Greening Industries and Creating Jobs Bela Galgoczi,2012 How the objective of a resource-efficient low carbon economy is to be reached and how the transition is managed are the key issues addressed by this publication. The two main focuses are industrial policy and employment prospects on the road to a green economy that retains its industrial base. Any lasting recovery of the real economy will necessarily take the shape of a more resource-efficient production model. While we argue that only a more ambitious and comprehensive European climate policy framework would have a chance of delivering the broader 2050 climate targets, this does not mean that Europe has to give up its industrial base and its related competences. Several chapters of this book argue that the option of attaining a low-carbon economy through 'deindustrialisation' would prevent Europe from preserving its competitiveness and knowledge base, which are also essential for exploiting the potential of the emerging eco-industry. While decoupling economic growth from resource use is also possible with an industrial base that is more energy-and resource-efficient, this does require a fundamental shift in terms of how the economy is managed and how business decisions are made. Sustainable industrial and structural policies are needed also in order to ensure that this revolutionary process takes place in a socially balanced manner.

*Nove su dieci* Mario Pianta, 2012-05-18T00:00:00+02:00 Ogni ricco ha il reddito di cento poveri. Non è l'Inghilterra di Dickens, è l'Italia di oggi. Redditi e ricchezza si sono concentrati nelle mani di una persona su dieci. Le altre nove quasi tutti noi stanno peggio di dieci anni fa, sono i 'perdenti', divisi in mille modi tra uomini e donne, tra vecchi e giovani, tra Nord e

Sud ma uniti dal declino. Com'è potuto succedere? Togliere ai poveri per dare ai ricchi, rendere il lavoro più debole e il capitale più forte è da trent'anni l'orizzonte del liberismo. Da qui ha origine la crisi attuale, in Europa e in Italia. Ma un'alternativa c'è, ci meritiamo un altro futuro.

Digitisation and Precarisation Vyacheslav Bobkov, Peter Herrmann, 2019-11-04 Currently it is fashionable to talk about digitisation, robotisation, industry 4.0, but also about the gig economy, the Millennials, precarisation and the like. However, the relevant issues are too often taken in isolation, referring to an extrapolation of overcome structures. The present collection aims on moving further by qualifying some aspects, and also by approaching the topic from distinct perspectives in order to arrive at an assessment of emerging changes of the socio-economic formation. **Sbilanciamo l'economia** Giulio Marcon, Mario Pianta, 2013-03-22T19:12:15+01:00 L'economia in recessione, la società in frantumi, la politica che degenera: la crisi iniziata nel 2008 sembra non finire mai. Un italiano su sei vorrebbe un'occupazione ma è senza lavoro, un lavoratore dipendente su quattro è precario, i giovani sono i più colpiti, l'industria ha perso un quarto della produzione, il peso del debito aumenta, gli scandali della finanza continuano. Una via d'uscita c'è. In Italia come in Europa, possiamo 'sbilanciare l'economia': mettere l'azione pubblica prima del mercato, la sostenibilità e il lavoro prima dei profitti, l'uguaglianza al posto del privilegio. Qui trovate il catalogo delle misure da realizzare. Con una politica nuova, fatta di partecipazione e democrazia. **ANNO 2023 IL GOVERNO QUARTA PARTE** ANTONIO GIANGRANDE, Antonio Giangrande, orgoglioso di essere diverso. ODIOSITÀ, IMPOSIZIONE E MENZOGNA. Si nasce senza volerlo. Si muore senza volerlo. Si vive una vita di prese per il culo. Tu esisti se la tv ti considera. La Tv esiste se tu la guardi. I Fatti son fatti oggettivi naturali e rimangono tali. Le Opinioni sono atti soggettivi cangianti. Le opinioni se sono oggetto di discussione ed approfondimento, diventano testimonianze. Ergo: Fatti. Con me le Opinioni cangianti e contrapposte diventano fatti. Con me la Cronaca diventa Storia. Noi siamo quello che altri hanno voluto che diventassimo. Facciamo in modo che diventiamo quello che noi avremmo (rafforzativo di saremmo) voluto diventare. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italiani. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!

**Il benessere equo sostenibile: tra misurazione nazionale e valutazione locale** Pierpaolo Bellucci, 2017-07-10 La statistica serve alla politica? E la politica si serve della statistica? Infine: è possibile un progetto politico che abbia il proprio fondamento sull'analisi statistica? Sono le domande poste nel saggio di Pierpaolo Bellucci, che ha l'obiettivo di offrire una critica ragionata alla misura del Prodotto interno lordo (Pil), spiegando il percorso che in Italia ha portato alla strutturazione del Benessere equo sostenibile (Bes), l'indicatore aggregato coniato dall'Istat ai tempi della presidenza di Enrico Giovannini, diventato dal 2017 un parametro di riferimento per il Documento di economia e finanza (Def) e per la legge di bilancio nazionale. Il saggio offre, oltre ad una descrizione dettagliata della piattaforma del Bes, un'analisi di alcune esperienze territoriali di rilevazione statistica del benessere. In appendice, l'autore prospetta nell'Agenda 2030 dell'Onu il documento capace di recepire le novità del Bes, abbinando alla ricerca statistica anche le potenzialità pedagogiche correlate alle nuove forme di misurazione della qualità di vita.

