**The Political Economy of Cooperatives and Socialism** Bruno Jossa,2019-10-10 This book argues that capitalism cannot be said to be truly democratic and that a system of producer cooperatives, or democratically managed enterprises, is needed to give rise to a new mode of production which is genuinely socialist and fully consistent with the ultimate rationale underlying Marx's theoretical approach. The proposition that firms should be run by the workers on their own, was endorsed by John Dewey, the greatest social thinker of the twentieth century, but is also shared by Marxists such as Anton Pannekoek, Karl Korsch, Angelo Tasca, Antonio Gramsci and Richard Wolff. This book explores the history of this argument taking in concepts from economic and political thought including historical materialism, cooperation, utopianism and economic democracy. The book will be of significant interest to scholars and students of political economy, Marxism, socialism, history of economic thought and political theory.

Great Historians of the Modern Age Lucian Boia,International Committee of Historical Sciences. Commission of the History of Historiography,1991-06-25 This book, an international collaboration sponsored by the Commission on the History of Historiography, is devoted to historians of the 19th and 20th centuries. Offering dictionary entries for historians from more than 35 countries, the editors have sought to illustrate specific domains of history and focus on those scholars who were important to particular cultures and histories. Consultants from each area suggested historians for inclusion, thus providing a unique national perspective. The volume begins with an explanatory preface and a detailed introduction to the time period covered. The entries are then arranged by national or geographical areas, and alphabetized within each regional section. As a general rule, the editors have excluded living historians from the dictionary. Cross references are indicated within the text for those individuals who are also the subjects of separate entries, and the editors have provided both an

index of historians and a general subject index. English translations of books and articles in non-Western languages are also cited. This book will be an important reference source for studies in world history and historiography, as well as a significant addition to public, college, and university libraries.

**Classe e partito** Alessandro Visalli,2023-06-09T00:00:00+02:00 Partendo dalle feconde intuizioni di Walter Benjamin e da una critica del capitalismo come forma religiosa, idolatria del mercato e sentiero storico, Alessandro Visalli compie un esercizio di riattivazione e rilettura delle tracce storiche, nelle quali potrebbe essere ancorata una coscienza sociale diversa. Nel volume, il “mondo” è letto attraverso la triplice chiave della sua riproduzione, dell’opportunità e necessità di ripensarlo e della “filosofia della prassi” per agirvi. I soggetti dei quali “suscitare e organizzare la volontà collettiva” non sono già dati, ma non sono neppure prodotti (unicamente) dai discorsi politici. Piuttosto, essi si addensano entro e attorno a faglie attive, quelle delle contraddizioni e dei conflitti potenziali: è necessario quindi un progetto tra dipendenza, riproduzione e distribuzione. Secondo Visalli, la condizione di possibilità per una diversa coscienza sociale è nella revoca del “compromesso keynesiano” e quindi nell’incipiente “revoca della revoca”. In altre parole, occorre superare la sconfitta storica subita dal movimento dei lavoratori senza ricadere in vecchie forme dogmatiche, sapendo che è l’essere sociale che determina la coscienza. Infine, l’autore invita a costruire la classe nella lotta, praticando il duplice lavoro di acquisizione di autoconsapevolezza e immersione nelle contraddizioni aperte e cercando costantemente quella “fantasia concreta” che possa rimettere in gioco la partita.

*A Critical and Historical Corpus of Florentine Painting* Richard Offner,Miklós Boskovits,Klara Steinweg,Mina Gregori,Martina Ingendaay Rodio,2001 This new volume proposes, in similar format but with recent photographs, illustrating the painting in their present state, the new edition of the book dedicated by Richard Offner in 1947 to the workshop of Bernardo Daddi, artist very much in demand in the first half of the 14th century. To some 70 pictures catalogued by Offner

with entries which are now updated with new data on state and history as well as with bibliography, ten further, hitherto unpublished or little known items are given in this edition. The survey offered here makes the circle of Daddi, where several of chief figures of the Florentine painting in the second half of the Trecento were formed, one of the better known areas of the history of Italian painting of the Middle Age and early Renaissance.
