Contemporary Politics, Communication, and the Impact on Democracy Palau-Sampio, Dolors, López García, Guillermo, Iannelli, Laura, 2021-11-12 The loss of credibility of traditional media and democratic institutions points to the important challenges for the democratic system. Social networks have allowed new political and social actors to disseminate their messages, which has raised diversity. However, it has also lowered the standards for the circulation of messages and has increased disinformation and hate speech. *Contemporary Politics, Communication, and the Impact on Democracy* addresses communication and politics and the impact on democracy. This book offers a valuable contribution regarding the challenges and threats faced by traditional and stable democracies while disinformation, polarization, and populism have a main role in the present hybrid communicative scenario. Covering topics such as digital authoritarianism, emotional and rational frames, and political conflict on social media, this is an essential resource for political scientists, communication specialists, analysts, policymakers, politicians, critical media scholars, graduate students, professors, researchers, and academicians.

Politics and Policies of Rural Authenticity Pavel Pospěch, Eirik Magnus Fuglestad, Elisabete Figueiredo, 2021-09-30 This book explores the notion of rurality and how it is used and produced in various contexts, including within populist politics which derives their legitimacy from the rural-urban divide. The gap between the 'common people' and the 'elites' is widening again as images of rurality are promoted as morally pure, unalienated and opposed to the cultural and economic globalization. This book examines how using certain images and projections of rurality produces 'rural authenticity', a concept propagated by various groups of people such as regional food producers, filmmakers, policymakers, and lobbyists. It seeks to answer questions such as: What is the rurality that these groups of people refer to? How is it produced? What are the purposes that it serves? Research in this book addresses these questions from the areas of both politics and policies of the 'authentic rural'. The 'politics' refers to polarizations including politicians, social movements, and political events which accentuate the rural-urban divide and brings it back to the core of the societal conflict, while the 'policies' focus on rural tourism, heritage industry, popular art and other areas where rurality is constantly produced and consumed. With international case studies from leading scholars in the field of rural studies, the book will appeal to geographers, sociologists, politicians, as well as those interested in the re-emergence of the rural-urban divide in politics and media. The Natural Border Timothy Raeymaekers, 2024-02-15 The Natural Border tells the recent history of Mediterranean rural capitalism from the perspective of marginalized Black African farm workers. Timothy Raeymaekers shows how in the context of global supply chains and repressive border regimes, agrarian production and reproduction are based on fundamental racial hierarchies. Taking the example of the tomato—a typical 'Made in Italy' commodity—Raeymaekers asks how political boundaries are drawn around the land and the labor needed for its production, what technologies of exclusion and inclusion enable capitalist operations to take place in the Mediterranean agrarian frontier, and which practices structure the allocation, use and commodification of land and labor across the tomato chain. While the mobile infrastructures that mobilize, channel, commodify and segregate labor play a central role in the 'naturalization' of racial segregation, they are also terrains of contestation and power—and thus, as The Natural Border demonstrates, reflect the tense socio-ecological transformation the Mediterranean border space is going through today.

Work, Family and Integration Meenakshi Thapan, 2023-10-31 This book examines the migration of Indians (mainly from the Punjab region in north India) to parts of northern Italy, especially the Emilia-Romagna region. It analyzes the mobility patterns of migrants who occupy a niche in the labour market and unpacks the forward and backward linkages that migrants imagine, experience, and endure, not only in the context of the materiality of livelihood opportunities and income generation in Italy but also through affect, as potential immigrants and then as migrants, in a territorial and imagined space. The book unravels uncertainties and anxieties about identity among youth, women, and men through in-depth interviews. It also examines a reassertion of cultural tropes that portray identity in marked and vexed ways. The book brings a mutual recognition and acceptance of diversity, or its lack, in a European nation. It stands out for its nuanced ethnographic detail, its attention to the voices of youth and women, and exploration of their relationship with the host community. The book, therefore, is a must-read for everybody interested in a better understanding of migration and the culture of migration in different countries.

Constructional and Cognitive Explorations of Contrastive Linguistics Annalisa Baicchi,

Collective Leadership and Divided Power in West European Parties Donatella Campus, Niko Switek, Marco Valbruzzi, 2021-06-12 Political science research, especially in recent times, has recognized the centrality of party and executive leaders and their individual characteristics. The attention has been mostly directed towards individual leadership. However, one-chief leadership is not the only existing model of party governance, and some recent developments seem to have put forms of collective leadership into the spotlight. Two parties that have recently achieved remarkable electoral results, the Italian Five Star Movement and the German Alliance 90/The Greens, can be considered examples of alternative

models of leadership. This book calls for a deep and systematic analysis of cases of parties in which powers and responsibilities appear to be shared among different individuals rather than being concentrated in the hands of just one leader. Drawing on the literature of organization and management theory, the book fills a gap in the literature of political science by developing a theoretical framework that may provide researchers with the tools for proceeding with the analysis of cases of party collective leadership. To illustrate their approach, the authors have selected three cases – the German Greens, Alternative for Germany, and the Five Star Movement in Italy – that show significant variation across types of collective leadership. The outcome of the empirical analysis contributes to a better knowledge of the nature and functioning of party leadership as well as raises questions that could be further addressed in future research.

