**VoteWatch Europe** VoteWatch Europe (Brussels), *Votewatch Europe* bietet een overzicht van de EU politiek.

**The European Parliament** Ariadna Ripoll Servent, 2017-11-03 This broad-ranging text examines the political dynamic of the European Parliament (EP), showing how the EP is a key component of the political system of the EU. It looks at how, and how effectively, the parliament translates citizen demands into policies, and, in so doing, contributes to wider debates around democracy and legitimacy in the EU.

**Die Europawahl 2019** Michael Kaeding, Manuel Müller, Julia Schmälter, 2020-05-18 Eine erstmals steigende Wahlbeteiligung, eine deutliche Veränderung der Mehrheitsverhältnisse und großer Streit um das Spitzenkandidaten-Verfahren: Die Europawahl 2019 war bewegt wie wenige zuvor. Dieses Buch bietet eine Analyse ihrer zahlreichen Facetten. Schwerpunkte liegen hierbei auf den europäischen Parteien und den Veränderungen in der Parteienlandschaft, der Rolle der Spitzenkandidaten, der öffentlichen Auseinandersetzung, der Wahlbeteiligung und dem Wahlverhalten sowie einem Ausblick auf das neue Parlament. Über Analysen der Europaforschung hinaus sind Perspektiven aus unterschiedlichen Subdisziplinen der (vergleichenden) Politikwissenschaft wie der Wahl-, Parteien-, Kommunikations- oder Regierungsforschung vertreten. Die Herausgeber\*innen Dr. Michael Kaeding ist Jean Monnet Professor für Europäische Integration und Europapolitik am Institut für Politikwissenschaft der Universität Duisburg-Essen, Visiting Fellow am European Institute of Public Administration (EIPA) in Maastricht und lehrt am Europakolleg in Brügge und an der Türkisch-Deutschen Universität in Istanbul. Manuel Müller ist wissenschaftlicher Referent der Geschäftsführung am Institut für Europäische Politik in Berlin und Betreiber des Blogs „Der (europäische) Föderalist“. Dr. Julia Schmälter ist Europawissenschaftlerin und wissenschaftliche Referentin im Bereich für Europäische und internationale Zusammenarbeit (Strategien, Instrumente, Monitoring) am DLR Projektträger.

**European Dispute over the Concept of Man** Michał Gierycz, 2021-01-11 The book represents original research in a field of study rarely pursued while analysing the intellectual dimensions of disputes over ethically sensitive issues that occur in European Union politics. These disputes are generally analysed at ideological, ethical, economic and interstate levels. However, these references do not suffice in understanding the issue, which is related to a divergent perception of the essence of humanity and thus the subject matter of anthropology. The main research objective of the monograph is therefore to reconstruct the sources and the specific European Union way of thinking about the human being. Methodologically, the

book expands the understanding of political anthropology within political science and presents a range of suitable instruments for pursuing anthropological research. At the theoretical level, it proposes an anthropological typology of the main currents of European political thought and reveals their prominence for the anthropological orientation of the EU's axiology. Empirically, it provides an analysis of the anthropological features of European Union institutions and policies in addition to discussing the relation between the axiological and anthropological positions of the main political and national groups within the EU.

**The European Union in Crisis** Kyriakos N. Demetriou, 2014-10-21 This volume is a comprehensive and rigorous exploration of intertwined issues surrounding the EU's democracy and legitimacy, written in the turbulent context of the financial crisis. The chapters are woven together under four interconnected thematic sections that examine: rapidly growing national euroscepticism; the Economic Monetary Union and its legitimacy; the future of EU integration; and democratic deficit(s) across its internal & external structure. The volume presents an authoritative collection of research results and surveys by experts in various disciplines related to the EU, and is addressed to researchers and students examining EU governance, representation and accountability, as well as practitioners across a multiplicity of fields.

