten jenseits von Verallgemeinerungen und Paternalismus in den Blick. Sie befassen sich mit Forschungsethik, partizipativen Erhebungsmethoden, medialen Repräsentationen, intersektionalen Erfahrungen sowie den konkreten Bedürfnissen von LSBTTIQ-Geflüchteten in Erstunterbringung und Asylverfahren. Der Band bietet somit einen Einblick in verschiedene Sensibilisierungskonzepte und Bildungsansätze zum Thema LSBTTIQ-Geflüchtete.

Asylum-Seeking Journeys in Asia Terence Chun Tat Shum, 2019-02-14 This book looks in detail at the journeys to asylum in Asia which are largely neglected in the media and academic analyses, despite Asia becoming the most essential region for asylum, receiving refugees from both within and outside of the continent. Treating asylum-seeking journeys as a transnational space, the author investigates the actual asylum-seeking process from homelands to either Hong Kong or Bangkok. Today, refugees undertake multiple, long, and life-threatening journeys before arriving in receiving societies; from the moment of arrival in Hong Kong or Bangkok, they face a wide array of challenges. An ethnographic account of how refugees navigate and negotiate their journeys to asylum, this book highlights the social, political, economic, and psychological processes involved in becoming and being a refugee. This encompasses not only the physical movement of refugees, but also their embodiments and emotional encounters. The author offers a micro-level analysis of asylum-seeking journeys - from the aspiration to flee, to migration preparation, to border crossing, to homemaking in prolonged displacement. All of these stages reveal how these journeys create ever-evolving realities with new constellations of options and constraints. By focusing on refugees' understanding, perception of, and interaction with the people, environments, and situations around them, this book illustrates how refugee life plans are shaped and reshaped by the embodied experience of

their journeys, and how their ideas of home have changed over time. Asylum-seeking Journeys in Asia will appeal to scholars and students in the fields of migration and refugee studies, diaspora studies, globalisation, and Asian studies. It will also be of interest to policymakers and humanitarian workers involved in providing services and assistance to the global refugee population.

Outcast Europe Sharif Gemie, Laure Humbert, Fiona Reid, 2012-01-19 An original perspective on the experience of refugees and relief workers.

Boat Refugees in the Mediterranean: Tackle the Root Causes Or Build Fortress Europe? Julian Traublinger, 2013-10 'It is not immigration, which causes problems - it is how it is dealt with politically. It is also not Europe, which is getting attacked - however, the walls of a fortress, are being built at the moment.' Corinna Milborn, 'Gestürmte Festung Europa...' In this study about the boat people in the Mediterranean the emphasis lies on Italy and on the EU policy on refugees in the Mediterranean in cooperation with African states. Regarding the EU policy it deals particularly with the border security agency Frontex that has access to a rapidly growing budget coming from the EU funds. The advocates of the EU politics like to stress that their policies are in the best interest of the migrants themselves, their native countries and their destination countries, which means that a 'triple win situation' can be produced. However, refugee aid and other human rights organizations criticize harshly that refugees are criminalized and that their legitimate rights are not guaranteed. The author depicts state networks on illegal migration and follows the question whether the EU has the wish to grant the refugees their rights.

The Legal Protection of Refugees with Disabilities Mary Crock, Laura Smith-Khan, Ron McCallum, Ben Saul, 2017-08-25 This ground-breaking book focuses on the 'forgotten refugees', detailing people with disabilities who have crossed borders in search of protection from disaster or human conflict. The authors explore the intersection between one of the oldest international human rights treaties, the 1951 Convention relating to the Status of Refugees, with one of the newest: the Convention on the Rights of Persons with Disabilities (CRPD). Drawing on fieldwork in six countries hosting refugees in a variety of contexts - Malaysia, Indonesia, Pakistan, Uganda, Jordan and Turkey - the book examines how the CRPD is (or should) be changing the way that governments and aid agencies engage with and accommodate persons with disabilities in situations of displacement. The timeliness of the book is underscored by the adoption in mid-2016 of the UN Charter on Inclusion of Persons with Disabilities in Humanitarian Action adopted at the World Humanitarian Summit.

Queer Refugees Bernhard Falch, 2020-03-14 Bernhard Falch porträtiert zehn nach Mitteleuropa geflüchtete LGBTI*-Personen in der Heuristik alltäglicher, narrativer Identitätsarbeit. Das in der Forschungsliteratur bislang weitgehend ausgesparte Thema entfaltet er aus einer gender-, queer- und migrationstheoretisch-postkolonialen Perspektive. Dabei eröffnet sich durch die minoritäre Herangehensweise ein höchst differenzierter Blick auf die Verflochtenheit der Erzählungen vom Wandern, Werden und Wollen - den Narrativen von Flucht, Identität und Sexualität. Der Autor bringt die

geflüchteten Akteurinnen und Akteure in ihren Männlichkeiten, Weiblichkeiten bzw. Intergeschlechtlichkeiten zwischen Ressourcenorientierung, Mehrfachdiskriminierung und Beinahe-Vernichtungserlebnissen zur Sprache.