A Tuscan Treasury Paul Salsini, 2021-07-16 FROM WWI TO COVID, from Florence to the tiny villages of Tuscany, stories of love, courage and adventure from award-winning author Paul Salsini. FROM A TUSCAN TREASURY So we became spies. When Maria and I would enter a village we would find out if there were any Germans or Fascists there so the partisans would know if it was safe to enter. Sometimes we'd be stopped, but mostly we just looked like simple Italian women with scarves on our heads and prayer books in our hands. We always told them we were going to church to pray for the end of the war. From The Staffetta Anna, can I tell you something? After I left you on the doorstep that night, I couldn't stop thinking about you. I couldn't sleep nights. I went on long runs, but that didn't help. I was supposed to referee a football game Saturday morning and I made terrible calls. I couldn't concentrate hearing confessions Saturday afternoon. I barely made it through Mass on Sunday. Anna, I couldn't wait to see you again. From Anna and the Television Priest

Italy's Contemporary Politics James L. Newell, 2020-12-17 In early 2020 Italy was a country whose political parties stood as significant obstacles in the way of resolution of its social and economic problems. The purpose of this book is to help the reader to understand how Italian politics had reached this point. It does this by tracing the most significant processes of political, economic and social change to have marked Italian history in recent years back to their roots in the Italian political system as it emerged at the end of the Second World War. Starting with the restoration of democracy, the volume discusses the post-war party system and how it came under increasing pressure from the mid-1970s. From there it discusses the political upheavals of the early 1990s and the transformations they led to, the rise and fall of Silvio Berlusconi, and the watershed election of 2018. In short, the book provides a narrative. Narratives tell us who we are, where we have come from, where we are now and where we are going. Without them, we cannot make sense of the world. At the end of this narrative, if it has done its job properly, Italian politics and current affairs should 'make sense' if before they seemed confusing.

Coercive Geographies, 2020-12-15 Coercive Geographies examines historical and contemporary forms of coercion and constraint exercised by a wide range of actors in diverse settings. It links the question of spatial confines to that of labor.

Education, Equality and Justice in the New Normal Inny Accioly, Donaldo Macedo, 2021-09-09 Written by leading scholars

and activists from Brazil, Chile, Greece, Italy, Malta, the UK, and the USA, this book shows how vitally important education is in addressing the complex social and political problems which have been exacerbated by the coronavirus pandemic. The growing protest and demonstrations worldwide, including the Black Lives Matter and environmental movements, have served as platforms to unmask the embedded racism, sexism, classism, and discrimination which are rooted in neo-colonial forms of exploitation. People are recognizing the intensification of the genocide of black youth, indigenous peoples, peasants and traditional communities in the global ghettos. The rising level of conscientization reached through these protests and demonstrations makes it clear that critical educators must refuse the return to neoliberal “normality” after pandemic. The chapters cover the tensions and contradictions that fuel debates in education concerning social distancing, collective illness, increasing social and economic inequality and privatization reforms. The contributors argue for social and environmental justice, the importance of educators and teacher unions, the role of environmental education, the need to guarantee cultural diversity and the strengthening of ancestral cultures. The book includes chapters by Noam Chomsky, Amy Goodman and Henry A. Giroux and a Foreword by Antonia Darder.

Social Policy Review 33 Pomati, Marco, Jolly, Andy, 2021-07-30 The global impact of the COVID-19 pandemic has made the annual Social Policy Review even more critical than before. This comprehensive volume addresses critical debates throughout the international social policy field over the past year with a key focus on responses to COVID-19 and implications for social policy. Expert contributors address important issues including foodbanks, caring for older family members, lockdowns around the globe, gender, technology and migration during a pandemic. Published in association with the Social Policy Association, this annual review is fundamental reading for students and academics in social policy, social welfare and related disciplines.