The Consequences of the Crisis on European Integration and on the Member States Stelio Mangiameli, 2017-02-23 The book examines the economic crisis in the European Union and its consequences for European integration and the member states. Discussing the provisions introduced by the Treaty of Lisbon, from the effects of macroeconomic monitoring to the restraints produced by the Fiscal Compact, it offers an analysis of the European Union's current situation and the effects of the measures adopted to manage the crisis, also making reference to how Europe is perceived by its citizens. Moreover, the chapters offer thoughts on the European integration process, in particular the effects that the policies adopted to tackle the crisis have had on the economic and financial sovereignty of the member states. This detailed examination of the situation of the EU between the Treaty of Lisbon and the Fiscal Compact is characterized by an original multidisciplinary approach that offers an articulate reflection on the criticalities that affect the actions of both European and national institutions.

Il mondo dopo la fine del mondo Autori vari,2020-10-22T00:00:00+02:00 Un virus ha cambiato il mondo: è importante capire come. Intellettuali e interpreti del nostro tempo riflettono sulle trasformazioni in corso. E propongono idee e azioni per affrontare le difficoltà del futuro. La pandemia ha tracciato un grande solco tra un prima e un dopo, uno spartiacque tra un mondo che credevamo di controllare e uno dal profilo molto incerto, che sta facendo saltare molte sicurezze. Nel 'prima' le nostre società facevano mostra di un'organizzazione globale efficiente; oggi manifestano l'altra faccia, quella fragile e insostenibile. Nel 'prima' la democrazia appariva il destino dell'umanità; nel 'dopo' non sembra essere più così scontata. Nel 'prima' lo Stato era considerato un'istituzione quasi residuale, da limitare e contenere; nel 'dopo' dovremo considerare la sua forza necessaria. Nel 'prima' in tanti pensavano che la distruzione dell'ambiente avrebbe avuto effetti sulle nostre vite tra molto tempo; nel 'dopo' è divenuto chiaro che non possiamo essere sani su una terra malata. Il mondo che verrà ci chiama tutti a riflettere su ciò che è stato, sulle cause profonde di quanto stiamo vivendo e sulle sue conseguenze immediate - economiche, politiche, sociali - e a porci quesiti nuovi sul futuro che ci aspetta e che dovremo ricostruire.

**Community Engagement in Post-Disaster Recovery** Graham Marsh,Iftekhhar Ahmed,Martin Mulligan,Jenny Donovan,Steve Barton,2017-09-11 Community Engagement in Post-Disaster Recovery reflects a wide array of practical experiences in working with disaster-affected communities internationally. It demonstrates that widely held assumptions about the benefits of community consultation and engagement in disaster recovery work need to be examined more critically because poorly conceived and hastily implemented community engagement strategies have sometimes exacerbated divisions within affected communities and/or resulted in ineffective use of aid funding. It is equally demonstrated that well-crafted, creative and thoughtful programming is possible. The wide collection of case studies of practical experience from around the world is presented to help establish ways of working with communities experiencing great challenges. The book offers practical suggestions on how to give more substance to the rhetoric of community consultation and engagement in these areas of work. It suggests the need to work with a dynamic understanding of community formation that is particularly relevant when people experience unforeseen challenges and traumatic experiences. This title interrogates the concept of community through an extensive review of the literature and explores the ways of working with communities in transition and particularly in their recovery phases through an array of case studies in a range of socioeconomic and political contexts. Focused on the concept of community in post-disaster recovery solutions—an aspect which has received little critical interrogation in the literature—this book will be a valuable resource to students and scholars in disaster management as well as humanitarian agencies.