Institutional and Policy Change in the European Parliament Ariadna Ripoll Servent, 2015-02-24 In an EU increasingly worried about the security of its citizens and its territory, how should the European Parliament make policy decisions in these areas? This study investigates how the empowerment of the European Parliament has led it to abandon its defence of civil liberties in order to become a full partner in inter-institutional negotiations

**The New Intergovernmentalism** Christopher J. Bickerton, Dermot Hodson, Uwe Puetter, 2015-07-16 The twenty years since the signing of the Maastricht Treaty have been marked by an integration paradox: although the scope of European Union (EU) activity has increased at an unprecedented pace, this increase has largely taken place in the absence of significant new transfers of power to supranational institutions along traditional lines. Conventional theories of European integration struggle to explain this paradox because they equate integration with the empowerment of specific supranational institutions under the traditional Community method. New governance scholars, meanwhile, have not filled this intellectual void, preferring instead to focus on specific deviations from the Community method rather than theorizing about the evolving nature of the European project. The New Intergovernmentalism challenges established assumptions about how member states behave, what supranational institutions want, and where the dividing line between high and low politics is located, and develops a new theoretical framework known as the new intergovernmentalism. The fifteen chapters in this volume by leading political scientists, political economists, and legal scholars explore the scope and limits of the new intergovernmentalism as a theory of post-Maastricht integration and draw conclusions about the profound state of political disequilibrium in which the EU operates. This book is of relevance to EU specialists seeking new ways of thinking about

European integration and policy-making, and general readers who wish to understand what has happened to the EU in the two troubled decades since 1992.

**Lobbying in the European Parliament** Maja Kluger Dionigi, 2016-12-01 This book explains when and how interest groups are influential in the European Parliament, which has become one of the most important lobbying venues in the EU. Yet we know little about the many ways in which interest groups and lobbyists influence parliamentary politics. The author offers insights on four key cases of lobbying, based on the analysis of EU documents, lobbying letters, and 150 interviews. She argues that lobbying success depends on a number of factors, most notably the degree of counter-lobbying, issue salience, and committee receptiveness. These factors are brought together in the framework of “Triple-I” - interests, issues, and institutions - to determine the success or failure of lobbying. This book will be of use to students and scholars interested in EU politics and governance, EU decision-making, and interest group politics, along with policy-makers and practitioners.

Lobbying in the European Union Doris Dialer, Margarethe Richter, 2018-12-11 This book sheds new light on how lobbying works in the European Union. Drawing on the first-hand professional experience of lobbyists, policymakers, and corporate and institutional stakeholders, combined with a sound academic foundation, it offers insights into successful lobbying strategies, such as how alliances are formed by interest groups in Brussels. The authors present key case studies, e.g. on the shelved EU-US trade deal Transatlantic Trade and Investment Partnership (TTIP), lobbying scandals, and the role of specific interest groups and EU Think-Tanks. Furthermore, they highlight efforts to improve transparency and ethical standards in EU decision-making, while also underscoring the benefits of lobbying in the context of decision-making. Understanding the tools and techniques of effective lobbying, as well as the dynamics and trends in EU lobbying, will allow professionals involved in the lobbying process, such as policymakers and corporate and institutional stakeholders, to improve their performance and achieve better results when pursuing their respective interests.

*Die Beobachtung als Methode in der Politikwissenschaft* Bernd Schlipphak, Oliver Treib, Volker Gehrau, 2019-11-25 Ziel des Buches ist es, die Beobachtung als zentrale Methode der wissenschaftlichen Datenerhebung in der Politikwissenschaft vorzustellen. Dazu werden zunächst die methodischen Spezifika von Beobachtungen herausgearbeitet. Dann wird die Durchführung von (nicht-)standardisierten sowie apparativen Beobachtungen erläutert. Schließlich werden beispielhaft Beobachtungsstudien aus der Politikwissenschaft diskutiert. Die Beobachtungsmethode ist genau auf das Fachgebiet Politikwissenschaft zugeschnitten.

