Music and Technoculture René T. A. Lysloff, Leslie C. Gay, Jr., 2013-08-15 Moving from web to field, from Victorian parlor to 21st-century mall, the 15 essays gathered here yield new insights regarding the intersection of local culture, musical creativity and technological possibilities. Inspired by the concept of technoculture, the authors locate technology squarely in the middle of expressive culture: they are concerned with how technology culturally informs and infuses aspects of everyday life and musical experience, and they argue that this merger does not necessarily result in a cultural grayout, but instead often produces exciting new possibilities. In this collection, we find evidence of musical practices and ways of knowing music that are informed or even significantly transformed by new technologies, yet remain profoundly local in style and meaning. CONTRIBUTORS: Leslie C. Gay, Jr., Kai Fikentscher, Tong Soon Lee, René T. A. Lysloff, Matthew Malsky, Charity Marsh, Marc Perlman, Thomas Porcello, Andrew Ross, David Sanjek, Jonathan Sterne, Janet L. Sturman, Timothy D. Taylor, Paul Théberge, Melissa West, Deborah Wong. Ebook Edition Note: Four of the 26 illustrations, and the cover illustration, have been redacted.

Techno Globalization Pandemic LIL INTERNET, Caroline Busta, 2023-04-21 Bart van der Heide plädiert mit dieser Publikation dafür, dass Techno-Musik nicht nur als ekstatisches sowie kollektives Erlebnis fungieren, sondern auch als

Plattform für gesellschaftskritische Diskurse dienen kann. Welche kulturellen Phänomene und sozialen Veränderungen lassen sich anhand der Techno-Szene ablesen? Wie lassen sich Identitäten erleben bzw. wie greifen diese ineinander? Die Autor*innen dieser Anthologie untersuchen Techno-Musik und ihre Szene anhand aktueller gesellschaftlicher Fragestellungen. Sie arbeiten dabei Tools und Diskursstrategien heraus, wie subkulturelle Plattformen politisch genutzt werden können. Die Publikation TECHNO ist eine Art Call-to-Action zur Infragestellung des Status quo und zum Streben nach sozialer Veränderung. BART VAN DER HEIDE (*1974) ist seit Juni 2020 Direktor des Museion in Bozen. Zuvor war er Leiter des Kunstvereins München und Chefkurator und Head of Research am Stedelijk Museum in Amsterdam.

Brazil's Economic And Political Future Julian M. Chacel,2019-03-05 The 1985 elections in Brazil returned South America's largest country to democratic rule after two decades of military government. But the Sarney administration faces substantial economic and political challenges: over a 250 percent annual inflation rate, a foreign debt of more than \$115 billion, and over a 20 percent unemployment rate. Handbook of Research on Designing Sustainable Supply Chains to Achieve a Circular Economy Ramakrishna, Yanamandra,Wahab, Siti Norida,2023-04-17 Securing a sustainable supply chain is crucial for business and the future of humanity. Intending to lower waste and carbon emissions, businesses are investing more money in sustainability efforts. However, sustainability measures that might save costs, improve forecasting, and optimize business operations are frequently disregarded, especially during the post-pandemic era. The Handbook of Research on Designing Sustainable Supply Chains to Achieve a Circular Economy analyzes various approaches and strategies for developing sustainable supply chain capabilities to achieve circular economies; builds and develops models, frameworks, and theoretical concepts by focusing on the role of a sustainable supply chain leading to a circular economy; and provides a platform where new concepts and plans for managing sustainable supply chains in the post-pandemic era with the aid of Industry 4.0 as enablers are discussed. Covering key topics such as tourism, healthcare, transportation, and governance, this major reference work is ideal for industry professionals, government officials, business owners, managers, entrepreneurs, policymakers, scholars, researchers, academicians, instructors, and students.

Handbook of Research on Transforming Government, Nonprofits, and Healthcare in a Post-Pandemic Era

Howard, Joanne E.,2022-10-28 The COVID-19 pandemic has offered the world and its governments many challenges in how they will conduct their responsibilities and best assist their citizens. The COVID-19 pandemic not only brought a global health emergency, but also helped to shed light on systemic inequalities, caused conspiracy and distrust within the masses, and exhausted global health services. The government and nonprofit sector, including healthcare, education, and social service organizations, will have to utilize the best practices, greater collaboration, and joint venturing to survive post pandemic. The Handbook of Research on Transforming Government, Nonprofits, and Healthcare in a Post-Pandemic Era serves as a resource for those in education, healthcare, government, social service, and other nonprofit organizations who wish to advance their missions in an age of uncertainty. It further discusses how democracy can continue to advance the world, its countries, and the way that we see one another. Covering topics such as BIPOC academic leaders, economic development, and health science education, this premier reference source is an essential resource for government officials, public administration, community leaders, advocacy networks, social service organizations, hospital administrators, health officials, medical professionals, students and faculty of higher education, researchers, and academicians.

Em defesa da escola Jan Masschelein, Maarten Simons, 2017-02-14 Nós nos recusamos firmemente a endossar a condenação da escola. Ao contrário, defendemos sua absolvição. Acreditamos que é exatamente hoje - em uma época em que muitos condenam a escola como desajeitada à realidade moderna e outros até mesmo parecem querer abandoná-la completamente - que o que a escola é e o que ela faz se torna evidente. Também esperamos deixar claro que muitas alegações contra a escola são motivadas por um antigo medo e até mesmo ódio contra uma de suas características radicais, porém essencial: a de que a escola oferece tempo livre e transforma o conhecimento e as habilidades em bens comuns e, portanto, tem o potencial para dar a todos, independentemente de antecedentes, talento natural ou aptidão, o tempo e o espaço para sair de seu ambiente conhecido, para se superar e renovar (e então mudar, de forma imprevisível) o mundo.

Considerations of Territorial Planning, Space, and Economic Activity in the Global Economy Arias Gomez, Helmuth Yesid, Antoñová, Gabriela, 2023-01-23 Economic activity is embedded in specific surroundings, and ultimately, these conditions determine productivity and efficiency. However, the use of space in the formal models has been troublesome, but in practical activity, the territory is a crucial determinant when the agents make economic decisions. The interaction between economic activity, territory, and space has become a definitive bedrock in theories throughout the history of thought, such as location theory, urban economics, and new economic geography. *Considerations of Territorial Planning, Space, and*

Economic Activity in the Global Economy analyzes the interaction between territory, economic activity, and human development, sharing interesting histories and deploying an extensive set of methodologies, places, and points of view. Covering key topics such as territorial planning, urban economics, and natural resources, this premier reference source is ideal for economists, policymakers, government officials, industry professionals, researchers, academicians, practitioners, scholars, instructors, and students.
