**Les systèmes de mise en œuvre de la protection sociale** Kathy Lindert, Tina George Karippacheril, Inés Rodríguez Caillava, Kenichi Nishikawa Chávez, 2023-01-13 Le Manuel de référence sur les systèmes de mise en œuvre de la protection sociale synthétise les expériences et les leçons apprises des systèmes de mise en œuvre de la protection sociale à travers le monde. Il adopte un concept de la protection sociale large, qui couvre différentes populations telles que les familles pauvres ou à faible revenu, les chômeurs, les personnes handicapées et les personnes confrontées à des risques sociaux. Il analyse différents types d'interventions des gouvernements pour la protection des individus, des familles ou des ménages, au travers de programmes spécifiques allant de programmes ciblant la pauvreté, aux prestations et services en faveur de l'emploi, et aux prestations et services au bénéfice des personnes handicapées et d'autres services sociaux. Ce Manuel de référence cherche à répondre à différentes questions pratiques soulevées au cours de la mise en œuvre, en particulier : • Comment les pays mettent-ils en œuvre les prestations et services de protection sociale ? • Comment le font-ils avec l'efficacité et l'efficacité voulues ? • Comment assurent-ils une inclusion dynamique, en particulier celle des personnes les plus vulnérables et les plus défavorisées ? • Comment favorisent-ils une meilleure coordination et intégration non seulement entre les différents programmes de protection sociale mais aussi avec les programmes mis en œuvre par d'autres acteurs gouvernementaux ? • Comment peuvent-ils répondre aux besoins des populations ciblées et assurer une meilleure expérience client ? Le cadre de mise en œuvre des systèmes de protection sociale précise les principaux éléments de cet environnement opérationnel. Il se décline en différentes phases qui s'échelonnent tout au long de la chaîne de mise en œuvre. Ces phases sont les lieux d'interactions entre différents acteurs, parmi lesquels des personnes et des institutions. La communication, les systèmes d'information et la technologie facilitent ces interactions. Ce cadre peut s'appliquer à la mise en œuvre d'un ou plusieurs programmes ainsi qu'à la mise en place d'une protection sociale adaptative. Le Manuel de référence des systèmes de mise en œuvre de la protection sociale s'articule autour de huit principes clés qui constituent le code de conduite de la

mise en œuvre : 1. Les systèmes de mise en œuvre ne suivent pas un modèle unique, mais tous les modèles partagent des points communs qui forment le cœur du cadre de mise en œuvre des systèmes de protection sociale. 2. La qualité de la mise en œuvre a une grande importance et la faiblesse de l'un des éléments constitutifs de la chaîne de mise en œuvre affectera négativement l'ensemble de celle-ci et réduira les impacts du ou des programmes qui lui sont associés. 3. Les systèmes de mise en œuvre évoluent dans le temps, de manière non linéaire et leur point de départ est important. 4. Dès le début de la mise en œuvre, des efforts devront être déployés pour « garder les choses simples » et pour « bien faire les choses simples ». 5. Le premier segment de la chaîne, à savoir l'interface entre les futurs bénéficiaires et l'administration, est souvent son maillon le plus faible. Son amélioration peut nécessiter des changements systémiques, mais ceux-ci contribueront considérablement à l'efficacité globale et atténueront les risques d'échec de cette interface. 6. Les programmes de protection sociale ne fonctionnent pas dans le vide et, par conséquent, leur système de mise en œuvre ne doit pas être développé en vase clos. Des opportunités de synergies entre institutions et systèmes d'information existent et les saisir peut améliorer les résultats des programmes. 7. Au-delà de la protection sociale, ces systèmes de mise en œuvre peuvent aussi améliorer la capacité des gouvernements à fournir d'autres prestations ou services, comme les subventions à l'assurance maladie, les bourses d'études, les tarifs sociaux de l'énergie, les allocations logement et l'accès aux services juridiques. 8. L'inclusion et la coordination sont des défis omniprésents et permanents. Pour les relever, il faut donc améliorer de façon continue les systèmes de mise en œuvre à travers une approche dynamique, intégrée et centrée sur la personne.

**Concilier flexibilité du travail et cohésion sociale** Council of Europe, 2005-01-01 Ce volume bilingue pose la question des effets des réformes institutionnelles et organisationnelles du marché du travail sur la cohésion sociale. Dans cet ouvrage, le Conseil de l'Europe recherche la conciliation entre ce qui est inévitablement imposé par la mondialisation, c'est-à-dire la réorganisation des paramètres de la concurrence, et la cohésion sociale. La conciliation doit prendre en compte une valeur politique essentielle, la sécurité démocratique, qui se trouve d'abord dans l'emploi : le coût social et sociétal élevé de la précarité le confirme. Néanmoins, sécurité ne signifie pas rigidité et doit se traduire plutôt par la reconnaissance sociale d'un droit à la transition qui appelle à la coresponsabilité de tous les acteurs sociaux. La conciliation est plus qu'un devoir politique : elle est le prix de la stabilité qui assure la durabilité sociale.

The Road to Social Europe Jean-Claude Barbier,2012-10-12 In the wake of the Greek and Irish crises, and at a moment when solidarity between states is hotly debated on a daily basis at EU level, it is important to understand how 'solidarity' can happen at all. The Road to Social Europe reviews the development of political cultural processes since the nineteenth century, showing how social protection and social justice have gradually become interwoven with systems of social protection, or welfare states. Grounded on extensive empirical research conducted in many EU countries and in the European Commission's administration over twenty years, the book provides a cultural analysis of welfare systems in Europe. It also presents an original enquiry into the importance of languages for politics in Europe, for the politics of welfare, and for sociological research. It shows how sociological and ethnographic analysis can help in understanding the current and future challenges of European integration that rely unilaterally on functional economics. This in-depth sociological analysis of European diversity will appeal to a wide audience of students and scholars of sociology, political science, political economy and European studies.

*Attitudes Towards Social Limits, Undersocialized Behavior, and Self-presentation in Young People* Hans Grietens,1999 In this book a study is presented on the attitudes of 12- to 20-year-old youngsters towards social limits, imposed by their social and educational environment by means of laws, rules, values, norms or expectations. The study is part of a research programme on the course and treatment of juvenile delinquency, which started at the Rijksuniversiteit Groningen during the eighties. Young people's attitudes towards social limits are assessed by the 'Standard Reaction Instrument'. A critical incident technique is used to elicit young people's knowledge, behavioral intentions and motivations in ten hypothetical situations including social limits. The instrument was administered from youngsters in secondary schools and from same-aged detained youngsters who have committed at least one criminal offence which has been recorded by police or judicial authorities. The responses of both groups are compared in order to test the validity of the instrument. Further, the relationship is tested between the youngsters' attitudes towards social limits and self-reported delinquent and aggressive behavior. Finally, a comparison is made between the responses of Flemish and Dutch youngsters. Starting point of the empirical study is a social psychological view on juvenile delinquency. In this view, which is based on the self-presentation paradigm developed by the sociologist Ervin Goffman and the early symbolic interactionists, juvenile delinquency is considered as a means of social communication towards significant others (parents, teachers, peers, society). Special attention is paid to the development, maintenance and management of social reputation by the juvenile delinquent.