*Politics in the European Union* Ian Bache, Simon Bulmer, Stephen George, Owen Parker, Charlotte Burns, 2020-07-25 Accessible and engaging, this is a complete guide to the past, present, and future of the European Union. An expert author team examine in detail the theory and history behind the EU, before moving on to explore the institutions and policies at work, giving readers a valuable insight to this complicated political body.

*A Reporter's Guide to the EU* Sigrid Melchior, 2017-05-08 *A Reporter's Guide to the EU* addresses a pressing need for an effective, in-depth guide to reporting on this major governing body, offering practical advice on writing and reporting on the EU and a clear, concise breakdown of its complex inner-workings. Sigrid Melchior, an experienced Brussels-based journalist, gives a detailed overview of the main EU institutions and explains the procedures for passing EU law. Interviews with professionals working for the EU, from areas including lobbying, public relations, diplomacy and journalism, are featured throughout the book. Building on this, the second half of the book provides useful journalistic tools and tips on how to approach EU reporting. It identifies common mistakes in reporting on the EU and how to avoid them, as well as offering guidance on investigative reporting. Melchior also details how to work with information gathered and maintained by EU institutions, including their audiovisual archives, the Eurostat and Eurobarometer, which are invaluable resources for journalists and journalism students. With few aspects of political life that remain untouched by EU decision-making the book demystifies the EU system and its sources, enabling professional journalists and students of journalism to approach EU reporting with clarity and confidence. EU-Turkey Relations Wulf Reiners, Ebru Turhan, 2021 This open access book explores the new complexities and ambiguities that epitomize EU-Turkey relations. With a strong focus on the developments in the last decade, the book provides full access to a comprehensive understanding of the multifaceted relationship through three entry points: (1) Theories and Concepts, (2) Institutions, and (3) Policies. Part I brings together complementary and competing analytical approaches to study the evolution of EU-Turkey relations, ranging from traditional integration theories to novel concepts. Part II investigates the institutional machinery of EU-Turkey relations by analyzing the roles and perspectives of the European Council, the European Commission, and the European Parliament. Part III offers analyses of the policies most relevant for the relationship: enlargement policy, trade and macroeconomic policies, foreign and security policy, migration and asylum policies, and energy policy. In Part IV, the volume closes with a systematic survey of the conditions under which cooperative trends in EU-Turkey relations could be (re)invigorated. The systematic setup and the balanced combination of distinguished experts from EU- and Turkey-based institutions make this book a fundamental reading for students, researchers, lecturers, and practitioners of EU-Turkey relations, European integration and Turkish foreign policy. Wulf Reiners is Senior Researcher and Head of the Managing Global Governance (MGG) Program of the German Development Institute / Deutsches Institut für Entwicklungspolitik (DIE). Ebru Turhan is Assistant Professor at the Department of Political Science and International Relations, Turkish-German University in Istanbul, Turkey.

*Europa demokratisieren* Antoine Vauchez, 2016-03-07 Die demokratische Legitimität der Europäischen Union wird in der Öffentlichkeit mehr und mehr in Zweifel gezogen. Die Vielzahl der aktuellen Krisenphänomene, wie die Finanz- und Griechenlandkrise, sowie zentrale politische Steuerungsaufgaben werden von Expertenelementen der scheinbar unabhängigen, unparteilichen EU-Institutionen wie dem Europäischen Gerichtshof (EuGH), der Europäischen Kommission und der Europäischen Zentralbank verhandelt. In ihren rechtlichen und regulatorischen Maßnahmen drückt sich die Fähigkeit zur politischen Einflussnahme aus. Die Institutionenarchitektur beruht zwar auf der Idee objektiver Experten, deren besondere Form der Legitimität auf der Unabhängigkeit von partei- und gesellschaftspolitischen Themen und von nationalstaatlichen Egoismen basiert. Die Realität, so Vauchez, sieht jedoch anders aus: In Wahrheit bestimmen die vermeintlich neutralen Institutionen die politischen Geschicke Europas. Erst wenn man die politische Schlüsselrolle dieser expertokratischen Institutionen versteht und verändert, können Demokratisierungsbemühungen und die Krisenbewältigung erfolgreich werden. Ein flammendes Plädoyer für die Reform und Demokratisierung der EU-Institutionen.