The Crisis-Mobility Nexus Leandros Fischer, 2024-02-09 Situated at the intersections of anthropology, migration, citizenship, and social movement studies, this volume theorises a crisis-mobility nexus by focusing on empirical case studies. These concern migration struggles; the entanglements of crisis, social mobility, and citizenship; as well as the impact of COVID-19 (im)mobility on social movements. By highlighting examples from these streams, the book illuminates entanglements between them, while emphasising the role of solidarity as well as de-solidarisation in creating, shaping, or resisting various regimes of mobility.

Where Do the Parties Stand? Stella Gianfreda, 2021-07-29 This book analyses the politicization of immigration and the European Union in Italy, the UK, and the European Parliament (EP) from 2015 to 2020. The book uses the case studies of Italy, the UK, and the EP to study party positioning specifically towards immigration and the European Union, to understand to what extent mainstream-left, mainstream-right and populist parties adopt different framing strategies to compete on the new cultural dimension created by globalization. The book draws on saliency theory, issue ownership theory, and yield theory to investigate the multidimensional nature of political competition, and the relevance of institutional settings in determining party framing strategies. Bridging two fields that typically do not interact—party politics and migration studies—this book fills gaps in the academic literature and as such will be appropriate for students and researchers interested in party politics, European politics, immigration politics, populism, and text analysis.

ANNO 2023 L'AMMINISTRAZIONE QUARTA PARTE ANTONIO GIANGRANDE, Antonio Giangrande, orgoglioso di essere diverso. ODIOSITÀ, IMPOSIZIONE E MENTIRE. Nella vita di ognuno due cose sono certe: la vita e la morte. Si nasce senza volerlo. Si muore senza volerlo. Si vive una vita di prese per il culo. Gli animali, da sé, per indole emulano ed imitano, imparando atteggiamenti e comportamenti dei propri simili. Senonché sono proprio i simili, a difesa del gruppo, a inculcare nella mente altrui il principio di omologazione e conformazione. Noi siamo quello che altri hanno voluto che diventassimo. Facciamo in modo che diventiamo quello che noi avremmo (rafforzativo di saremmo) voluto diventare. Tu esisti se la tv ti considera. I Fatti son fatti oggettivi naturali e rimangono tali. Chi conosce i fatti si chiama esperto ed esprime pareri. Chi non conosce i fatti esprime opinioni e si chiama opinionista. Le opinioni sono atti soggettivi cangianti. Le opinioni se sono oggetto di discussione ed approfondimento, in TV diventano testimonianze. Ergo: Fatti. Con me i pareri e le opinioni cangianti, contrapposte e in contraddittorio, diventano fatti. Con me i fatti, e la Cronaca che li produce, diventano Storia. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italiani. ANNO 2019 IL GOVERNO PRIMA PARTE ANTONIO GIANGRANDE, Noi siamo quello che altri hanno voluto che diventassimo. Facciamo in modo che diventiamo quello che noi avremmo (rafforzativo di saremmo) voluto diventare. Oggi le persone si stimano e si rispettano in base al loro grado di utilità materiale da rendere agli altri e non, invece, al loro valore intrinseco ed estrinseco intellettuale. Per questo gli inutili sono emarginati o ignorati.

TARANTO Antonio Giangrande, 2013-07-15 E' comodo definirsi scrittori da parte di chi non ha arte né parte. I letterati, che non siano poeti, cioè scrittori stringati, si dividono in narratori e saggisti. E' facile scrivere "C'era una volta..." e parlare di cazzate con nomi di fantasia. In questo modo il successo è assicurato e non hai rompicabele che si sentono diffamati e che ti querelano e che, spesso, sono gli stessi che ti condannano. Meno facile è essere saggisti e scrivere "C'è adesso..." e parlare di cose reali con nomi e cognomi. Impossibile poi è essere saggisti e scrivere delle malefatte dei magistrati e del Potere in generale, che per logica ti perseguitano per farti cessare di scrivere. Devastante è farlo senza essere di sinistra. Quando si parla di veri scrittori ci si ricordi di Dante Alighieri e della fine che fece il primo saggista mondiale. Le vittime, vere o

presunte, di soprusi, parlano solo di loro, inascoltati, pretendendo aiuto. Io da vittima non racconto di me e delle mie traversie. Ascoltato e seguito, parlo degli altri, vittime o carnefici, che l'aiuto cercato non lo concederanno mai. "Chi non conosce la verità è uno sciocco, ma chi, conoscendola, la chiama bugia, è un delinquente". Aforisma di Bertolt Brecht. Bene. Tante verità soggettive e tante omertà son tasselli che la mente corrompono. Io le cerco, le filtro e nei miei libri compongo il puzzle, svelando l'immagine che dimostra la verità oggettiva censurata da interessi economici ed ideologie vetuste e criminali. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italiani. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi.