**Nulla è come appare** Mario Morroni,2016-10-06 Nulla è come appare è la conclusione che emerge dai dialoghi fra tre economisti e una studentessa. La recente prolungata grande recessione spiegata in maniera chiara in un confronto sui temi

dell'austerità, dello stato sociale, dell'euro, del rapporto stato-mercato, del degrado ambientale e delle politiche industriali. L'austerità è davvero espansiva come abbiamo sentito ripetere mille volte? La crisi è dovuta a uno stato sociale troppo generoso che alimenta il debito pubblico? Quali sono gli effetti dell'aumento delle diseguaglianze nella distribuzione dei redditi? La sostenibilità economica è compatibile con la sostenibilità ambientale? Quali saranno i possibili sbocchi della crisi dell'Eurozona? Quale ruolo devono svolgere le politiche industriali per far fronte alla globalizzazione? Un neoliberalista, una keynesiana e un ambientalista rispondono a queste, e a molte altre domande, smascherando numerose false credenze, luoghi comuni e miti diffusi in gran parte dell'opinione pubblica. Diradare questa cortina fumogena è indispensabile perché i cittadini possano capire, intervenire e partecipare ai processi di scelta delle politiche economiche, trovando soluzioni efficaci ed eque. Mario Morroni è professore di Economia politica presso l'Università di Pisa e life member del Clare Hall College of Advanced Studies dell'Università di Cambridge. Si è occupato prevalentemente di economia dell'impresa e dei processi produttivi, di economia del lavoro e della conoscenza. Ha pubblicato per la Cambridge University Press: *Production Process and Technical Change* (Premio Myrdal, 1992); e *Knowledge, Scale and Transactions in the Theory of the Firm*. Per Elgar: *Corporate Governance, Organization and the Firm: Co-operation and Outsourcing in the Global Economy*. Per la LUISS University Press: *L'impresa competitiva. Conoscenza e sviluppo in condizioni di incertezza*. Recentemente l'Università di Pisa gli ha conferito l'Ordine del Cherubino.

**Siamo in guerra** AA. VV., 2021-10-14T00:00:00+02:00 Non si tratta di un libro sulla pandemia ma di una proposta analitica della realtà allo scopo di interrompere il fluire di un discorso assolutizzato. L'alternativa a un discorso non egemonico e declinato al maschile si cela dietro la possibilità di smascherare le scelte retoriche, politiche, culturali attuate in ragione di un sistema di genere che ribadisce nella contingenza dell'emergenza sanitaria la sua ineluttabilità. La guerra è una possibilità, non l'unica via possibile e tantomeno non necessariamente la più appropriata. Ciò che l'emergenza sanitaria da Covid-19 ha posto definitivamente in evidenza è l'affermazione oppositiva di guerra e cura, di warfare e welfare a giustificazione dell'esistente, del regime di genere e potere. Un intreccio tanto sinergico quanto riproducibile nella misura in cui si pone come immune da qualsiasi confronto dialettico. L'analisi a monte e a valle di tale struttura sociale e di potere è al centro dei contributi presenti in questo volume.

**Explaining Inequality** Maurizio Franzini, Mario Pianta, 2015-12-14 Inequalities in incomes and wealth have increased in advanced countries, making our economies less dynamic, our societies more unjust and our political processes less democratic. As a result, reducing inequalities is now a major economic, social and political challenge. This book provides a concise yet comprehensive overview of the economics of inequality. Until recently economic inequality has been the object of limited research efforts, attracting only modest attention in the political arena; despite important advances in the knowledge of its dimensions, a convincing understanding of the mechanisms at its roots is still lacking. This book summarizes the topic

and provides an interpretation of the mechanisms responsible for increased disparities. Building on this analysis the book argues for an integrated set of policies addressing the roots of inequalities in incomes and wealth. Explaining Inequality will be of interest to students, researchers and practitioners concerned with inequality, economic and public policy and political economy.

*Misurare il benessere* Alessandro Rinaldi, 2014-04-10T00:00:00+02:00 Da decenni si parla della comune pratica di misurare il benessere di una società, e il progresso in generale, con il Pil, ma solo negli ultimi anni il dibattito è uscito dal confine scientifico-accademico per entrare in modo rilevante nel dibattito politico. In chiusura della conferenza mondiale intitolata «Beyond Gdp», tenutasi a Bruxelles nel novembre 2007, il presidente della Commissione europea José Maria Barroso ha affermato che «non è possibile affrontare le sfide del futuro con gli strumenti del passato: è ormai tempo di andare oltre il Pil». È dunque possibile sostituire il Pil con una misura alternativa più direttamente focalizzata sul benessere? Ma cosa significa esattamente misurare il benessere? E quali sono state le principali iniziative a livello nazionale e internazionale che coinvolgono la «statistica ufficiale»? Quali sono le difficoltà che si incontrano quando si esce dalla metrica monetaria, tipica del sistema dei conti nazionali, e si cerca invece di ottenere una misura di sintesi dei diversi aspetti che contribuiscono al benessere di una collettività? Possiamo misurare il benessere di una società a partire dalla valutazione che i cittadini danno della propria felicità o della propria soddisfazione di vita? Questo volume cerca di rispondere a tali domande affrontando una serie di criticità, di natura logico-concettuale e di natura statistica, che occorre esaminare e risolvere per andare «oltre il Pil».