*The future of the European Union* Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2013-06-11 Proposals for reforms for the EU as a whole are likely to find a more favourable reception than possible requests for further

'special treatment' for the UK. The Committee is sceptical that other Member States would be willing to renegotiate existing EU law so as to allow the UK on its own to reduce its degree of integration, especially where this could be seen as undermining the integrity of the Single Market. Other Member States appear to want the UK to remain an EU Member. Closer Eurozone integration is a potential risk to the position of the UK and other non-Eurozone states in the EU. However, the December 2012 agreement on the Single Supervisory Mechanism for banking regulation shows what the UK can achieve to protect its position. The Eurozone is in any case far from a homogenous bloc and the expansion and closer integration of the Eurozone does not therefore necessarily render the UK's position in the EU impossible or worthless. This report does not examine whether the UK should remain in the EU or withdraw. However, it agrees with the Government that, if the UK were to leave the EU, the current arrangements for relations with the EU which are maintained by Norway or Switzerland would not be appropriate for the UK. If it is in the UK's interest to remain in the Single Market, the UK should either remain in the EU, or launch an effort for radical institutional change in Europe to give decision-making rights in the Single Market to all its participating states

*Extreme Democracy* Jon Lebkowsky, Mitch Ratcliffe, 2005-06-01 Are blogs and other emerging technologies changing the face of politics? *Extreme Democracy* is a collection of writings about the impact of technology on the political process. Authors include Steven Johnson, Joi Ito, David Weinberger, Jay Rosen, Mitch Ratcliffe, Jon Lebkowsky, danah boyd, and many others. Jon Lebkowsky discusses *Extreme Democracy* in an interview on the WELL, currently in progress.

**European Union Politics** Michelle Cini, Nieves Pérez-Solórzano Borragán, 2019 Subject: This sixth edition of 'European Union Politics' builds on the success of the previous five editions by retaining and updating the chapters published in the previous version of the book. Innovations in this edition include a new chapter on Brexit and a section on the migration crisis in Chapter 22. -- Preface

Lobbying in EU Foreign Policy-making Benedetta Voltolini, 2015-09-16 This book examines lobbying in EU foreign policy-making and the activities of non-state actors (NSAs), focusing on EU foreign policy on the Israeli-Palestinian conflict. It sheds light on the interactions between the EU and NSAs as well as the ways in which NSAs attempt to shape EU foreign policies. By analysing issues that have not yet received systematic attention in the literature, this book offers new insights into lobbying in EU foreign policy, EU relations surrounding the conflict and the EU's broader role in the peace process. The book will be of key interest to scholars and students of political science, international relations, EU politics, EU foreign policy-making, Middle East studies and the Israeli-Palestinian conflict.

Enhanced Cooperation and European Tax Law Caroline Heber, 2021-06-17 The enhanced cooperation mechanism allows at least nine Member States to introduce secondary EU law which is only binding among these Member States. From an internal market perspective, enhanced cooperation laws are unique as they lie somewhere between unilateral Member State

laws and uniform European Union law. The law creates harmonisation and coordination between the participating Member States, but may introduce trade obstacles in relation to non-participating Member States. This book reveals that the enhanced cooperation mechanism allows Member States to protect their harmonised values and coordination endeavours against market efficiency. Values which may not be able to justify single Member State's trade obstacles may outweigh pure internal market needs if an entire group of Member States finds these value worthy of protection. However, protection of the harmonised values can never go as far as shielding participating Member States from the negative effects of enhanced cooperation laws. The hybrid nature of enhanced cooperation laws - their nexus between the law of a single Member State and secondary EU law - also demands that these laws comply with state aid law. This book shows how the European state aid law provisions should be applied to enhanced cooperation laws. Furthermore, the book also develops a sophisticated approach to the limits non-participating Member States face in ensuring that their actions do not impede the implementation of enhanced cooperation between the participating Member States.
